## HYDRATED LIME

(a true dolomite lime)

for Brick Mortar, White Coat and Sand Float Finish, and for inducing plasticity in and water proofing Portland Cement Concrete.

Used in approximately \$70,000,000 High Class Pacific Coast construction in last 3 years.

*EXAMPLES:—*

New Standard Oil Building, San Francisco  
Pacific Telephone and Telegraph Building  
Oakland Savings Bank

Federal Reserve Bank  
Central Bank, Oakland  
New Subway Terminal Building, Los Angeles

*Sold by most progressive dealers throughout Pacific Coast.*

For special information write or wire

### UTAH LIME AND STONE CO.

907 Continental Natl. Bank Bldg. - Salt Lake City, Utah

W. L. Ellerbeck, Vice-President and General Manager

*COASTEEL Buildings  
Are All Galvanized*

## This Building will be Completed and Ready to Occupy Next Week

**B**ECAUSE it is a COASTEEL Standard Building, the building pictured above will be ready for use in that short length of time. All of the fabrication was done before the building was ordered—**COASTEEL Buildings are carried in stock**—and erection is just a matter of making simple connections.

Regardless of size or type of building, this fast service can be expected on any COASTEEL Standard Building. The engineering on the many different columns and trusses, girts and purlins is completed, as well as the fabrication of the various members that make up COASTEEL Buildings.

*Let us know your requirements  
We have a building to fit them*

Congress of March 3, 1879.

## U. S. DEPARTMENT RECOGNIZES "WATER-CEMENT RATIO"

The building code committee of the U. S. Department of Commerce recognizes the "Water-Cement Ratio" as a means of mixing concrete of a specified strength in a series of suggestions it makes in its booklet, "Recommended Requirements for Working Stresses in Building Materials." The "Water-Cement Ratio" is the law governing the strength of concrete. It states that the strength of concrete is in inverse proportion to the amount of water used in mixing provided that the mix is workable and that the materials used are clean and sound. Many engineers and builders had believed this was the factor governing the strength of cement and it was proved to be such by Prof. A. Abrams, director of the Portland Cement Association Laboratory, who established the law after a long series of tests.

In the government booklet a series of tables are given in which the strength of concrete is shown to be directly dependent upon the quantity of mixing water used. Several aggregate proportions are given but in each case the resulting strength bears a definite relation to the volume of mixing water.

A suggestion, similar to that issued by the Department of Commerce, has been made in a proposed building code prepared by the Pacific Coast Building Officials Conference.

M. T. Scott, outside representative of the Acme Gravel Company since its organization, has severed his connection with that concern and plans to enter other fields in the sales construction business.

## 1926 Building Program in San Francisco Totals \$57,953,948

San Francisco building operations during the year 1926 rolled up the highest construction record in the history of the city, according to figures compiled by the Bureau of Building Inspection of the Department of Public Works. During the year 10,085 permits were issued for improvements valued at \$57,953,948 as compared with 11,087 permits in 1925 for improvements aggregating an expenditure of \$50,392,793. The previous yearly high record covered the year 1924 when 10,272 permits were issued, these improvements representing an expenditure of \$57,852,973.

December, 1926, operations covered 756 permits aggregating an expenditure of \$5,066,659, of which \$2,200,000 covered construction undertaken by the State Board of Harbor Commissioners.

### December, 1926, Operations

Following is the December, 1926, tabulation:

Class	No. of Permits	Est. Cost
A .....	1	\$ 47,048
B .....	15	347,500
C .....	315	1,856,853
Frames .....	423	298,571
Alterations .....	1	316,687
Public Bldgs. ..	1	2,200,000
Harbor Bldgs. ..		
<b>TOTAL</b> .....	<b>756</b>	<b>\$ 5,066,659</b>

### Year 1926 Total

The 1926 operations are classified by the Department of Public Works as follows:

Class	No. of Permits	Est. Cost
A .....	24	\$13,660,000
B .....	12	1,582,048
C .....	237	5,947,906
Frames .....	4,390	22,677,168
Alterations .....	5,395	6,962,017
Public Bldgs. ..	21	3,525,867
Harbor Bldgs. ..	6	3,598,942
<b>TOTAL</b> .....	<b>10,085</b>	<b>\$57,953,948</b>

### Annual Totals

The following is a tabulation of yearly building totals as compiled from the records of the Department of Public Works:

1906 .....	5,686	\$34,947,366*
1907 .....	6,437	56,578,844
1908 .....	6,729	31,668,341
1909 .....	5,773	26,184,068
1910 .....	5,690	20,508,556
1911 .....	6,079	20,915,474
1912 .....	6,316	23,338,563
1913 .....	5,606	21,037,264
1914 .....	5,907	28,177,563
1915 .....	6,461	13,990,704
1916 .....	6,492	18,837,173
1917 .....	5,513	15,635,319
1918 .....	3,688	7,924,319
1919 .....	5,363	15,163,242
1920 .....	5,626	26,729,992
1921 .....	6,313	22,244,672
1922 .....	8,078	45,327,206
1923 .....	9,856	46,676,079
1924 .....	10,272	57,852,973

\*Covers last eight months of year. Records previous to that period destroyed in fire and earthquake, April 18, 1906.

## WILL STUDY WORK OF YEAR 1926

Methods under which the record-breaking construction activities of 1926, involving expenditure of seven and one-half billion dollars, were carried on are soon to be reviewed by leading builders. This action will take place at a conference to be held at Asheville, N. C., January 24-27, under the auspices of the Associated General Contractors of America.

Prominent among the subjects to be discussed, announcement of the program for the meeting discloses, will be: surety bonding practices; awards of contracts to irresponsible or incapable bidders; lien law provisions; methods of financing construction operations; economics of highway construction; use of standard contracts; construction of public projects under the "day labor" system, and prevention of accidents.

"The intensive building activities of the year just concluded have hidden from view the effects of many conditions which would be more obvious in a less hectic period," Gen. R. C. Marshall, Jr., head of the conference's sponsoring group, declared. "While no immediate let-down of the furious pace of construction activities is in prospect, the return to a more normal volume of operations is certain to come."

"During the past six years, the construction industry has been busily engaged in meeting the demand for new

buildings that was pent up during the war. Completion of the task of satisfying this demand will return the industry to the fulfillment of current needs as they arise.

"It is for the sake of preparedness against the time when every possible efficiency and economy will be increasingly vital to the building public that the forthcoming meeting is being called."

Leaders of the construction industry whose operations cover virtually every state and many foreign countries have been invited to attend the meeting.

## TWELVE ARCHITECTS JOIN EAST BAY SOCIETY

Twelve new members of the Society of Architects of Alameda County are announced by Ralph E. Wastell, secretary of the organization. The membership now totals fifty-six. The new members are Howard Gilkey, Arthur Holmes, Henry H. Meyers, Albert Farr, Charles Whitton, Edward Blodgett, Eldridge T. Spencer, Arthur Herberger, Alexander Butler, Francis B. Plant, C. C. Dakin and Louis Stone.

Details of the projected architectural exhibition in Oakland were taken up and a committee appointed by John Donovan, president. The committee is headed by Harris Allen and includes E. G. Bangs, Howard Gilkey, Chester Miller, W. E. Schirmer and W. R. Yeland.

# 1926 Construction Exceeds All Records—1927 to Be Greater Year—No Major Cost Declines or Rentals Is Opinion of Expert

(Special Correspondence—By Wm. J. Moore, President, American Bond and Mortgage Company)

The building industry has once more defied prediction and confounded the prophets of gloom. Nineteen hundred and twenty-six finds the oft-heralded building slump still delayed, and the indications are that only a serious business depression will prevent another great year of construction activity in the United States in 1927.

Building operations during 1926 were unprecedented in volume, reaching the record-breaking total of approximately \$6,850,000,000. This represents an increase of about 5% over 1925, the largest previous building year in history. The enormous investment of this sum has had a most beneficial effect on the business situation and, perhaps, has been the major factor in stimulating and sustaining the general prosperity of the country.

Available data indicates that the total value of construction in 1927 will closely approach the record-breaking proportions of the last year, and no serious minor building recession is in sight. If there is a decline during 1927—and I am not sure there will be—it should be not more than 5% or 10% less than the total of 1926. Any recession will be extremely moderate and graded, and there need be no fear that the bottom will fall out of the building market.

Steadily increasing popularity of first mortgage real estate bonds among investors, banks and institutions was one of the outstanding developments of the year. Increased sales of this type of security, which today ranks next to public utilities, was an important factor in furnishing needed building capital. Realty bonds sold by the leading investment houses furnished approximately \$900,000,000 for new construction, an increase of about 28% over 1925. The indications are that by the end of 1927 the real estate bond industry will be furnishing building capital at the rate of one billion dollars a year.

## Building Industry Sound

Gratifying soundness underlies the building industry as the new year begins. There is still evidence of a strong national demand for well constructed buildings—constructed in accordance with the rise in American standards. Building costs are well stabilized. Rental conditions are generally satisfactory and there is ample evidence that reports of over-production have been unduly exaggerated. A strong, wholesome tone prevails throughout the industry.

The helpful effect that the great volume of construction, breaking all precedents almost month by month during the year, has had on general business and upon practically every industry in the country, cannot be over-estimated. It has not only furnished excellent wages for millions of men in all the building trades, but it has also provided steady employment for the hundreds of thousands of men engaged in the manufacture and transportation of building materials. This creation of new wealth for the country and the wide-spread enhancement of property values through improvement, means real American progress

and prosperity. In view of these beneficial effects on the national business machine, it would indeed be unfortunate if there were to be any radical slowing up in construction activities.

## Costs Stabilized

There is still some talk that building costs are too high and that such costs must come down. While there will always be fluctuations when, due to temporary or local conditions, building costs ease up somewhat, it should be kept in mind that present price levels are directly affected by such economic factors as labor, taxation, transportation and other important items on which any marked reductions are improbable.

Building costs, in my opinion, will remain stabilized at near present levels, and those who are postponing contemplated construction projects expecting pronounced cost decreases are doomed to disappointment. Also, our constantly advancing standards of living constitute an influence equally as powerful as any purely economic factor.

Analysis of index figures on construction costs, as compiled by the Federal Reserve Bank of New York, gives a reasonably accurate picture of actual present-day conditions. These figures show:

(1) Building costs are 94% above the 1913 level and about 2% higher than one year ago. Since April 1923 construction costs have been showing a slight tendency to decline, with small seasonal fluctuations. At no time have they shown indication of rising to the peak level of April 1920, when building costs stood at 154% above the 1913 level.

(2) Building wages are 128% above the 1913 level—the highest level in history—and about 4% above the level of one year ago. Index figures show that wages have been steadily advancing and now stand about 17% above the former peak reached in the fall of 1920.

(3) Building material prices are 72% above the 1913 level and about 2% below the level reached a year ago. Since the first of the year material prices have shown a gradual tendency to decline. Prices are now stabilized at about 42% below the peak reached in April 1920.

Statistics compiled by the "Engineering News-Record" show that the national level of wages in the skilled building trades is approximately 95% above the 1913 level. The rate for common, unskilled labor is about 192% above 1913. This does not favor common labor so much, when it is considered that in 1913 the skilled rate was 247% above that of common labor, for the nation as a whole. Compared with rates a year ago, skilled men get 4% more, while common laborers receive an average wage of about 3% above the December 1925 level.

The average rate for common labor is \$.55 1/2 per hour, for the entire country, as compared with \$.54 at this time last year.

## Building Shortage Overcome

There is no longer any shortage of buildings resulting from the war.

There has been no such shortage from the beginning of the year 1925. Hectic building operations are over. We are now facing more stabilized conditions, and henceforth our construction must be in keeping with our normal building requirements. Speculators in construction have had their day. Construction must be thought of only in strict terms of growth, requirement, population trend and industry.

There is indisputable evidence that in some localities there is an unsatisfied demand for housing and other types of building; but taking the country as a whole, the building problem is one of meeting the local requirements. It is estimated that the annual population growth of the nation requires approximately 450,000 new buildings of various kinds; replacing and remodeling structures affected by decay, fire obsolescence and other causes. Estimates from private sources have placed the value of construction to meet normal needs at older and obsolete types of loft and from \$4,500,000,000 to \$7,000,000,000.

## Current Building Needs

Some idea of the nation's building requirements for 1927 can be gained from the results of a survey of the construction situation just completed by the "American Builder." Replies to 8000 questionnaires sent to builders, contractors and architects throughout the country, indicated that more than seven billion dollars worth of new building would be needed during the coming year.

The forecast figures of needed construction follow:

Housing required for new population annually	\$1,500,000,000
Other buildings required for new population	1,138,850,350
Annual fire loss	335,000,000
Annual tornado and flood loss	100,000,000
Depreciation and obsolescence on the 22,000,000 dwellings in the United States at 3%	3,031,244,000
Depreciation and obsolescence applied to all other classes of buildings	1,030,204,400

Total .....\$7,135,498,750

"A very large share of this is residential, viz., \$4,526,573,518, including hotels," said the forecast, "and this is in strict keeping with the proportion shown as residential by building permits in 274 cities of 25,000 and over."

There will undoubtedly be changes in the activities in connection with definite classes of projects during the next year. With the housing shortage problem practically solved, it is to be expected that residential and commercial building will somewhat decline. Industrial, public works and public utility buildings, however, will undoubtedly increase in volume. Because of an inadequate labor supply and the constant tendency toward higher costs, development of many federal, state and municipal building projects were deferred until recently and it will take a long time to catch up with the plans that have been

made for this type of work. These buildings have become a part of the nation's potential requirements and sooner or later must be added to the sum of actual activities. The federal government has indicated that it will go ahead during the next twelve months with its \$165,000,000 public building program authorized by Congress, and this will undoubtedly give impetus to the 1927 building program.

#### Demand for Cheaper Housing

Residential structures will continue to account for the largest single portion of new building. There is still a great need for cheaper housing facilities throughout the country, as well as a moderate demand for medium priced apartments and homes. This need will have to be met before any serious falling off in building can be expected. In many of the larger cities there has been little or no building of the cheaper class of tenements during the last seven or eight years. Hence, conditions have been brought about that are socially, morally and economically unsound. Adequate housing conditions must be provided for those of limited incomes, and during the coming year real progress is to be expected along these lines.

The rising standard of living is a factor that will continue to influence the building industry indefinitely, because it is based on the spirit of progress, and is made possible by the abundance and variety of our natural resources, the efficiency of American laborers and the enterprise of the American business man.

Evidence of this is found in the concerted efforts which are being made in New York City and other localities to wipe out our slum districts and provide so-called model suburbs for our industrial workers. This is a movement which is just beginning and which will undoubtedly multiply in importance in the next few years. The American public is already coming to the conclusion that the slum is not only an anachronism, but a serious evil which cannot be, and need not be tolerated under American conditions.

Furthermore, the movement from the rural districts to the cities is a continuing movement, the influence of which cannot be overlooked. It is estimated that the urban population, in the last five years, has increased by at least 7,000,000. This is the result of the depression in certain agricultural districts and the high degree of prosperity in the cities; the influx to the cities, particularly the larger ones, has been greater than ever before. While such a movement does not represent any increase in the population of the nation, it does mean an abnormal increase in the growth of the cities and a correspondingly abnormal demand for buildings of all kinds.

The growth of the suburban movement will also continue to increase the demand upon the building industry and it means an abnormal demand for houses of the usual suburban type. The large migration of population from the more or less congested city centers to the open suburbs results, of course, in an enormous increase in the demand for dwellings, stores, garages, schools, churches, club houses, city halls, and all the equipment of a modern city. It also involves, at least, the alteration of buildings from which removal has been taken place, and in many cases the demolition of them and their replacement by structures of another type.

**Over-Production Talk Is Exaggerated**  
Recently, there has been much talk

of over-production in building accommodations. These statements have no basis in fact, unless they are narrowed down to certain, definite types of buildings in certain, definite localities. They cannot be applied to the situation as a whole.

Contrary to the reports that have been broadcast, rentals in the better grade and better located apartments and high class office buildings in the larger cities, especially in New York, are fairly stable and have been showing little fluctuation. Where there actually is what might be termed an over-built situation, it is so obvious that no reputable building or lending institution will lend its efforts or money to aid or abet further building in that particular district, for it can gain nothing from such a procedure—only lose.

Some slight slackening in building may be necessary from time to time, but it will be for a brief period only, as the rapid growth of population soon absorbs any surplus that may develop. This is a normal cycle in the upbuilding of any large city, and is no excuse for a general restriction of building financing.

A survey of the recent situation in the larger cities failed to disclose any alarming over-built condition, and did not show any material abnormal percentage of vacancies, except in a few localities. In a number of cases our reports show that buildings are being rented with a rapidity that exceeds the highest expectations of their builders.

It may be true that some of the commercial buildings in certain sections—especially in the downtown district of New York City—have an uncomfortable percentage of vacancies and have suffered a decline in rents. There is nothing unusual in this situation, as progressive manufacturers and business men are not going to remain in these antiquated and time-worn structures and pay high rents. They are going to move into the more sanitary, better lighted, better situated and more modern and up-to-date buildings as they are erected. These older structures, to some extent, may become a drag upon the market, and their owners may suffer monetary losses. It may be necessary for some of them to be torn down and replaced with new buildings. There is nothing, however, in this situation that would justify a general curb on construction loans that would shut off the supply of modern buildings and thus compel tenants to remain in unsanitary and unsuitable quarters.

The real estate mortgage bond houses are fully aware of the responsibility that is placed upon them in financing needed construction, and there can be no question but that ample funds will be available in 1927 for the building projects that are necessary to the nation's growth and progress.

Lending institutions must, at all times, consider the matter of over-production and must be extremely cautious in making loans. Their policies should be determined by personal investigation and analysis of the demand for a particular kind of space in a particular location. They must be extremely careful in guarding against the possible economic blunder of over-production by pursuing a policy of strict conservatism with the investor's safety paramount in mind.

#### Rent Declines Temporary

In connection with appraisals and the financing of buildings, it must be remembered that the possibility of a decline in rents is always taken into

consideration. Rents may show a slight downward tendency in the future, but no drastic decreases are expected in the better types of buildings.

Any reduction in rentals that may occur as a direct result of over-production would be only temporary. The reason is that at such a time building construction automatically will cease, and the surplus will be taken up in a comparatively short time, for our larger cities are multiplying their populations at a tremendously rapid rate.

The only possible way that a permanent reduction in rentals can come about is through a material reduction in building costs. This will be possible only when five fundamental conditions develop—to wit:

First—There must be a substantial reduction in the wages of all mechanics employed in producing building material and in the construction of buildings. This is true, because between 60 and 70% of the cost of items entering into construction material and its erection is for labor.

Second—The price of coal must be reduced, for coal is an important factor in the production of many building materials and in their transportation.

Third—Freight rates must be reduced, for transportation of building materials represents a large and important part in their cost.

Fourth—General living costs must be reduced materially before any of the three costs named above can begin to move downward in any marked degree.

Fifth—Income taxes must be reduced. Every penny of income tax collected from the building industry is added to building costs.

#### Reductions Appear Improbable

The prospects of such reductions being made at this time, or in the near future, are out of the question, and in some respects increases may be expected, because:

First—Labor is so well organized in the construction industry that nothing short of starvation of the men engaged in the building trades can bring about a material reduction in wages. The problem has developed into one of holding wages at present levels.

Second—The cost of coal is largely a question of wages and transportation. The prospect of reducing miners' wages is not at all promising.

Third—Freight rates are largely dependent on labor and fuel costs. Increases in railroad wages seem more in prospect than reductions. The cost of railroad operation in the East has already been increased 7½% by the granting of increases to several thousand railway workers. Lower rates at this time appear very unlikely.

Fourth—The cost of living has been showing some slight downward movement, but this has not yet been sufficient to materially affect wages and building costs. Many important commodity prices are holding firm.

Fifth—State and federal income taxes continue to add to the cost of living. Costs of these taxes have been added by building material and construction firms. Some tax relief is probable, but not definitely assured.

With the prospects of building costs holding at present high levels, no substantial or permanent reduction in rentals can be expected. If, however, a permanent reduction does occur, it will be spread over a long period of time. Therefore, there is no danger of impairment of the earning power of buildings secured by carefully nego-

tiated first mortgage real estate bonds offered by the well established houses whose national operations permit a close and continuous first-hand study of all the factors involved.

The continual rising of the American standard of living is also an important influencing factor in connection with a reduction in rentals and building costs. History shows that prices and money wages may fall and rise, but except for short periods, the real wages and real incomes of the American people steadily increase. The wage earner constantly wants a better home and is willing to pay more for suitable housing accommodations. He also wants all the necessities, comforts and luxuries that he can buy with his wages and income. He is not going to be turned back in that respect. It is the easiest thing in the world to raise one's standard of living; but it is the hardest thing in the world to lower it.

The American wage earner is now organized as never before to resist any attempt to deflate his living standards. If any revision is necessary to bring labor costs and prices in a more reasonable alignment, it is more likely to come through an increased productivity of industry.

#### Building Wages Firm

Building wages, which are so important a constituent of building costs, depend upon the supply of and demand for building laborers, on the strength of labor organizations and, indirectly, on the worker's standard of living. In this direction there seems little hope of any substantial lowering of building costs, although labor efficiency will undoubtedly increase and some minor reductions may take place as the building industry slackens its pace.

While there appears to be sufficient labor to man the building industry at the present time, except for bricklayers and plasterers, any material increase in operations would undoubtedly result in another shortage. Because of the restriction of immigration and certain disadvantages connected with work in the industry, it has attracted comparatively few new recruits, although it is estimated that between 35,000 and 40,000 new skilled mechanics are needed in the building trades annually to replace those who die or retire.

It is not likely that native American workers will be attracted to the industry in any large numbers, although the wages are high. This is because of the seasonal character of the work, the necessity of working under conditions of physical discomfort, the high risk of loss of life and limb, and finally because it offers few channels of promotion to positions of executive responsibility.

Up to date, the apprenticeship schools have not been able to do much in the way of furnishing new building mechanics, although both the employers and the building unions have been co-operating to make this work a success. Taking the situation as a whole, the probability is that under normal building conditions there will always be a utilization of the available labor force practically to capacity.

#### Building Unions Strong

Union organization in the building trades today is highly developed. It is estimated that more than 1,000,000 craftsmen are members of labor unions. They are, therefore, able to offer strenuous opposition to any attempt to seriously deflate the improved standard of living which they

have recently achieved. The indications are that there is little likelihood of any serious effort to bring about wage reductions in 1927. A number of crafts in the larger cities have already signed agreements that will extend for another year carrying present wage rates.

Besides through increased productivity on the part of the worker, it would seem that the greatest hope for a lowering of building costs is to be based upon the efforts which are now being made to increase the efficiency of management in the construction industry, to improve the work of layout and design on the part of the architects, to secure a better organization of work "upon the job," to eliminate the seasonal "ups and downs" in the industry and, by foresight and planning, to achieve a greater regularity of the industry throughout a period of years. Introduction of labor-saving devices may eventually aid in solving the labor shortage problem.

To the extent that such efforts are successful, the result should be a slow and gradual lowering of the level of costs in this important industry.

#### Business Situation Favorable

The national business situation appears favorable. Fundamental conditions seem strong and justify the expectation of a large volume of business for the year of 1927.

Industrial production is above normal. Distribution at wholesale and retail is at high levels. Bank clearings, railroad car-loadings and other indicators of volume of business have been proceeding at record levels. Stocks of merchandise are not large; holiday sales have been up to expectations, so far as I can now judge, and this condition among the merchants will make them regular purchasers throughout 1927.

There is every indication that labor will continue to be fully employed at high wages. This increased purchasing power will mean greater business as the new year gets under way.

The agricultural situation has lagged but is showing some improvement and may be expected to gradually right itself. The South, where the buying power has been depressed due to the decline in the price of cotton, is undergoing a readjustment which will undoubtedly result in permanent growth and improved chances for a lasting degree of prosperity. These domestic readjustments, together with improved foreign financial and industrial conditions, will go far toward even more firmly establishing our general prosperity during 1927.

It must be remembered that momentum is no small factor in the business world, and we surely have a considerable running start, so to speak, which should carry us many months into big merchandising figures. Of course, we may reasonably look for business valleys and peaks, but insofar as I can now see the future, no minor decline is near the business horizon—at least during the first half of 1927.

Should a business depression develop some time during the coming year, there can be little doubt that it will be of minor importance as compared with that of 1920-21. The absence of speculative inflation in the recent past; of the piling up of inventories; of the strain upon credit and banking systems; and the other excesses which characterized the boom of 1919-20, make almost unthinkable any such drastic depression such as was necessary to liquidate that boom.

Whether the depression comes this year or next year, the building indus-

try should be prepared to meet it. For, undoubtedly, it will involve a temporary decline in building costs and rentals, as well as in other prices. Just how serious that decline will be will depend upon how great has been the antecedent rise in prices, and how serious the costs of departures from sound economic practice. So relatively stable has been the level of prices in the recent past that any drastic decline would seem unlikely. Building costs, it is true, have been at a higher level, and temporarily, will fall off more than general prices, especially in certain cities. But the fear that the building market will collapse is undoubtedly exaggerated.

#### COLDWELL ELECTED PRESIDENT OF S. F. INDUSTRIAL ASSOCIATION.

The San Francisco Industrial Association underwent a reorganization with the annual election of officers Dec. 23 to the extent that the board of directors was cut from thirty to fifteen members.

Colbert Coldwell, San Francisco real estate man, was elected president of the association for the ensuing year to succeed J. W. Mailliard Jr., whose administration was marked by greater activity than the industrial organization ever experienced.

The new and smaller board of directors consists almost entirely of the former directors and members of the association's various committees.

In assuming the presidency of the association, Coldwell issued the following statement:

"All I can say is that the association will continue to serve the people of San Francisco during the coming year as it has during the past five years of our unprecedented prosperity and industrial development. These five years have been the greatest five years in San Francisco's history with all building records smashed and our industry and commerce at flood tide. We have before us the opportunity for another year of constructive effort which ought to result in new prosperity records if we all pull together.

The new elected board of directors consist of Wallace M. Alexander of Alexander & Baldwin; J. B. Brady, general manager of the Pacific Coast division of the United States Rubber Company; Wigington E. Creed, president of the Pacific Gas & Electric Co.; B. R. Funsten, president of the Walton N. Moore Dry Goods Company; H. Q. Hawes, vice-president, H. K. McCann Company; S. S. Kaufman, president of the H. S. Crocker Company; George W. Kelham, architect; Robert A. Kinzie, mining engineer; Frederick J. Koster, president of the California Barrel Company; Samuel Lillenthal, secretary of Haas Brothers; E. C. Lipman, assistant merchandise manager of the Emporium J. W. Mailliard Jr. of Mailliard & Schmiedell; Atholl McBean, president of Gladding, McBean & Co.; Michael D. Weill, vice-president of Raphael Weill & Co.

Albert E. Boynton, managing director of the association, will continue in office unaffected by the reorganization.

#### OFFICERS ELECTED

T. D. Sexton, contracting plasterer, has been elected president of the Builders' Exchange of Alameda County, succeeding E. M. Tilden, retired. Sam D. North was elected first vice-president and Frank Oates, second vice-president. D. N. Edwards will serve as treasurer and Jas. E. McKeon, secretary.

# THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Figures compiled by the State Veterans' Welfare Board indicate that more than \$11,000,000 has been invested in farms and homes by California veterans since the passage of the acts by the legislature in 1921. George M. Stout, secretary of the board announces. The Sacramento district, comprising northern San Joaquin valley and the Sacramento valley counties, has invested \$1,750,000 for home properties. Of the amount invested, \$10,120,000 was put in 2250 homes and \$1,060,000 in 200 farms. Fresno county received the largest investment for agricultural property, approximately \$175,000 going for that purpose. In the San Francisco district \$3,500,000 was invested in homes. The southern part of the State used approximately \$5,000,000 for homes.

December building permits issued in Los Angeles amounted to 2678 in number and \$10,089,871 in valuation, which brings the year total to 37,478 permits estimated at \$123,006,216. Figures for the same month of 1925 were 3159 permits valued at \$16,810,677. The wide difference is partly due to the fact that several large permits were issued in the last month of 1925 for public building started long before but for which permits had not previously been formally issued. Plans for several other large structures were also rushed in at that time for buildings that would normally have permits issued in the following month, in order to show in the 1925 records. Thus several millions in valuation were taken from the 1926 total. The figures for 1925 were 43,979 permits valued at \$152,646,436.

Through a unit leasing program plans for a \$5,000,000 development of the Berkeley waterfront are being considered by the Berkeley City Planning Commission and will be presented to the city council about March 1. Known as the Stephen Child's plan, the project contemplates the construction of three piers in the form of solid moles, each 3000 feet wide and running into the bay for a distance of 18,000 feet into deep water. They will be separated by two channels 40 feet in depth. Stephen Child, who proposes this method of construction, is a consultant to the city planning body.

All negotiations have been terminated in the conference to end the San Francisco carpenters' strike, it became known when the labor representatives announced that they would not concede the American plan method of operation in this city. Hary A. Milton, secretary of the joint conference committee of representatives of the international unions, sets forth that the Builders' Exchange and the Industrial Association had set up an impassable barrier to further conciliation by demanding the concession of the American plan.

Fresno building in 1926 involved an expenditure of \$1,824,185 as compared with \$3,093,062 in 1925. Of the 1926 total \$418,610 covered jobs for alterations and additions as against \$381,909 in 1925.

Nearly 1500 trees of various varieties will be furnished to the California State Highway Commission by the State Forestry Board for replacements upon the roads of the state. All of the stock is to be provided from the state nursery at Davis. These include the following trees: Ninety-seven European sycamores, 378 Arizona ash, 479 black walnut, 236 locusts, two evergreens and 208 California privets.

New highway construction projects which should be undertaken in California during the next two years will require an expenditure of \$20,000,000 as a minimum. Chairman Harvey M. Toy of the State Highway Commission declares in submitting the commission's budget requests to Governor-elect C. C. Young.

D. G. Nunneley of Sacramento has been appointed by Herbert Hoover, Secretary of Commerce, to conduct a Better Homes campaign in Sacramento. Mr. Hoover is president of Better Homes in America, an organization which annually sponsors a nation-wide campaign for better homes.

Pacific Gas & Electric Co. has filed application with the State Railroad Commission seeking authority to sell and C. B. Jackson to purchase the water properties of the former located in the cities of Stockton, Oroville, Redding, Willows, Livermore and Dixon, for the sum of \$2,455,000.

Stockton reports the issuance of 1031 building permits in 1926, the improvements undertaken being estimated to cost \$2,749,564 of which 270 covered home building construction valued at \$1,320,975. During 1925 records show 1278 permits granted. The improvements costing \$3,729,958.

Godfrey H. Trahan, San Francisco manager for the Chamberlin Metal Weather Strip Company of Detroit, while inspecting work on a fourteen-story apartment house under construction at Jackson and Steiner streets, Jan. 3, fell from one of the upper floors and was instantly killed.

Plans are progressing in Hayward, Alameda county, for the organization of a Builders' Exchange. A meeting has been called in Odd Fellows' Hall, Hayward, Jan. 7 when general contractors and material dealers of that section will perfect plans for a permanent organization.

The third annual commencement of the Cleveland Building Trades Apprentice School will be held January 20th, 1927. At that time 155 apprentices from five building trades—bricklayers, carpenters, electricians, painters and decorators, and plumbers—will be awarded diplomas.

Senator J. M. Inman will introduce a bill in the State Legislature seeking a \$200,000 appropriation to finance the construction of approaches to the Rio Vista bridge over the Sacramento river.

Salinas reports the issuance of 389 building permits during 1926 for improvements costing \$700,688 as compared with 374 permits in 1925 for work valued at \$909,537.

Sacramento building expenditures in 1926 totaled \$7,732,573, Ben H. Covell, city building inspector reports. During the year 2672 permits were issued.

Alameda building operations during the year 1926 totaled \$2,210,799, an increase of \$83,499 over the year 1925.

Redwood City building permits in 1926 involved an expenditure of \$1,052,227, a gain of more than \$130,000 over the year 1925.

Ezra W. Decoto, former Alameda county district attorney, has been elected president of the California State Railroad Commission.

## ALONG the LINE

A committee of consulting engineers has been retained by Los Angeles county supervisors to make a survey of the \$25,000,000 San Gabriel flood control project and submit a report on its technical and economic features. The engineers were selected on recommendation of Los Angeles Section, American Society of Civil Engineers and will receive from \$25,000 to \$300,000 for their services plus allowance for unavoidable delay. About 60 working days will be required to complete the survey and report. The engineers selected are: Charles H. Paul, chief engineer of the Miami Conservancy District and builder of the Arrowrock dam, a resident of Dayton, O.; Charles D. Marx, professor of civil engineering at Stanford University and chairman of the Arch Dam Test Committee for the Engineering Foundation, and Frederick H. Fowler, consulting engineer of San Francisco and formerly engineering representative of the Federal Power Commission in California. They are ready to begin work at once.

Irrigation Districts Association of California has called a meeting in Sacramento for January 12 when legislative matters will be up for discussion. Among the outstanding issues will be the proposal to reduce the rate on irrigation district assessment delinquencies. Wm. Durbrow, manager of the Glen-Colusa Irrigation District is president of the association.

Chas. E. Skinner, a representative of the American Institute of Electrical Engineers, was re-elected chairman of the American Engineering Standards Committee on Dec. 9. Chas. Rufus Harte, representative of the American Electric Railway Association, was re-elected Vice-Chairman.

Robert N. Risdon, son of John N. Risdon, founder of the Risdon Iron Works, died Dec. 29 following a brief illness.

Wm. G. Jolly, 52, a member of the general contracting firm of Jolly & Jolly, Fresno, died Jan. 2 as the result of an automobile accident near Selma. Jolly died in a Fresno hospital following an operation performed in an effort to save his life.

Harvey M. Toy, chairman of the California State Highway Commission, has tendered his resignation to Governor Richardson.

Rodney Messner succeeds J. C. Oglesby as county surveyor of Marin county. The latter will continue in private practice with offices in the Freitas Bldg., San Rafael.

Bids will be considered by the San Diego city council on January 24 for the construction of Sutherland dam for which bonds of \$2,000,000 have been sold. Plans provide for either multiple arch type or Ambursen flat slab type.

B. F. Leete, 96, civil engineer, who under Theodore Judah, surveyed the first link of the Central Pacific Railroad from Sacramento to Dutch Flat, died at his home in Reno, Nevada, Jan. 4.

J. G. Martin, former president of the Fresno Builders' Exchange and manager of the Fresno Lumber Company, died in that city Jan. 4 from injuries he received in an automobile accident on Jan. 3.

Fred Smith has been appointed county surveyor of San Joaquin County, succeeding F. E. Quail, who resigned to accept a position with the California State Highway Commission.

Ward & Blohme, architects, have moved their offices from 454 California street to Alaska Commercial Building, 310 Sansome St., San Francisco.

## TRADE NOTES

With the announcement of the sale of stock of the California Cedar Products Company for \$500,000, W. B. Thurman, president of the company, announces the formation of the Fireproof Wall Company of Stockton. The newly organized company will take over certain patents developed by the California Cedar Products Company and negotiate for their sale rather than enter into any manufacturing activities. W. B. Thurman is president of the company, F. F. Sayre, vice-president; G. S. Thurman, secretary, and W. E. Johnson and J. F. Makowski of San Francisco, directors.

F. H. Maloney and W. H. London have been named associate managers of the San Francisco branch of the Truscon Steel Company, succeeding Chas. Holloway Jr., who resigned to accept the position of general sales manager with the Golden Gate Atlas Materials Company.

Helwig Iron Works of San Jose will start construction shortly on a new plant comprising shop and foundry buildings at Vine and Auzerais streets, San Jose. Approximately \$25,000 will be expended, exclusive of equipment.

Novelty Electric Sign Co., formerly located at 435 Turk street, has moved to larger quarters at 292 Seventh St., San Francisco. The company specializes in every type of electric sign, marquee and roof sign. J. Hotchner is president of the company.

# Fresno Strike Settled To "Satisfaction Of All Concerned"

The strike of nearly a score of union carpenters and laborers at the new \$200,000 Edison school, launched in Fresno a week ago, was settled at a conference last Monday between school officials, an official of the Fresno Building Trades Council and Carl H. Peterson of the firm of Peterson and Eissler, general contractors on the project.

A full union crew of workmen will return to work, it was announced following the conference, which was attended by Peterson, F. B. Billings, chairman of the buildings and grounds committee of the board of education; E. J. Farr, superintendent of construction for the board, and F. C. Huss, secretary of the Fresno Building Trades Council.

Authorized by those attending the conference to make an official statement, Billings said: "The strike is settled to the satisfaction of all parties concerned."

Union men were called from the job because of the employment of a non-union carpenter, and a non-union laborer, a situation which was in effect the operation of the project on an American plan basis.

The contractors, it was reported, agreed to either induce the two non-union men, who have been working since the strike was called, to join their respective union crafts, or to replace them with union men.

A crew of nearly twenty union carpenters and laborers is expected to return to work at the school.

Since the strike was called only the operations of the general contractors, including excavation and carpentry, have been carried on, although the work is at a stage now where other subcontractors must commence work.

The building trades council, however, maintained since the strike of carpenters and laborers that union men would not be allowed to return to work as long as non-union men were being employed.

Peterson and Eissler have employed a force of about ten men since the strike, and under such conditions would have been able to proceed for several days. The general contractors said they anticipated no difficulty in securing enough non-union carpenters and laborers, but the securing of efficient men for electrical and plumbing work, and other classes of construction placed the sub-contractors in a difficult position as long as labor held the opinion that union men would not return to work with a non-union craft.

The strike was the first industrial war in Fresno in about five years.

Suspension of the \$1,800,000 school building and improvement program was threatened because of the strike.

The board of education took no action in the matter as a body, although members unofficially took steps to bring about a solution.

Secretary Huss of the trades council declined to comment on the settlement today other than to say that the strike had been settled to the satisfaction of all concerned.

Two days after the strike was called the Valley Industrial Association, sponsor of the American plan, issued a statement asserting the unions were not displaying the proper co-operation in the construction of schools in the building program.

When informed of the settlement of the strike, J. W. Hunt, manager of the association, said he would not make a statement until he had time in which to analyze the situation thoroughly.

## Alameda Exchange Elects Directors At Annual Jinks

Election of twelve directors, a program of entertainment, prize awards and a buffet lunch were the principal happenings at the annual meeting of the Builders' Exchange of Alameda County in Oakland last Tuesday evening.

E. M. Tilden, retiring president of the exchange, gave an interesting talk on the accomplishments of the exchange during the past few years and told of what the organization hoped to accomplish in the future. Though retiring from active service, President Tilden told the members he would always be available when his co-operation in exchange matters was desired.

Wm. H. George, president of the San Francisco Builders' Exchange, was introduced. Mr. George congratulated the East Bay builders on their new home and told of the progress of the plans for the proposed new home of the San Francisco Exchange. Mr. George predicted a healthy building season for the East Bay section in 1927.

At the annual election the following directors were elected in the order named: Frank D. Oates, building materials, 199; T. D. Sexton, plastering contractor, 189; Jas. B. McKeon, roofing contractor, 186; Waverly Tilden,

lumber dealer, 183; Sam D. North, paint manufacturer, 172; O. G. Lawton, general contractor, 174; Joe Turgeon, painting contractor, 168; A. M. Poulsen, plumbing contractor, 166; Herbert Beckwith, brick contractor, 164; W. W. Dennis, brick manufacturer, 145; W. J. Rigney, mantel and tile dealer, 142; D. N. Edwards, planing mill owner, 126.

Following the election of officers, approximately 320 gate prizes were distributed, the greater part of these being materials and equipment used in the building construction field.

A buffet luncheon was then served and a program of entertainment featured under the direction of Chas. H. Gabriel, Jr.

J. Edward Kavanagh and Natale Olivotti, operated under the firm name of Eureka Boiler Works at Eureka, Cal., announce a dissolution of partnership, effective Dec. 31, 1926.

Simpson-Gray Lumber Co. of Stockton has filed petition for dissolution, its affairs being cleaned up. The concern is now the Stockton Lumber Company.

## APARTMENTS

**Steel Contract Awarded**  
APARTMENTS Cost, \$90,000  
SAN FRANCISCO. S W Franklin and Vallejo Sts.

Five-story and basement. Class C concrete (23) apartments, 2, 3 and 4-room apts.)

Owner—Edw. Jose, 251 Kearny St.  
Architect—H. C. Baumann, 251 Kearny St.

**Steel—Badt-Falk, 74 New Montgomery St.**

Other sub-contracts to be awarded in a few days.

**Owner Taking Segregated Bids.**  
APARTMENTS Cost, \$36,000  
SAN FRANCISCO. Masonic Ave. near Oak Street.

Three-story frame apartment building to contain 12 3-room apts.

Owner—M. P. Storeheim, 201 Casselli Ave., San Francisco.

Architect—Clausen & Amandes, Hearst Bldg., San Francisco.

General work will be done by day labor.

**To Be Done by Day's Work**  
APARTMENTS Cost, \$450,000  
SAN FRANCISCO. N W Union and Leavenworth.

Fourteen-story and basement Class A steel and concrete apartment bldg. (22 apts.)

Owner—La Mirada Corp., care W. P. Chipman, 625 Market St., S. F.  
Architect—Reid Bros., 105 Montgomery St., S. F.

**To Be Done by Day's Work.**  
APARTMENTS Cost, \$35,000  
SAN FRANCISCO. N Fulton St. 87-6 W Fillmore St.

Three-story and basement frame apartment building (20 apts.)

Owner—Mrs. T. Davis.  
Architect—H. C. Baumann, 251 Kearny St., San Francisco.

**Contract Awarded**  
APARTMENTS Cost, \$14,500  
OAKLAND. Alameda Co., Cal. E. Oakland Ave., 140 S. Perry.

One-story 11-room frame apartment house.

Owner—Dr. M. H. Crocker, 430 Oakland Ave., Oakland.

Architect—None.

Contractor—Harry C. Knight, 1428 Franklin St., Oakland.

**Construction to Start Soon**  
APARTMENTS Approx. Cost, \$275,000  
SAN FRANCISCO. W Larkin St bet Greenwich and Lombard St.

Ten-story, basement and sub-basement, steel and concrete class A community apartment house.

Owner—Quandt & Bos, et al., 2525 Larkin St., a cpts.

Architect—Quandt & Bos, Humboldt Bank Bldg.

Construction will be started in about a month. Segregated bids were taken some time ago.

**To Be Done By Day's Work.**  
APARTMENTS Cost, \$18,000  
SAN FRANCISCO. SW Broderick and Pine Streets.

Three-story and basement frame apt. bldg. (12 apts.)

Owner—Phil Harris, 1588 9th Ave., San Francisco.

**Plans Being Prepared**  
APARTMENTS Cost, \$40,000  
SAN FRANCISCO. W. Buchanan 100 S. of Jackson.

Three-story frame and brick veneer apartment building.

Owner—Withheld.  
Architect—O. R. Thayer, 110 Sutter St., S. F.

SAN FRANCISCO. See "Hotels this issue."

**To Be Done by Day's Work**  
APARTMENTS Cost, \$30,000  
SAN FRANCISCO. N E Pierce and Toledo.

Three-story and basement frame (18) apartments.

Owner—Chas. A. Johnson, 3260 Gough St.

Architect—I. Ebbets, 251 Kearny St.

**To Be Done by Day's Work**  
APARTMENTS Cost, \$25,000  
SAN FRANCISCO. W 17th Ave 125, N Irving.

Three-story and basement frame (15) apartments.

Owner—Fred Warden, 1675 8th Ave.

Architect—J. C. Hladik, Monadnock Bldg.

**To Be Done By Days Work**  
APARTMENTS. Each \$21,000 & \$12,500  
SAN FRANCISCO. N. E. California and 11th Ave. and E 11th Ave. 100 N California.

Two 3-story and basement frame (9 and 6) apartments each.

Owner—Lager and Val Franz, 180 Jessie St.

Architect—J. C. Hladik, Monadnock Bldg.

**Sub-Contracts Awarded**  
APARTMENTS Cost, \$55,000  
SAN FRANCISCO. N E Chestnut and Divisadero Sts.

Three-story and basement frame and stucco apartment house (6 3-room and 21 2-room apts.)

Owner—R. J. Stempel, 80 Sotelo St., San Francisco.

Architect—J. C. Hladik, Monadnock Bldg., San Francisco.

**Electric work—Atlas Heating & Ventilating Co., 557 4th St., S. F.**

**Plumbing—Scott Co., 243 Minna St., S. F.**

**Owner Taking Segregated Bids**  
APARTMENTS Cost, \$30,000  
SAN FRANCISCO. S Intersection of Mallorca Way and Alhambra St.

Three-story and basement frame apartment building (18 apts.)

Owner—R. J. Stempel, 80 Sotelo St., San Francisco.

Architect—J. C. Hladik, Monadnock Bldg., San Francisco.

LOS ANGELES, Cal.—R. L. Jones and Dick M. Ward, 1555 Western Ave. have prepared plans and will build 4-story (72 unit, class C apt. bldg., 86 x 162 ft., on Serrano, near Santa Monica Blvd., for selves. It will contain 48 single and 24 double apts., Spanish type; stucco front, tile coping, comp. rf., fire escapes, hdwd. frs., tiled baths and sinks, tile entry, wall beds, struc. steel, aut. elec. elevator, steam htg., electrical refrigeration; \$190,000.

## BONDS

PALO ALTO, Santa Clara Co., Cal.—City will call election to vote bonds of \$74,000 to finance erection of fire and police department building in Bryant St. The \$74,000 is cost of structure, including jail equipment and heating plant. Should the bond election carry, plans for the building will be prepared by Birge M. Clark, architect, 310 University Ave., Palo Alto.

NATIONAL CITY, San Diego Co., Cal.—Board of Trustees of the National City School District have set January 28th as date for special election to vote upon \$102,000 bond issue to be used to erect 4 new grammar school buildings. T. C. Kistner & Co., 1121 Detweiler Bldg., Los Angeles, and Spreckels Bldg., San Diego, architects.

EL SEGUNDA, Cal.—See "Schools," this issue.

ELK GROVE, Sacramento Co., Cal.—Trustees of Elk Grove Grammar School District contemplate bond issue to secure funds to finance two-classroom addition and remodeling of present school.

HILLSBOROUGH, San Mateo Co., Cal.—Hillsborough School District votes bonds of \$40,000 to finance erection of open air auditorium building.

PLACERVILLE, El Dorado Co., Cal.—County Grand Jury in annual report recommends \$175,000 bond issue to finance erection of new high school in Placerville. Should the proposed issue fail, it is recommended that the trustees arrange for a direct tax to finance construction.

## CHURCHES

**Bids Opened**  
CHURCH Cost, \$——  
PALO ALTO, Santa Clara Co., Cal.  
One-story concrete church.  
Owner—All Saints' Episcopal Church.  
Architect—John K. Branner, 210 Post St., S. F.

Low bidder: Wells P. Goodenough, 310 University Ave., Palo Alto, \$19,000. Several other bids were received, the highest being from George G. Bertacha, 750 Forrest Ave., Palo Alto, at \$22,000. Contract was recommended to be awarded to low bidder.

**Ready for Figures in Three Weeks**  
CHURCH AND SCHOOL Cost, \$20,000  
OAKLAND, Alameda Co., Cal. 8th St. bet. Alice and Harrison.

Two-story concrete or brick church & school bldg.

Owner—Chinese Presbyterian Mission.  
Architect—Rollin S. Tuttle, 363 17th St., Oakland.

TURLOCK, Stanislaus Co., Cal.—Until Jan. 14, bids will be received by G. N. Hilburn, architect, Turlock, to erect new church for Evangelical Lutheran Church at Orange and Columbia Sts. Plans obtainable from architect.

FOR  
QUALITY WORK  
QUICK SERVICE

**SPRAY PAINTING**  
CAPITAL  
COMPRESSED AIR  
PAINTING CO.  
1508 J ST. SACRAMENTO  
MAIN 445

WATER PROOFING  
DAMP PROOFING  
FLOOR HARDENING

Ready for Bids in Three Weeks  
**CHURCH** Cost, \$12,000  
**TURLOCK**, Stanislaus Co., Cal.  
 One-story frame and stucco church bldg.  
 Owner—Assyrian Presbyterian Church, Turlock, Cal.  
 Architect—Rollin S. Tuttle, 363 17th St., Oakland.

Ready for Bids in Three Weeks  
**ADDITION** Cost, \$10,000  
**DIXON**, Cal. Solano Co.  
 One-story frame social hall and school addition to church.  
 Owner—Methodist Church.  
 Architect—Rollin S. Tuttle, 363 17th St., Oakland.

Plans Complete—Contract to Be Awarded  
**CHURCH** Approx. cost, \$16,000  
**SAN LEANDRO**, Alameda Co., Cal.  
 One-story frame and stucco church.  
 Owner—First Church of Christ, Scientist.  
 Architect—H. H. Gutterson, 526 Powell St., S. F.  
 Contractor—Lawton & Vezey, 354 Hobart St., Oakland.

**PHOENIX**, Arizona—Arch. Norman F. Marsh, 1011 Broadway Central Bldg., reports that the date for receiving bids for erecting a class A church bldg. at Phoenix, Ariz., for First Presbyterian Church, has been extended from Dec. 28 to Jan. 10th.

**FRESNO**, Fresno Co., Cal.—Emmanuel Lutheran Church, L and Ventura Sts., will campaign for funds to finance construction of a new edifice on property purchased at U and Mariposa Sts. Approximately \$40,000 will be raised to finance the structure. Rev. Edward J. Rudnick is pastor.

**EAGLE ROCK**, Los Angeles Co., Cal.—Eagle Rock Baptist Church has purchased a site at Colorado Blvd. and Lolita St. and plans the erection of a church bldg.

**SIERRA MADRE**, L. A. Co., Cal.—Arch. Mott M. Marston, 507 Douglas Bldg., Los Angeles, is preparing preliminary sketches for new edifice at S E. cor. Central and Hermosa Aves., Sierra Madre, for Sierra Madre Congregational Church. Main auditorium will seat 600 and Sunday School quarters 400. A parish house will be provided. Concr., concr. blk. or brick constr., probably stucco exter. and tile roof; \$60,000.

## FACTORIES & WAREHOUSES

Plans Complete  
**CLEANING ESTAB.** Cost, \$15,000  
**OAK PARK**, Sacramento County, 2833 Sacramento Blvd.  
 One-story brick, 40 x 90 ft., dry cleaning establishment.  
 Owner—Stilson Bros.  
 Architect—Eugene Seadler, Mitau Bldg., Sacramento, Calif.  
 Roof will be supported with steel trusses; 15 ft. monitor running entire length of building, will provide light and ventilation; pressed brick exterior and terra cotta trimmings.

Contract Awarded  
**ADDITION** Cost, \$20,000  
**OAKLAND**, Cal. N E 19th and Union Streets.  
 One-story steel addition to building.  
 Owner—United Autograph Co., 19th & Union Sts., Oakland.  
 Architect—None.  
 Contractor—E. W. Sproul Co., Chicago, Ill.

Contract Awarded  
**WAREHOUSE** Cost, \$73,500  
**SACRAMENTO**, Cal. Front St., bet. K and L Streets.  
 Two-story and basement reinforced concrete warehouse and offices, 61 by 150 ft.  
 Owner—Blake, Moffitt & Towne, 41 First St., San Francisco.  
 Engineer—J. D. Galloway, 1st National Bank Bldg., San Francisco.  
 Contractor—Geo. S. Hudnutt, Inc., 1915 S St., Sacramento.

Piling Contract Awarded  
**STORE** Cost, \$150,000  
**SAN FRANCISCO**, N W Fremont and Natoma Sts., 75 x 137-6 ft.  
 Six-story Class B reinforced concrete store and loft bldg. (2 elevators).  
 Owner—Joseph Pasqualetti, 785 Market St.  
 Architect—Carl Zollner, 785 Market St.  
 Will be constructed to carry extra heavy floor loads, being designed especially for occupancy by printers.  
 Plans will be completed and ready for segregated bids within a month.  
 Excavating has been awarded to Granfield, Farrar & Carlin, 67 Hoff Ave., San Francisco.  
**Piling**—Healy-Tibbitts Construction Co., 64 Pine St., S. F.

January 4, 1927  
 Being Done by Day's Labor  
**FACTORY BLDG.** Cost, \$79,333  
**ALAMEDA**, Alameda Co., Cal. SE Cor. Clement Ave. and Oak St.  
 One-story galvanized iron factory building.  
 Owner—Boyle Mfg. Co., Inc., 5100 Santa Fe Ave., Los Angeles.  
 Architect—Union Iron Works, 5125 Santa Fe Ave., Los Angeles.  
 NOTE—Work started.

Bids Being Taken For General Contract.  
**CLEANING PLANT** \$15,000 Approx.  
**OAK PARK**, Sacramento Co., Cal. No. 2833 Sacramento Blvd.  
 One-story brick dry cleaning establishment, 40x90 feet.

COUNTY OF SACRAMENTO  
Office of Chas. A. Root, County Recorder  
C. J. Chenu, Chief Deputy

Sandy Pratt:

My hat is off to you, in thanks for the "package of dates" (calendar). I shall think of you for 365 cycles of sunlight to come, and when I think of you, my mind subconsciously reverts to gravel, crushed rock and clean cut sand so much so that my little family "rocked" with mirth at your "gritty" near-fun ("Pratt's Concrete Mix") in the Saturday Bee (sometimes.) Your monicker is a household word, if you get what I mean. This leads up to my story. My six year old boy got a present from "Sandy" Claus (typographical error.) It was an automatic sand-dumping contraption with car and counterweight for his sand box. Sonny was tickled pink with the toy. That's the picture and now we will cut in a reader here to finish the tale. We had previously been out to Prattrock, Speed Limit 99 Miles Per Hour, Fords Do Your Best, Sandy Pratt, Mayor, seemed to impress the lad, for when I jokingly said to him, "You can now go into the business," he came back with "Yes, I guess I had better, hook up with Sandy Pratt." Best wishes for the New Year.

J. E. SIMPSON, Deputy Recorder.

SANDY THOUGHT his advertising.

WAS GOING over.

BUT SANDY did not know.

THAT THE coming generation.

WAS ABSORBING his near comedy.

ANYWAY, THIS fellow Simpson.

IN CHARLEY Root's office.

IS ALWAYS "recording" stuff.

AND MAYBE Sandy's stuff.

IS "REGISTERING" at home.

WITH THE 6 year Simpson.

IT MUST pay to advertise.

AND SANDY Pratt, producer.

OF CLEAN, sharp sand.

AND CLEAN, hard gravel.

AND CLEAN, crushed rock.

IS GLAD he is preparing.

ANOTHER GENERATION.

TO THINK clean sand.

AND CLEAN rock and gravel.

FOR THIS the only kind.

OF BUILDING material.

THAT CLARENCE (Sandy) Pratt, president.

OF THE Pratt Building Material Co.

CENTRAL OFFICE—San Francisco.

SHIPS OR delivers.

TO HIS many satisfied customers.

AND IF the cost.

IS NOT too great.

SANDY WOULD like.

TO HAVE this near-literature.

RECORDED IN the Recorder's Office.

AT THE Sacramento Court House.

"I THANK you."

Perhaps State Superintendent of Schools Wood will adopt Sandy Pratt's "near-literature" for the State schools before he becomes State Bank Superintendent (Sandy has sand "banks" at Sacramento, Prattrock, near Folsom, Marysville, Mayhew, near Sacramento and Prattco in Monterey County).

**OAKLAND, Alameda Co., Cal.**—Oakland Board of Education has awarded the following contracts for furnishing classroom tables, first grade tables, kindergarten tables and drawing stands:

**Plans Being Figured**  
**THEATRE** Cost, \$75,000

**SAN JOSE**, Santa Clara Co., Calif. 1127 The Alameda.

Reinforced concrete theatre (1000 seats).

Owner—Victor Benson, 1127 The Alameda, San Jose, Calif.

Architect—Binder & Curtis, 35 W Santa Clara, San Jose.

Bids are being taken for a general contract.

**LOS ANGELES**, Cal.—The following sub-contracts have been awarded for 4-sto. and basement reinf. conc. and steel theater and office bldg., at cor. Hollywood Blvd. and Wilcox Ave., for Warner Bros.; piling to Raymond Concrete Pile Co., Washington Bldg.; excav. to H. L. Wood, 2624 Kenwood; cement to Oro Grande Lime & Stone Co., Douglas Bldg.; rock and sand to Harris & Hull, Inc., 3326 San Fernando Rd.; reinf. steel to Badt-Falk & Co., 1423 Alameda St.; lumber to L. W. Blinn Lumber Co., 2501 S. Alameda St.; Lange & Bergstrom, Washington Bldg. genl. contrs.; G. Albert Landsburgh, 923 Consolidated Bldg., archt.

**All-Key  
 Plaster Lath**

(Patented)

100% Mechanical Key.

**Plaster  
 Wall Board**

(Patent applied for)

The Last Word in Wall Board.

**CALIFORNIA CEDAR PRODUCTS COMPANY**  
 STOCKTON, CALIFORNIA

## WHARVES & DOCKS

### Plans Being Figured — Bids to Be

Opened Jan. 20, 1927, 2 p. m.  
**SHED** Cost, \$150,000  
**SAN FRANCISCO**, Cal. Waterfront,  
 Piers Nos. 30 and 32.

Sub-structure for 125-foot extension  
 to Piers Nos. 30 and 32 (reinforced  
 concrete construction, concrete  
 piling).

Owner—State Harbor Commissioners.  
 Engineer—Frank White, Ferry Bldg.,  
 San Francisco.

Later bids will be called for the  
 construction of a timber shed to cost  
 approximately \$100,000.  
 (2521) 1st rep. Dec. 2; 2d Dec. 4, 1926

**SAN FRANCISCO**, Cal.—The follow-  
 ing bids were received January 4th,  
 by the Constructing Quartermaster,  
 Fort Mason, for wharf repairs at Fort  
 Mason.

Jas. Gerrick & Co., 74 New Mont-  
 gomery St., S. F. .... \$45,234  
 M. B. McGowan, S. F. .... 45,300  
 Healy-Tibbitts Construction Co.,  
 San Francisco .... 45,536  
 A. W. Kitchen, S. F. .... 46,770

### Contractor Taking Sub-Figures.

**PIER** Cost, \$96,700  
**SAN FRANCISCO**. Foot of Hyde St.  
 Ferry terminal—creosoted piles, apron  
 of structural steel truss construc-  
 tion with electric operating ma-  
 chinery.

Owner—State Board of Harbor Com-  
 mission.

Engineer — Frank G. White, Ferry  
 Bldg., S. F.

Contractor—Schuler & McDonald, 1723  
 Webster St., Oakland.

Bids are being taken for structural  
 steel, machinery, lumber, electrical  
 work, etc. State will furnish Portland  
 cement and creosoted piles.

**PEARL HARBOR**, T. H.—Following  
 is a list of prospective bidders to  
 const. extension to Pier at Pearl Har-  
 bor, under Specification No. 5210, bids  
 to be opened Jan. 19 by Bureau of  
 Yards and Docks, Navy Dept., Wash-  
 ington:

Newport Contracting & Engineering  
 Co., Law Bldg., Newport News, Va. 25  
 Broadway, New York City.

Newport Contracting and Engineer-  
 ing Co., Law Building, Newport News,  
 Va.

Hall - Hodges Co., Citizens' Bank  
 Bldg., Norfolk, Va.

Raymond Concrete Pile Co., 140  
 Cedar St., New York City.

**BERKELEY**, Alameda Co., Cal.—City  
 Planning Commission will submit pro-  
 posal to city council March 1 seeking  
 the approval of the Stephen Child's  
 unit leasing program for a \$5,000,000  
 harbor development. Mr. Child, who  
 proposes the plan, is consultant for  
 the planning commission. It is pro-  
 posed to construct three units or piers  
 in the form of solid moles, each 3000  
 ft. wide and running in the bay for a  
 distance of 18,000 ft. to deep water.  
 Piers would be separated by two  
 channels, 40 ft. in depth.

## MISCELLANEOUS BUILDING CONSTRUCTION

### Bids In — Taken Under Advisement

**COLUMBARIUM** Cost, \$150,000  
**OAKLAND**, Alameda Co., Calif. Pied-  
 mont Ave.

Reinforced concrete and granite Col-  
 umbarium.

Owner—California Creminatorium, 4499  
 Piedmont Ave., Oakland.

Architect — Julia Morgan, Merchants  
 Exchange Bldg., S. F.

**ANAHEIM**, Cal.—Until 8 p. m., Jan.  
 13, bids will be rec'd by city for one  
 mixed carload of cedar poles, incl. ap-  
 prox. 50 ea. 35 and 40 ft. long, with  
 "B" butt treatment and 7-in. tops.  
 Cert. chk. or bond, 10%. Price to be  
 f.o.b. Anaheim. Edw. B. Merritt, city  
 clerk.

### Contract Awarded.

**MORTUARY** Cost, \$16,000 Approx.  
**SANTA CLARA**, Santa Clara Co., Cal.  
 Two-story frame and brick veneer  
 mortuary.

Owner—A. W. Nuttman.

Architect—Chas. S. McKenzie, Bank of  
 San Jose Bldg., San Jose.

Contractor—Frank Neves, 891 Harri-  
 son St., San Jose.

### Sketches Being Prepared

**GOLF COURSE** Total Cost \$150,000  
**GUERNEVILLE**, Sonoma County, Cal.

—On Russian River banks.  
 Summer resort buildings, golf course,  
 etc.

Owner—Redwoods Holding Co., Mon-  
 adnock Bldg., S. F.

Architect—F. Eugene Barton, Crocker  
 Bldg., San Francisco, Calif.

Project will involve the erection of  
 a \$50,000 clubhouse, frame; twelve  
 bungalows, tennis courts, children's  
 playgrounds, walking trails and a 9-  
 hole golf course. Officers of the Red-  
 woods Holding Co. are: P. Kelly  
 Mackenzie, formerly of Santa Monica,  
 now of San Francisco, president; J.  
 Vincent Wallace, Palisades Mine, Cal-  
 istoga, vice-president and general man-  
 ager, and Mills Fraser, San Francisco,  
 secretary.

### Plans Being Figured

**STABLES** Cost, \$10,000  
**BERESFORD**, San Mateo Co., Cal.

One-story frame polo pony stables.  
 Owner—Geo. A. Pope.

Architect — Henry H. Meyers, Kohl  
 Bldg., San Francisco.

Bids are being taken for a general  
 contract and will be opened in about  
 a week.

### Contract Awarded

**BARN** Cost, \$75,000  
**SAN RAFAEL**, Marin County, North of

the Black Point Bridge.

Four, one-story reinforced concrete  
 barns and certified milk sheds.

Owner—Sleepy Hollow Certified Milk  
 Co.

Architect—None.

Contractor—Frank Howard Allen, San  
 Anselmo, Marin Co.

**SAN FRANCISCO**, Cal.—The Pacific  
 Fruit Express Co., 65 Market St., will  
 receive bids for incinerators until Jan.  
 18, 1927.

### Contractors to Take Sub-Bids in Two

**Weeks**

**MAUSOLEUM** Cost, \$125,000

**STOCKTON**, San Joaquin Co., Cal. San

Joaquin Cemetery.

Reinforced concrete mausoleum with

marble and bronze interior.

Owner—San Joaquin Cemetery Assn.

St. Mary's Catholic Church).

Architect—H. A. Minton, 525 Market

St., S. F.

Contractor—Lewis & Green, Commer-  
 cial & Savings Bank Bldg., Stock-  
 ton.

### Contract Awarded

**DEPOT** Cost, \$—  
**MADERA**, Madera County, Calif.

One-story brick and stucco passenger  
 station with asbestos shingle roof.

Owner—Southern Pacific Railroad Co.,  
 65 Market St., S. F., Cal.

(H. C. Austin, Madera Agent).

Architect—Engineering Dept. of S. F.

Co., 65 Market St., S. F.

Contractor—Ira C. Bos, 2615 K Street,  
 Sacramento.

Plans obtainable from local engi-  
 neering department offices of company  
 and from agent at Madera.

The former combination station is  
 being re-located and is being made  
 into a freight house.

### STOCKTON, San Joaquin Co., Cal.—

American Marble and Mosaic Co., 25

Columbia Square, San Francisco, at

\$42,000 awarded intrart by Casa Bon-  
 ita Mausoleum Co., for marble and tile

work in connection with \$300,000 mau-  
 soleum under construction between

San Joaquin and Rural Cemeteries.

Concrete work on the project has been  
 completed.

### YOUNTVILLE, Napa Co., Cal.—As-

semblyman Roy J. Nielson will seek

\$240,000 surplus funds of State Ath-  
 letic Commission, to finance the erec-  
 tion of fireproof barracks at Veterans'

State Home at Yountville, to replace

the present wood structures.

### LOS ANGELES, Cal. — Los Angeles

Gas & Elec. Corp., own. & bldr., 810 S.

Flower St., applied for bldg. permit

to erect 2-sto., 4-rm., class B brick

and conc. sub-station at 1638 Palo Al-

to St.; 56x104 ft., conc. rf. and flrs.,

steel sash; \$50,000.

### DEL RIO, Sonoma Co., Cal.—The Del

Rio Resort Co., consisting of H. J.

Christiansen, B. L. Hoffman and Clar-  
 ence A. De Lancey, all of Oakland, an-  
 nounces that improvements are to be

made at Del Rio. The erection of 20

or more cottages, a new dance pavil-

ion, improvements to beach (bath

houses, etc.) is planned. They are al-

so contemplating the erection of a

cafeteria. More definite information

will be given at a later date

### SANTA ROSA, Sonoma Co., Cal.—City

contemplates bond issue for \$27,000

to finance playground imps. and com-  
 munity center on site 600x200 ft. now

occupied by American Legion and

Women's Club buildings. It is pro-

posed to move the structures to an-

other site.

### RIVERSIDE, Cal.—P. T. Evans and

L. Y. McFarland will erect a concr.

plunge 120 x 80 ft., motor cottage

court, service station and airport at

Mission Blvd. and Crestmore Rd. The

cost will be \$100,000.

## Ornamental Wire and Iron Work

## IRON WIRE Fence and Gates

## Tennis Court Enclosures Wire Screens and Guards

## WEST COAST WIRE & IRON WORKS

San Francisco, Calif.

861-863 Howard St.

Tel. Douglas 4397

CONTINUOUS OPERATION SINCE 1887

**BAKERSFIELD, Kern Co., Cal.**—Henry Eissler, Bakersfield, at approx. \$15,000, awarded contract to erect H. A. Jastro Memorial Bandstand in Jastro Park in West Eighteenth St.; will have 30 by 50 ft. concrete base with superstructure of limestone; terra cotta tile roof. Chas. Biggar, architect, Bank of Italy Bldg., Bakersfield.

## BUSINESS OPPORTUNITIES

**SAN FRANCISCO, Cal.**—Further information regarding these opportunities may be obtained from the office of Larsen Advance Construction Reports, 818 Mission St., San Francisco, either by phone, letter or personal call. Requests for additional information should be made to the Business Opportunities Department. Such requests must be accompanied by the Index Number of each opportunity.

11108—Tokyo, Japan. Company desires to communicate with San Francisco exporters of scrap iron.

11109—Santiago, Cuba. Firm of commission agents desires to get in touch with San Francisco jobbing companies, export organizations, packing houses and manufacturers who are interested in exporting chemical supplies, oils, paints and other wood and metal preservatives, cut lumber for box and package-making.

11113—Liege, Belgium. Gentleman wishes to act as buying agent for a California firm importing iron and steel products. He is thoroughly acquainted with this line and well connected with Belgium steel mills.

11118—Trieste, Italy. Firm is interested in the wholesale importation of timber (pitchpine and other grades) for use in the shipbuilding yards. U. S. A. references supplied.

11123—London, Berlin and Paris. Resident American gentleman in touch with business, professional and sales interests in Europe is in position to act as agent. Excellent connections and references.

D-2300—New York, N. Y. Sales organization with office in New York City would take on additional non-competing lines, or execute commissions in the East. Representative permanently located in San Francisco.

D-2301—San Francisco, California. Manufacturers' agent will undertake introduction and distribution of local factories. First-class references.

## COLLECTING ATTORNEY'S FEES ON STREET LIENS

Judge Keeler has ruled in the superior court of Los Angeles county that attorneys' fees may not be added to cost of foreclosure of street assessments or bonds, unless the owner of the property has been served in person with a notice of the amount due.

The ruling was made in the case of Coleman vs. Versteeg and Coleman vs. McCausland. It was asserted by John Beardsley, attorney for both defendants, that they were never notified that they owed any bond interest and as the plaintiff did not allege personal service, Judge Keeler granted Beardsley's motion to strike from the complaint that section calling for attorney fees.

The demand for counsel fees, the court observed, is based upon a specific provision of the Improvement Act of 1911, as amended in 1921, which permits the court to allow a reasonable fee for the plaintiff's attorney. But, he pointed out, one of the general provisions of the act is that counsel fee may be claimed only when notice of claim shall have been served upon defendant personally. Inasmuch as such service was not alleged in the complaints, he granted the motion to strike. —(S. W. Builder).

# Hydrated Lime Produces High Stability As Asphalt Mix Filler

Hydrated lime as a filler in asphalt mixtures produces higher stability values than equivalent amounts of the more commonly used materials, investigations conducted over the last three years by Prevost Hubbard and F. C. Field, of the Asphalt Association, discloses. These investigations were instituted because a greater resistance to displacement is necessary in order that bituminous mixtures may successfully resist the stresses to which they are subjected by modern traffic.

The investigators went thoroughly into their work covering the entire field. They developed a highly satisfactory method of testing for stability asphalt briquettes, which might either be cored from pavements or prepared in the laboratory. Supplementary to their report they made the following statement:

"Recent investigations of methods of increasing and more closely controlling resistance to displacement of asphalt pavements under modern traffic have emphasized the very important stabilizing effect produced by mineral fillers as a constituent of paving mixtures.

"It has long been realized among paving engineers that fineness is a necessary characteristic of good fillers, but the effect of variations in fineness has never been thoroughly understood. Moreover, only a very limited number of types of finely divided substances have been used so far in paving practice.

"Among the little used products which are widely available in large quantities, hydrated lime gives promise of being particularly well adapted for use as a filler both on account of its extreme fineness and surface texture.

"It is believed that the research data secured relative to this material, coupled with practical results obtained where it has been used in actual construction, merits its favorable consideration by paving engineers in future work."

Summarized, the conclusions reached by the investigators based on their previous work and that presented in a bulletin by the National Lime Association entitled "The Value of Hydrated

Lime as a Filler in Asphalt Paving Mixtures," are:

1. Hydrated lime is a more efficient stabilizing agent in asphalt paving mixtures than is the average limestone dust filler when used in the customary percentage of the total mix.

2. No difference in the stabilizing value of different limes can be attributed to differences in chemical composition, i. e., whether the lime is high calcium or high magnesium.

3. The maximum stabilizing and void reducing effect of hydrated lime in paving mixtures containing a well graded sand appear to be obtained by the use of approximately 15 per cent of lime.

4. In sheet asphalt paving mixtures with well graded sand it appears that about 13 per cent by weight of hydrated lime is equivalent to 20 per cent by weight of average limestone dust, and about 8 per cent of lime is equivalent to 15 per cent of limestone dust.

5. Hydrated lime appears to be better adopted for use with a relatively soft asphalt cement than is limestone dust, and when so used indications point to the production of mixtures of high stability at 140°F. which are less likely to crack in cold weather.

6. Hydrated lime is an especially desirable filler for use with uniformly fine sand and its superiority to limestone dust for such use may make available for sheet asphalt construction, fine sands which are at present eliminated by specifications.

## FRESNO BUILDERS' EXCHANGE TO BANQUET

A banquet and entertainment will be features of the regular meeting of the Fresno Builders' Exchange to be held January 11 at the Hotel Fresno. A three-act play entitled "When The Lights Went Out," will be staged in addition to a musical program. Melvin Dozler of Los Angeles will be the principal speaker at the meeting.

Chas. Kelly will operate in San Francisco under the trade name of Crescent Grading Company.

## NOTICE TO CONTRACTORS

(Stonehurst School Addition—Oakland)

OFFICE OF THE SECRETARY OF THE BOARD OF EDUCATION OF THE CITY OF OAKLAND.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Tuesday, the 25th day of January, 1927, at 9:45 A. M., at which time said bids will be opened for the erection and completion of the Stonehurst School Addition, of the Oakland School District, located on the south side of "E" or Biggareau Street opposite the termination of 103rd Avenue, in the City of Oakland, County of Alameda, State of California. These bids shall be presented in accordance with plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned, and in each case shall be returned within ten (10) days after securing same, to the Superintendent of Buildings. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not exceed Five Thousand (\$5,000.00) Dollars; but for all bids of less than Fifty Thousand (\$50,000.00) Dollars, said check shall be for at least ten (10%) per cent of the amount of the bid. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 25th day of January, 1927, at 9:45 A. M., in the Board Room, 211 Second Floor of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDGE-MOND,  
Secretary of the Board of Education of Oakland, California.

## STATE OF CALIFORNIA

## CALIFORNIA HIGHWAY COMMISSION

### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock p. m. on January 31, 1927, at which time they will be publicly opened and read, for construction, in accordance with

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

the specifications therefor, to which special reference is made, of portions of State Highway as follows:

San Joaquin County at the Mossdale Bridge (X-S J-5-B), about twenty-six hundredths (0.26) miles in length to be graded.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

HARVEY M. TOY,

LOUIS EVERDING,

N. T. EDWARDS,

California Highway Commission.

R. M. MORTON,

State Highway Engineer.

W. F. MIXON, Secretary.

Dated January 3, 1927.

### NOTICE FOR SEALED BIDS

Pursuant to an order of the Board of Supervisors of the County of Santa Barbara, State of California, made on the 20th day of December, 1926;

Notice is hereby given that sealed bids will be received until 10 A. M. on the 17th day of January, 1927, by the Board of Supervisors of the County of Santa Barbara, State of California, at their rooms in the County Court House, in the City of Santa Barbara, County of Santa Barbara, State of California; said bids then and there will be publicly opened and read for furnishing all plant, material and labor and doing the work required for the construction and erection of the Court House, Hall of Records and Jail Building, on the Court House site in the City of Santa Barbara, County of Santa Barbara, State of California, and all

in accordance with plans and specifications therefore made by William Mooser Company, Architects, copies of which may be obtained on application from the Architects, Nevada Bank Bldg., San Francisco, California.

Such bids will be received for the work as follows, separately:

1. Heating and Ventilating.
2. Plumbing.
3. Heating and Ventilating and Plumbing Combined.

4. State price deducted if Hot Water System in Main Building, including Steel Stack for Ruud Heater, also the Ruud Heater, also Circulating Pump, also Hot Water Faucets on Fixtures; are omitted.

Jail Building Hot Water System as specified not included in the above deduction.

5. State price deducted if Air Washer as provided on Main Ventilating System is omitted, but leaving all provisions for its installing at a future date.

Each proposal must be submitted on forms similar to the one here attached as prepared by the Architects, William Mooser Company, Nevada Bank Bldg., San Francisco, California.

Cash, a bidder's Bond, or a Certified Check in the sum of at least ten per centum (10%) of the amount of the bid must accompany each bid, and be payable to the Chairman of the Board of Supervisors of the County of Santa Barbara, as a guarantee that the Bidder whose proposal is accepted will enter into a contract with the County of Santa Barbara, for the work bid upon, otherwise said Cash or Bidder's Bond, or Certified Check will be forfeited to the County of Santa Barbara.

Plans and specifications for above work may be seen at the Office of the Architects, Court House Site, Santa Barbara.

Sets of plans and specifications will be loaned out to bidders upon deposit of Fifty (\$50) Dollars, Cash or Certified Check; and deposit to be refunded to bidder when the set of plans and specifications are returned in good condition accompanied by bid; such deposit to be forfeited to the Architects, provided the set of plans and specifications are not returned in good condition within five (5) days from the time same is taken out, unless a bid is to be submitted on or before date set for receiving bids.

Application for plans and specifications must be made to the Architects, William Mooser Company, Nevada Bank Building, San Francisco, Calif.

#### Rights Reserved

The County of Santa Barbara reserves the following rights:

- (a) To reject any or all proposals;
- (b) to waive any informalities in any proposal;
- (c) to award this contract to some other than the lowest bidder, as this clause expressly puts the bidder on notice that his financial and business standing and ability properly and expeditiously to carry out work hereunder, or the consideration of desired alternates, makes his proposal more advantageous to the County of Santa Barbara;
- (d) to accept any alternate or separate parts of the work, under this provision;
- (e) to deduct any separate item mentioned in any proposal at the price therein stated therefor;
- (f) to make any additions to, omissions from, changes in, or substitute for the work or materials or articles called for by the contract, subject to the requirements of the paragraph thereof headed under that particular item and without notice to the sureties on this bond, if any, guaranteeing the performance of the contract.

All bids must be addressed to the County Clerk of Santa Barbara, in the City of Santa Barbara, State of California, and have endorsed thereon.

Proposal for Court House, Hall of Records and Jail Building for the County of Santa Barbara, California, and the particular part of the work bid upon.

C. L. PREISKER,  
Chairman of the Board of Supervisors of the County of Santa Barbara.

C. A. HUNT,  
County Clerk and Clerk of the Board of Supervisors of the County of Santa Barbara.

#### NOTICE TO CONTRACTORS

(Schools—Petaluma, Calif.)

Notice is hereby given, that the Board of Education of Petaluma City High School District, of Sonoma County, California, will receive sealed bids for the furnishing of all labor and material necessary in the erection and construction of,

(1) Two Class C additions to the existing Petaluma City High School Building, situated on the property of the Board of Education of said District on the southwest side of Fair Street, between Bassett and Douglas Streets, Petaluma, California; and,

(2) A frame agricultural building to be erected on the premises situated at the easterly corner of Bassett and Sheldon Streets, Petaluma, California.

The contract for both of which said buildings, to-wit: (1) and (2), shall be let as one contract. Said buildings to be erected and completed in accordance with the plans and specifications therefor, prepared by Brainerd Jones, Architect, of the City of Petaluma, now on file in the office of said Board of Education at the City Hall, City of Petaluma, County of Sonoma, State of California, copies of which said plans and specifications may be procured at the office of said architect, in the City of Petaluma, upon depositing with said architect the sum of \$20, which said sum will be returned upon the return of said plans and specifications to said architect.

Sealed bids will be received up to 8:00 o'clock P. M., of the 12th day of January, 1927, by the undersigned Secretary of the Board of Education of the Petaluma City High School District, of Sonoma County, California, at which time said bids will be publicly opened at a meeting of the Board of Education of Petaluma City High School District at the offices of said Board of Education in the said City Hall in the City of Petaluma, County of Sonoma, State of California.

Sealed bids must be accompanied by certified check in a sum equal to at least ten per cent (10%) of the amount of bid to do the work mentioned, which said deposit shall be forfeited if such bid is accepted and such bidder or bidders shall fail to enter into a contract for the construction of said buildings in accordance therewith within fifteen days after acceptance of such bid or bids.

No bids will be considered unless made out on blank forms furnished by said architect.

The successful bidder or bidders will be required to give bonds in the sum of fifty per cent (50%) of the contract price as security for labor and materials, and in addition thereto a bond of twenty-five per cent (25%) for a faithful performance of said contract.

The said Board of Education of Petaluma City High School District, as owners, reserve the right to reject any and all bids.

All bids to be addressed to John A. Olmsted, Secretary of Board of Education of Petaluma City High School District, of Sonoma County, California.

By order of said Board of Education of Petaluma City High School District, of Sonoma County, California.

JOHN A. OLMSTED,  
Secretary.

## LARSEN ADVANCE CONSTRUCTION REPORTS

Are issued every business day in the year covering all classes of construction work—work planned, bids wanted and contracts awarded. Send for sample copies. Larsen Advance Construction Reports, 818 Mission street, San Francisco, or phone Garfield 3140.

COASTEEL Buildings  
Are All Galvanized

TYPE A—Clear Span Type

TYPE M—Monitor Type

TYPE BMB—Low Crane Type with monitor

Type BAB Buildings also available

TYPE BCB—High Crane Type

Type M truss also available for center span

SAWTOOTH TYPE (ST)

MULTIPLE SPAN BUILDING

Type MM shown, type A trusses also available

## This Building will be Completed and Ready to Occupy Next Week

**B**ECAUSE it is a COASTEEL Standard Building, the building pictured above will be ready for use in that short length of time. All of the fabrication was done before the building was ordered—**COASTEEL Buildings are carried in stock**—and erection is just a matter of making simple connections.

Regardless of size or type of building, this fast service can be expected on any COASTEEL Standard Building. The engineering on the many different columns and trusses, girts and purlins is completed, as well as the fabrication of the various members that make up COASTEEL Buildings.

*Let us know your requirements  
We have a building to fit them*

## EXTENSIVE PAVING PROGRAM IS CONTEMPLATED FOR 1927

Reporting 1926 as the biggest year in the history of concrete highway building in Southern California, C. A. Low, director of sales for the Monolith Portland Cement Company, says figures compiled by the Portland Cement Association indicate an even greater program for 1927.

Paving contracts awarded up to the end of December show a total of 3,310,910 sq. yds. of concrete on roads, streets and alleys in this district, which is equivalent to about 473 miles of highway, 30 ft. wide, Mr. Low said. Petitions on file for new concrete highway construction, most of which will be awarded during 1927, show a total of approximately 16,000,000 sq. yds. or nearly 1000 miles of new concrete highway, 30 ft. wide.

About 9,500,000 sq. yds. of this total is covered by 1926 petitions while the balance is covered by petitions carried over from the two years previous, it was stated.

"We expect a considerable increase in our business during the coming year and are making plans to increase our production as fast as the demand dictates," Mr. Low declared. "Our plant at Monolith in the Tehachapis is now operating full blast on gas fuel supplied by the new Midway gas line from Quail Lake, and with our power facilities thus materially increased we are prepared to meet all demands for both standard and plastic waterproof monolith portland cement."

Lacquer Chemicals, Inc., capitalized at \$300,000, has been incorporated in San Francisco. Directors are: J. C. Meyerstein, L. B. Cook, F. P. Webster

## Wages Comprise From 30 To 45 Per Cent Of 1926 Building Cost

Building costs during the past year increased slightly. The "Engineering News-Record" index of construction costs in 1926 varied from a low of 204.8 in June to 210.8 in November against a low of 202.1 in September, 1925, and a high of 210.4 in January 1925. The average for the past 12 months approximated 207.8 while the average for 1925 was 206.7.

Prices of construction materials showed little variation throughout the past year. Average hardwood lumber prices held up well throughout the first six months but dropped during the last half of the year. The high was \$43.79, reached last February, and the low was reached in July when prices fell to \$39.95 per 1000 feet. Prices of hardwood during 1925 averaged \$41.88, with a high of \$44.36 in January and a low of \$40.16 in August.

Softwood prices held around \$30 a thousand feet throughout the past year weakening in the last month or two and making the average quotation for the year close to \$30.68 against \$30.73 for 1925. Cement prices remained unchanged during the first nine months of 1926, at \$1.65 a barrel. The average price for 1925 was \$1.73. The price of bricks at 82 yards during the past year varied only slightly from \$13.92, while the average price for the year 1925 was \$14.01 a 1000.

Union labor costs in the building trades rose more than 6 per cent during the last 12 months. Labor, which

in construction work comprises from 30 to 45 per cent of the total building cost, is always an important factor. During 1926 the supply of skilled workmen was just about sufficient to fill demands, while there was a slight surplus of unskilled labor. As the building industry is almost entirely manned by union workers it is interesting to note the rapid rise in union wage rates since 1913. Using 1913 as a basis the following table gives the index of union wage rates and includes all types of workmen engaged in construction activities:

1926.....	248	1919.....	145
1925.....	233	1918.....	126
1924.....	224	1917.....	113
1923.....	207	1916.....	106
1922.....	187	1915.....	103
1921.....	200	1914.....	102
1920.....	197	1913.....	100

From this table it is seen that union wage rates have increased 148 per cent since 1913 and also that there has been a steady increase in every year, with the sole exception of 1922.

Building material prices fell generally during the last month of 1926, as a result of the curtailment of construction, due to cold weather. The production of materials, however, and the stocks increased. Some forecasters believe that although material prices may weaken further in the first quarter of 1927, there are many indications that the coming year will be as satisfactory to producers as was 1926.

## DEATH OF FRESNO BUILDER PROMPTS RESOLUTION

In recognition of the work done by J. G. Martin, former president of the Fresno Builders' Exchange, and of the friendship felt for him by members of the building industry in that section, a resolution expressing the sorrow of the exchange members was passed at a meeting of the Board of Directors.

Martin died as the result of injuries sustained in an automobile wreck. He retired as president of the exchange several months ago, being succeeded by T. M. Robinson. Martin was for a long period manager of the Fresno Lumber Company.

The resolution follows:

"In the loss of our beloved brother and past president, Mr. Martin, our exchange has been deprived of one of its staunchest and most loyal members. The loss is heavy for us to bear, both as an organization and as individuals. Not one of us but has profited by his friendship. We all loved him and will truly miss and mourn him. We express our sorrow and also our sympathy with his family. This resolution shall be spread upon our records, and a copy thereof shall be made and sent to the family of our brother."

## BRINGING THE FORESTS TO MARKET

The probability that the forests of the future will be grown close to the markets is pointed out by the Department of Natural Resources of the Chamber of Commerce of the United States in a report on the development of commercial forestry.

A large part of the forest land from which a timber crop can be harvested lies in the populous East. "Within a 50-mile radius of Pittsburgh," says the report, "32 per cent of the land is forest land. Around Chattanooga, 63 per cent; Albany, 48 per cent; and about Springfield, Mass., 55 per cent. Even about Cincinnati, the center of a great and prosperous agricultural region, 14 per cent of the land area is forest land."

"In short, more than 70 per cent of the land of the United States best suited for timber growth lies east of the Great Plains. Nearly three-fourths of our future forest growth could be in this same region. Thus a relatively large percentage of our forests of the future will be within short distances of our large urban consuming centers."

B. N. Nelson, operating the Nelson Moulding Mill at Marysville, has opened a retail lumber yard in Eighth Street, near B Street, Marysville.

## Celotex Company Settles Problem Of Dealer Distribution

One of the outstanding issues at the tenth annual convention of the National Retail Lumber Dealers' Association, at New Orleans, was that of maximum distribution through the lumber retailer; and one of the conspicuous facts brought out in discussions was that the Celotex Company had assumed aggressive leadership in settling the issue in favor of the lumber merchant.

What stirred the delegates to applause was not that this concern had agreed to "go along" with the association in its efforts to commit manufacturers of lumber and related commodities to a policy of maximum distribution through the retailer. Rather, the enthusiasm resulted from the fact that the Celotex Company, without persuasion, had taken the initiative, had enlisted some of the most important lumber retailers in the country in a National Dealers' Council, and had voluntarily announced a policy that concedes what the retailers have been striving for years.

This issue became paramount in the very first session of the convention, in the opening address of President Fred L. Lowrie of Detroit. He reminded the members that maximum distribution was the first policy that had unified the opinions of dealers when the organization of the association was undertaken 10 years ago. He pointed out the unfairness of some manufacturers in expecting the retail lumber dealer to dispose of the bulk of their output while they were selling part of it to consumers direct; and he stated the policy of the national association — to be effected during the coming year through conferences with individual manufacturers — as obtaining "a correct declaration as to what their sales policy is, and to see if that policy is a consistent one."

"It is not in the province of the retail dealer to tell the manufacturer what his selling policy should be," Mr. Lowrie admitted, "but it is his right to know what that policy is and it is his individual duty to aid the manufacturer who is attempting to conserve the interests of the retail dealer."

After enunciating these principles, the association's leader continued:

"I believe no finer example of this principle can be found than in the case of the Celotex Company, which only last month organized a dealers' council comprised of reputable lumber dealers from various sections of the country, which council suggested and ratified definite policies as laid down by that company."

"The president and secretary of your association were invited to listen to this statement of merchandising policies of this company. Reading from one of the trade papers, I wish to quote verbatim: 'There are two things that stand out in our policies. One is that we intend to market Celotex through the retail lumbermen of the United States, and the other is that we intend that every dealer shall make a profit.'"

"The foresight of this company on such a move is certainly to be commended," was Mr. Lowrie's conclusion on this subject.

At other points in the convention sessions this subject was raised time and time again, and the Celotex policy was commended and, in effect, un-

officially approved by the convention. Maximum distribution through retail dealers was pleaded also by Arch C. Klumph of Cleveland. Following his address a strong resolution was passed in a closed session attended only by retailers, and the Celotex policy was found to have anticipated the terms of this resolution.

This concern's initiative in meeting the ideal of the retail lumber dealer was taken at the Drake Hotel, Chicago, on October 25. Some of the leading retailers from various regions had been invited to attend a conference to discuss proposed policies of the concern and, if such policies were consistent with the interests of the trade, to ratify them before they were generally announced.

Charles Baker, Worcester, Mass.; Hiram Blauvelt, Hackensack, N. J.; J. H. Galliher, Washington, D. C.; F. M. Hartley, Baldwin, Kans.; C. Hortman, New Orleans, La.; Fred H. Ludwig, Reading, Pa.; N. C. Mather, Chicago, and A. M. Melone, Minneapolis, Minn., responded to this invitation. Mr. Lowrie and Secretary-Manager Adolph Pfund of the national association, also attended, although not as members of the dealers' council.

E. G. Dahlberg, president of the Celotex Company, opened the conference by stating:

"The main thought back of this meeting is the idea that we can do business in the future with increasing profit to ourselves and with increasing profit to the dealers to whom and through whom we sell. We are earnest in our desire to shape our policies, and change them if that becomes necessary, so that our dealers will be able to conduct their Celotex business without friction and dissatisfaction. If there are points of friction at present, we want to eliminate them, so as to make Celotex move more rapidly in larger quantity and with more profit to the dealer."

"We all believe, in the Celotex Company, that we can succeed best if we so conduct our business that our customers will profit. Therefore we are desirous to shape our program, conduct our advertising—our presentation of our material to the public—so as to establish prices and terms that will mean the greatest consumption of our material and the greatest profit to the dealer."

"Up to this time, we have conferred much with individual dealers. This meeting is an effort to establish some sort of a channel through which we can best find the needs, as applied to Celotex, of the dealers. We also want to learn what assistance, if any, we can give to the dealers. I do not think I am saying anything unkind or untrue, when I remark that unfortunately most lumber dealers are not good merchandisers. That is why you have associations. That is why you get together and discuss. 'How can we make our fellows merchants instead of mere order-takers?' The Celotex Company wishes, if possible, to contribute toward a solution of that problem."

Following this expression of the company's goodwill toward the lumber trade, of its earnest desire to lay all its cards on the table and submit to the criticisms and suggestions of the trade, there was a full discussion of every phase of Celotex. Until late at

night, the conferees talked over the product itself, its excellent qualities as an insulator, its acceptance for standard building purposes, the development of new uses for it by which the dealers may sustain their business during periods of limited new building activity, what the company is doing through its laboratories and its scientific and operating facilities to improve the product.

Advertising and sales promotion policies were talked over in detail. It was announced that the Celotex Company plans to spend \$1,000,000 for advertising in 1927, and the representative dealers present were asked how they thought this fund should be used. National advertising, the use of space in association magazines, the policy of the company in "matching dollars" with dealers in local advertising campaigns—such things as these were talked over fully and frankly. The dealers brought up their problems in educating their sales forces, and C. E. Stedman, vice president of the Celotex Company, made suggestions for co-operation which met with the approval of the dealers.

In short, every policy contemplated by the concern was laid down and threshed out. At the conclusion, the dealers present agreed to serve, with certain others who could not attend, as charter members of the National Celotex Dealers' Council. They ratified the general sales policy of the concern on maximum distribution through dealers, as quoted by Mr. Lowrie, and they approved the following statement of the purposes of the council:

"The objects of the National Celotex Dealers' Council as approved at its first meeting are:

- "1. To promote home ownership.
- "2. To encourage higher standards of residence construction.
- "3. To suggest improved methods of merchandising for retail lumber yards.
- "4. To recommend methods by which the organization of the Celotex Company may be best employed for the purposes above stated.

"5. To counsel with the Celotex Company in establishing dealer relations that will safeguard the effective accomplishment of these purposes."

Since this conference at Chicago, additional members have been added to the council. These include L. P. Lewin of Cincinnati and J. A. Mahlstadt of New Rochelle, N. Y. Other retail lumber merchants will be added from time to time.

This is the first time in the history of the retail lumber business that a manufacturer has taken such a step to give the dealer a vote in the conduct of his business. In doing so, the Celotex Company not only has enunciated a policy on maximum distribution through the retailer which it is believed will cause other manufacturers to follow in the same direction, but it has set up the machinery whereby responsible members of the trade may see that that policy is carried out with scrupulous consistency.

It is because, by so doing, the Celotex Company voluntarily took this step in advance of other manufacturers in the industry that its policies commanded so much enthusiasm at the New Orleans convention.

# ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

## CONTRA COSTA AND SANTA CLARA COUNTIES ADOPT WAGE SCALE

Pay increases ranging from 50 cents to \$2 daily will be granted Santa Clara County building trade workers under the American plan, the directors of the Industrial Association of County have voted.

The new scale, to be effective April 1, is the same as the one recently voted by the Impartial Wage Board in San Francisco for 1927.

Because \$75,000 in millwork and any unfinished buildings were contracted under the former scale, it was declared impractical to place the new scale in effect immediately, and April was selected as the operative date. **Contra Costa County Votes Wage Awards**

The Contra Costa County Builders' Exchange, with headquarters at Richmond, has also voted to accept the scale set by the Impartial Wage Board. A resolution adopted by the change in accepting the scale follows:

"Resolved that the Builders' Exchange of Contra Costa County recommends the acceptance, by the various crafts, of the Builders' Exchange, of the award of the Impartial Wage Board, published December 10, and further recommends that any adjustment necessary be made for the protection of contract work based on the previous schedule, be a matter of agreement between individual employer and employee."

## REINFORCING STEEL INSTITUTE ANNOUNCES ACTIVITIES

The preparation of a book of standard specifications for reinforced concrete construction, supplemented by information as to standard sizes of bars, and proper placing of reinforcement, is to be undertaken by the Concrete Reinforcing Steel Institute, as a result of recommendations adopted by its directors. An engineer is to be appointed also to study methods of placing and placing reinforcing bars in order to prepare specifications for such work. Plans are being made for a meeting of manufacturers, distributors and users of bars to decide upon some uniform grade of steel for bars. Other activities are a study of engineering costs and an attempt to check the use of imported bars. The annual meeting will be held at White Sulphur Springs, W. Va., on March 21 to 23.

## SACRAMENTO ARCHITECTS' CLUB ELECTS OFFICERS

Arthur H. Memmler was elected president of the Architects and Engineers Club of Sacramento at the annual organization meeting held Jan. 10. The retiring president is C. H. Krohn. Other officers named at the meeting were: Jens Peterson, vice-president; Earl L. Holman, secretary; Harry De Haven, treasurer, and F. W. K. C. W. Kromer and T. P. Poage, members of the board of directors. Plans for a banquet of club members during February, at a date to be later, were discussed.

## S. F. IS AWARDED CONCRETE PIPE CONVENTION

Accepting the invitation of Mayor James Rolph, Jr., and half a dozen civic organizations, the California Associated Concrete Pipe Manufacturers, in session at Bakersfield, Jan. 8, voted to hold the annual midsummer convention in San Francisco, July 15 and 16.

"It will be our first gathering in the bay district and is expected to prove one of the biggest on record," declared J. Fred Holthouse, president.

"Co-operating with the San Francisco Convention and Tourist League, we will attempt to bring the Northwest Association of Concrete Pipe Manufacturers' annual convention to California at the same time for a huge joint San Francisco gathering."

Other officers of the state association are J. S. Wallace, vice-president, of Shafter; F. E. Twining, treasurer, of Fresno; Milo B. Williams, consulting engineer, of San Francisco, and H. W. Chutter, secretary, of Selma.

## SOCIETY OF ENGINEERS ELECT OFFICERS FOR YEAR

The Society of Engineers of the San Francisco Bay District at its regular monthly meeting in the Blue Room of the Palace Hotel, January 11, elected the following officers to serve for the ensuing year: Geo. E. Tonney, president; John Wallace, vice-president; W. G. Rawles, treasurer; Albert J. Capron, secretary. The Board of Directors consist of H. H. Ferrebee; Geo. H. Geisler; Louis F. Leuery; R. C. Briggs and R. G. Green. The year 1926 closes the first year of the Society of Engineers which prior to January, 1926, was a chapter of the American Association of Engineers. The past year, according to A. E. Zimmerman, secretary of the Public Affairs Committee of the Society, was a successful one and the officers have been commended for the wonderful progress made in the advancement of the engineering profession.

## IRON AND STEEL MEET SET

The third annual conference of the Iron, Steel and Allied Industries of California will convene for a two days' session at Del Monte, January 21. The meeting will be under the auspices of the California Development Association, in co-operation with the chambers of commerce of Los Angeles, San Francisco and Oakland. Issues vital to the future development of the industry will be considered and working plans for 1927 will be formulated, according to Maynard McFie, chairman of the conference. The traffic committee is scheduled to report on plans for extending present marketing territory.

## SACRAMENTO BUILDERS TO HOLD GENERAL MEETING

A general meeting and election of a board of directors is announced by the Builders' Institute of Sacramento, for January 31, 8 P. M. Door prizes and refreshments will be features of the meeting.

## BUILDERS' NATIONAL ASSOCIATION TO CONVENE AT WASHINGTON

The Sixteenth Annual Convention of the National Association of Builders' Exchanges will be held at Washington, D. C., February 22-24. Sessions will be held at the Hotel Raleigh, opening with the usual banquet on Wednesday evening, February 23.

Addresses on subjects of interest have been provided for. Reports of committees on taxation, cost data, standard documents, industrial education, reforestation, legislation, ways and means, quantity survey, finance, accident prevention and Central Committee Division of Building and Housing will be considered.

Secretaries of non-affiliated exchanges are welcome to the sessions.

## HEATING CONTRACTORS IN EAST BAY ORGANIZE

Organization of the Furnace Dealers Association of Northern California was perfected at a recent meeting in Oakland. The organization will seek to raise the morale of the heating industry and to promote co-operation between the gas companies, manufacturers, retailers and consumers of warm air equipment. Organizers include: S. W. Terry John Rayles, W. H. Spencer all of Oakland, Walter Morck of Berkeley and Frank L. Pollard of Piedmont.

## PLASTERERS' ASSOCIATION ELECTS

The Contracting Plasterers' Association of Southern California has elected the following officers to serve the ensuing year: President, Fred Young; vice-president, Rudolf Leibold; treasurer, J. N. Ritchie; trustees, Bert Johansen, L. R. Anderson and S. W. Rawson. D. R. Wadle was elected secretary to succeed R. W. Stratford, resigned.

Pacific Rolling Mill Co. of San Francisco has established a sales office in Los Angeles to handle Southern California business, under the direction of John L. Brickels. The company specializes in structural steel and travelling cranes. Temporary offices have been opened at 208-215 Chamber of Commerce Bldg.

## AIR-SPRAY PAINTING

In a recent lecture on air-spray painting, delivered before the Junior Institution of Engineers of Great Britain, F. E. Webb, according to The Engineer, London, said that, from the preservation point of view, the application of paint by means of a brush did not attain its object as well as paint sprayed on under pressure. The brush merely gives a surface coating, while the air spray method causes the paint to penetrate into the pores of both wood and mild steel—as has been determined by microscopic examination—and to get into crevices and difficult corners not easily reached by brush. Other advantages claimed by Mr. Webb for air-spray painting were ease and rapidity of execution, and a far more perfect surface than that obtainable by the brush method.

# LOS ANGELES BUILDING IN 1926 TOTALS \$123,006,215

Los Angeles building operations for 1926 represent an expenditure of \$123,006,215. During the year 37,478 permits were issued as compared with \$152,646,436 during the year 1925 when 43,979 permits were issued.

During the year 1926 permits were issued for 78 Class A buildings estimated to cost \$22,608,670, as compared with 111 estimated to cost \$34,806,845 built in 1925.

Class B structures started in 1926 numbered 35 with an estimated valuation of \$5,300,255, as compared with 16 buildings estimated to cost \$2,470,979 erected in 1925.

Permits were issued for 670 Class C buildings estimated to cost \$13,733,061 in 1926, while 869 buildings costing \$20,535,380 were built the previous year.

Class D all-frame buildings started in 1926 numbered 24,434 and were estimated to cost \$57,754,166. In the preceding year 29,504 buildings of the same type costing \$67,477,627 were erected.

Permits were issued during 1926 for other types of construction and alterations and additions estimated to cost \$23,618,063, as compared with \$27,355,605 spent for the same classes of construction in 1925.

During the year 1926 permits were issued for 11,194 dwellings estimated to cost \$45,007,959. Of these 1195 were double dwellings estimated to cost \$7,085,794. Next to dwellings apartment houses accounted for the largest part of the year's building activities. Permits were issued for 495 apartment houses estimated to cost \$19,126,251.

Mercantile buildings made up the third group in point of valuation, 533 such structures estimated to cost \$8,941,136 being started. Seventy-seven school buildings estimated to cost \$6,739,826 were next in the list. Only three large office buildings were started during the year, but permits were issued for 101 office buildings, large and small estimated to cost \$2,773,766. Seventeen theatre buildings called for an expenditure of \$3,459,000.

Industrial projects include 58 factories estimated to cost \$824,650; 108 industrial buildings estimated to cost \$1,432,145; 34 motion picture studio buildings estimated to cost \$838,350; 82 workshops estimated to cost \$360,620, and 86 warehouses estimated to cost \$1,204,138.

The December 1926, total was the largest of the year since July. A total of 2678 permits with an estimated valuation of \$10,089,871 were issued. For November the number of permits was 2943 and the estimated valuation was \$8,688,255, while for December last year the number of permits was 2943 and the estimated valuation was \$16,810,677. December furnished the peak total for 1926. July was the peak month of 1926 with a total of \$14,126,776.

## BUSINESS OPPORTUNITY

A selling agency is wanted by a Los Angeles concern for the sale of all kinds of building materials, desiring to feature however, steel construction, ornamental iron and bronze work; also furniture. The concern will undertake the agency for any building material or equipment that does not require too much technical knowledge of the line. The name of this firm will be furnished on request to Larsen Advance Construction Reports, 818 Mission Street, San Francisco. (Phone Garfield 3140)

# Pacific Coast Building During Year 1926 Shows Decline

**Building Operations in Pacific Coast States During 1926, With 92 Cities Reporting, Show a Reduction of Eight Per Cent as Compared With Activities of 1925. Slowing Down of Operations Tends to Stabilize Conditions. Ninety-two Cities Report Total of \$495,690,882 as Compared With \$541,202,111 in 1925**

A grand total of \$495,690,882 in building permits issued in 92 cities of the Pacific Coast area during 1926, reflects a reduction of 8% in the building program of the year just closed from the activity of 1925, according to an analysis of figures reported by building department executives in the National Monthly Building Survey of S. W. Straus & Co.

The cities of British Columbia, Washington, Nevada and Idaho, as a whole, and many individual cities of the other Far West States show marked gains for the year, and an analysis of the reports indicates that the reductions are evidenced in cities where an unhealthy overproduction of floor space and housing was threatened by the unprecedented building activity of 1925.

This slowing down of building operations, although comparatively slight, has been sufficient, according to reports from various quarters, to stabilize conditions and maintain a satisfactory market and ratio of occupancy. It is, therefore, accounted a very wise policy on the part of builders and those who finance building operations.

In California, 56 cities issued \$358,702,904 in building permits during the year, 12% less than in 1925. The December reports from these cities reflect a 20% reduction from the December total of 1925.

In Oregon, seven cities issued \$40,827,158 building permits during 1926, 13% less than for 1925, and the December total is 14% below the comparable figures of the year before.

Los Angeles, with a 1926 total of \$123,006,215 in building permits issued, reports a reduction of 19% from the previous year's record and a December figure 39% below that of 1925.

San Francisco gained 15% over the previous year with a 1926 total of \$57,953,948 in building permits issued despite the influence of a carpenters' strike which was in operation for many months. It is the greatest annual total San Francisco has ever recorded. The December total is 56% above that of a year ago.

Oakland, issuing \$28,075,295 in building permits during the year, shows a 28% reduction from the 1925 record and the December figure is 52% below that of December, 1925.

Portland's 1926 total of \$32,588,875 in building permits issued is 15% below the high record volume of 1925 and the December figures show a decline of 13% from the activity of December, 1925.

Seattle, issuing \$34,207,700 in building permits for the year, established a new high record for annual building program, 11% above that of 1925. The December figure is 249% above that of last December.

Sacramento shows a 31% reduction in building permits for the year with an annual total of \$7,722,581 and a December figure 63% below that of last year.

San Jose, issuing \$4,377,020 in building permits during 1926, reports a 9% reduction from the 1925 total. The December total is 91% below that of a year ago.

Long Beach, with a 1926 total of \$8,619,720 in new construction authorized, reports a 54% reduction from the 1925 total. The December figure is 1% above that of a year ago.

Santa Monica, issuing \$7,472,417 in building permits during 1926, shows a 45% gain over 1925. The December figure shows a 44% reduction from that of a year ago.

Of the 13 cities of the San Francisco Bay area, six show increases in the year's building and of the 15 cities of the Los Angeles metropolitan area 11 show increases.

Builders and those who finance building operations and realtors who market new homes and handle the rentals of commercial properties, consider that the reduction in building during 1926, if carried on for a few months into 1927 in those cities where overproduction has seemed threatened, will effectually stabilize conditions so that during the latter part of the year operations may be resumed on the active basis of 1925.

The following table gives the number and construction cost volume of building permits issued in various cities of the Pacific Coast area during 1926, the cost volume for 1925 and the cost volume for December, 1926, and December, 1925, as these figures are reported by building dept. executives

## CALIFORNIA

California		December, 1926	December, 1925	No.	Cost	Year 1926	Year 1925
City		1926	1925

\*Hollywood figures are included in the Los Angeles totals.

\*\*Figures not received in time to be included in tabulations.

owning twenty plants in the United States and marketing their product in thirty-one states, Hawaiian Islands and Mexico. The company started in 1885 with a single four kiln unit of about 10,000 tons capacity and now has an annual production capacity of over 500,000 tons, the equivalent of more than thirty-three thousand carloads, and a net physical worth of over \$12,000,000.

Although the Middlewestern and Southern plants are devoted mainly to the manufacture of vitrified sewer pipe and culverts, they turn out a large annual production of segment sewer blocks, hollow building tile, wall coping, silo blocks, fire brick and flue linings. The California plants, now known as the W. S. Dickey Clay Manufacturing Company, Pacific Coast Branch, will continue to specialize in the production of Dickey Mastertile, partition tile, face brick, fire brick, paving blocks and the kindred products for which they are so widely known.

There will be on change in the policy or personnel and management that have heretofore conducted the local plants.

Mr. N. A. Dickey will continue in executive charge of the plants as manager.

#### UNIFORM PUMP CONTRACT IS READY FOR ADOPTION

The uniform contract for purchase of deep well pumps, drawn up by the California Committee on the Relation of Electricity to Agriculture, has been approved as to form by the University of California, adopted by the manufacturers and salesmen and is to be ratified soon at the meeting of the farmers of the state. It is hoped, through the use of this contract, to eliminate the friction that has existed between makers and users of deep well pumps.

The California Committee on the Relation of Electricity to Agriculture is headed by Professor L. J. Fletcher, head of the Agricultural Engineering Division of the University of California, as chairman. B. D. Moses of the same division is executive secretary, and C. L. Cory, dean of the College of Mechanics at Berkeley, is a member. The manufacturers' organizations that have adopted the contract are the Western Irrigation Equipment Association and the Pacific Hydraulic Engineering Association. The agreement is satisfactory to Alex Johnson, secretary of the California Farm Bureau Federation, and to J. J. Deuel of the law and utilities department of that organization, and they will present it to the federation for adoption.

Under the terms of the contract, the terms of sale and delivery are made uniform, the guarantee of performance is made in terms that are understandable, the obligations of the manufacturer and the purchaser are clearly defined, protects the manufacturer against a change in the water table and provides for a test in case of dispute. Under this contract, the manufacturer is obligated to ascertain the condition and flow of the well and to deliver a pump that will perform the duty desired by the farmer. If the farmer thinks the pump is not as represented, he may call for a test with an official referee, and the losing party pays the expenses of the test.

It is believed by all the organizations concerned in the new contract that it will eliminate many, if not all, of the misunderstandings that have caused trouble in the past in the sale and purchase of irrigation pumps.

## Dickey Clay Manufacturing Takes Over Two Local Plants

On January 1 the W. S. Dickey Clay Manufacturing Company, with general offices in Kansas City, Mo., took over two of Northern California's largest manufacturers of burned clay products. The two local concerns succeeded by the Eastern corporation are

the California Brick Company with a plant at Niles and the Livermore Fire Brick Works, Inc., with a plant at Livermore.

The W. S. Dickey Clay Manufacturing Company is the world's largest manufacturer of burned clay products, now

# THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Southern California Edison Company has filed with the State Railroad Commission its budget of expenditures for improvements and betterments for the year 1927, as follows: Big Creek construction, \$12,400,000; Vincent Transmission Line and Connections from Big Creek to Los Angeles, \$2,676,000; construction of steam plant at Long Beach, \$4,280,000; 220 KV transmission line from Laguna Bell Sub-station to steam plant at Long Beach, \$1,175,000; Light-pipe Sub-station near Long Beach, \$2,400,000; additions to Laguna Bell Sub-station, \$900,000; purchase of rights-of-way, \$3,000,000; civil engineering department contingencies, \$50,000 and miscellaneous system betterments, \$16,000,000. The program involves an expenditure of \$42,881,000.

The suit of Simon M. Collins against directors of the defunct Monterey Sand and Gravel Co. has resumed in the superior court at Salinas. The suit opened in October last, when, after taking testimony of a number of witnesses, it was continued. The concern was incorporated in May, 1924, and went out of business in April, 1925. Collins, as owner of 975 shares of the company's stock, demands an accounting in his suit, appointment of a receiver, and division of the assets, which, he declares, consist of \$6000 cash and the property valued at \$55,000.

Measured by sales and shipments of lumber reported to the National Lumber Manufacturers' Association by about 500 of the leading lumber mills of the country, 1926 was among the big years of the industry, and possibly the largest since pre-war days. Both orders and shipments of softwood mills were slightly higher than in 1925, while production was about the same. Shipments and orders of hardwood mills exceeded production. The country's total output for the year is estimated at between 36,000,000,000 and 37,000,000,000 feet.

Between 45,000,000 and 50,000,000 trees of many varieties have been planted in California since the reforestation movement was started several years ago. This is according to the first compilation of artificial replantings completed by State Forester M. B. Pratt. The figures do not include trees planted for ornamental or shade purposes, but only for forest timber. The total area sown in this manner is approximately 47,241 acres.

Paul Scharrenberg of San Francisco, secretary of the California State Federation of Labor, is reported to be favorably considered for appointment by Governor Young as a member of the State Board of Harbor Commissioners. Scharrenberg was a member of the State Immigration and Housing Commission for more than ten years.

Iron Age calculates that world steel production in 1926 marked up a new record at 89,514,700 tons, compared with the 1925 output of 87,190,500 tons. The United States was the largest producer with about 48,250,000 tons, or 54 per cent.

J. H. Tillman Company of Santa Barbara, bidding \$407,974, has been awarded a contract by the Santa Cruz city council to construct the city's new sewer and outfall system. Schultz Construction Company of San Francisco, original low bidder on the project, were permitted to withdraw bid due to an error in the compilation of its bid.

Fred L. Baker, 61, founder and president of the Baker Iron Works of Los Angeles, died in that city Jan. 9 from a heart ailment after a lingering illness. Mr. Baker was one of the organizers of the Los Angeles chamber of commerce, the Automobile Club of Southern California and the Founders and Employers Association of Los Angeles.

American Window Glass Co., Pittsburgh, Pa., has reduced prices in all territories except the Pacific Coast. Reductions average 18.2% on B quality, single strength, and 13.9% on B quality, double strength glass, compared with October 25, 1925, quotations. Libby Owens Sheet Glass Co. and Interstate Glass Co. followed the price cut.

Withdrawal of timber lands in California, Oregon, Nevada and Washington from sale under existing timber and stone disposal regulations is provided in a bill introduced by Representative Sinnott of Oregon. The measure was introduced by departmental request.

## ALONG the LINE

John Stafford, for several years a representative of Geo. C. Sellon and Company, architects and engineers, of Sacramento, has severed his connection with that firm and joined the firm of Coffman and Sahlberg as a partner. The new firm will do business under the name of Coffman, Sahlberg and Stafford, architects and engineers, with offices in the Forum Building, Sacramento.

Governor Fred B. Balzer of Nevada proposes to recommend consolidation of the offices of the state engineer and the state highway engineer at the next session of the Legislature, according to reports from Carson City. The proposal is favored by Republican leaders as one of the economy measures promised the taxpayers. Geo. C. Borden, state highway engineer, will be offered the consolidated office, it is reported.

Edward L. Mayberry, architect and engineer of Los Angeles, has been employed by the city trustees of Calexico to supervise the reconstruction of buildings in that city damaged by the earthquake of January 1.

Mark T. Jorgensen, architect, has moved his offices from 321 Bush St. to 742 Market St., San Francisco.

The Galt Junior High School District of Sacramento County, has been made defendant in a suit for \$1260 by the Davis-Heller-Pearce Company of Stockton for architectural services. The architects claim they were employed in September, 1924, for service in the erection of a high school and that in September last year their services were terminated "without cause."

Ralph P. Bull of Eureka has been named a member of the California State Highway Commission by Governor Young. J. P. Baumgartner of Santa Ana has also been named a member of the commission. L. P. Everding will remain temporarily as a member of the road body.

Elmer Schaniel, who has been secretary-manager of the Orange County Branch of the Builders' Exchange of Los Angeles, has resigned to accept a position in the county clerk's office. Gene Douglas of Santa Ana has been appointed his successor.

L. R. Robinson has been appointed superintendent of the Yuba City Municipal Water Works plant, succeeding E. J. White.

## TRADE NOTES

Sale of the Western Lumber Company, 217 Twelfth Street, Sacramento, by E. S. Carpenter, for the past five years owner of the concern, to H. C. Ferguson and F. D. Butler, is announced. Ferguson, for the past two years, was manager of the Tilden Lumber and Mill Company of Sacramento and Butler, for the past eighteen months manager of the Swayne Lumber Company at Oroville. The sale was closed January 1.

Doubling the capital stock issue of the Sugar Pine Lumber Co., operating a large mill at Pinedale, Fresno Co., a certificate authorizing an increase from \$2,500,000 to \$5,000,000 has been filed with the county clerk at Fresno. The former stock issue was divided into 25,000 shares of \$100 par value while the new issue will consist of 40,000 shares of common stock and 10,000 shares of preferred, having the same par value.

Harold C. Haglund, former sales manager for the Truscon Steel Company in Oakland, has opened offices in the Builders' Exchange Building, Oakland, and will engage in the quantity survey business. He will also act as a representative in the East Bay section for the Badt-Falk Company in the sale of reinforcing steel.

H & H Roofing Company, formerly the Western Roofing Company, has moved from 2615 Bush street to larger quarters at 2734 Army street, San Francisco. Increased business necessitated the removal to larger quarters for offices, warehouse and estimating rooms. New phone number is Mission 2986.

Summer Time Heating Company of San Francisco has been incorporated with the following directors: Thomas Castberg, F. A. Helfrecht, Joseph Schoenfeld, H. E. Kennedy and W. S. Graham. The company is capitalized for \$200,000.

Plumbers Supply Company of Oakland has been incorporated with a capital stock of \$50,000. Directors are: Harry N. Haynes, Harold R. Johnson, Cedric W. Petersen, all of Oakland, B. H. Hecklin of San Francisco and Martin B. Reed of Berkeley.

Sierra Lime Company of Sacramento has been incorporated with a capital stock of \$100,000 and will engage in the lime products and mine rock and marble business. Directors are: Allen F. Grant, J. F. Dunasky and Chas. J. Eastman.

Plant of Reno Pressed Brick Company at Reno, Nev., suffered a \$15,000 fire loss Jan. 9. Police and fire department officials believe the blaze due to "firebugs."

Robert Lee Osborne and Norman F. Hindson will operate in San Francisco under the trade name of Ward Heating Company with headquarters at 1228 Twentieth Avenue.

and F. R. Stewart.

Ajax Construction Co., of San Francisco, capitalized at \$25,000, has been incorporated with the following directors: F. A. Dailey, M. J. Dailey and Marion Veckl.

#### R. R. EXTENSION PROPOSED

Oregon Trunk Railway, owned by the Great Northern and Northern Pacific Railways, has filed application with the Interstate Commerce Commission for authority to extend its line from Bend to Klamath Falls, Oregon.

#### MATERIAL ENTERING STEEL COLUMNS AFFECT STRENGTH

Results of tests recently completed on full-sized steel columns at the Bureau of Standards, Department of Commerce, show that under present specifications differences in the physical properties of the material entering into sturdy columns produce greater variation in the column strength than all the differences in type of construction.

This work was conducted in co-operation with the American Bridge Company and the Bethlehem Steel Company. These firms furnished more than 130 tons of steel meeting specifications under which structural steel is usually purchased. This was fabricated into 69 columns having H-shaped sections and of five different types of construction. The finished columns were tested to destruction in the 10,000,000-pound testing machine of the bureau. Likewise, over 1000 test specimens were cut from the columns and subjected to chemical analysis and physical tests to determine as accurately as possible the properties of the steel from which the columns were made. All of the material met the specifications under which it was furnished, but differed greatly in tensile yield point.

Although much work has already been done on columns, the subject of column strength and method of design, especially in large sizes, is still a matter for so much discussion that the additional data which these tests have furnished will be of great value to engineers.

This work is fully described in Technologic Paper No. 323, copies of which may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 40 cents each.

## Bright Business Outlook Is Viewed From All Sides

As each year draws to a close there is always more or less speculation as to what the new year will bring forth. Probably no one man is in a better position to view the future of business in America than Secretary Herbert Hoover. After talking with leading men in all lines of industry in every part of this country, Secretary Hoover says: "I see nothing on the horizon that should interfere with continued prosperous business conditions. Railroad earnings continue to grow in volume, bank clearings and other financial statistics reveal large totals and general sentiment seems to forecast sustained commercial activity."

The F. W. Dodge Company, which studies the construction market closely sums up its picture of 1927 as follows: "The stability in the volume of contract letting that this year's record has shown is quite reassuring as to next year's prospect. While the outlook at present appears to be for some slackening in contracts, it is now doubtful if there will be a very large decrease in contract volume in 1927. Some observers even anticipate an increase, although this is scarcely indicated by the statistical record to date or by current conditions in building and general business."

Col. Leonard P. Ayres, vice President of the Cleveland Trust Company and

nationally known statistician has the following to say in regard to construction industry outlook and industry in general: "The volume of new building construction will probably be somewhat restricted, but the decline if it appears, is not likely to be serious. The costs of building may decline a little. In general industry also, wage rates are more likely to hold firm than to advance much or recede far. It is probable that employment will be fairly good, without much involuntary idleness, but also without competition for labor.

"If most of the developments that have been suggested become realities in the new year it is likely that the trend of interest rates will continue to be a gradually declining one, and if that happens bond prices will probably continue to rise. On the stock exchange the movements of quotations may be expected to be vigorous and even violent, but selectively so. It is not likely that any real and sustained bear movement will develop. In general the prospects are for a good business year in 1927, but possibly for a somewhat quieter one than 1926 has been. It promises to be a year of keen competition and close buying. No serious recession in business is in prospect. The outlook is for restrained good times rather than for speculative prosperity."

## Conditions In Ornamental Iron Business In Los Angeles Surveyed

Recently the Ornamental Iron Manufacturers Association of Southern California made an exhaustive study of the conditions in the manufacture of miscellaneous iron products in Los Angeles. The committee report, as presented to the official body and circulated as a bulletin throughout the construction field follows:

"For a long time past there has been a strong feeling among those engaged in the manufacture of ornamental and miscellaneous iron work that the business is in an unsatisfactory and unhealthy condition, and in order to discover the reason, or reasons, for this, your Board of Directors has ordered an exhaustive survey and study of the various phases of the business, to find, if possible, a means of correction.

"This survey has been made, covering practically every shop in the Los Angeles district, (a total of 80), and the conclusion has been reached that the outstanding feature of the trouble is the fact that the combined capacity of these shops is too far in excess of the amount of work available, or that is likely to be available for a long time to come.

"The following statement shows an investment of nearly \$3,000,000, a capacity of nearly \$14,000,000, an annual average output of slightly over \$8,000,000, and a cost of almost the latter amount, leaving a profit, or rather an assumed profit, of a little less than \$140,000.

"That may be enough profit on the

\$3,000,000 invested if it were put in Government Bonds, without any risk, but it certainly is not enough for taking the risks of the ornamental iron business, and doing a total volume of over \$8,000,000. Even the small margin of profit is likely to be dissipated if the amount of available business lets up, as now seems to be extremely probable.

"The net results of the survey follows:

Amount of capital invested..	\$ 2,868,000	
Total normal annual capacity	13,682,000	
Amount of work needed to break even (no profit) ..	7,545,000	
Average annual output.....	8,047,000	
Annual total cost		
of labor.....	\$2,725,000	
Annual total cost		
of material ...	2,450,000	
Annual total other expenditures ..	2,735,000	7,908,000
Balance (presumably profit) ..	\$	139,000

Frank J. Rossi, deputy engineer of the city of Modesto since 1919, has been named city engineer of Modesto, succeeding F. W. McCarton, who resigned due to sickness. The appointment is effective Jan. 1. Before going to Modesto Mr. Rossi was connected with the engineering department of the city of Richmond. He served overseas with the 319th Engineers Corps, 8th division, being in the service for about 15 months. Mr. Rossi is president of the Modesto Chapter, American Association of Engineers.

base, San Diego.

## PRATT'S CONCRETE MIX

by Clarence  
Sand Pratt

WE ALL received millions.  
OF NECKTIES for Christmas.  
SOME WERE pretty.  
AND SOME harmonized only.  
WITH A crazy quilt.  
IF YOU don't believe Sandy.  
WALK DOWN the street.  
AND ACT as "necktie inspector."  
BUT WE have to wear.  
OUR CRAZY quilt-like ties.  
BECAUSE OUR wife.  
OR OUR sweetheart.  
OR A rich aunt or uncle.  
GAVE THEM to us.  
CLARENCE (SANDY) Pratt, president.  
OF THE Pratt Building Material Co.  
CENTRAL OFFICE—San Francisco.  
IS ONE of the victims.  
OF THIS Yuletide indoor sport.  
AND WHILE Sandy Pratt, producer.  
OF CLEAN, sharp sand.  
AND CLEAN, hard gravel.  
AND CLEAN, crushed rock.  
AT SACRAMENTO, Marysville.  
PRATTROCK (NEAR Folsom).  
MAYHEW (SACRAMENTO County).

AND PRATTCO (Monterey County).  
LOVES ALL his relatives.  
BOTH RICH and poor.  
SANDY RECEIVED some neckties.  
THAT WOULD look peculiar.  
EVEN ON a person.  
LIVING IN an insane asylum.  
BUT POOR Sandy has.  
TO WEAR these peculiar ties.  
AND SAY, "I thank you."

B. A. SANDAB, jelly fish husband  
the former society belle and soc-  
leader of the upper 400, MRS. U.  
ROCKCANDY, "viewing" one of  
crazy quilt-like Xmas ties. Why did  
they give him a sand colored tie?

**SAN FRANCISCO**—Bids will be asked shortly by U. S. Engineer, Custom-house, to furnish stone for Humboldt Harbor and Bay project. Further mention will be made of this work.

# Architects — Engineers City and County Officials

## How about bids wanted?

Are you satisfied with the bids you received on that last job?

Did you have competition—and plenty of it?  
If not—why not?

---

Without charge the BUILDING & ENGINEERING NEWS will place your job before the construction interests of the Pacific Coast. That means competition and—competition means the lowest possible bid.

If you want competition send particulars of your job to BUILDING & ENGINEERING NEWS—also a set of plans and specifications.

Reach the *Independent Bidder* through the columns  
of BUILDING & ENGINEERING NEWS

The combined news services of BUILDING & ENGINEERING NEWS have a circulation of

3 3 4 0

—reaching the Engineer, Contractor and Material Dealer.

---

Can you reach one quarter the amount of interested people through any other news service published in this section? We think not—in fact, we know you cannot.

---

If you want *competition*—if you want *independent* contractors to figure your job—if you want the *lowest possible bid*—send particulars of your project to

# Official Proposals

## NOTICE TO CONTRACTORS

(Kern County—Machine and Blacksmith Shop)

Notice is hereby given that sealed bids will be received by the Clerk of the Board of Supervisors of the County of Kern, State of California, up to 11 A. M., of Monday, January 31, 1927, for the furnishing of labor and materials for the erection complete of an administration building, machine shop and blacksmith shop at the yards of the 4th Road District at Taft, California, in accordance with plans and specifications prepared by Charles H. Biggar, Architect, 405 Bank of Italy Building, Bakersfield, California.

Plans and specifications for same may be obtained at the office of the Architect upon deposit of Ten Dollars (\$10.00) which will be returned upon receipt of the said plans and specifications in good order at the time designated by the Architect.

Bids forms will be furnished by the Architect.

A certified check or bidder's bond in the amount of ten per cent of amount bid to be to the order of the Clerk of the Board of Supervisors as evidence of good faith, and that the bidder, if successful, will enter into a contract satisfactory to said Board of Supervisors, and in addition thereto will furnish good and sufficient bonds therefor.

Board reserves the right to reject any and all bids not deemed advantageous to the County and to waive any informality in any bid received.

By order of the Board of Supervisors of the County of Kern, State of California, adopted January 3rd, 1927.

F. E. SMITH,

County Clerk and ex-Office Clerk of the Board of Supervisors.

## NOTICE TO CONTRACTORS

(Lowell Junior High School—Oakland)

OFFICE OF THE SECRETARY OF THE BOARD OF EDUCATION OF THE CITY OF OAKLAND.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland High School District of Alameda County hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Tuesday, the 1st day of February, 1927, at 9:45 A. M., at which time said bids will be opened for the erection and completion of the Lowell Junior High School Building and gymnasium, of the Oakland High School District, to be erected on the west side of Myrtle Street, between 12th and 14th Streets. These bids shall be presented in accordance with the plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

Separate bids will be received for:

- (1) General Work.
- (2) Awning Type Window Fixtures and Hardware.
- (3) Slate Blackboards.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned. Plans taken out by bidders on or before January 20, 1927, shall be returned on January 20, 1927; plans taken out after January 20, 1927, shall be returned February 1, 1927. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland High School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award or to give bonds required for the faithful performance of the contract or any bond required by law. The amount of said check shall not be less than ten (10%) per cent of the amount bid, provided, however, that in no case shall said check be required to be in excess of Five Thousand (\$5000.00) Dollars. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 1st day of February, 1927, at 9:45 A. M., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDMOND,

Secretary of the Board of Education of Oakland, California.

## NOTICE TO CONTRACTORS

(Valves and Cement—Turlock and Modesto Irrigation Districts)

Sealed proposals will be received at the office of the Turlock Irrigation District at Turlock, California, until 2 o'clock p. m. Tuesday, February 1st, 1927, for the manufacture and delivery of 2 84-inch diameter pivot type valves, and 3000 bbls. of cement to be used in connection with the Construction of the Addition to the Don Pedro Power House and the addition of two units. The valve work involves about 75,000 pounds of machine finished steel castings with bronze mountings.

Plans and specifications will be furnished upon application. The contract will be let to the lowest respon-

sible bidder but said Boards reserve the right to reject any or all bids.

Each proposal must be accompanied by a certified check for five per cent of the amount of the bid payable to the order of the Treasurer of the Turlock Irrigation District for the benefit of said Districts as a guarantee that the bidder will, if successful, execute a satisfactory contract and furnish a bond in the sum of not less than twenty-five per cent of the amount of his bid for the faithful performance of the work in accordance with the specifications, said bond to be approved by said Boards.

Each proposal must also be accompanied by the guarantee of responsible sureties to furnish bonds as required if the proposal is accepted.

The proposal must be marked "Proposal for Pivot Valves," or "Proposal for Cement" and addressed Turlock Irrigation District and Modesto Irrigation District, Turlock, California.

Done in pursuance of the order of the Boards of Directors of the Turlock Irrigation District and the Modesto Irrigation District this 10th day of January, 1927.

ANNA SORENSEN,  
Secretary, Turlock Irrigation District.  
C. S. ABBOTT,  
Secretary, Modesto Irrigation District.

818 Mission Street

San Francisco

days after securing same, to the Superintendent of Buildings. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not exceed Five Thousand (\$5000.00) Dollars, but for all bids of less than Fifty Thousand (\$50,000.00) Dollars, said check shall be for at least ten (10%) per cent of the amount of the bid. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 25th day of January, 1927, at 9:45 A. M., in the Board Room, 211 Second Floor of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDMOND,  
Secretary of the Board of Education of  
Oakland, California.

#### NOTICE TO CONTRACTORS

(Winchell School—Fresno)

Pursuant to an order of the Board of Education of the City of Fresno School District of the County of Fresno, duly made and entered in its minutes this 30th day of December, 1926, public notice is hereby given that said Board will receive up to 5 o'clock P. M. on the 10th day of February, 1927, at the office of said Board in the Hawthorne School Building, 2425 Fresno Street, in Fresno, California, sealed proposals for the furnishing of labor and material for the construction of the L. A. Winchell School as per plans prepared by Kump & Johnson, architects, Rowell Bldg., Fresno, California.

Segregated bids will be received for this building. Reference is hereby made to "General Information to Bidders," Building Form No. 6, for further particulars regarding all bids.

Plans and specifications together with forms for submitting all bids and further details regarding any and all bids may be obtained from the undersigned Secretary of said Board of Education, at the office of said Board above designated.

A bidder's surety bond or certified check equal to at least ten per cent of the amount of the bid submitted must accompany all proposals.

The Board of Education of said school district reserves the right to reject any and all bids.

The Board of Education of said school district reserves the right to reject any and all bids.

By order Board of Education, City of Fresno School District.

L. L. SMITH, Secretary.

#### STATE OF CALIFORNIA

#### CALIFORNIA HIGHWAY COMMISSION

#### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock p. m. on January 31, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

San Joaquin County at the Mossdale Bridge (X-S J-5-B), about twenty-six hundredths (0.26) miles in length to be graded.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

HARVEY M. TOY,  
LOUIS EVERDING,  
N. T. EDWARDS,  
California Highway Commission.  
R. M. MORTON,  
State Highway Engineer.  
W. F. MIXON, Secretary.  
Dated January 3, 1927.

#### WAGES IN BUILDING HIGHEST IN HISTORY

Wage scales of union construction workers in 1926 reached the highest point in history, along with the record new building activity.

The level of union scales per hour, taking all trades into consideration, now is 148 per cent above the 1913 level, the United States Department of Labor announced following a nationwide study of scales. A year ago the wage level showed an increase of 133 per cent in comparison with the pre-war year. The current wage level, therefore, shows an increase of 15 points in comparison with last year,

or of slightly more than 6 per cent.

Building wages advanced moderately from 1913 until 1916, when the level was 6 per cent above 1913. In 1921, a year when unemployment was widespread in all trades, building wages stood at a point double the 1913 standard. In the following year, however, there was a decline which was speedily recovered in 1923. From 1923 to the present the advance has been steady.—  
Builder Economist.

## BRIDGES

**LOS ANGELES, Cal.**—A. O. Nelson, 136 N. Huntington Dr., Pasadena, awarded cont. by county at \$26,485 to const. bridge on San Pasqual St. over Eaton Wash.

**ESCONDIDO, Cal.**—R. E. Struve and Herbert Nunn, San Diego, awarded cont. by Douglas Fairbanks at about \$25,000 to const. dam on Rancho Santa Fe property recently purchased by him. The dam will be 42 ft. high and 20 ft. wide at the base.

**LOS ANGELES, Cal.**—Chief Engr. Wm. Mulholland has announced plans for const. of dam across Owens River to create a reservoir of 15,000-ac. ft. capacity, to be known as the Tinemaha Reservoir, 260 mi. north of Los Angeles. The dam will be an earth-fill type dam, requiring approx. 350,000 cu. yds. material.

**SANTA ROSA, Sonoma Co., Cal.**—Proctor & Cleghorn, Rosenberg Bldg., Santa Rosa, awarded cont. by city to const. retaining walls and replank Olive St. bridge over Santa Rosa Creek. \$21.50 cu. yd. conc. work; \$50 per M ft. lumber; R. Press Smith, Santa Rosa, bid \$27 and \$60 resp.

**OROVILLE, Butte Co., Cal.**—O. A. Peter, Oroville, at \$917.50 awarded cont. by county to const. bridge over Shaw Slough near Oroville on Clark Rd. and another over Whitehall Creek on Oroville-Bangor Rd., at \$845.

**SANTA BARBARA, Cal.**—City eng. completes plans for Cliff Drive bridge, est. to cost \$35,000; will eliminate "S" curve on Cliff Drive bet. Miramonte and Punte Verde; will be 120 ft. long, 3 spans, 34 ft. high in center, with retaining wall 700 lin. yds. in length. The bridge will have a 30-ft. rdwy.

**REDDING, Shasta Co., Cal.** County Surveyor C. R. Wiegell has completed plans for bridges over Little Cow Creek and slough at the Logan place beyond Palo Cerdo on the Redding-Millville road; former will be conc. const., 280 ft. long, and the latter of conc. const., 20 ft. long.

**REDDING, Shasta Co., Cal.**—County Surveyor C. R. Wiegell preparing plans for conc. bridge over Stillwater Creek on Anderson-Shingleton road.

**OROVILLE, Butte Co., Cal.**—Until Feb. 7, 2:15 p. m., bids will be rec. by C. F. Belding, county clerk, to const. bridge over South Pine Creek on Nord and Cana County rd. Plans obtainable from County Road Engineer, Harry H. Hume.

**LOS ANGELES, Cal.**—G. M. Hanson Co., 6534 Moore Dr., sub. low bid to county at \$18,974 to const. viaduct on Beverly Blvd. over U. P. Ry.

## DREDGING, HARBOR WORKS AND EXCAVATIONS

**LONG BEACH, Cal.**—Application has been made to U. S. Engineer's Office by the Fred C. Franks Cont. Co. for permission to dredge slip 32 ft. deep at mean lower low water in property of Ford Motor Co. on north side of Cerritos Channel, Long Beach Harbor, and east of Badger Ave. Bridge—the dredged material to be deposited behind bulkhead northerly of the slip and on the ocean shore of Terminal Island.

**SAN DIEGO, Cal.**—Until 10:30 A. M. Jan. 24, bids will be rec. by Allen H. Wright, city clerk, to const. reinf. concr. bulkhead, consisting of a continuous wall of reinf. cem. concr. sheet piles, together with reinf. cem. concr. tie-back piles, reinf. cem. concr. tie beams, reinf. cem. concr. parapet beam, reinf. cem. concr. parapet wall, reinf. cem. concr. supporting wall, reinf. cem. concr. walk, reinf. cem. concr. steps, and reinf. cem. concr. lamp post pilasters fitted with metal sheathed conduits, compl., in, over and across portions of Ocean Front Walk, Ocean Blvd. and public rights of way.

**SAN RAFAEL, Marin Co., Cal.**—Daniel Contracting Co., 503 Market St., San Francisco, at \$2 cu. yd. (\$13.-200) awarded cont. by county to const. stone bulkhead to protect Pt. San Pedro Rd. Other bids: W. J. Cooley, \$2.04; J. E. Baldwin, \$2.48; James Curry, \$2.65. Will be 3300 ft. long involving 6000 cu. yds.

**SAN FRANCISCO**—Bids will be asked shortly by U. S. Engineer, Customhouse, to furnish stone for Humboldt Harbor and Bay project. Further mention will be made of this work.

**SANTA BARBARA, Cal.**—Plans for new caisson type breakwater have been presented to city harbor comm. Certain alterations have been advised. City Eng. C. W. Moore has stated that revised plans will be ready within 2 wks. The plans were prepared by Francis Betts Smith, consulting engr. for harbor comm., and S. W. Gibbs, associated with Smith. Maj. G. E. Verrill is resident engr. City Mgr. E. A. Rolison states that bids will probably be asked before Mar. 1. The comm. also has estimates on a rubble mound type.

## IRRIGATION PROJECTS

**CALIFORNIA**—Following applications were filed during month of December, 1926, with State Department of Public Works, Division of Water Rights, for permits to appropriate water:

Application 5290 (Los Angeles Co.) City of Alhambra for 41.4 cu. ft. per sec. and 30,000 ac. ft. per annum from San Gabriel River, for municipal purposes. Est. cost, \$1,000,000.

App. 5292 (Los Angeles Co.) Wm. H. Heise, 855 S. Figueroa St., Los Angeles, for 5.00 cu. ft. per sec. from Rock Creek, for irrigation and domestic purposes on 760 acres.

App. 5293 (Sierra Co.) W. O. Frost, c/o Geo. F. Taylor, Downieville, Cal., for 100.00 cu. ft. per sec. from So. Fork of No. Fork of Yuba River, for mining purposes. Est. cost, \$12,000.

App. 5294 (Calaveras Co.) L. B. Rouse Pine Grove, Cal., for 8.00 cu. ft. per sec. from Middle Fork of Mokelumne River, for power purposes. 364 T. H. P. to be developed. Est. cost, \$10,000.

App. 5295 (San Bernardino Co.) U. S. Forest Service, c/o Forest Supervisor, San Bernardino National Forest, San Bernardino, for 0.01 cu. ft. per sec. from unnamed spring for domestic purposes. Est. cost, \$1000.

App. 5297 (Santa Cruz Co.) Felton Water Co., Felton, Cal., for 0.23 cu. ft. per sec. from Bennett and Shingle Mill Creeks for domestic purposes. Est. cost, \$5000.

App. 5298 (Santa Cruz Co.) Felton Water Co., for 0.23 cu. ft. per sec. from Bennett and Shingle Mill Creeks for agricultural purposes on 283.4 acres. Est. cost, \$5000.

App. 5299 (Santa Cruz Co.) Felton Water Co., for 0.23 cu. ft. per sec. from Bennett and Shingle Mill Creeks for municipal purposes. Est. cost, \$5000.

App. 5300 (San Diego Co.) U. S. Forest Service, Dept. of Agriculture, Cleveland National Forest, 310 Federal Bldg., San Diego, for 0.01 cu. ft. per sec. from Vallecitos Spring for domestic purposes. Est. cost, \$2500.

App. 5301 (Los Angeles Co.) U. S. Forest Service, 629 Federal Bldg., Los Angeles, for 0.25 cu. ft. per sec. from Branch of Clear Creek for agricultural purposes. Est. cost, \$1000.

App. 5302 (Lake Co.) Mirabel Park Association, % F. O. Jones, Sec., R. F. D. No. 3, Box 1338, Napa, for 0.20 cu. ft. per sec. from St. Helena Creek for domestic, irrigation and recreational purposes. Est. cost, \$15,000.

App. 5304 (Orange Co.) San Joan Water Co., 1013 Pacific Finance Bldg., Los Angeles, for 3000 ac. ft. per annum from San Joan Creek for domestic and irrigation purposes on 1000 acres.

App. 5305 (Orange Co.) J. Clark Smith, c/o W. G. Irving, Suite 2, Evans Block, Riverside, for 4000 ac. ft. per annum from San Joan Creek for irrigation and domestic purposes.

App. 5306 (Siskiyou Co.) Lloyd L. Root, Receiver for Buzzard Hill Mine, Inc., 57 Post St., San Francisco, for 12.5 cu. ft. per sec. from Independence Creek for power purposes. Est. cost, \$10,000.

App. 5307 (Siskiyou Co.) Lloyd L. Root, Receiver for Buzzard Hill Mine, Inc., for 0.5 cu. ft. per sec. from Independence Creek for irrigation and domestic purposes on 4.0 acres. Est. cost, \$10,000.

App. 5308 (Siskiyou Co.) Lloyd L. Root, Receiver for Buzzard Hill Mine, Inc., for 0.25 cu. ft. per sec. from Independence Creek for mining purposes. Est. cost, \$10,000.

App. 5310 (Del Norte Co.) Walter G. Muncy, Crescent City, for 3.00 cu. ft. per sec. from Kelly's Gulch for power and domestic purposes. 12 T. H. P. to be developed. Est. cost, \$2500.

App. 5311 (Siskiyou Co.) H. D. Brown, c/o Tebbe & Tebbe, Atty's, Peters & DeWitt Bldg., Yreka, for 15.00 cu. ft. per sec. from Big Spring for irrigation and domestic purposes on 682.11 acres. Est. cost, \$10,000.

App. 5312 (Modoc Co.) Louis Avanzino, Alturas, Cal., for 455 ac. ft. per annum from Willow Creek for irrigation purposes on 728.0 acres. Est. cost, \$6500.

App. 5314 (Siskiyou Co.) H. A. De-Vaux, K. K. Ash and J. W. Suffcoel, Scott Bar, for 125.00 cu. ft. per sec. and 10,000 ac. ft. per annum from Scott River for mining purposes.

App. 5315 (San Bernardino Co.) Frank J. Golden, Hobart Bldg., San Francisco, for (1) 10,000; (2) 10,000; (3) 20,000 ac. ft. per annum from (1)

Carbide Flare Lights  
OxyAcetylene Equipment

BUSINESS OPPORTUNITIES

Continued from Page 20

11139—Hamburg, Germany. Trading company is desirous of establishing business connections with San Francisco importers of German products and with exporters interested in marketing their products in Hamburg. At the present time the Hamburg company is working extensively in the eastern United States with advertising and paper articles.

11141 — Paris, France. One of the largest steel and iron firms in France offers raw materials (pig iron, all forms and qualities), steel (all forms), crucible steel, steels for case hardening, wire drawing; tools, agricultural and coach building; axles with spring pads; motor and machine parts; railway and tramway equipment; mine and earthwork equipment; naval construction steels; springs of all kinds. They will concede exclusive agency for San Francisco, Pacific Coast or Western States. Details available in San Francisco.

11142 — United Kingdom. Firm of British manufacturers is desirous of appointing an agent in San Francisco for the sale of anchors.

11143—New York, N. Y. A foreign and American manufacturers' agent desires to get in touch with San Francisco importers interested in Italian hemp, Sheffield table cutlery (stainless).

11148 — Oakland, Cal. Gentleman having extensive experience in handling automotive lines throughout Mexico, thoroughly acquainted with Mexican commercial law, desires connections with distributors of all types of automotive equipment wishing to market their products in Mexico.

11151—Oakland, Cal. Graduate engineer, competent to carry on in Latin America, would appreciate connection as representative for some San Francisco organization. He is capable of conducting business in both English and Spanish.

11152—Arequipa, Peru. Individual is in the market for a small used steamer, suitable or that can be modified to serve for transporting cattle, fuel and oil. Must have capacity for from 500 to 1500 cattle; stanchions or individual compartment for each animal; facilities for loading and unloading cattle into lighters; should have a hold for cargo. Proposals are to be accompanied by a plan of the ship, indicating crew needed.

11154—Honolulu, T. H. Party is in the market for tennis court net posts, made of galvanized iron pipe, 3/4 in. outside diameter. Sketch of posts required is on file with the Foreign and Domestic Trade Department. He solicits price quotations from San Francisco suppliers of this article.

11159—San Francisco, Cal. A capable business person, with 25 years' experience in salesmanship, desires to get in touch with firms and manufacturers interested in marketing their goods in New Zealand and Australia. Party will sail January 26.

D-2307—Marshalltown, Iowa. Manufacturers of a private garage door opener wish to establish connections with a San Francisco sales agency to take over the distribution of their product in this territory. They are also interested in placing their article with a San Francisco manufacturer on a royalty basis, or possibly would sell their entire rights.

VALIDITY OF SET BACK LINES TO BE TESTED

High of municipalities to establish and enforce set-back lines on streets was argued in district court of appeals this week on an appeal from the decision of the superior court in the case of Thille vs. the Board of Public Works of Los Angeles.

John M. Thille, a property owner, obtained from the superior court an order directing the board of public works to issue a permit for a garage less than 30 ft. from the street line at 458 N. Lake St. The board had refused to grant the permit because of an existing setback ordinance prohibiting the erection of buildings less than 30 ft. from the curb in residence districts.

From the superior court order the city attorney appealed on the grounds that the ordinance is valid because it is necessary to public health, welfare and morals and therefore lies within the police power already delegated to the city. The setback ordinances are corollary in every respect to zoning ordinances, which have been upheld by the state supreme court, according to the contention set forth in the city's briefs.

Through his attorneys, Thille contends that setback ordinances are not essential to general welfare in the broadest application of the term and are therefore unconstitutional and void, since to no municipality is expressly delegated the power to make or enforce them.

In making the court order from which the city attorney is appealing, Superior Judge Clock ruled that the setback ordinance is unreasonable, unconstitutional and void.—(S. W. Bldr. & Constl.).

CLAY PRODUCTS MANUFACTURING IN U. S. SHOWS INCREASE

The monthly bulletin of the Common Brick Manufacturers' Association of America, in reporting conditions in the common brick industry, with information as of Dec. 1, 1926, says:

"Every heavy clay product manufactured in America, with the single exception of roofing tile, shows a gain in 1925 over the preceding year. These figures have just been released by the Bureau of Census of the Department of Commerce. The 1925 gain of common brick is 5.7%, face brick 21.9%. Gains are set up by terra cotta, hollow tile, drain tile, sewer pipe, and fire brick. That the price of clay products to the consumer has been reduced is evidenced by the fact that the gain in values has not kept pace with the gains in production. In 1924 7,158,714,000 common brick sold for \$86,691,550. In 1925 7,565,819,000 common brick sold for \$88,607,199. The average price per thousand at the plant in 1924 was \$12.11; in 1925, \$11.71. This is the lowest average price, according to government figures, since 1918.

"During the past 18 years the highest recorded production of common brick was in 1909, being more than nine and a half billion. The lowest recorded production was in 1918, and there was a steady decline from 1909 until the latter year. Since 1918 there has been, with a single exception, a gain each year in the production of common brick, and this commodity is climbing back to record consumption.

"Government figures for the year 1926 will not be available for some months to come. It is estimated, however, that 1926 will show a gain over 1925. This estimate is based upon returns from the largest brick producing centers."

# **1926 Edition**

# **San Francisco Building Laws**

## **Ready For Distribution**

With the issuance of this 1926 edition, the Building Ordinance Books heretofore published will be obsolete, inasmuch as many sections of the law have been amended and additional sections added.

This 1926 edition contains all revisions and additions to the code up to and including June 1926.

In addition to the Building Laws of San Francisco, the 1926 edition contains the FIRE ORDINANCES as regards the construction industry, the ELECTRICAL ORDINANCES, the SIGN ORDINANCE, the BILLBOARD ORDINANCE and other laws covering regulations concerning the construction interests.

Price \$1.00 per copy.

All Galvanized

## Profitable for the Contractor

**COASTEEL** Standard Buildings are as useful and profitable for the contractor as shovels, trucks and powder on big jobs—they pay for themselves by giving better service.

COASTEEL Buildings are good for years, because they are all galvanized. They can be used on one job as long as needed and then moved onto the next. No material is lost when the buildings are thus moved, as they have 100% salvage.

In the same way, COASTEEL Buildings can be added to or extended without loss of material. They also give the fire-resisting advantage of having no combustible material in their makeup. Nothing but galvanized steel is used, and the galvanizing is specially heavy hot dip.

## THE ARCHITECT'S PLACE IN THE BUILDING PROJECT

"Architects offer the first line of protection to the home builders and the man who employs an architect has a measure of protection that the man who does not employ an architect can never have," declared Harry E. Leimert, Oakland realtor, in an address delivered before the Alameda County Architectural Association. "There are no elements that should be considered by every prospective builder.

"First is the very practical consideration of dollars and cents and second comes the matter of beauty. In picking up the matter of dollars and cents which I do not believe the general run of home-builders fully appreciate, let me say, the average man or woman has very little expert knowledge of building materials. They rest for protection upon the integrity of those with whom they do business. The duty of the architect is equal with that of the lawyer or the doctor.

"The architect's first duty is to the owner. He knows materials and he makes it his business to see that the owner is given the materials which are needed for in the specifications because his reputation is at stake with every building which he designs and over which he supervises construction.

"It is significant in this respect to know that the home builder can obtain a larger loan for financing his building when he employs an architect than when he does not."

## Building Costs Will Not Fall Below Present Levels

Building construction costs will "probably never fall below their present level; not sufficiently, at least, to warrant building and financial interests in postponing contemplated construction projects," is the opinion of William J. Tracy, secretary-treasurer of the Building Trades Department of the American Federation of Labor.

In an article on the "Building Outlook for 1927," published in the January issue of the American Builder-Economist, Mr. Tracy said that high wages had not retarded building but had been a stimulant to national prosperity. He urged better building and said that labor fully realized the importance of co-operation with capital, adding:

### Co-operation Pledged

"Throughout 1927 it will be my purpose to do everything that is humanly possible toward creating a feeling of sincere friendship and harmony between financial and banking interests and the Building Trades Department of the American Federation of Labor.

"When it is considered that construction is one of the greatest factors of our national wealth—that building is preceded only by agriculture, among the industries of this country—it behooves all of the various elements, either directly or indirectly identified with the construction industry, to use every honorable means to promote its influence and prosperity. This is a duty which should be shared equally with the financial interests, which supply the capital; the architects; the engineers; the contractors or builders and the building material interests.

### Urges Better Building

"We, of the building trades, stand for a better building program; for improved building laws and codes; for the protection of the investing public and home owner; for the legitimate builder; for the skilled and qualified mechanic; and, as a guarantee against inferior workmanship, for a safe, sanitary and durable building erected by master craftsmen. Naturally, we do not favor cheap construction or so-called 'hurry-up' jobs, for after their completion these prove unsatisfactory to their unfortunate owners, are constantly in need of repair and, in short, are a menace to the entire building industry.

"We are opposed to destroying the morale of our mechanics, who have served from four to five years as apprentices in order to become masters of their trades, by permitting unscrupulous employers to compel them to install or erect work in an inferior manner. Fortunately such employers are in the very small minority. We are as much concerned about the mechanical and trade skill of our membership as the minister, the priest or the rabbi is about the morals of his congregation.

### Promote Apprenticeship

"The Executive Council of the Building Trades Department has asked the co-operation of the affiliated international unions in the important

matter of vocational education and apprenticeship of the young men actually working at the building trades. Instead of restricting apprentices, we want to supply the industry with as many new workers as the different elements will absorb.

"The building trades have been wrongfully accused of limitation of output. There is ample evidence that the productivity of the building worker is constantly increasing and during the last year it has been an important factor in keeping down the cost of construction."

The building trades employers' view of the "Building Outlook for 1927" was expressed in the "American Builder-Economist" by A. W. Dickson, executive secretary of the National Association of Building Trades Employers, who stated that "another great year of building activity is in prospect for 1927, if organized labor will assume a reasonable attitude and not attempt to further increase costs by agitation for wage advances and the five-day week."

### Hits High Costs

"The public is tiring of high building costs, due chiefly to labor's continued demand for increased wages and restrictions on production," said Mr. Dickson. "Unless building wages are stabilized or reduced to a more moderate level," he continued, "there will be a real slackening in building and labor will find that it has killed the goose that laid the golden egg and before long will be clamoring for more work and an opportunity to make a living.

"Neither wage increases or the five-day week will be permitted to gain headway in 1927 if it is within the power of the building trades employers of the country to prevent it. The employers feel that lower costs are necessary to stimulate a sufficient volume of building to keep the construction industry on a prosperous basis and the workers well employed.

### Mutual Co-operation

"The building trades employers are not trying to crush the building unions and have no desire to do so. They want to co-operate with labor and bring about a period of stabilization in the industry that will be beneficial to the country as a whole and all interests concerned. This, however, can only be done by mutual co-operation.

"The building trades employers have signed agreements with labor unions in many of the largest cities and in a number of the smaller towns throughout the country, extending the majority of present scales to 1928. This should be an insurance against further wage advances during the coming year.

"Careful and thorough analysis based on prevailing wage rates and general conditions throughout the United States, with the proper consideration given to all the elements which should be considered, fails to reveal any economic reason for any advance in the already high wage rates paid in the building trades."

## \$334,000,000 Expenditures Is Recommended By Engineer For Development Of Water Resources

Embracing plans for a gigantic water conservation and distribution system second only to the great Colorado River project in magnitude, the State Division of Engineering and Irrigation, after a six-year inquiry, has submitted a report to the state legislature embodying a unit-by-unit program for ultimate utilization of the state's entire water resources.

The report, which contemplates an expenditure of \$334,000,000 for reservoirs, spillways, conduits and power plants in the Sacramento and San Joaquin valleys, calls for a veritable network of canals, dams, pumping plants and lifts to spread northern waters over approximately 8,000,000 acres of land not now under intensive cultivation.

### Further Expansion

Recognizing that development of the Colorado River project offers the main solution of the water shortage problem in Southern California, Paul Bailey, director of public works and author of the report, states, however, that "there are still some local waters available for the expanding use of adjacent territory."

On the Boulder Canyon high dam enterprise, he reports that "in the division of the waters of the Colorado River 1500 second-feet should be allotted to the Pacific slope of Southern California for municipal purposes.

"It is anticipated that this will become available with the passage of the Swing-Johnson bill for the construction of the Boulder Canyon dam on the Colorado River.

### Six Giant Reservoirs

"The construction of the Boulder Canyon dam is one of the most important issues before the public at this time, for the deficiency in the natural water supply of Southern California and the control of floods on the lower Colorado River is a matter of serious concern.

"Although it is not apparent from what source the required large volumes of new water can be obtained for the full development of the Pacific slope, nevertheless present attention should be directed towards obtaining those new supplies that are available on the Colorado River and elsewhere and in co-ordinating their use to obtain the greatest benefit from their limited amounts."

In this detailed program for conserving and distributing waters of the north, Bailey recommends six giant reservoirs be constructed in the Sacramento valley region.

### Comprehensive Plan

The units of a co-ordinated construction program comprise a high dam near Kennett on the upper Sacramento River, one on the Feather River near Oroville, one on the Yuba River near Smartsville, one on the Bear River near the state highway crossing and one on the American River near Folsom.

"These would each be integral parts of the comprehensive plan for ultimate development," states the report, "and would provide sufficient water to meet all the increase in demands of navigation, of salt water control and of conservation during the next half century, if operated in accordance with the plan herein presented."

### Expenditures Estimated

The probable cost of the units of this plan in the Sacramento valley, exclusive of the cost of building canals for distributing the water, is estimated as follows:

Kennett reservoir, upper Sacramento River, capacity 2,900,000 acre feet, cost \$80,000,000.

Oroville reservoir, Feather River, capacity 345,000 acre feet, cost \$35,000,000.

Narrows reservoir, Yuba River, capacity 445,000 acre feet, cost \$30,000,000.

Parker reservoir, Bear River, capacity 100,000 acre feet, cost \$6,000,000.

Folsom reservoir, American River, capacity 307,000 acre feet, cost \$46,000,000.

Total cost Sacramento valley reservoirs, \$208,000,000.

### Division Problem

Surplus waters of the Sacramento valley would be spread over the San Joaquin valley under the plan, the report estimating that the supply of water in the San Joaquin is only half sufficient to meet the ultimate demand.

The new supply for the San Joaquin valley would be derived from the water used to maintain navigation in the channel of the Sacramento River," the report sets forth. "After serving its useful purpose in the Sacramento valley, this water would be diverted at the mouth of the river into the San Joaquin.

"Passing through the channels of the island region, forming the delta of the Sacramento and San Joaquin Rivers, it would be boosted up the main channel of the San Joaquin by a series of pumping plants, each one pumping the water over a low dam to the higher level of the pond behind it.

### Collapsible Dams

"These dams would be collapsible so that they would not obstruct the channel during the flood season. They would be so located that, if desired, locks could be constructed alongside them that would make the San Joaquin navigable for a distance of 160 miles from its mouth."

In diverting the water used for navigation in the Sacramento River to the San Joaquin, a certain portion would escape into Suisun Bay, unless a physical barrier were constructed below the junction of the two rivers, according to the report. Investigations of the cost of such a barrier reveal that it would vary from \$45,000,000 to \$90,000,000, according to the site selected. This part of the project, however, could be delayed until the volume of water required necessitated its construction, it is pointed out.

### Series of Canals

A series of trunk canals is included in the comprehensive plan for ultimate development of the San Joaquin valley. These canals would extend southerly, one from each main tributary of the San Joaquin River and one also from the American River in the Sacramento valley. Following this system, "the entire valley floor may ultimately be brought under irrigation with the maximum economy in pumping the new supply imported from the Sacramento valley," the report advises.

Probable costs of the San Joaquin valley system of reservoirs were listed as follows:

Temperance Flat reservoir, upper San Joaquin River, capacity 1,100,000 acre feet, cost \$51,000,000.

Pine Flat reservoir, Kings River, capacity 1,400,000 acre feet, cost \$35,000,000.

Isabella reservoir, Kern River, capacity 1,100,000 acre feet; Bakersfield reservoir, Kern River, capacity 200,000 acre feet; combined cost of the two, \$40,000,000.

Total cost of San Joaquin valley reservoirs, conduits, power plants and spillways, \$126,000,000.

The first unit of the San Joaquin valley water system, exclusive of the salt-water barrier at Suisun, would cost \$24,000,000, it is estimated.

### 500,000 HOMES FINANCED BY BUILDING ASSOCIATIONS

Preliminary returns received from building and loan associations for 1926 indicate an increase in total resources of about 14 per cent over the preceding year.

This means that the total savings which now are entrusted to the nearly 13,000 building associations of the United States amount to about \$6,280,000,000, an increase for the year of \$770,000,000.

The total membership of these associations in the last decade is shown below:

Year	Membership	Total Assets
1926	11,275,000	\$6,280,000,000
1925	9,886,997	5,509,176,164
1924	8,554,352	4,765,937,197
1923	7,202,880	3,942,939,880
1922	6,864,144	3,342,530,953
1917	3,838,612	1,769,142,176

Resources of building and loan associations are almost exclusively invested in mortgages on real estate and it is estimated that over 2,500,000 families are at the present time paying for their homes through these associations.

In 1925 they financed the building or purchase of 500,000 homes for their members.

During the past year they were able to assist over 530,000 families in acquiring their own homes, which is the largest number ever financed in any one year in the history of these organizations.

### RICHMOND BUILDING PERMITS FOR YEAR 1926

Building permits issued in Richmond, Contra Costa County, during the year 1926, totaled 728 as compared with 524 during the year 1925. Construction undertaken during 1926 represented an expenditure of \$2,276,532, as compared with \$1,307,327 for the year 1925. During 1926 a total of 584 permits were granted for new buildings costing \$2,222,382 and 144 permits for alterations and repairs costing \$54,150. In 1925 records show 429 permits for new buildings costing \$1,369,851 and 95 permits for alterations and repairs costing \$37,476. The year 1926 shows an increase of \$969,205, over the year 1925, according to the figures compiled by A. J. Hurley, city building inspector.

# "Bundled Rocklath" Is Added To Products Of U. S. Gypsum Co.

Gypsum lath in bundles that are handled by the lather with at least the same ease that wood lath is handled, was announced at the Silver Anniversary Convention of the United States Gypsum Company under the trade-name of Bundled Rocklath. Each bundle contains lath for the covering of thirty-two square feet of wall and ceiling surface. The individual pieces of lath come in two sizes. One is 16 inches by 48 inches, and of these there are six in a bundle. The other is 16 inches by 32 inches, and of these there are nine in a bundle. Each bundle weighs 60 pounds.

It was announced that Bundled Rocklath was developed only after fourteen months of investigation among the lathers and plasterers of 165 cities. The investigators went on to the jobs with the workmen to learn precisely what was wanted in the way of a plaster base. The data thus gathered was tabulated and correlated, and the final product, according to the announcement, is simply an attempt to give the lathing and plastering trades a product identical with their requirements.

Each piece of Bundled Rocklath is three-eighths of an inch thick, has a

three-ply nailing edge and can be plastered on either side. It also can be applied vertically in closets, corners and angles. The kraft paper covering is sufficiently porous to prevent slipping under the trowel while the plaster is being applied. Edges of the individual pieces are rounded to make for easy handling. The boards can be butted together, as tests recently conducted showed that the adhesion of gypsum plaster to plasterboard is greater than to any other type of lath. Consequently "keys" are not needed. If, however, it is a trade-custom to space the boards, this can be done, but the spacing should be a full three-eighths of an inch to give the joints a strength equal to the body of the wall.

According to the announcement, Bundled Rocklath is virtually unbreakable in the bundle and is not subject to damage in the piece. It requires only half the number of nails required for wood lath over an equal area, and because of its pure gypsum core it can be scored as satisfactorily as it can be sawed. The bundles permit quick estimate by the contractor of the material on the job; easy transfer from room to room, and easy storage in the dealer's warehouse.

tors does not apply to all materials entering into road construction. We in Illinois have never been convinced that furnishing aggregate is a sound business proposition. The production of aggregate is not a specialized business as is the manufacturing of cement, and naturally there are many more producers and distributors in the market. Should highway departments furnish all of the materials entering into a road job it would mean that contractors would supply, practically, only the labor and machinery. This practice would be another objectionable instance of the state or government in business, and I am fully convinced that the contractors should be given the right to buy where they wish, taking the profit and any advantage in price they might be able to obtain. Also, furnishing of aggregates by the state would stifle competition between smaller producers who are in a position in numerous instances to supply materials for local jobs or contracts.

## Paint for Bridges

In Illinois, in addition to cement, the State Highway Department furnishes paint for bridges. As the amount used on bridges at the time of erection is usually a small item in the contractor's estimate, we have found it desirable to purchase the material, in that way regulating the quality and quantity to be supplied. We doubt that there is any great financial saving in furnishing such material as paint aside from the fact that we control the product used in the work.

## Conclusion

The diversified interests represented by state highway departments present make it almost impossible to draw definite conclusions as to whether the state should furnish materials to contractors. There are so many physical conditions entering into the conduct of work in different parts of the country, and different conditions even in one state, that to make a hard and fast rule or to adopt any resolutions would lead us nowhere. However, as outlined in the opening paragraph of this paper, where a state has a program of sufficient magnitude to warrant its purchasing a commodity entering into road construction, such as cement, and where it can be shown that a large saving is effected, I am firmly of the opinion that it is sound business for the state to furnish such material to contractors.

Approximately 350,000 electrical refrigerators were sold in the United States during the year 1926, according to Wm. R. Wilson, president of the Copeland Products, Inc., Detroit, Mich. Judging from the best estimates, based on extensive surveys, market analyses founded on possible outlets, together with the quotas set up by the manufacturers of electrical refrigerators themselves, it is safe to anticipate that close to one million units of this type of refrigerator will be installed during the current year, Wilson declares. During the past year electrical refrigeration has taken a strong hold on the country generally and the future sales will undoubtedly increase in direct proportion, according to Wilson.

## GEORGE H. WILSON DEAD

George H. Wilson, 74, pioneer planning mill operator of San Francisco, died Jan. 13 at the family home, 86 Vicksburg St., San Francisco.

# Should State Highway Depts. Furnish Materials To Contractors?

(By Ralph R. Benedict, State Highway Department, Illinois, at the Annual Session of American Association of State Highway Officials, Pinchurst, N. C., November, 1926)

A state highway department having a large construction program of concrete roads or roads with concrete bases, wherein Portland cement is used in extensive quantities, will be financially better off if it furnishes the cement to its contractors. For the last twelve years Illinois has had contracts with the cement companies. These contracts are entered into the early part of January each year. We are fully convinced from our experience over this period of time that an arrangement with the cement companies has been the means of a substantial saving to the state; and the following reasons for our belief in the arrangement:

First. There is a substantial saving in price. (a) The state gets the benefit of the retailers' handling cost which usually amounts to 10 cents per barrel. (b) The cement is usually purchased at the beginning of the calendar year when the price is the lowest, due to inactivity of construction work. Second. A supply of cement is insured in case of shortage during the construction season, thereby relieving a contractor of doubt or anxiety as to his ability to carry out his contract on schedule.

Third. The cost of inspection is very much less when the state has a contract with those companies in the best position to furnish cement. This does not mean that contract should be entered into with only one or two companies, but that the business should be distributed among those companies that are able to meet competitive bid rates.

Fourth. The allocation and delivery of cement to the various contractors is controlled by the state. Thus, the state is in a position to divert cement from other sources than the mill originally supplying the contractor, relieving the contractor of any shortage in the event he is in a position to increase his activities.

Fifth. Contractors are relieved of excess carrying charges on their contracts when the state furnishes the cement.

Sixth. State ownership of cement prevents a tendency to skimp in its use on construction work.

Seventh. The state is one of the best single customers of the cement companies from the standpoint of quantity purchased. Therefore there is a tendency to improve the quality by a more liberal compliance with the specifications than would be true if the mills were furnishing only a few individual contractors, even though the specifications were the same and the inspection was the same.

Discounting all of the other advantages, the saving in price alone would more than justify a state highway department in its policy of furnishing cement to contractors.

During the past five or six years Illinois has purchased annually from two million to four million barrels of cement. The dealers' discount on this amount runs into large figures over a term of years.

## Supplying Aggregate

What has been said of the advantages gained by state highway departments furnishing cement to contrac-

# THE OBSERVER

## WHAT HE HEARS AND SEES ON HIS ROUNDS

Senator Arthur H. Breed has reintroduced in the California legislature his bill providing for an increase of 1 cent per gallon in the gasoline tax to raise funds for new state highway construction. The bill is in skeleton form, the question of allocation of funds to be determined in the revenue and taxation committee, to which it was referred. This bill was passed by a scant vote at the last session, but failed to receive the governor's signature. A similar measure was defeated at the November election. Senator Edgar S. Hurley has also reintroduced a constitutional amendment providing for a bond issue of \$50,000,000 to complete the main roads of the state highway system to interstate connections. Interest and principal on the bonds would be paid out of the collections on the gasoline tax, motor vehicle and transportation license fees. Seventy-five per cent of the gasoline tax and other motor vehicle fees would be divided equally between the state and counties as at present.

In the opinion of A. E. Dickinson, president of the Indiana Limestone Company, the building construction industry is standing upon a firmer basis than ever before in its history. He says: "Nor is the country overbuilt. On the contrary the swift expansion of commerce and industry, the rapid growth in population and the throwing open of vast suburban districts have placed the industry on a new plane. So it is unwise to use building figures of a few years ago and building 'cycles' of the past decade in attempting to forecast the future. One thing is certain, there is still a considerable unsatisfied demand for more modern construction of all types. It is estimated that \$4,000,000,000 will be spent in 1927 for the replacement of old structures alone."

A university extension course in mechanical drawing will be given on the University of California Campus this spring by Fred W. Dittus. The course is designed to meet the needs of students of engineering who are deficient in elementary mechanical drawing. The class will meet in room 206, Art Building, Monday and Wednesday evenings, from 7 to 10 o'clock, beginning January 24. Those students who have heretofore been obliged to seek this training in evening schools may now be prepared for university matriculation on the campus.

A proposal to abolish the Department of the Interior, and to create in its stead a Department of Public Works and Domain, was embodied in a bill sanctioned by the American Engineering Council in session at Washington.

W. R. Yelland, Oakland architect, has been appointed chairman of the general committee of the Society of Architects of Alameda County to arrange for an exhibit to be held in the Oakland Municipal Auditorium March 1 and 2 in connection with the state city planning conference.

That the substitution of arc welding for riveting on a building of steel frame construction has passed beyond the experimental stage is seen in the recent announcement made by the Westinghouse Electric & Manufacturing Company, that the former method has been successfully employed in the erection of a new addition to its Sharon, Penn. plant. By the use of the arc welding process 100 tons of steel were saved on a building which under the riveting process of construction would have required 800 tons.

Bids will be considered February 17 by the Santa Barbara city council to construct the proposed \$400,000 breakwater. Bids will be received on both rubble mound and caisson construction. Under the former proposal the work will involve approximately 160,000 tons of stone. Francis B. Smith of San Francisco is consulting engineer on the project.

F. A. Steiger, county surveyor of Solano county, has filed suit against the city of Vacaville for \$600 claimed due for services in arranging septic tanks for the town and for laying out ditches in connection with the city sewage system. The amount for the services was \$750 of which \$150 has been paid. It is understood that the Vacaville city trustees feel that the charge for services is excessive for which reason the engineer's claim was not paid.

Committee appointed by Northwest Conference of General Building Contractors to consider the general wage situation in the Pacific Northwest, meeting in Seattle, report it would be impossible to establish a uniform scale of wages throughout the Pacific Northwest. Conclusion was further reached that the various cities should co-operate as fully as possible so as to keep this scale in due proportion to local conditions and further that the employers should maintain close contact and act in unison whenever possible.

The Aetna Casualty and Surety Company must pay obligations incurred by sub-contractors in federal employ on construction of Fremont Weir on the Yolo County side of the Sacramento River. The United States Supreme Court refused to review the decision of lower courts holding the company responsible, according to Associated Press dispatches from Washington, D. C. The company furnished contractors bonds on the Weir construction.

Exports of cement from the Soviet union during the Soviet fiscal year ending September 30 last broke all Russian records, being nearly six times the pre-war rate. The exports for the fiscal year were 38,482 metric tons, as compared with 30,078 metric tons in 1924-25 and 6903 metric tons in 1913.

Elmer Melkey of the Frigidale Corporation addressed members of the Contra Costa County Electrical Development League at a recent luncheon meeting in Martinez.

Eighty-seven union painters employed in Reno who had been "Tocked out" or "on strike" for a week, returned to work Jan. 17, following a settlement of their differences with the master painters. The trouble, according to State Labor Commissioner Clinedinst, was due to the employment of one man with whom the union painters refused to work.

Esperanto as a language for engineers in their travels about the world was advocated at a recent meeting of the Society of Engineers of San Francisco by F. A. Post, dam designer. The proposed universal language, he said, appealed especially to engineers on account of its precision, and thousands of engineers, whose work takes them occasionally to foreign countries, have taken it up.

Backed by the approval of local building interests the ordinance creating Sacramento's new building code was adopted by the Sacramento city council Jan. 14. It will become effective in thirty days. The measure is the result of nearly two years' study by building and engineering officials representing all cities of the Pacific Coast. Its object is to reduce confusion and building costs by providing uniform regulations.

The Glidden Company laboratories, it is reported, have succeeded in developing an elastic oil finish with a lacquer schedule. Manufacturers of motor vehicles, traction and transportation equipment have been looking for an elastic oil finish that would have a varnish gloss and yet could be applied on the same schedule as nitro-cellulose lacquers. Glidden officials state their new product will fill all the requirements of these manufacturers.

The American Federation of Labor is unalterably committed to the five-day working week and will never cease its efforts to accomplish this principle in industry. William Green, president of the federation, said in an address before the Central Labor Union of St. Petersburg, Fla.

There is a general oversupply of labor throughout California and the Pacific Coast States at the present time, according to a statement issued by the San Francisco office of the United States Employment Service. The surplus is due to a general lowering of activity in most lines of industry, particularly agriculture and lumbering, that normally occurs at this season of the year.

United States lumber exports for the first 11 months of 1926 were valued at \$3,000,000 more than those for the corresponding period of 1925, according to the lumber division of the Department of Commerce. This rise in lumber export values resulted from an increase of approximately \$1,750,000 on rough products, less a decrease of \$950,000 on exports of saw mill products.

Property owners in Howard and D Streets, Santa Rosa, have started a war on the use of Willite pavement fronting their property, attacking the validity of the patented pavement and further declare that the patent notice and agreement of the Western Willite Company on file in the city clerk's office are illegal.

## TRADE NOTES

J. M. Bridges and Herbert I. Munton, for the past five years engaged in general contracting in Santa Clara county, have discontinued partnership and each will enter the contracting business for himself. Bridges has been a contractor for the last 13 years, while Munton has been a contractor only since the formation of the partnership with Bridges. Previous to that Munton was a foreman and superintendent for other local builders.

Louis Fontanella and Mark Teza, general contractors, operating under the firm name of Fontanella & Teza, have dissolved partnership, effective Jan. 15, through mutual consent. The business will be continued by Fontanella at 41 Sheridan St., San Francisco.

Rounding out another year, which he terms as exceptionally successful, Coy Burnett, president of the Monolith Portland Cement Company, announces the fifth annual dividend of 8 per cent to holders of common stock for the year 1926. At the same time the usual semi-annual dividend on preferred stock is to be paid.

Eleven large door manufacturers in Washington and Oregon have completed the organization of a company to handle the foreign trade of their plants. The new organization is known as the American Export Door Corporation. D. R. Ripley of the Wheeler Osgood Company, Tacoma, is president.

R. J. Meyer of Richmond announces the incorporation of the Richmond Lumber Company, capitalized at \$50,000. The concern has leased property on the Santa Fe Railroad at Chanslor Ave. and Nineteenth St., Richmond, for yards. Meyer was previously employed by one of the large lumber companies in Richmond.

Lacelle Strait and U. L. Trussell of Sacramento have formed a partnership and will manufacture and distribute an oil burner patented by Strait. The two will operate under the firm name of Strait Hydro Carbon Oil Burner Company with offices and plant in Sacramento.

C. C. Moore & Co., engineers, capitalized for \$1,000,000, has been incorporated in San Francisco. Directors are: C. C. Moore, Elgin Stoddard, Burke Corbet, A. W. Potts and Lillian M. Moore.

Willis F. Lynn of Oakland, general contractor, will shortly open offices in San Jose, where he was recently awarded a contract to erect a two-story business structure.

Wm. Picard, heating and plumbing contractor, is having plans prepared for a new plant to be established in San Jose at a cost of \$50,000, exclusive of equipment to be installed.

Pacific Electric Clock Co., with headquarters in Oakland, has been incorporated. The concern is capitalized for \$250,000 and is headed by L. H. Bill and J. Latourrette, both of Oakland. The company specializes in the manufacture of electric clocks.

Scott & Fulton Building Co., of San Francisco, capitalized at \$150,000, has been incorporated. Directors are: A. S. Newburgh, S. M. Roeder and J. C. Turk.

## ALONG the LINE

Harry J. Parker has been appointed representative of the Portland Cement Association at Santa Barbara, succeeding George F. Allen, resigned. Mr. Parker's territory includes Kern, Santa Barbara, San Luis Obispo and Ventura counties. Mr. Parker for the past five and a half years has been division engineer in the Orange county road department at Santa Ana.

C. L. Jenkins, previously chief assistant to J. L. McBride, former Orange County road commissioner, has been appointed city engineer of Santa Ana, succeeding Nat H. Neff, who in turn has replaced J. L. McBride in the Orange County road department. Jenkins was formerly in the city engineer's office under W. G. Knox.

Alameda County Builders' Exchange has adopted the new wage scale of the San Francisco Impartial Wage Board with the provision that the new scale would not apply to work contracted prior to December 10 of last year.

D. S. Hayes, engineer with the State Division of Water Rights, has been appointed chief engineer and superintendent of the municipal water department of Alhambra. This position has been held by T. E. Downer, city engineer, who will now devote his entire time to the last named position. Mr. Hayes will receive a salary of \$300 and Mr. Downer \$250 per month.

Harry Long, retired contractor of Berkeley, died in that city Jan. 13 following a heart attack. He was seventy-three years of age and had been in the contracting business in the East Bay section for many years.

Thornton A. Mills, formerly assistant engineer with the Municipal Water Department of San Diego, and more recently in consulting practice, has become associated with Atkinson, Kier Bros., Spicer Co., general contractors, as engineer in charge of construction of the Coolidge dam, Arizona.

Daniel B. Miller, consulting engineer, has been appointed secretary-engineer of the Western Asphalt Association, recently organized. Offices of the association will be maintained at 805 Quinby Bldg., Los Angeles.

H. E. Hedrick, civil engineer and contractor from Manila, will open offices in San Francisco.

F. J. Main and A. F. Janes, general contractors, have formed a partnership and will operate under the firm name of Main & Janes, catering especially to work in the Marin County District.

The bridge and structural iron workers of Pittsburgh have advised their employers that they will demand the five-day week when the present agreement expires. In addition they are asking a wage increase from \$1.50 per hour to \$1.75 per hour or a weekly wage of \$70 for 40 hours.

## SACRAMENTO ARCHITECTS WILL HOLD ANNUAL FROLIC

The sixth annual banquet of the Architects and Engineers' Club of Sacramento will be held in the Pompeian Room of the Hotel Sacramento on Thursday, February 3rd, at 6:30 P. M.

More than 200 are expected to attend, and builders and contractors are to be special guests.

Special music and entertainment features which have become characteristic of the annual frolic of the architects will be presented. A committee composed of H. W. De Haven, Carl E. Berg and Jens C. Petersen is in charge.

## NATIONAL FORESTS OBTAIN \$7,500,000 ROAD APPROPRIATION

Apportionment of the \$7,500,000 road fund for the national forests among the States for the fiscal year of 1928, has been announced by the Forest Service, United States Department of Agriculture. The fund is part of the Federal aid road bill.

Four million five hundred thousand dollars was authorized by Congress for the forest highway fund, which provides for the survey, construction, and maintenance of forest roads of primary importance to States and communities; and \$3,000,000 was apportioned to the development of roads in and adjoining the national forests of primary importance for the protection, administration, and utilization of the national forests, and necessary for the use and development of the resources upon which communities within the national forests are dependent.

Because of the more extensive areas of national forest land in the West than in the East, the greater portion of the funds has been allotted to Western States. From the highway fund California was apportioned \$680,140; Idaho, \$509,561; Oregon, \$579,801, and Montana, \$403,447. Arkansas with \$34,472, and Virginia with \$17,287, and New Hampshire with \$16,437 received the bulk of the appropriation in the Eastern States. Alaska was allotted \$472,547, and Porto Rico, \$597. Of the funds for forest road development Idaho was apportioned \$636,277; Oregon \$537,103; and California \$423,834. New Hampshire with \$13,821 was given the greatest allotment in the Eastern States. In the South Arkansas received \$50,464 and North Carolina \$34,742. Alaska will get \$20,562 and Porto Rico \$306.

## POOLING CREDIT INFORMATION

To make easier the task of the merchant entering foreign trade fields the International Chamber of Commerce, largely upon the initiative of its American Section, has undertaken to make a compilation of the most trustworthy sources of credit information in the 40 countries represented in the organization.

Each of the national branches will submit a list of the sources within the particular country which, in the light of actual business experience, have proven to be the most reliable, together with foreign sources of demonstrable value in the international trade of the country. All of these will be brought together at the headquarters of the International Chamber at Paris, and be made available to business throughout the world. In this way, it is expected, the ordinary business risk of the manufacturer or trader selling his goods abroad will be minimized and international trade generally will be safeguarded.

## Home Ownership

By Oliver W. Tuttle, Development Editor, San Francisco Call

It is easy to build a home these days. And there is no investment that is more safe or one which gives more satisfaction than home ownership.

Homes are not bought for a gain. Yet due to some psychological influence a man owning his home usually forges ahead in financial glory. His proprietorship, his feeling of security, gives him a self-reliance which manifests itself in thrift and business ingenuity which reflect in his daily pursuits of commercial activity.

Today a home may be purchased in San Francisco on terms that are as easy as the purchase of an automobile. A small deposit down, monthly payments like rent, then possession is taken. And while the payments are being made land values are increasing and shortly the buyer finds himself favorably entrenched financially.

Some prefer to purchase a home already constructed. Others would rather select their lot and then build a dwelling of their own design. Either method is safe.

In selecting a home already constructed a buyer profits in the advantage of mass construction and economy of costs. The builder buys materials in quantity. He constructs the home without waste and with crews of mechanics familiar with each design. He finances the undertaking in such a manner that it has a distinct appeal. The buyer shares in this scientific economy and enjoys the liberal financial methods employed.

Such homes are constructed under the scrutiny of the municipal building inspector's office. They must meet all city ordinances in construction and the purchaser can easily examine the workmanship and mechanical features.

A home buyer should select the section of the city where he would prefer to reside, then the location or street in that section, one in close proximity to a carline and one with set-back restrictions and zoning to his liking. After that the type of home can be found, the floor plan picked to please and the matter of finances investigated.

In the matter of finances, the purchaser should always consider his monthly obligations. A frank discussion of the subject with the builder is advisable. No builder will seek to overload.

If it is found a certain specified monthly payment is within your means, can be cared for out of your income free from other outside obligations, if any, then the builder will explain to you the following facts:

That there would be added to such an amount the prorated municipal tax rate, the prorated insurance rate for that district and the average amount of the monthly water bill.

And remember that every dollar of the principal you pay is money deposited to your own account, its accumulation is your equity and that instead of paying rent you are transferring your coin into your own pocket-book.

bounds is remarkable evidence of stability.

"So as to prevent an over-built condition (which it is quite possible may develop in any section of the country), a rigid policy of watchfulness should prevail throughout 1927. It is a well known fact that over-production might result in serious consequences, both for the construction industry and general business.

"There is also noticeable a slight decline in newly-planned work, as well as in contract volume. Consideration of the facts seems to point to a continued moderate decline in contract volume, through a part of 1927 at least. Should the contract volume be kept within reasonable bounds during the first part of 1927, new demands might develop which would hold activity at satisfactory levels during the latter part of the year.

"On the whole, 1927 should be another prosperous year for the building industry, although present indications are that its volume of contracts may not quite reach the 1926 total. Should the contract volume be reduced, it appears at the moment that the worst possible decrease will not be more than half a billion dollars, and it seems safe to set \$6,300,000,000 as a minimum estimate for the new year."

In the same issue of the "American Builder-Economist," A. E. Dickinson, president of the Indiana Limestone Company, declares that the country is not over-built and that "looking into 1927, it seems reasonable to suppose from the volume of contemplated work now indicated, that the year will be a very prosperous one."

"And unless something totally unforeseen occurs, a building year under six billion dollars will be disappointing—six billion being a conservative estimate."

W. J. Moore, president of the American Bond and Mortgage Company writes that "available data indicates that the total value of construction in 1927 will closely approach the record-breaking proportions of the last year and no serious major building recession is in sight."

"If there is a decline during the approaching year," he said, "it should not be more than five or ten per cent less than the 1926 total. Any recession will be extremely moderate and gradual, and there need be no fear that the bottom will fall out of the building market."

## POWER DEVELOPMENT PROPOSED

Yuba River Power Company of San Francisco has applied to the State Department of Public Works, Division of Water Rights, for additional water in connection with a proposed \$44,000,000 power project on the middle fork of the Yuba River. The application is for 160 second feet and the storage of 40,000 acre feet and contemplates the construction of a dam with a height of seventy feet and a width of 86 feet. The plant would generate 46.10 theoretical horsepower. Though the company has several applications pending before the state, none for the Yuba River project have been granted as yet.

## PLANS ANNUAL MEET

The annual meeting of stockholders of the California Sugar & White Pine Company will be held January 29 at 1115 First National Bank Bldg., San Francisco, it is announced by Edward F. Wist, secretary of the company.

## 1927 Will Be Prosperous Year For Building Industry

Nineteen hundred and twenty-seven should be another prosperous year for the building industry and "should the contract volume be reduced, it appears at the moment that the worst possible decrease will not be more than half a billion dollars," in the opinion of Thomas S. Holden, vice-president in charge of statistics for the F. W. Dodge Corporation.

Discussing the "Building Outlook for 1927" in an article in the January issue of the American Builder-Economist, published by the American Bond and Mortgage Company, Mr. Holden states that "it seems safe to set \$6,300,000,000 as a minimum estimate for the new year." His article follows:

"The 1926 total for contracts for all kinds of construction will reach approximately \$6,300,000,000—showing an

increase of about 5 per cent over 1925. This advance is not quite so great as the rise in general business volume, which is estimated at 5 per cent.

"The major portion of the increase in the volume of construction during the last year is traceable to the industrial and civil engineering classes of work. The greater part of this rise developed in the first few months of the year, with the first half of 1926 showing a marked increase over the same period in the previous year. A smaller volume of contracts was made in the last six months of 1926, as compared with that part of 1925, but the second half of 1926 equalled the first half.

"A declining trend is expected after a big speculative boom, but that it should keep within such moderate

## Forty-Two Million Dollar Construction Program For Southern Calif. Edison Co.

Expenditures totalling \$42,000,000 are planned by the Southern California Edison Co. for the current year, according to a statement issued by R. H. Ballard, executive vice-president and general manager. This is 33 per cent more than the total amount called for in the 1926 budget. This vast sum of money is to be distributed very largely to the business and working men in Southern and Central California.

Constructive work on the Big Creek, San Joaquin project and the High Sierras, northeast of Fresno and on the third 220,000-volt transmission line is to be continued during 1927. This work will require \$15,000,000, which is more money than has, at any previous time, ever been set aside for one year's construction work on this particular project. Work on a fifth power plant of the Big Creek-San Joaquin series is to be started, which plant will have a capacity of 112,000 horse power and will be ready for operation early in 1928. The 220,000-volt transmission line stretching 270 miles across country from the giant hydro plants in the High Sierras to Southern California, was partially completed during 1926. Ninety-five miles of line extending from the receiving sub-station just north of Pasadena to Magunden sub-station six miles east of Bakersfield, was completed and energized early in November. Work on the northern end of the line is to be pushed throughout 1927, so as to have the line completed coincident with the completion of the new hydro plant in the High Sierras.

### Big Steam Plant

Efficient and economic operation of an electric utility demand should a proper balance be maintained between steam and water power generation.

More than seven and one-half million dollars is to be spent at Long Beach steam plant, where a new 125,000-horse power unit is to be built. This is but the first of eight similar units which the company plans to construct at Long Beach as the need for additional energy develops.

Seventy-five sub-stations will be built, new, or will have their capacities materially increased during the coming year. These sub-stations and the lines distributing power from them, are some of the items for which \$16,000,000 for additions and miscellaneous betterment throughout the entire system, will be spent.

"Our growth is contingent upon the growth of Central and Southern California," said R. H. Ballard in outlining the work and prospects for the ensuing year. "New industries are coming to our territory, established industries are steadily becoming larger, new houses are constantly being built, new offices rapidly being established, new lands being brought under cultivation and all of these activities are dependent upon the Southern California Edison Co. for that basic need of modern civilization—electricity.

"With our more than 350,000 consumers, and our more than 105,000 consumer stockholders, we are now a public utility which is truly the people's project. One-half of this \$42,000,000 may be termed new money in Southern California, inasmuch as approximately that much of the money will be raised by means of bond issues sold in eastern financial centers. The remainder is expected to be raised by means of the sale of Edison 6 per cent stock to resident consumers of the company's energy."

The report declares it to be the opinion of the commission that, writing 100 per cent of the compensation insurance of the state, the Fund "will be in a position to place California in the front rank of all the states in the matter of providing the victims of industry with remedial and restorative relief, with lowered cost to employers;" also that the commission would be in a position to more effectively "combat the rising tide of industrial injuries." This result would flow, the commission says, from "the substitution, in all cases, of inspections designed to make industry safe for employment, under full state authority and compulsion, for the thousands of inspections now being made primarily for rate-making, premium-reducing purposes."

The concluding paragraph of the report reads as follows: "The members of the Industrial Accident Commission are in complete agreement with the great majority of our citizens who hold that, under ordinary conditions, the state should not enter into competition with private enterprise; that such activity should only be encouraged when it shall become apparent that the state can perform a service that cannot be performed at all, or with only meagerly comparable results, by private enterprise, and then only when some social, industrial or public need of paramount importance demands it. It was such a need that prompted the state to enact the Workmen's Compensation Act, with the provision for the State Compensation Insurance Fund. To suggest, therefore, that the Fund be given a monopoly in writing workmen's compensation insurance in California is merely to propose that the state proceed, in an orderly, business-like way, to the consummation of this great, humanitarian activity.

### STEEL PRODUCTS PRICES ARE LOW, SAYS CAMPBELL

"Prices of steel products are low," states James A. Campbell, president of the Youngstown Sheet & Tube Company. "The steel industry is not making over 5 per cent on its investment compared with 20 per cent to 30 per cent, with the motor and some other industries. The steel industry is using up its raw material resources, coal, ore and limestone, and barely getting cost from them. This is a serious thing."

### ILLEGAL PLUMBING CHARGED

Opening a drive to put a stop to the health menace caused by unskilled and non-certified plumbers performing work in San Jose, City Plumbing Inspector Fred N. Johnson caused the arrest of D. Castro and A. Mansford, San Jose plumbers, on warrants charging them with violating the municipal plumbing ordinance. Specific charges are that the defendants hold no certificates of competency from the plumbing inspector and that they installed illegal plumbing work without a city permit.

### PALO ALTO HAS MODEL LUMBER YARD

The lumber yard of Paul M. P. Mermer of Palo Alto, is cited as one of the most modern, up-to-date yards in the entire United States, says the National Retail Lumber Dealer, trade journal devoted to the interests of retail lumbermen. The article which describes the Mermer yard is captioned "A Nifty California Yard," and a picture of the establishment appears on the front cover of the same issue.

## Accident Commission Urges Monopoly For State Fund

The outstanding feature of the annual report of the Industrial Accident Commission, just filed with Governor Richardson, is the recommendation by the commission that the State Compensation Insurance Fund be given a monopoly in writing Workmen's compensation insurance in California. Due to legislative inhibitions, the commission says, we have reached an impasse in workmen's compensation legislation, and the only hope for future progress lies in an exclusive state fund, which will, it is declared, "turn downward the present upward trend of compensation insurance rates and, at the same time, by reason of the elimination of the waste that is characteristic of the competitive insurance-selling system, produce such additional revenues as may be needful to provide substantial additional benefits to both employer and employee."

"The accomplishments of the Fund during the twelve years of its existence have been such as to inspire absolute confidence of the insuring public. The Fund has more than justified its existence. Despite its restriction to a competitive field, it has been more than self-supporting. It has written insurance at competitive rates and is returned to its policy holders re-

funds that have, for several years, averaged 30 per cent of the premiums originally paid. These refunds aggregate over \$11,000,000. The Fund has paid into the accident prevention fund a total of \$929,986.50, such payments being in lieu of, and comparable to, tax payments made annually to the state by commercial insurance carriers. In addition it has built up a reserve fund for the possible "rainy day" in excess of \$2,000,000. In view of this splendid record, the commission feels that it is entirely reasonable to propose that the Fund be stripped of its competitive chains and that it be given a monopoly of workmen's compensation coverage in this state."

Six states now have monopolistic state funds—Washington, Oregon, Nevada, Wyoming, North Dakota and Ohio. The commission points to the fact that the California state Fund has been, from its inception, partly monopolistic in that all the political subdivisions of the state are required to carry their compensation insurance with the state, or self insure, and declares that it is, therefore, only a short step to a completely monopolistic state Fund—"the next, logical forward step toward the ultimate, preordained destiny of the Fund."

GOVERNMENT WORK  
AND SUPPLIES

WASHINGTON, D. C.—(By Special  
Wire)—L. L. McCandless, Honolulu, at  
\$281,000 submitted low bid to Bureau  
of Yards and Docks, Navy Department,  
Jan. 19 to construct extension to pier  
at Naval Operating Base, Navy Yard,  
Pearl Harbor. The pier will be approx.  
80x248 ft., having reinforced concrete  
beams, girders and floor slab, com-  
posite piles of wood and precast rein-  
forced concrete, spring fender system,  
pile dolphins, bitts, cleats, cast iron  
frames and covers, railway tracks,  
steel conduits and service pipes. Next  
two low bidders were: Hawaiian Dredg-  
ing Co., Honolulu, \$305,922; Russell R.  
Ames, Honolulu, \$283,000. Complete  
list of bids will be published shortly.

WASHINGTON, D. C.—Until Jan. 27,  
10:30 a. m., under Circular No. 1783,  
bids will be received by Purchasing  
Officer, Panama Canal, to fur. and del.  
Balboa (Pacific Port) steel reinforcing  
bars, round, in 30-ft. lengths, of  
following sizes:

250,000 lbs.,  $\frac{3}{8}$ -in.  
400,000 lbs.,  $\frac{1}{2}$ -in.  
300,000 lbs.,  $\frac{5}{8}$ -in.  
450,000 lbs.,  $\frac{3}{4}$ -in.  
120,000 lbs.,  $\frac{7}{8}$ -in.  
550,000 lbs., 1-in.

Further information obtainable from  
Assistant Purchasing Officer, Fort  
Mason, San Francisco.

SACRAMENTO, Cal. — Congressman  
Chas. F. Curry has advised that the  
U. S. Treasury Dept. has selected Sacra-  
mento for the erection of a new fed-  
eral building. It is expected that an  
appropriation of \$1,000,000 will be made  
to cover the cost of construction.

SAN FRANCISCO—Until Jan. 24, 11  
A. M., under Order No. 7824-1029-31,  
bids will be rec. by U. S. Engineer Of-  
fice, 85 2nd St., to fur. and del. Rio  
Vista, Solano county, miscellaneous  
electrical supplies. Lists of materials  
desired obtainable from above office on  
request.

SOME SAY.

THAT ALL the wise ones.

LIVE IN the big towns.

BUT CLARENCE (Sandy) Pratt, pro-  
ducer.

OF CLEAN, sharp sand.

AND CLEAN, hard rock.

AND CLEAN, washed gravel.

AT SACRAMENTO, Prattrock (near  
Folsom).

MARYSVILLE, MAYHEW (Sacramento  
County).

AND PRATTCO (Monterey County).

CENTRAL OFFICE—San Francisco.

THINKS THAT some wise fellows.

LIVE ON the farms.

FOR SANDY bought a turkey.

SAID TO have been raised.

IN THE fertile valley.

OF THE great Sacramento River.

SOME BIG Chamber of Commerce men.

SAY "HEART of California."

ANYWAY THE San Francisco dealer.

CHARGED SANDY 60¢ per pound.

OR \$1200 per ton.

FOR A sixteen pound turkey.

AND WHEN Sandy.

CLEANED OUT the gizzard.

AND THE crow.

OF THE Sacramento Valley bird.

SANDY FOUND both filled.

WITH SANDY'S white Marysville sand

OUT OF the Yuba River.

THAT SANDY sells.

FOR A Dollar and a half.

PER TON of 2000 pounds.

AND THERE was so much difference.

BETWEEN \$1200 per ton.

AND \$1.50 per ton.

THAT SANDY.

COULDN'T ENJOY his Christmas din-  
ner.

"I THANK you."

Here is the sixteen pound turkey  
stuffed by B. A. Gobler, Turkey raiser  
with Sandy Pratt's \$1.50 per ton white  
Marysville sand out of the Yuba River  
(See above K.C.B.-like story) and ther  
bought by Sandy for \$1200 per ton (60¢  
per pound), which goes to show that  
the wisest people do not live in the  
big cities.

LOS ANGELES, Cal.—Until 10 A. M., Jan. 31, bids will be rec. by Bd. Pub. Wks. for motor generator for new city hall. Plans obtainable from architects, 608 Chamber of Commerce Bldg.

## PUBLIC BUILDINGS

Preliminary Plans Prepared.  
**MUSEUM BLDG.** Cost, \$1,000,000  
 OAKLAND, Alameda Co., Cal. Lake-side Park.  
 Class "A" Art Center and Museum Building.  
 Owner—City of Oakland Park Director (Edgar M. Sanborn, chairman).  
 Architect — Chas. W. McCall, 1404 Franklin St., Oakland.

Mr. Sanborn expects shortly to name a committee of five which will have the sanction of the city park commissioners to conduct a campaign for funds to finance the structure.

The building as now planned will be built in four units. Each is complete in itself but connected by corridors when the building is finished. The structure will be approximately 1000 feet in length. The three outside sections will form a semi-circle enclosing the central buildings and a court.

Tentative plans call for location of the New Oakland art gallery in the central building. Museum exhibits will be housed in the wings.

OAKLAND, Cal.—Until Jan. 24, 8 to 9 p. m., bids will be received by Mabel W. Thomas, secty. (pro-tem), City Board of Library Directors, to fur. and install steam heating boiler in Main Building of Oakland Free Library, 14th and Grove Sts. Cert. check 10% payable to Frank C. Merritt, city clerk, req. See call for bids under official proposal section in this issue.

STOCKTON, San Joaquin Co., Cal.—Until March 14, bids will be received by A. L. Banks, city clerk, to fur. and install concert organ in Civic Memorial Auditorium. Specifications provide for leasing of organ for five years with option to purchase. Previous bids received for the installation several months ago were rejected. Further particulars obtainable from city clerk.

MERCED, Merced Co., Cal.—County Surveyor W. E. Bedesen completing plans for extensive repairs at county jail.

SANTA BARBARA, Cal.—Wagner & Fell, Santa Barbara, at (a) \$169,670 for concrete work, (b) \$28 for reinforced concrete work in place and (c) \$2900 for deduction if certain concrete stairs are omitted, awarded contract by county supervisors, in connection with county courthouse. Other bids were: (H. H.) Larsen & Larsen, San Francisco, (a) \$191,000; (b) \$28; (c) \$2000. Clinton Construction Co., San Francisco, (a) \$197,176; (b) \$30; (c) \$3000. Roy Richardson, Santa Barbara, (a) \$199,750; (b) \$30; (c) \$3000.

Ott Hardware Co., Santa Barbara, awarded contract for heating and plumbing at \$73,236, bidding as follows: (a) heating and ventilating, \$35,000; (b) plumbing, \$38,986; (c) heating, plumbing and ventilating, combined, \$73,236; (d) deduction if hot water system in main building, includ. steel stack for Ruud heater, also Ruud heater, circulating pump and hot water faucets on fixtures are omitted, \$3550; (e) if air washer is omitted on main ventilating system but provision made for future installation, \$1000. Other bids were:

Frank Stewart, Santa Barbara, (a) \$36,949; (b) \$36,757; (c) \$73,400; (d) \$2750; (e) \$824.50.  
 Sweeney & Son, Santa Barbara, (a) \$47,763; (b) \$40,905; (c) \$87,665; (d) \$4677; (e) \$771.  
 John Dugan, Santa Barbara, (b) \$41,215; (c) \$3050.  
 Wm. Mooser, architect, Nevada Bank Bldg., San Francisco.

SAN FRANCISCO, Cal.—Until Feb. 3, 12 noon, bids will be received by B. L. Lamb, secretary, Park Commission, Park Lodge, Golden Gate Park, to repair Palace of Fine Arts at old Exposition grounds on the Marina. Henry D. Dewell, engineer, Sharon Bldg., 55 New Montgomery St., San Francisco. Work will consist of constructing new concrete underpinning, new concrete floor, repair exterior plaster, paint all steel, new plumbing, electrical work, piping, etc. \$100,000 is available for the improvement. See call for bids under official proposal section in this issue.

LOS GATOS, Santa Clara Co., Cal.—Until Feb. 21 bids will be received by city trustees to erect firehouse at Main and Tait streets. Plans on file in office of city. Complete particulars regarding this project will be given shortly.

Boxes to be perfectly plain, without covers or pulls, to be used for storage of screws, bolts, etc. Further information obtainable from above.

## BUSINESS OPPORTUNITIES

**SAN FRANCISCO, Cal.**—Further information regarding these opportunities may be obtained from the office of Larsen Advance Construction Reports, 818 Mission St., San Francisco, either by phone, letter or personal call. Requests for additional information should be made to the Business Opportunities Department. Such requests must be accompanied by the Index Number of each opportunity.

11160—San Francisco, Cal. Experienced San Francisco sales organization offers its services to local manufacturers of hardware, or similar lines, wishing sales representation in northern California or the Pacific export territory.

11166—Charleroi, Belgium. Firm specializing in metals and building materials wishes to represent large American firms as buying agent on a commission basis, in Belgium, France and Germany.

11167—Ghent, Belgium. Concern wishes to communicate with buyers of all classes of thermometers and manometers of Belgian manufacture.

11168—Brussels, Belgium. Manufacturers of all kinds of stainless cutlery wish to extend their relations in the United States and to get in touch with importers and direct buyers.

11170—Brussels, Belgium. Party specializing in the sale of electrical and mechanical apparatus for domestic purposes seeks the representation of American manufacturers producing these articles.

11172—Brussels, Belgium. One of the most important chalk and putty manufacturing concerns in Belgium, extracting their own raw materials and consequently in a position to offer ex-

tremely favorable prices, would like to get in touch with buyers and agents working on commission who would be interested in handling their lines.

11174—Jambes-Namur, Belgium. Manufacturers of all kinds of cutlery seek outlets in American markets. They wish to deal direct with buyers and direct importers.

11175—Berkeley, Cal. Mining and chemical engineer leaving for Germany in February is open for connections with San Francisco houses wishing representation in that territory. Speaks and writes German, French and Russian. Excellent local references and recommendation letters available.

11177—Stuttgart, Germany. Manufacturer of steel rules, folding pocket rules, measuring instruments, etc., wishes connection with San Francisco firms and wishes to appoint a selling representative.

11178—Krefeld, Germany. Patentee of a device for letter files wishes connection with firms in San Francisco.

11181—Herrnhut/Sa., Germany. Manufacturer of agricultural machines, special machinery for beet root and potato harvesting, for spraying, etc., wishes connection with firms in San Francisco.

D-2310—York, Pa. Manufacturers of a complete line of farm implements, engines, boilers, threshers, hay presses, sawmills, cider presses, etc., desire to appoint a San Francisco firm or individual to handle the distribution of any or all of their products in this territory.

D-2311—Cheyenne, Wyo. Manufacturers of electrically operated disappearing wall beds desire to secure the services of two active salesmen to handle the distribution of their invention in this territory.

D-2314—Minneapolis, Minn. Two gentlemen wish to establish business connections with San Francisco manufacturers or firms desiring to broaden their market and who seek representation in the Minneapolis and St. Paul territory. They wish to act either as direct sales representatives or exclusive agents, establishing and stimulating trade with manufacturers, jobbers, dealers or through other mediums. They will supply references upon request.

D-2315—San Francisco, Cal. Active selling organization covering Pacific Coast wants additional accounts, especially articles manufactured in Bay District. Have enviable record with furnaces and other building equipment.

D-2316—Grass Valley, Cal. One of the large mines requests quotations from a San Francisco manufacturer in a position to supply six dozen metal boxes (light galvanized iron), without covers, 5 inches wide by 12 inches long by 3 inches deep, with a partition across the center, making two compartments each 5x6x3 inches. Boxes to be perfectly plain, without covers or pulls, to be used for storing screws, bolts, etc.

## APPRENTICE PLANS PROPOSED IN CANADA

In an effort to ensure adequate numbers of skilled mechanics in the building trades, the Association of Canadian Building and Construction Industries has formulated a plan of apprentice training. This calls for organization of an apprenticeship council for Ontario, to be composed of two representatives, each of the A.C.B.C.I., the Building Trades of Ontario and the Department of Technical Education; and one each from the Ontario Architects Association and the Engineering Institute.

This council has full power of final decision in all cases and in all disputes pertaining to general questions of policy effecting relations between unions' and contractors' associations. Local councils are to be formed on the same order. These will have charge of placing apprentices and will supervise apprentices on the job, as well as assuring regular attendance by boys

at technical training, but the Provincial Council will grant diplomas.

Funds for the operation of the plan are to come from contractors employing the apprentices and they are to pay into the council an amount equal to ten per cent of the earnings of such apprentices who may be in their employ. A contractor may not discharge an apprentice without the approval of the local committee but is enabled to employ apprentices provided they be registered with the local committee.

## 1926 PROVES RECORD YEAR FOR OAKLAND SCHOOL BUILDING

The year 1926 has seen the greatest building activity on record in the public schools of Oakland, according to Donald R. Lee, business manager of the Oakland Board of Education.

An investment of more than \$3,000,000, part of the 1924 bond issue, was represented by new schools either completed or begun during the 12 months.

Schools completed and occupied in 1926 cost \$1,240,966, and have a total capacity of 6500 pupils. They include: Cole, \$189,405; E. Morris Cox, \$148,556; Elmhurst shops, \$26,000; Montclair, \$35,923; Prescott annex, \$61,350; Prescott addition, \$124,146; Webster, \$128,437; Parker, \$36,593; Hamilton, \$175,131; Fremont bleachers, \$6481; John Swett, \$37,962; Claremont, \$58,139; Elmhurst addition, \$10,797; Garfield, \$195,833; Jefferson, \$46,196.

Buildings now under construction, with combined capacity of 7500 pupils, are Frick, \$440,416; Lincoln, \$123,732; Manzanita, \$74,380; McClesney annex, \$121,979; Prescott home economics, \$83,142; Sequoia, \$124,372; San Leandro, \$244,22; Wilson, \$285,097; Elmhurst additions, \$125,000; Franklin, \$45,000; University shops, \$50,000; University gymnasium, \$95,000; a total of \$1,812,342.

## CONTRACTOR LOSES IN PAVING COST SUIT

Contractors who sign up a majority of the property-owners in a district to pay for street paving do not thereby gain any right to charge those who do not sign for paving before their property, says a superior court decision received by the San Francisco Board of Works. The decision was handed down by Judge Walter Perry Johnson in the case of Charles L. Harney, a contractor, who sued Alice F. Maxwell for payment for paving for which the court held she had not contracted.

## JOS. L. STEWART, S. F. ARCHITECT WINS SUIT

A verdict for \$25,000 in favor of Joseph L. Stewart, architect, against the United Income Properties, Inc., an organization formed to build a million-dollar hotel in Oakland on San Pablo avenue near Twenty-eighth street, was returned by a jury in Superior Judge Conlan's court. The jury held that the following four stockholders must pay \$5000 of the judgment: Louis E. Engleberg, R. C. Young, Ludwig Sterner and K. Gluck. Stewart sued for \$72,000.

## NOTICE TO CONTRACTORS

### (Steel Shelving—Alameda County)

Office of the Clerk of the Board of Supervisors, Alameda County, Calif.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County, at his office, until **Monday, February 7th, 1927, at 10:30 o'clock A. M.** (the day when said bids will be opened and the contract awarded) for the purchase of Steel Shelving Sections for use at Highland Hospital of Alameda County, situated at Fourteenth Avenue and Vallecito Place, Oakland, California.

Specifications for the above Steel Shelving are on file in the office of the County Clerk open to inspection. Copies may be obtained by applying to John M. Sabin, Purchasing Agent, Hall of Records Building, Oakland, Calif.

Each bid must be accompanied by a check for at least ten per cent of the amount of the bid or proposal, certified to by some responsible bank, and made payable to Geo. E. Gross, Clerk of the Board, to be forfeited to the County of Alameda as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award or to give the bond required by the Board for the faithful performance of the contract.

(SEAL) GEO. E. GROSS,  
Clerk of the Board of Supervisors of the County of Alameda.  
Dated: January 10th, 1927.

## NOTICE TO CONTRACTORS

### (East Bay Municipal Utility District)

Sealed proposals will be received at the office of the East Bay Municipal Utility District, 1924 Broadway, Ray Building, Oakland, California, until **7:30 o'clock P. M., February 25, 1927**, and will at that hour be opened for furnishing materials for and constructing the housing for San Pablo Screening Chamber, the housing for Lafayette Screening Chamber and Lafayette Pump House, and the aeration works at Lafayette Screening Chamber. Specifications may be obtained by application to the office of the District.

(Signed) JOHN H. KIMBALL,  
Secretary.  
Oakland, California, January 14, 1927.

## STATE OF CALIFORNIA

### CALIFORNIA HIGHWAY COMMISSION

## NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until **2 o'clock P. M. on February 14, 1927**, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made of portions of State Highway as follows:

Kern County, a sidewalk on the bridge across Kern River at Bakersfield (VI-Ker-4-D), 352 feet long composed of wooden walk and guard rail and structural steel and 1240 lineal feet of guard rail and gravel approaches.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Wilhits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno,

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
LOUIS EVERDING,  
J. P. BUNGARTNER,  
California Highway Commission.  
R. M. MORTON,  
State Highway Engineer.  
W. F. MIXON, Secretary.

Dated January 17, 1927.

## NOTICE TO CONTRACTORS

### (Elevators—Mare Island)

The Bureau of Yards and Docks invites attention to the fact that it will open proposals, in the near future, on Specification No. 5289, "Passenger Elevators, Navy Yard (Hospital), Mare Island, California." The elevators shall have a lifting capacity of 2500 pounds at a speed of 150 feet per minute and shall be operated by a worm gear drum or traction machine. The cars shall be approximately 5 by 8 feet and shall have travels of 50 feet, 24 feet and 23 feet 6 inches for the double ward building, sick officers' quarters

and contagious disease ward respectively.

In the event that this work is of interest to your firm, you should forward immediately to the Bureau of Yards and Docks, Navy Department, Washington, D. C., or to the Commandant, Navy Yard, Mare Island, Calif., a check or postal money order for \$10, payable to the Chief of the Bureau of Yards and Docks, as security for the safe return of the drawings and specification, which will be forwarded as soon as available.

## NOTICE TO CONTRACTORS

### (Exhibition Building — Kern County)

Notice is hereby given that sealed bids will be received by the Clerk of the Board of Supervisors of the County of Kern, State of California, up to **11 o'clock A. M., of Monday, February 7, 1927**, for the furnishing of labor and materials for the erection complete of an exhibition building at the Kern County Fair Grounds, Bakersfield, California, in accordance with plans and specifications prepared by Charles H. Biggar, Architect, 405 Bank of Italy Building, Bakersfield, California.

Plans and specifications for same may be obtained at the office of the Architect upon deposit of Ten Dollars (\$10.00) which will be returned upon receipt of the said plans and specifications in good order at the time designated by the Architect.

Bids forms will be furnished by the Architect.

A certified check or bidder's bond in the amount of ten per cent of amount bid to be to the order of the Clerk of the Board of Supervisors as evidence of good faith, and that the bidder, if successful, will enter into a contract satisfactory to said Board of Supervisors, and in addition thereto will furnish good and sufficient bonds therefor.

Board reserves the right to reject any and all bids not deemed advantageous to the County and to waive any informality in any bid received.

By order of the Board of Supervisors of the County of Kern, State of California, adopted January 3rd, 1927.

F. E. SMITH,  
County Clerk and ex-Officio Clerk of the Board of Supervisors.

## NOTICE TO BIDDERS

### (Coalinga Union High School District — Linoleum)

Notice is hereby given that the Board of Trustees of the Coalinga Union High School District Library, Coalinga, California, will receive sealed proposals and bids for the covering of the entire main floor of the Coalinga Library with Armstrong's Linoleum, ¼-inch Battleship Brown, No. 20, or with Armstrong's Cork Carpet, XXX unpolished Brown No. 30, or similar quality, to either that may be selected by the board, said proposal and bid to include the laying of said floor covering.

Dimensions and complete particulars regarding the floor space to be covered may be procured by visiting the library or clerk of the board.

Said bids will be received and opened at the office of the clerk of the board, Pioneer Garage, 129 West Elm Ave., in said City of Coalinga, on the 29th day of January, A. D. 1927, at 4:30 P. M.

The Board of Trustees of the Coalinga Union High School District Library reserves the right to reject any and all bids.

J. A. FLUETSCH,  
Clerk of the Board.

PROPOSAL

Palace of Fine Arts, Repairs—San Francisco

SEALED PROPOSALS will be received at the office of the Park Commissioners, Park Lodge, Golden Gate Park, San Francisco, not later than 12 o'clock noon on Thursday, February 3, 1927.

FOR REPAIRS TO THE PALACE OF FINE ARTS, LOCATED ON THE WESTERLY END OF THE OLD PANAMA PACIFIC EXPOSITION GROUNDS ON THE MARINA.

Said work must be done in accordance with the plans and specifications thereon on file in the office of HENRY D. DEWELL, ENGINEER, SHARON BUILDING, 55 NEW MONTGOMERY STREET, SAN FRANCISCO and must be commenced within five (5) calendar days and completed within two hundred (200) calendar days after the date of the contract to be made and entered into therefor.

The amount of bond for faithful performance of contract will be not less than fifty (50%) per cent of the aggregate of the proposal. All proposals offered must be accompanied by a check certified by a responsible bank, PAYABLE TO THE ORDER OF THE BOARD OF PARK COMMISSIONERS for an amount not less than ten (10%) per cent of the aggregate of the proposal.

Printed proposal forms will be furnished gratuitously upon application at the office of HENRY D. DEWELL, 55 New Montgomery Street, and ALL PROPOSALS MUST BE MADE UPON SUCH FORMS in sealed envelopes marked "BID FOR REPAIRS TO PALACE OF FINE ARTS."

The Board of Park Commissioners reserves the right to reject any or all bids.

By order of the Board of Park Commissioners.

E. L. LAMB,  
Secretary.

NOTICE TO BIDDERS

(Steam Heating Boiler — Oakland)

The Board of Library Directors of the City of Oakland will receive sealed bids at the office of the Secretary, room 14th and Grove Streets, on January 24, 1927, between 8 and 9 P. M., for furnishing and installing a Steam Heating Boiler for the Main Building, of the Oakland Free Library at 14th and Grove Streets. Specifications therefor and form for bid may be secured at said Secretary's office.

A bond for faithful performance, in the amount of 25% of bid, to be given by the successful bidder. A certified check payable to the order of Frank C. Merritt, City Clerk, for not less than 10% of the bid, must accompany each bid. Contract to be entered into within five days afterward, and completed within 10 days thereafter.

MABEL W. THOMAS,

Secretary, pro tem, of the Board.

NOTICE FOR BIDS

(El Camino Irrigation District)

Bids will be received by O. R. Smith, engineer, Proberta, Calif., until Thursday the 10th day of February, 1927, for furnishing and installing approximately ten miles of concrete pipe lines, with all necessary stand pipes, gates and valves, in El Camino Irrigation district, Tehama county, Calif. Plans and specifications may be seen at the office of Pacific Land Company, El Camino rancho, Proberta, Calif.

Bids will be opened at the hour of 10 o'clock, a. m., of the day above mentioned and a contract awarded to the lowest responsible bidder. The successful bidder will be required to furnish a bond satisfactory to the engineer in an amount equal to 25 per cent of the total cost of the work as estimated on the basis of the prices bid.

The right is reserved to reject any or all bids.

U. S. EXAMINATIONS ANNOUNCED

U. S. Civil Service Commission announces examinations will be held in the immediate future for the position of Junior Engineer, paying \$1860 a year and assistant architect engineer and assistant structural engineer, each paying \$2400 a year. Receipt of applications for examinations for the former position must be filed not later than February 12 and for the two latter examinations not later than March 31. Complete particulars regarding these examinations may be obtained from the commission at Washington or from the secretary of the U. S. Civil Service Commission at the Post Office or Customhouse in any city.

Rigid inspection of gas burning appliances by city officials is urged on the Berkeley City Council by the Coroner's Jury that enquired into the death of Mrs. Sylvia V. Spencer in that city on New Year's Day. According to the jury the woman died of carbon monoxide gas poisoning due to fumes from a gas heater in her home. The inspection proposal has been referred to a committee for investigation of possible city legislation and regulation of gas burners and heaters. City Manager John N. Eddy and Chief of Police August Vollmer are said to be in favor of regulation or inspection of gas appliances.

1926 PRICE LEVELS ARE BELOW 1925

Commodity prices maintained themselves in 1926 at somewhat lower levels than in 1925. The 1926 mean level was seven points below the 1925 mean. Compared with 1913, the level for 1926 shows an increase of 52 per cent while in 1925 the increase over the pre-war year was 59 per cent. A greater volume of commodities moved into consumption in 1926 than in 1925, according to all the barometers. One such barometer is found in increased industrial output. Another is in the record-breaking volume of freight moved by the railroads. Lower prices would thus appear to have induced greater consumption. Since 1921, the curve of commodity prices shows, however, moderate fluctuations. In 1921, the price level was 47 per cent

above 1913. The following year it rose two points and in 1923 five points, but in 1924 it dropped four points. The greatest fluctuation occurred from 1920 to 1921 when there was a drop of 79 points. The trend was upward from 1918 to 1920 which was the peak year.

Frederick H. Martine, 57, general contractor of Oakland died in that city, Jan. 17. He was a native of Canada. His widow survives.

Carried in Stock  
in San Francisco  
All Galvanized

## Profitable for the Contractor

**COASTEEL** Standard Buildings are as useful and profitable for the contractor as shovels, trucks and powder on big jobs—they pay for themselves by giving better service.

COASTEEL Buildings are good for years, because they are all galvanized. They can be used on one job as long as needed and then moved onto the next. No material is lost when the buildings are thus moved, as they have 100% salvage.

In the same way, COASTEEL Buildings can be added to or extended without loss of material. They also give the fire-resisting advantage of having no combustible material in their makeup. Nothing but galvanized steel is used, and the galvanizing is specially heavy hot dip.

## RESTRICTIVE RULES TEND TO INCREASE COSTS

Restrictive rules and practices imposed on the construction industry by building mechanics in many localities are a no small factor in determining costs. It has long been an accepted fact that if the unions would agree to eliminate these uneconomic practices, contractors could well afford to pay rates higher than those now prevailing and still at the same time effect considerable savings to owners.

Attention has been called to a rule of the lathers union in New York, which organization has control over the placing of reinforcing rods, that necessitates the bending of all rods on the job or in the yards of the contractor rather than in the plant of the manufacturer. It is said that the cost of bending rods in a properly equipped shop averages about \$8.00 per ton while to do the same operation on the job by hand as the unions insist the work must be done, it costs from \$15 to \$20 a ton.

Many other instances might be cited showing the utter disregard which the average labor organization has toward sound economics. For any organization of contractors to attempt to eliminate all the restrictive rules and practices in their community at one time would doubtless meet with failure. However, by eliminating a few of the minor abuses, it is believed that over a period of years most of the restrictive rules and practices could be eliminated almost entirely.—(Bulletin-Nat'l. Assn. Bldg. Trades Employers.)

## HYDRAULIC DIVISION OF R. R. COMMISSION BUSY IN 1926

The year 1926 was an unusually busy one for the Hydraulic Division of the Engineering Department of the Railroad Commission, the amount of formal matters handled reaching the high peak of the years 1920 to 1922, when a tremendous amount of work was thrown upon the Commission by the sudden and unprecedented development of the State.

The most gratifying feature in the water development of California during 1926 has been that although the greater portion of the state suffered a serious water shortage, resulting from a year of low rainfall, immediately preceded by a cycle of several years of deficient rainfall, the efforts of the Commission's Hydraulic Division have resulted in preventing any serious inconvenience to the public.

Due to an abundant rainfall during the present winter, the year 1927 is initiated under circumstances indicating a prosperous year from the standpoint of industries depending upon water supply for their existence, engineers of the Hydraulic Division report.

There has been a considerable increase in the number of new water utilities during the last year, and this year marked the beginning of a move to consolidate many of the larger domestic water systems under one management. There are now a number of investigations under way by the Hydraulic Division of the Commission to determine whether the rates in effect on certain water utilities are producing more than a fair return upon the investment.

## BELMONT FACES \$120,000 SUIT ON SEWER PROJECT

The city of Belmont, San Mateo County, had further troubles heaped on its already burdened municipal shoulders when the Belmont Country Club, Inc., filed suit for \$120,000 damages in the Superior Court at Redwood City. In addition to the municipality, the defendants include the Metropolitan Casualty Company of New York, Charles E. Prentiss, a contractor, and Trustees Thomas Pennington, Harry C. Warren, George Roussel and C. E. Hanson, Chief of Police H. C. Caldwell and City Engineer George A. Kneese.

The plaintiff alleges that Prentiss, under contract from the city, excavated in certain streets for sewer work. It is alleged that after installing the necessary pipes, dirt was left in the street, causing damages to the Belmont Country Club, Inc., which owns subdivision property.

An injunction from the court restraining the contractors from doing further work in the district is also asked. Actual damages of \$20,000 are asked in the complaint and an additional \$100,000 is requested because the company was unable to show property to prospective purchasers.

## SLATE SALES IN 1926 SHOW FOUR PER CENT DECREASE

The value of the slate sold at the quarries of the United States in 1926 was \$12,030,000, according to estimates furnished by producers to the Bureau of Mines, Department of Commerce. This was 4 per cent less than the value reported for 1925. Slate reported sold for electrical, structural and sanitary, and miscellaneous uses (chiefly flagstones) showed increase in both quantity and value, while the other products decreased.

The roofing slate sold amounted to 455,000 squares, valued at \$1,822,000, a decrease of 8 per cent in quantity and 5 per cent in value. There was an increase of 34 cents in the average value per square.

The total sales of mill stock amounted to 3,831,000 square feet, valued at \$1,084,000, a decrease of 11 per cent in quantity and 3 per cent in value.

Sales of structural slate—2,410,000 square feet, valued at \$937,000—increased 3 per cent in quantity and 9 per cent in value. Sales of electrical slate, estimated at 1,872,000 square feet, valued at \$1,565,000, increased 13 per cent in quantity and 14 per cent in value.

Sales of mill stock for blackboards which was the only variety of mill product that showed increased sales in 1925 decreased 27 per cent in quantity and 23 per cent in value in 1926. The estimated output was 3,760,000 square feet, valued at \$1,298,000.

The sales of crushed slate for roofing granules and flour in 1926 was estimated at 495,700 short tons, valued at \$3,013,000, which was practically the same quantity as in 1925. The average value per ton was somewhat lower than in 1925.

## ENGINEERS NEEDED FOR PUBLIC BUILDINGS WORK

United States Civil Service Commission has announced that until March 31 it will receive applications for positions of assistant architectural engineers, and assistant structural engineers in the Office of the Supervising Architect for employment in connection with the \$165,000,000 public buildings program recently authorized by Congress.

Appointments will be principally for work in Washington, D. C., but appointees will be subject to assignments on the various building projects throughout the country. Traveling expenses will be allowed when absent from headquarters.

The entrance salary is \$2400 a year. Higher-salaried positions may be filled through promotion.

Applicants will not be required to report for written scholastic tests, but will be rated on their education, training and experience.

Full information and application blanks may be obtained from the United States Civil Service Commission, Washington, D. C., or from the secretary of the United States Civil Service Board at the post office or customhouse in any city.

# ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

## QUANTITY SURVEYORS TO CON- VENE AT WASHINGTON, D. C.

"The American Institute of Quantity Surveyors," organized in June, 1926, at Chicago, Ill., is making rapid progress in the development of quantity surveying as a profession in the United States. Its headquarters are at 510 North Dearborn St., Chicago, Ill., in charge of C. T. Burman, secretary. The membership of this organization has doubled during the first six months of its existence and even greater increases are expected during its future existence.

The adherents to the quantity surveying idea have been increasing rapidly during the last two years and even more so since the conception of this new organization whose aim and object is: To unite professional quantity surveyors and their associates of the construction industry, in fellow membership to develop and improve upon the science of quantity surveying applied to structures for the promotion of:

(a) The social and individual economic welfare of mankind.

(b) A higher standard of business ethics and progress in the construction industry.

(c) Conditions and opportunities to render services on equal plane with other advanced professions.

The next convention of this organization will be held at Washington, D. C., June 6, 7, 8, 1927. At this convention the progress made by this organization during the past year and its future activities will be discussed. A complete program of the institute's sessions will be issued prior to this convention and will be forwarded upon request. The sessions of this institution are open to anyone in the construction industry and the public who are interested in the development of a more economic, ethical and greater construction industry.

## SANTA BARBARA BUILDERS ELECT DIRECTORS

At the annual meeting of the Santa Barbara Builders' Exchange, Jan. 24, the following directors were elected to serve for the ensuing year:

Penbroke W. Noble, Carl S. Peterson, H. L. Sweeney, Robert C. Muegenburg, Arthur J. McAdams, Orange R. McNall. The following six directors will hold over: Harry W. Fell, John A. Clarey, Charles A. Forward, Augustus R. Drexel, Walter S. Fultz and Solomon W. Gerow. The election of officers of the exchange will be held Monday, Jan. 31.

## MASTER PAINTERS ELECT

C. A. Boren of San Diego was elected president of the California State Master Painters' and Decorators' Association at the recent convention in Sacramento. Other officers elected were: O. F. Tallman, Los Angeles, first vice-president; A. Van Heerden, Berkeley, second vice-president; William Woolley, Burlingame, secretary; Max John, San Francisco, treasurer and B. V. Gallichotte, San Jose, sergeant-at-arms.

## SAN MATEO CONTRACTORS TO OPPOSE WAGE INCREASE

A resolution in reference to proposed increases in wages for building crafts and a motion for co-operation with the Burlingame-San Mateo Multiple Listing Service were passed at the monthly meeting of the San Mateo County General Contractors' Association, presided over by Arthur Dusenberry, San Mateo, president.

The resolution with reference to wages, follows:

Whereas, It has come to the attention of the San Mateo County General Contractors' Association that certain crafts in San Mateo county connected with the building industry are requesting or are contemplating requesting increases in wages which would make such wages higher than those paid to similar crafts in San Francisco, and

Whereas, The facts pro and con reviewed by the San Mateo County General Contractors' Association do not appear to warrant any increase in wages in any craft allied with the building industry at this time, be it therefor

Resolved, That the San Mateo County General Contractors' Association go on record as being opposed to the granting of an increase in wages at this time to any craft which would make the scale for that craft higher than the scale for the same craft in San Francisco.

A motion was passed signifying intent of the contractors to co-operate with the multiple listing service to the extent that the members of the association will quote the same prices for property as those given the realtors for quotation; but that the contractors' association is opposed to that part of the multiple listing service contract which requires the payment of a commission by the builder regardless of who makes a sale.

## TUCSON BUILDERS ELECT

E. A. Dow was elected president of the Builders' Exchange of Tucson, Ariz. Other officers elected are: M. L. Tophy, vice-president, general contractors; W. F. Grabe, vice-president, sub-contractors; W. M. Killen, vice-president, material dealers; H. W. Sewell, treasurer; W. A. Grabe, secretary. Herbert F. Brown, R. T. Powell and W. C. Roediger were chosen directors.

William C. Wagner, 1343 Twenty-seventh Avenue, San Francisco, entrusted Frank P. Murray with \$1800 to do some building for him, he told the police. This was on June 2, and up to date, Wagner says, he has been unable to find Murray, the \$1800 or any evidence that he did any building. Wagner has sworn out a warrant charging Murray with embezzlement.

## PORTLAND ARCHITECTS ELECT

O. R. Bean has been elected president of the Portland Chapter, American Institute of Architects. Other officers are: W. R. B. Wilcox, vice-president; Fred Allyn, treasurer; A. Glenn Stanton, secretary and John V. Bennes, trustee.

## ENGINEERS NAME COMMITTEES

George E. Tonney, recently elected president of the San Francisco Society of Engineers, announces the appointment of the following committee chairmen:

Public affairs, P. E. Dufour; auditing, T. R. Plant; East Bay membership, Sewell A. Knapp; West Bay membership, H. H. Ferree; music, John Oller; reception, A. A. Robish; qualification, R. C. Briggs; social entertainment, R. G. Green; historical, Louis F. Leurey (chairman); R. C. Briggs, A. E. Zimmerman and Hans Graff.

## L. A. ARCHITECTURAL EXHIBIT OPENED AT EXPOSITION PARK

The annual exhibition under the auspices of Southern California Chapter, American Institute of Architects, is now being held in the county museum building at Exposition Park, Los Angeles. The entire art gallery in the old exposition building is entirely filled by the display which consists chiefly of photographs of executed work. Pictures of churches, schools and residences predominate, but various other classes of buildings are represented. The work shown is of a high class throughout. The exhibition will continue until Feb. 28. It is open free to the public.

The annual exhibition of the Architects League of Hollywood will be held at the Hollywood Chamber of Commerce Building March 5 to 12 inclusive. The Business Men's League of Hollywood will be guests of the architects at a banquet to be held at the Chamber of Commerce March 8.

## GENERAL ELECTRIC WILL SELECT ENGINEERS

Several graduate engineering students at Stanford will be selected by the General Electric Company, for advanced training in the service of that firm, by M. M. Boring, representative of the company, who is now on the Stanford campus to make the selections.

From six to ten students will be chosen for the positions, which are offered each year to a small number of Stanford graduates, with a view to training them to become technical experts in the service of the company.

According to Boring, each student will be trained in a student group to give him practical experience supplementing the university work, and then will be advanced to a responsible position.

Five hundred students from 120 American colleges and universities are selected each year and given this course of practical training for future work with the General Electric Company.

R. A. Herold Co., architects and engineers, successors to the late R. A. Herold, has moved its San Francisco offices from 507 Hearst Bldg. to 683 Sutter Street.

Fred Johnson, Sr., has been named city building inspector of Belmont, San Mateo County. He will assume his new position immediately.

# Watch Your Floor Joists

WHAT IS A HOTEL? SENATORS WILL DEFINE

What is a hotel? Hotelmen supporting a measure introduced in the State Senate by Senator Canepa, San Francisco, believe the word should be defined and its use restricted. Accordingly, Canepa's bill would write upon the statute books of California the definition that a hotel is "an inn containing not less than 50 rooms and having a lobby on the ground floor."

It would restrict the use of the word "hotel" to establishments qualifying under the Canepa definition and leave the small, second floor hostleries no alternative but to think up a new name.

Another bill introduced by Senator Canepa would make it a misdemeanor to register at a hotel or apartment house under an assumed name, and a third measure offered by him at the request of the Hotelmen's Association would create a state publicity bureau to encourage travel to California.

## SHORT LENGTH LUMBER STUDY BEING SOLD IN S. F.

In building construction, as in nearly every branch of other lumber consuming industries, there is a definite use for lumber of short lengths. At present, short lengths are seldom purchased as such but are cut from long lengths at the point of consumption, leaving a large quantity of short length lumber of good quantity utilized at the mills.

Aside from this fact, the utilization of short lengths offers one of the best methods for economy in building operations. A careful study covering the marketing of short length lumber has recently been completed by the Construction Sub-Committee of the National Committee on Wood Utilization. The report of this committee, outlining the opportunities for the use of short length lumber in constructing small houses and farm buildings, has just been published and copies are available at the San Francisco District Office of the Bureau of Foreign & Domestic Commerce, 310 Custom House, at ten cents a copy. Orders for 100 or more copies can be filled at four dollars per hundred.

## DECEMBER STEEL EARNINGS

Trade estimates generally places earnings of U. S. Steel Corp. for December quarter at around \$47,000,000 against \$52,626,826 in previous three months and \$42,630,840 in last quarter 1925. It is likely that figure will be closer to \$48,000,000, according to Dow Jones & Co.

Estimating charges on basis of third quarter earnings of \$48,000,000 would leave about \$4.27 a share for common and bring final showing for year to \$17.35 a share against \$12.36 in 1925.

Earnings of \$17 to \$17.50 a share on common in 1926 would make that best peace year corporation ever experienced. In 1920 U. S. Steel earned \$16.60 a common share. Record war year was 1917 when profits a common share were \$18.50.

After paying all charges and dividends U. S. Steel, will on the basis of the foregoing estimate carry some \$52,000,000 to surplus for 1926.

City of Marysville proposes to purchase the plant of the Marysville water Company, a private concern, and operate the same as a municipal project.

Prepared by Richard C. Kimbell, Architectural Engineer, National Lumber Manufacturers Association.

Jerry-building starts with floor joists of insufficient strength, no matter what the species of lumber, cracked plaster, sagging floors; distorted door openings, so the door does not fit; and other serious defects are frequently the result of skimpy stringers of material. And these ills cannot be corrected without partially rebuilding the house. If home-builders will take the precaution of having stringers of the right size the whole structure will tend to follow suit and be in line with good usage.

The above span table, based on actual sizes of joists, according to American standards for lumber and on the working stresses approved by the Division of Building and Housing of the United States Department of Commerce, supplies data upon which any building—brick, stone, stucco, lumber, etc. — whose internal structure is of wood may be reliably checked up.

## STATE ENGINEER EXAMINATIONS

California State Civil Service Commission announces that examinations will be held shortly in Sacramento, San Francisco and Los Angeles for the following positions: Junior Construction Engineer, Bridges, Grade 3; Assistant Construction Engineer, Bridges, Grade 4; Junior Designing Engineer, Bridges, Grade 3; Assistant Designing Engineer, Bridges, Grade 4; Associate Designing Engineer, Bridges, Grade 5; Assistant Highway Engineer, Grade 5. Further information regarding these positions together with application blanks for examinations are obtainable from Room 116, State Building, San Francisco; Room 1007, Hall of Records, Los Angeles; Room 311, Forum Building, Sacramento.

A writ of mandamus requiring the city building inspector to issue a permit for the erection of a church at Willow and Monroe Streets, Stockton, was ordered by Superior Judge C. W. Miller. The writ was petitioned for by the Northern California Conference of the Seventh Day Adventist Church, which plans the erection of an \$11,000 edifice on the site. The city building inspector contended that this was prohibited by the city zoning law. Judge Miller maintained that churches do not come within the category of business or industrial structures. Attorney Stanley M. Arndt represented the religious body. City Attorney J. LeRoy Johnson represented the building inspector.

# THE OBSERVER

## WHAT HE HEARS AND SEES ON HIS ROUNDS

Organized Labor, the official publication of the State and Local Building Trades Councils of California, in its issue of January 22, under the caption of "Labor and Employers Paving the Way for Proper Adjustment of Future Difficulties," in part says:

Many misleading reports regarding the local industrial situation have appeared in the press during the past week.

According to these published reports, "the carpenters' strike has been settled. An agreement has been reached and signed. The union carpenters have returned to work. Union labor has accepted the so-called 'American Plan' of employment."

All of these reports, as published in the local newspapers, are without foundation. The facts are: \*

Labor has not accepted and never will accept the so-called "American Plan" of employment.

The carpenters' strike has not been settled.

No agreement has been reached.

There are many unemployed union carpenters.

Regarding the misleading statements appearing in the local newspapers, A. W. Muir, general representative of the United Brotherhood of Carpenters and Joiners of America, in charge of the local situation, says:

"With reference to the statements appearing in the newspapers that carpenters had accepted the 'American Plan' of employment and have authorized their membership to work with non-union men, no acceptance of the 'American Plan' has been agreed to, and the proposition of accepting the 'American Plan' was not even discussed in our conferences, and our organization and members will endeavor in the future, as in the past, to establish proper union relationships between employers and employees."

"Proper union relationships between employers and employees," as defined by the United Brotherhood of Carpenters and Joiners of America, is "collective bargaining," and discussing the San Francisco situation in an editorial in the current edition of "The Carpenter," the official journal of the Brotherhood of Carpenters, the editor says:

"The carpenters of San Francisco can accept nothing less than the right of collective bargaining."

The Labor Clarion, published by the San Francisco Labor Council, in its January 21 issue, in part, says:

Newspaper reports during the past week have led the people of San Francisco to believe that the strike of the Carpenters' Union had been settled under conditions that meant the acceptance of the so-called open shop or American Plan by the labor movement of this city and a victory for the Industrial Association in its fight to wreck the unions and their policy of collective bargaining. Nothing could be farther from the truth. The labor movement of San Francisco has not conceded the right of that band of self-appointed representatives of the public known as the Industrial Association to control industrial relations in this city. It has not accepted the open shop scheme of things and it will not, under any circumstances whatever, accept anything even closely resembling that hypocritical policy of the enemies of the workers described as the American plan.

To end a series of protests filed by labor unions concerning the wage scale paid by contractors on the Santa Barbara county courthouse project, the county supervisors have placed on file in the office of the county clerk, the wage scale of the Building Trades Council of Santa Barbara county and in future all contracts will be let with the understanding that the trades scale will now be a part of the contract. This action was taken to end protests filed by unions concerning the wages paid by the Llewellyn Iron Works of Los Angeles which concern has the steel contract on the courthouse. Union representatives claim that the Llewellyn company is paying \$6.80 a day to steel workers when the local union wage is \$9. In future contracts to be let by the county within the Santa Barbara city limits, based on the 8-hour day, 5½ day week, will be: Carpenters, \$9; plumbers and steam fitters, \$10; sheet metal workers, \$9; cement finishers, \$10; hodcarriers, \$8; bricklayers, \$12; hodgers, crew of three, \$8, \$7 and \$6; stone masons, \$9; bridge, structural and ornamental iron workers, \$9; building laborers, \$5. Following scale is based on 8-hour, 5-day week, bathers, \$11; plasterers, \$12; electricians, \$10; painters, \$9.

Despite the fact that the dry season in Nevada state during the past two years rendered the distribution of water according to priorities, the major duties of the state engineer's office, the report of Robert A. Allen, retiring state engineer, shows voluminous detailed and other activities ranging from court appearances in the Humboldt river case to installing temporary pumping equipment on the state prison farm, have been carried on. The total revenue from applications to appropriate waters of the state reached \$13,755 during 1925-26, an increase of \$5020, as compared with the \$8735 received during 1923-24. The total applications filed numbered 685 or an increase of 95 per cent.

Outstripping all estimates, the United States Steel Corporation reports a record earnings statement for 1926, exceeding all years since the war, with \$17.96 earned on common stock, compared with \$12.86 in 1925. Wall Street had estimated the December quarter earnings to run around \$17.50 at the outside and had predicted net income would equal \$47,000,000, whereas it actually ran up to \$53,502,525, compared with \$42,280,465 in the fourth quarter of 1925.

Real estate mortgage bond financing of new building construction in the United States in 1926 broke all previous records, according to statistics made public by the Building Economic Research Bureau of the American Bond & Mortgage Company, which estimated that the total volume of new realty securities offered during the year would exceed \$935,000,000. The compilation showed that the leading investment houses during the year had underwritten realty bond issues aggregating \$785,461,500 as against a total volume of \$695,556,000 in 1925—a gain of about 13 per cent. Financing of this type done by hundreds of smaller local houses spread throughout the country, whose underwritings ranged from \$1500 to \$350,000, it was estimated would undoubtedly increase the total volume of new issues by at least \$150,000,000. Statistics were also announced showing that approximately \$2,850,000,000 in real estate mortgage bonds had been issued in the last eight years to finance necessary building construction. Of this amount, it was stated, \$2,387,638,000 had been furnished by leading investment houses. These figures did not include the enormous amount of realty financing done by insurance companies and banks, which at the end of 1925 held loans secured by real estate mortgages to the total value of more than \$7,500,000,000.

The recent decision of the United States Supreme Court in which the legality of zoning was upheld is hailed as a complete victory by city planner and others who are interested in the question. Edward M. Bassett, counsel for the New York Zoning Committee in commenting on the decision, said "This remarkable decision of the highest court will probably end the discussion of constitutionality, but it must be kept in mind that only reasonable zoning based on community health, safety, morals and general welfare is what the courts will support. They will not hesitate to set aside arbitrary and unreasonable zoning. More than 500 municipalities in the country have adopted zoning ordinances."

Treasury and Post Office Committee in report to Congress recommends the following appropriations for Federal building construction in California: San Francisco, new federal building, \$5,000,000; Los Angeles, site and federal building, \$3,000,000; Sacramento, sale of old building for \$90,000 and erection of new structure on a new site, costing \$1,600,000; Oakland, sale of old building for \$1,500,000, purchase of new site and erection of new building, \$2,010,000; Stockton, sale of old building, \$150,000, purchase of new site and erection of new building, \$640,000.

Certain teachers of California were condemned in a resolution adopted at the twenty-third annual session of the California Master Painters' and Decorators' at Sacramento, for attempting to influence the sons of laboring men to follow in their fathers' footsteps rather than aspire to professional careers. No individuals were named in the resolution and it was understood special arrangements were made to direct a copy of the procedure to the school authorities in Los Angeles. Other resolutions adopted endorsed the state building department act and recommended to the state legislature that painting contractors operating in California be required to obtain a state license.

Building plans filed in New York city last year reached a record total of \$1,052,899,786, according to S. W. Traus & Co. This was an increase of 22,244,710, or 2 per cent over 1925, the best previous year. The gain for the year was 36 per cent in the Bronx, 12 per cent in Brooklyn and 11 per cent in Richmond. Manhattan lost 14 per cent and Queens lost 4 per cent. The city's building total of the last five years was \$4,318,685,937, an increase of 337 per cent over the preceding five years. For December the five boroughs gained 6 per cent over December, 1925, with a total of \$99,072,956.

Edwards, Wildey & Dixon of Los Angeles, bidding \$784,047, submitted low bid to the city of San Diego to construct a masonry dam on the Santa Isabel Creek at the Sutherland Dam site. The bid was submitted on the multiple arch type and does not include the other schedules, namely, outlet works, sluicing work, spillway and road. According to Allen H. Wright, city clerk, the unit prices on these items will not change the relative status of the bids. G. E. Green of Los Angeles submitted the lowest bid on the Ambursen type dam at \$1,008,356.

Demonstration of a steel said to be eight times harder and more durable than any manufactured in America was made at the plant of the Ludlum Steel Company at Watervliet, N. Y., Jan. 22. The process of manufacture was developed in the Fried Krupp laboratories at Essen, Germany. In the demonstration steel files were worn smooth in an attempt to make an impression on the new steel alloy, and the neck of a glass bottle was severed cleanly when a piece of the new process steel was used as a cutting tool.

Marin County supervisors will seek 20,000 appropriation from state legislature to finance surveys for the establishment of a huge traffic terminal on the Redwood Highway and the railroad and ferry companies on the shore of Richardson's Bay, at Sausalito. The proposed survey would be made by the state engineer.

Preparations are being made by the Gas Appliance Society of California for Gas Appliance Week to be held in San Francisco during the month of April. George Glans of San Jose is state president of the society.

The Sacramento city commissioners have ordered the printing of 2500 copies of the new city building code or general distribution. The code will become effective February 12. It sets up uniform building regulations for cities all over the Pacific Coast. The printed code will be ready for distribution about February 1.

Facilities for conveying Mokelumne water across the three branches of the San Joaquin for the Eastbay district will cost a trifle over \$1,000,000, according to Arthur P. Davis, chief engineer of the East Bay Municipal Utility District. There are three crossings: Old river, near Orwood on the line of the Santa Fe railroad; Middle river, near Moulton and the San Joaquin proper, about one-half mile south of Barnhart landing. Each crossing will be about 500 feet and the cost of the three will be approximately \$1,000,000.

Santa Cruz city council has passed on first reading a new plumbing and drainage ordinance, designed to modernize present sanitation statutes now in effect in that city.

John Badarocco and Milton Marks, members of the San Francisco board of supervisors, will vigorously fight any attempt to amend the bridge act of 1881 giving San Francisco full power to grant a franchise, fix rates and regulate the erection of a bridge across San Francisco Bay. The supervisors claim that twenty different companies are bidding for the right to erect the bridge, and that such an amendment, if passed, would totally wreck the present plans of the San Francisco supervisors on the proposed structure.

U. S. Treasury Department has selected the property at the rear of the main post office, Seventh and Mission streets, on which it is proposed to erect a structure to provide additional post office quarters and for which \$2,400,000 is available for construction.

Supervisor Chas. F. Todd has introduced a resolution in the Board of Supervisors calling for speedy arrangements to illuminate safety zone areas. The resolution will provide for flood-lighting of safety zones throughout the city at night.

Bids will be considered by the El Camino Irrigation District, Proberta, Calif., on February 10 to furnish and install approximately ten miles of concrete pipe lines with all necessary stand pipes, gates and valves.

Atlas Rock Company has filed a claim against the Mathews Construction Company with the Oakdale and South San Joaquin Irrigation Districts for \$3395.36, claimed to be the balance due for gravel and rock furnished in construction of Melones reservoir. The company alleges that the Mathews Company has already paid it the sum of \$116,301.09 for material supplied to the dam, but contends that the amount remaining has not been paid. It is claimed that this is a balance due after making proper allowances on counter claims made by Mathews.

Bids for the purchase of a \$500,000 bond issue of the Tri-County Highway District will be considered by the Kern county supervisors on February 8. Preliminary surveys for the road to be financed through the sale of the bonds are under way. The proposed highway will extend from Maricopa, Kern county, to a point 12 miles east of Santa Barbara.

W. C. Canada, electrical field secretary of the Board of Fire Underwriters of New York, at the second annual meeting of the Northwest Association of Electrical Inspectors in Portland, Ore., advocated the adoption of a uniform electrical code.

Harry S. Jenkins of Bellingham, Wash., was elected president of the Northwest Association of Electrical Inspectors at the second annual convention of the organization held in Portland, Ore., last week. Tom Carlton, Bend, Ore., was elected vice-president and F. D. Weber, secretary.

During 1926 the Redwood Association mills cut 396,752,000 feet of redwood, shipped 380,862,000 feet and sold 398,421,000 feet. Their whitewood cut was 93,127,000 feet, shipments 74,279,000 feet and sales were 83,385,000 feet. At the close of the year 43,950,000 feet of Redwood and 4,971,000 feet of whitewood were on the books. In round figures 252 million feet was shipped to California, 87 million feet to eastern points and 57 million abroad.

Plumbing codes for unincorporated territory are the object of a measure which Senator J. J. Crowley of San Francisco will introduce at the request of W. Herbert Graham of Oakland, chairman of the legislative committee of the State Association of Master Plumbers. The law permitting enforcement of sanitary plumbing regulations outside of incorporated towns and cities was enacted once before, according to Graham, but ruled unconstitutional by the state supreme court on a technicality in its wording.

Secretary Mellon believes that point of saturation in building construction has been reached in only a few localities and he is not alarmed over the general situation. He is of the opinion that recent reduction in the surtax rates has released considerable funds for public improvements and is one of the main causes of a building boom. He does not share the view of some financial leaders, however, that there is any widespread overbuilding.

During the first 18 days of January the Los Angeles city building department issued 1540 permits with an estimated valuation of \$5,087,174. For the corresponding period in December the number of permits was 1749 and the estimated valuation was \$5,816,390, while for the first 18 days of January, 1926, the number of permits was 1900 and the estimated valuation was \$4,074,786.

The board of governors of the Investment Bankers' Association of America, meeting in Chicago, Jan. 19, adopted a resolution opposing the Swing-Johnson bill on the grounds that it proposes the government entering into the electric power business.

## TRADE NOTES

Stewart Electrical Manufacturing Company and Electrical Sheet Metal Works of San Francisco have consolidated with the Frank Adam Electrical Company of St. Louis, Mo. The company will hereafter be known as the Stewart Works of the Frank Allen Electrical Company with headquarters at 425 Folsom street, San Francisco. The San Francisco quarters will be fully equipped to handle every type of sheet metal work, switchboard and panel board for the Pacific Coast trade.

F & F Manufacturing Co., capitalized at \$50,000 has been incorporated with the principal place of business in Sacramento. The concern will buy, sell and manufacture pipes, piping and tubing and will conduct the business of mechanical and electrical engineers and engage in mining and milling ores. Directors are: C. A. Frazier, Geo. D. Frazier, W. C. Frazier, Eric E. Fulton and Frank E. Beauchamp, all of Fair-oaks, Sacramento county.

Plant of Huber Bros., sash and door factory, in Washington street, Eureka, was destroyed by fire recently. The loss is estimated at \$8000, exclusive of the equipment destroyed. No insurance was carried on the plant.

Hickok Tool & Forge Co., capitalized at \$100,000, has been incorporated in San Francisco. Directors are: G. F. Hickok, Jessie P. Hickok, M. C. Hickok, G. J. Presley and C. D. Hickok.

Box plant and one warehouse of the Clover Valley Lumber Co. at Loyalton, Calif., 50 miles north of Reno, Nev., suffered a \$150,000 fire loss, Jan. 20.

Marysville Brick Company, at the annual meeting of stockholders in Marysville, re-elected Erling S. Norby as president of the company; I. C. Evans, vice-president and E. E. Bryan, treasurer. Jas. Robinson and E. E. Bryan were elected to fill two vacancies on the board of directors. The company proposes to start its plant in the Spring and plans to burn several large kilns this year. An active season for brick construction in the Marysville section is anticipated by officials of the company.

Annual meeting of stockholders of the Pacific Portland Cement Company, Consolidated, will be held Jan. 28 at 824 Pacific Building, San Francisco, it is announced by Harry T. Battelle, secretary of the company.

Plant buildings of the Reno Pressed Brick Company at Reno, Nevada, recently destroyed by fire will be rebuilt at a cost of \$20,000, according to Chas. E. Clough, president of the company. Some of the larger machinery used in the plant will be salvaged.

Dudfield Lumber Company, located at Alma Street and Forest Avenue, Palo Alto, will move to larger quarters at High Street and Channing Avenue, Palo Alto, Feb. 1. Increased building activities in Santa Clara County necessitated larger mill, office and storage facilities.

Severino Seghieri will operate in the San Francisco section under the trade name of Bay Concrete Company.

F. D. Butler and H. C. Ferguson of Sacramento have formed a partnership and will operate under the firm name of Western Lumber Company with quarters at 217 Twelfth Street, Sacramento.

N. E. Nelson has purchased the Teixeira Mill and Lumber Company at the foot of York Street, Vallejo. Nelson was one of the original owners of the mill. During the past seven years he has been connected with several mills and lumber establishments in the East Bay district.

R. V. Marcus and Frank Courtney have formed a partnership and will operate a paint and wall paper business at 14 East Alisal Street, Salinas. They will also operate a contracting business for that line of work.

## ALONG the LINE

C. E. Eaton, former assistant state engineer at Sacramento, has been appointed principal assistant flood control engineer of Los Angeles county. This is a new position created by the county supervisors, the salary to be \$600 a month. Mr. Eaton will assume his new duties March 1. He will be chief aide to Flood Control Engineer J. W. Reagan.

C. L. Dimmitt, city engineer of Redwood City, has been granted permission to leave the state by the city trustees. He plans to make a trip to Texas and will be gone about three weeks during February.

John Frank Stevens, railroad and construction engineer, was elected president of the American Society of Civil Engineers at the annual meet of that organization in New York Jan. 20. Approximately one thousand engineers from every section of the United States attended the three-day session.

A conference of supervisors for nine coast counties of California will be held in the city hall, San Francisco, January 29, to consider plans for the proposed all-coast highway. The counties extend from Humboldt to San Luis Obispo, inclusive. The meeting will discuss plans for co-operation, possibly in a highway district, to build a highway that will parallel the coast line, instead of swinging inland. If such a link is created, an oceanside highway will be available along the Pacific from Canada to Mexico. The meeting was called under authority of the street committee of the San Francisco board of supervisors.

Bond election is urged in Del Norte County for \$100,000 to finance construction of a bridge over Smith river, ten miles east of Crescent City on the Redwood Highway.

Four members of the temporary port commission of the city of Oakland, appointed several months ago, have been named permanent members of the Oakland Port Commission authorized in the charter amendment just ratified by the State Legislature. Members of the commission are: Roscoe Jones, chairman; H. C. Capwell, Robert A. Leet, Ben H. Pendleton and Dr. Geo. C. Pardee. The latter is president of the East Bay Municipal Utility District. Although it is permitted to meet for organization, the commission will not function officially for another 30 days. The charter amendment does not go into effect until that time.

Walter G. Nicholls has been appointed city engineer of Fullerton to fill the vacancy created by the resignation of W. C. Record. Nicholls has been assistant city engineer for several years.

El Dorado Irrigation District, with headquarters at Placerville, will call an election shortly to vote bonds of \$1,300,000 to finance construction of irrigation works for 32,000 acres of land.

John Francis Anderson, internationally known as a civil engineer and bridge builder, died at his home in San Diego, January 23, at the age of 79. He was born in Sweden and began work in this country as a laborer on Union Pacific bridge work. He superintended tunneling under the Hudson River and built bridges in Venezuela, Australia and England, in addition to Mississippi and Ohio River bridges in this country.

## PROPOSED STATE HARBOR EXPENDITURES

Proposed expenditures for permanent improvements to the San Francisco harbor to be undertaken by the State Board of Harbor Commission include \$1,966,000 for the construction of Pier No. 45; \$135,000 for a dredger; \$250,000 for construction of Islais Creek wharf; \$40,000 for an extension to Pier No. 41; \$35,000 to pave Jefferson street and \$25,000 to pave Pier No. 41. Plans for these projects will be prepared under the supervision of Frank G. White, chief engineer of the harbor commission.

## HUGE IRRIGATION DEVELOPMENT PLANNED IN SAN JOAQUIN

Application to appropriate waters for the development of the largest irrigation district in California has been filed with the State Department of Public Works, Division of Water Rights, by the San Joaquin River Water Storage District with offices at Los Banos. The district comprises 552,000 acres of land mostly under development at the present time.

The district seeks the appropriation of 1000 second feet of water from the San Joaquin River now being stored in reservoirs of the Southern California Edison Company and the San Joaquin Light and Power Corporation.

Among other things, the district proposes to purchase water rights and certain properties now controlled by the Miller & Lux interests.

The San Joaquin River Water Storage District was organized in 1921, to include nearly 1,000,000 acres of land. The director of public works, then W. F. McClure, refused to approve the district in its then existent state. Subsequently the district was reduced to the more productive acreage and gained 330,000 acres are devoted to alfalfa and the director's tentative approval.

## CITY PLANNING MEET SCHEDULED FOR OAKLAND

With one of the strongest city-planning programs ever presented in the West practically complete, all is in readiness for the opening of the statewide city plan conference, to be held at Oakland on March 1 and 2, according to Fred E. Reed, chairman of the city planning committee of the California Real Estate Association.

The forthcoming conference promises to be one of the most important statewide get-togethers of realtors, city officials, engineers, architects, city plan experts and bankers held in some years.

Already city officials and members of city planning commissions from more than 100 California cities have announced their intention of attending the conference.

The conclave is being held under the auspices of the California Real Estate Association and the California League of Municipalities. City officials of Oakland, headed by Mayor John L. Davis, will be joint hosts with the Oakland Real Estate Board.

The program, while not officially announced, will include such well-known authorities and experts as Frank Nye, Hugh Pomeroy, George Ford, David Faries, Fred Dohrmann Jr., Stuart Hawley, Le Roy Goodrich, Rollin McNitt, Charles Cheney, Bruce Mason, John Nolen, Gordon Whitnall, Duncan McDuffie, Harland Bartholomew and Dr. Aronovitch.

## CALIFORNIANS GET PATENTS

The latest list of patents, issued by the patent bureau at Washington, D. C., includes the following Californians: Frederick Crab, Martinez, electric wall bracket; Edwin B. Galbreath, Long Beach, sliding sleeve valve engine and brake; Doc E. Gordon, Berkeley, waffle iron; Arthur J. Kercher, Berkeley, refrigerating apparatus; Ernest E. Kittredge, J. A. Forster and R. D. Johansen, Alameda, electric water heater; Mauritt and W. Osterberg, Modesto, one-way clutch; Thorold C. Rowell, Long Beach, transporting jack; Diamond A. Snook, Taft, assignor of two-fifths to P. G. Cumming, Long Beach, combination crane and motor stand.

## APARTMENTS

Completing Plans—Ready For Figures Shortly.

**APARTMENTS** Cost, \$25,000  
**SAN JOSE**, Santa Clara Co., Cal. East Santa Clara St.  
 Two-story reinforced concrete store and apartment building.  
 Owner—Dr. A. M. Barker and Associates.

Architect—W. H. Weeks, 369 Pine St., San Francisco; Ray Bldg., Oakland, and 246 S-First St., San Jose.

Ready For Bids February 1st.  
**APARTMENTS** Cost, \$220,000  
**SAN FRANCISCO**. NW Scott and Fulton Sts.

Six-story and basement steel frame and brick apartment building.  
 Owner—Scott & Fulton Building Cptn. (A. S. Newbought, S. R. Roeder and J. C. Turk, et al.)  
 Architect—Albert H. Larsen, 582 Market St., San Francisco.

To Be Done By Day's Work and Segregated Contracts.

**APARTMENTS** Cost, \$35,000  
**SAN FRANCISCO**. SE Lincoln Way and Fifteenth Ave.  
 Three-story and basement frame and stucco (18) apartments.  
 Owner—R. Monson, 1473 7th Ave., San Francisco.  
 Architect—J. C. Hladik, Monadnock Bldg., San Francisco.

Figures Being Taken  
**APARTMENT** Cost, \$150,000  
**SAN FRANCISCO**, Cal. Hayes St., W. of Franklin.  
 Five-story steel frame and brick apt. bldg.  
 Owner—Mangels Bros., 445 West Portal, S. F.  
 Architect—Albert H. Larsen, 582 Market St., S. F.

Plans Being Prepared  
**APT. BLDG.** Cost, \$60,000  
**SAN FRANCISCO**. S E Corner Divisadero and Chestnut Sts.  
 Three-story and basement frame and stucco apt. bldg. (24 2 and 3-room apts.)  
 Owner—T. R. Belmont, 449 Flood Ave., San Francisco.  
 Architect—J. C. Hladik, Monadnock Bldg., S. F.  
 Owner will take bids when plans are complete.

Plans Being Prepared  
**APT. BLDG.** Cost, \$45,000  
**SAN FRANCISCO**. S Chestnut between Gough and Franklin.  
 Three-story and basement frame and stucco apt. bldg. (18 2 and 3-room apts.)  
 Owner—G. A. Metcalf, 2801 Van Ness Ave., S. F.  
 Architect—J. C. Hladik, Monadnock Bldg., S. F.  
 When plans are complete owner will take bids.

Sub-Contracts Awarded  
**APARTMENTS** Cost, \$100,000 each  
**SAN FRANCISCO**. N Clay St, W Van Ness Ave.  
 Two five-story, basement and sub-basement apartment buildings (brick and steel construction).  
 Owner—Stock, Maas & Sauer, 3300 Washington.  
 Architect—Albert H. Larsen, 447 Sutter St., S. F.  
**Steel**—Golden Gate Iron Works, 1541 Howard St., S. F.  
**Concrete**—Adam Arras Co., 185 Stevenson St., S. F.  
**Grading**—Devencenzi Bros., 1082 Union St., S. F.

Segregated Bids Being Taken  
**APARTMENTS** Cost, \$95,000  
**OAKLAND**, Alameda Co., Cal. Rose St., near Telegraph Ave.  
 Three-story and basement reinforced concrete apartment house, 78 rms. (2 and 3-room apts), with basement garage.  
 Owner—R. A. Smith.  
 Architect—Arthur Young, 339 15th St., Oakland.  
 Contractor—Owner.

Owner Taking Segregated Bids.  
**APARTMENTS** Cost, \$25,000  
**SAN FRANCISCO**. NW Third Ave. and Balboa Street.  
 Three-story and basement frame (10) apartments.  
 Owner—L. Epp & Son, 4747 Geary St., San Francisco.  
 Architect—J. C. Hladik, Monadnock Bldg., San Francisco.

Owner Taking Segregated Figures.  
**APARTMENTS** Cost, \$35,000  
**SAN FRANCISCO**. SE Pierce St. and Golden Gate Ave.  
 Three-story and basement frame (21) apartments.  
 Owner—L. Epp & Son, 4747 Geary St., San Francisco.  
 Architect—J. C. Hladik, Monadnock Bldg., San Francisco.

Sub-Contracts Awarded

Hill, Inc. 825 Merch. Natl. Bank Bldg.; 78x155 ft., reinf. conc. and comp. rf., skylights, steel sash, cast stone, reinf. conc. flrs., 2 elevators etc.; \$450,000.

### MEAT IN BUTCHER SHOPS MAY CARRY SIGN TO TELL AGE

DIED—In the slaughter house, July 1st, Bull Calf. Son of Bossie Cow. Deceased was a native of the ranges of Yolo County, aged two months and twenty-eight days.

Thus may read the signs in butcher shops if a bill which is to be proposed by Assemblyman Charles Foster of Fowler gets through the legislature.

Foster has announced he is contemplating a measure to compel butchers to affix signs on meat giving the age of the slaughtered animal, so the housewife would know in advance whether her meat for the dinner guests would be tender or tough.—News Item.

CLAUSS AND Kraus are butchers.

IN SACRAMENTO.

NEAR SANDY Pratt's plants.

THAT PRODUCE clean, sharp sand.

AND CLEAN, hard rock.

AND CLEAN, washed gravel.

ALSO CLEAN concrete mix.

(SAND, ROCK and gravel mixed).

AND BETWEEN five and six.

OR JUST before dinner.

THEY ARE busy butcher boys.

BECAUSE EVERYBODY is phoning.

FOR THEIR dinner meat.

CLARENCE (SANDY) Pratt, President.

OF THE Pratt Building Material Co.

DROPPED INTO this butcher shop.

AND HEARD some of the talk.

MRS. A. Vacuum phoned.

FOR HER brains.

CLAUSS REPLIED.

"THEY ARE in the wagon."

WHEN MISS Venus De Milo phoned.

KRAUS SAID: "Tell Miss De Milo.

I'LL CUT off her leg.

IN A few minutes."

SANDY DIDN'T know.

HE MEANT her lamb's leg.

THEY WEIGHED Mrs. Jones' liver.

TIED UP Mrs. Bacon's pigs' feet.

THE PHONE rang again.

JOHNNY SAID, "How about.

MRS. NEVERPAY'S rib?"

AND KRAUS told about Adam.

GIVING A rib to Eve.

SANDY THOUGHT she needed "Liver wurst."

(GET IT? liver worse).

THIS TOOK the "heart."

OUT OF Mrs. Mutton.

AND YOU could see.

MR. HOL Stein's "tongue" wag.

MRS. R. U. Tenderloin asked.

FOR A "spare" rib.

MR. HOGG only grunted.

B. A. SWEETBREAD offered a "steer

ON THE "stock" market.

BUT JOHNNY Clauss thought.

THAT IT was the "bull."

AND SANDY is afraid.

IF THE women.

DO NOT stop.

WEARING "UNBORN calf" ekin coat

THERE WILL be no beef.

IN A few years.

"I THANK you."

MISS N. O. Beef, that Johnny Claus Sr., tried to buy years ago. Miss N. O. Beef knew how to reduce (girls take notice) and was never sold to the cru butchers. However, she uses Sandy sand, rock and gravel, enjoys life—you can do the same.

HOSPITALS

CALIFORNIA—State budget allowances and provision for new buildings and permanent improvements for state institutions follow:

**Stockton State Hospital**, \$1,499,820; improvements, \$347,500, including two cottages and equipment at farm, \$173,000; two houses for assistant physicians, \$20,000; industrial building, \$25,000; improving Harding Way, \$19,500; water system, \$10,000; quarters for 36 farm employes, \$54,000; state's share of Calaveras dam project, \$26,000.

**SAN FERNANDO VALLEY**, Los Angeles Co., Cal.—United Artists Corp. is completing negotiations for the purchase of an 80-acre tract in San Fernando Valley and will erect a group of large motion picture studio buildings. It is stated that it will be the largest picture production plant in Southern California.

**SANTA ROSA**, Sonoma Co., Cal. — Election will be held March 10 to approve proposed charter amendment authorizing city council to submit to vote of people the question of using \$165,000 sewer bond money now laying idle in city treasury. The money cannot be used for any other purpose but that for which it was originally voted, nor has the city council any right to submit to the voters any plans for spending the funds. The funds were originally voted to finance rehabilitation of the city sewage disposal plant and after bonds were sold the system in use was improved to the satisfaction of the board of health making expenditure of the funds needless.

**BURBANK**, Los Angeles Co., Cal.—H. M. Baruch Corp., 444 I. W. Hellman Bldg., Los Angeles, awarded cont. for two frame stages at Burbank for the First National Productions, Inc., S. E. Pelton in charge; plans were prepared by the owner: 137x240 ft., heavy frame const., wood trusses, stucco ext., comp. rfg., skylights, steel sash; bldgs. will be 35 ft. high, cem. flrs., steel doors, gas htg.; \$80,000.

**SAN FRANCISCO**—Expenditures of the State Board of Harbor Commissioners will include \$135,000 for a dredger. Frank G. White, chief engineer for comm., Ferry Bldg.

**BAKERSFIELD**, Kern Co., Cal.—Architect Chas. H. Biggar, Bank of Italy Bldg., Bakersfield, is preparing plans for Greek Theatre to be constructed in West Side Park at Ford City for county of Kern. County supervisors have appropriated \$15,000 to finance construction. Will be of classic design with columns and stage. The project will involve considerable landscape work.

## BUSINESS OPPORTUNITIES

**SAN FRANCISCO**, Cal.—Further information regarding these opportunities may be obtained from the office of Larsen Advance Construction Reports, 818 Mission St., San Francisco, either by phone, letter or personal call. Requests for additional information should be made to the Business Opportunities Department. Such requests must be accompanied by the Index Number of each opportunity.

11193—Harbin, Manchuria, Gentleman, for several years the consul of a European country in Harbin, with 20 years' experience in the contracting business to the various railway companies, offers his services to San Francisco producers and exporters of all types of railway supplies and equipment, who would be interested in bidding on the 1927 requirements of the Chinese Eastern Railway.

11196—Chicago, Ill. Concern desires to get in touch with San Francisco importers and exporters who would be interested in having eastern representatives to place their commodities on the market or to act as their purchasing agents.

11200—Danzig. Firm is in a position to export Portland cement of Polish origin. The cement is said to be of very high quality. Large quantities of it have already been marketed in South America.

11202 — Dax, France. Large exporter of cork products offers exclusive agency for his line on the Pacific Coast. Stoppers in all grades, shapes and sizes; compressed insulation cork (bray or casein) in slabs, blocks or planks; cork mats, cork discs for polishing crystal and fine glassware. Samples, prices and sales conditions available in San Francisco.

11205—Triest, Italy. Large importers of timber are in the market for pitchpine for shipbuilding purposes.

11208—London, England. Sales organization with extensions in South Africa is very anxious to get in touch with California manufacturers and exporters of products for which they wish to establish a market throughout South Africa. The manager of the organization will make a tour of South Africa in April for the purpose of introducing new lines and products in that territory. New York reference supplied.

11210—San Juan, Port Rico. Concern wishes to communicate with San Francisco firms which would be interested in buying Spanish decorated tiles for floors, walls, patios, etc., under exclusive selling arrangements.

D-2319—Los Angeles, Cal. Firm of manufacturers' agents is very anxious to represent, in that territory, San Francisco manufacturers of building materials, for which a large market exists in Los Angeles. They suggest that steel construction, ornamental iron and bronze work should prove a good agency. They would also be interested in handling a furniture line. They will furnish Los Angeles and San Francisco references.

D-2320—Berea, Ohio. Manufacturers of the "Bull's-Eye" water heater are anxious to appoint a suitable sales agent to represent them in California or the entire West Coast.

D-2325—Brooklyn, N. Y. Gentleman is interested in representing, in the metropolitan area of New York or in the eastern states, a small number of California concerns for whom he could handle the entire or part output of their plant. He prefers a product that would have repeat orders. He has had broad experience in this work and will supply references upon request.

## NOTICE TO BIDDERS

### (C. I. Pipe—Santa Cruz)

Notice is hereby given that the Council of the City of Santa Cruz invites sealed proposals or bids for furnishing the following:

10,000 feet 4-inch Class B, Cast Iron Pipe Bell and Spigot Joints.  
24 4-inch x 4-inch Cast Iron Tees.  
6 4-inch Cast Iron 45° Ells.  
6 4-inch Cast Iron 22½° Ells.

Pipe to be not less than 12-foot lengths, free from cracks and breaks. Any broken pipe to be replaced by successful bidder.

Pipe and fittings to be delivered f. o. b. Santa Cruz. Delivery to be made within 75 days after award of contract.

Said proposals or bids will be received at the office of the City Clerk in the City Hall, Church Street, in the City of Santa Cruz, on or before 9 o'clock in the forenoon of Thursday, the 3rd day of February, 1927. Bids will be opened at 9:30 o'clock in the forenoon of said day.

All proposals or bids must be in writing, give total amount of bid submitted and must be accompanied by a certified check or bond for ten per cent of the amount bid, payable to the City of Santa Cruz.

The Council of said City reserves the right to reject any and all bids.

S. A. EVANS,  
City Clerk.

## NOTICE TO CONTRACTORS

### (School Additions—Salinas)

Sealed proposals will be received at the office of the Salinas City Board of Education, Salinas, California, until 8 o'clock P. M., Tuesday, February 8, 1927, for the general work; for the plumbing, heating and sheet metal; and for the electrical work of the proposed additions to the Roosevelt and Lincoln Schools, located in Salinas.

Bids will be opened at the hour above mentioned and publicly announced.

Plans and specifications may be seen at the office of the Board in the Central Grammar School, corner Church and Allsal Streets, Salinas, California, and at the office of the architect J. J. Donovan, 1916 Broadway, Oakland, California. A deposit of \$25 will be required as a guarantee of the return of plans and specifications taken from either office, said deposit to be refunded when plans and specifications are returned in good condition.

The board reserves the right to reject any and all bids.

Proposals shall be delivered in accordance with instructions given in the specifications.

SALINAS CITY BOARD OF EDUCATION.

By ARTHUR WALTER, Secretary.

## NOTICE TO CONTRACTORS

### (San Mateo School District)

Notice is hereby given by the San Mateo School District of San Mateo County, State of California, for sealed proposals to be delivered to J. J. Casey, Clerk of the Board of Trustees for said School District at the Central School House, City of San Mateo, County of San Mateo, State of California, until the 11th day of February, 1927, at 10 o'clock A. M., of the said day, for certain alterations and additions to the Peninsula Avenue School Building, situated at Peninsula Ave., Prospect Row and El Camino Real, City of San Mateo, Calif., also the erection, construction and completion of a School Auditorium and Lunch Room in connection with present building according to plans and specifications

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

tions therefor on file with the Clerk or President of said Board of School Trustees, and at the office of Thomas M. Edwards and H. A. Schary, architects, 525 Market Street, San Francisco, Calif., to which reference is hereby made.

On a deposit of Twenty (\$20) Dollars complete sets of said plans and specifications may be had by any prospective bidder, and shall be returned on or before the 11th day of February, 1927.

If not returned by said time, or if mutilated, the said deposit may be retained by the said School District, as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Architects or from the Clerk or President of said School Board, and be signed by the bidder, accompanied by a certified check for at least ten (10%) per cent of the amount of the bid or proposal, certified to by some responsible bank or banker, and made payable to J. J. Casey, Clerk of said Board of Trustees, to be retained by the said School District as agreed and liquidated damages should the party, or parties, to whom the contract shall be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law or this Board. Bids will be opened by the Board of Trustees for said School District on Friday, Feb. 11, 1927, at the hour of 10 A. M., in the Central School House, City of San Mateo, San Mateo County, State of California.

The Board reserves the right to reject any or all bids.

J. J. CASEY, Clerk.

## NOTICE TO BIDDERS

### (Pipe and Fittings—Sacramento)

Bids will be received by the undersigned for the City Council of the City of Sacramento in his office, located in the City Hall, Room 203, on I Street, between 9th and 10th Streets, up to the hour of 5 o'clock p. m., on date of Thursday, February 3rd, 1927, for the furnishing of 43,620 feet Cast Iron Pipe and Fittings for the Engineering Department of the City of Sacramento, said Pipe and Fittings to conform in all respects to specifications for Bell and Spigot Cast Iron Pipe of the American Water Works Association except as to thickness of pipe and manner of casting, also to be in accordance with specifications adopted by the City Council on date of January 20th, 1927, now on file in the office of the City Clerk.

All proposals must be submitted upon printed proposal and affidavit form supplied by City Clerk without charge to prospective bidders, said bid to be enclosed in envelope marked "Sealed Proposal for Cast Iron Pipe and Fittings," which may be had upon application to the undersigned.

All proposals must comply with requirements of the City Charter of the City of Sacramento, effective June 30, 1921, and bidders are hereby cautioned that no bid which fails to comply therewith can be considered.

At the same time with the execution of the contract for supplying foregoing material, the contractor shall execute a contract bond furnished by an authorized surety company or personal sureties who shall be freeholders or householders of the City of Sacramento to be approved and acceptable to the City Controller in a sum not less than 50% of the amount of the contract.

A certified check made payable to the City Controller as prescribed by Section 256 of the said Charter for not less than five (5) per cent of the aggregate of the proposal must accompany each bid.

The right to reject any and all bids is reserved to the City Council by provisions of said Charter.

H. G. DENTON,  
City Clerk, Room 203, City Hall.

## NOTICE TO CONTRACTORS

(the day when said bids will be opened and the contract awarded) for the purchase of Steel Shelving Sections for use at Highland Hospital of Alameda County, situated at Fourteenth Avenue and Vallecito Place, Oakland, California.

Specifications for the above Steel Shelving are on file in the office of the County Clerk open to inspection. Copies may be obtained by applying to John M. Sabin, Purchasing Agent, Hall of Records Building, Oakland, Calif.

Each bid must be accompanied by a check for at least ten per cent of the amount of the bid or proposal.

ertified to by some responsible bank, and made payable to Geo. E. Gross, clerk of the Board, to be forfeited to the County of Alameda as agreed and undated damages should the party parties to whom the contract shall awarded fail to enter into the contract after the award or to give the and required by the Board for the faithful performance of the contract.  
GEO. E. GROSS,  
clerk of the Board of Supervisors of the County of Alameda.  
Dated: January 10th, 1927.

### NOTICE TO CONTRACTORS

(East Bay Municipal Utility District)

Sealed proposals will be received at the office of the East Bay Municipal Utility District, 1924 Broadway, Ray Building, Oakland, California, until 10 o'clock P. M., February 25, 1927, and will at that hour be opened for furnishing materials for and constructing the housing for San Pablo Screening Chamber, the housing for Lafayette Screening Chamber and Lafayette Pump House, and the aeration works at Lafayette Screening Chamber. Specifications may be obtained by application to the office of the District.  
(Signed) JOHN H. KIMBALL,  
Secretary.

Oakland, California, January 14, 1927.

### STATE OF CALIFORNIA

CALIFORNIA HIGHWAY COMMISSION

### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock P. M., February 14, 1927, at which time they will be publicly opened and read, and specifications therefor, to which special reference is made of portions of State Highway as follows:

State Highway as follows: Kern County, a sidewalk on the edge across Kern River at Bakersfield (VI-Ker-4-D), 952 feet long composed of wooden walk and guard rail of structural steel and 1240 lineal feet of guard rail and gravel approaches.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Millits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and shop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
LOUIS EVERDING,  
J. P. BUMGARTNER,  
California Highway Commission.  
R. M. MORTON,  
State Highway Engineer.  
W. F. MIXON, Secretary.  
Dated January 17, 1927.

### NOTICE TO CONTRACTORS

(Exhibition Building — Kern County)

Notice is hereby given that sealed bids will be received by the Clerk of the Board of Supervisors of the County of Kern, State of California, up to 11 o'clock A. M., of Monday, February 7, 1927, for the furnishing of labor and materials for the erection complete of an exhibition building at the Kern County Fair Grounds, Bakersfield, California, in accordance with plans and specifications prepared by Charles H. Biggar, Architect, 405 Bank of Italy Building, Bakersfield, California.

Plans and specifications for same may be obtained at the office of the Architect upon deposit of Ten Dollars (\$10.00) which will be returned upon receipt of the said plans and specifications in good order at the time designated by the Architect.

Bids forms will be furnished by the Architect.

A certified check or bidder's bond in the amount of ten per cent of amount bid to be to the order of the Clerk of the Board of Supervisors as evidence of good faith, and that the bidder, if successful, will enter into a contract satisfactory to said Board of Supervisors, and in addition thereto will furnish good and sufficient bonds therefor.

Board reserves the right to reject any and all bids not deemed advantageous to the County and to waive any informality in any bid received.

By order of the Board of Supervisors of the County of Kern, State of California, adopted January 3rd, 1927.

F. E. SMITH,  
County Clerk and ex-Officio Clerk of the Board of Supervisors.

### NOTICE TO BIDDERS

(Coalinga Union High School District — Linoleum)

Notice is hereby given that the Board of Trustees of the Coalinga Union High School District Library, Coalinga, California, will receive sealed proposals and bids for the covering of the entire main floor of the Coalinga Library with Armstrong's Linoleum, 1/4-inch Battleship Brown, No. 20, or with Armstrong's Cork Carpet, XXX unpolished Brown No. 30, or similar quality, to either that may be selected by the board, said proposal and bid to include the laying of said floor covering.

Dimensions and complete particulars regarding the floor space to be covered may be procured by visiting the library or clerk of the board.

Said bids will be received and open-

ed at the office of the clerk of the board, Pioneer Garage, 129 West Elm Ave., in said City of Coalinga, on the 29th day of January, A. D. 1927, at 4:30 P. M.

The Board of Trustees of the Coalinga Union High School District Library reserves the right to reject any and all bids.

J. A. FLUETSCH,  
Clerk of the Board.

### NOTICE FOR BIDS

(El Camino Irrigation District)

Bids will be received by O. R. Smith, engineer, Proberta, Calif., until Thursday the 10th day of February, 1927, for furnishing and installing approximately ten miles of concrete pipe lines, with all necessary stand pipes, gates and valves, in El Camino Irrigation District, Tehama county, Calif. Plans and specifications may be seen at the office of Pacific Land Company, El Camino rancho, Proberta, Calif.

Bids will be opened at the hour of 10 o'clock, a. m., of the day above mentioned and a contract awarded to the lowest responsible bidder. The successful bidder will be required to furnish a bond satisfactory to the engineer in an amount equal to 25 per cent of the total cost of the work as estimated on the basis of the prices bid.

The right is reserved to reject any or all bids.

### NOTICE TO CONTRACTORS

(Elevators—Mare Island)

The Bureau of Yards and Docks invites attention to the fact that it will open proposals, in the near future, on Specification No. 5289, "Passenger Elevators, Navy Yard (Hospital), Mare Island, California." The elevators shall have a lifting capacity of 2500 pounds at a speed of 150 feet per minute and shall be operated by a worm gear drum or traction machine. The cars shall be approximately 5 by 8 feet and shall have travels of 50 feet, 24 feet and 23 feet 6 inches for the double ward building, sick officers' quarters and contagious disease ward respectively.

In the event that this work is of interest to your firm, you should forward immediately to the Bureau of Yards and Docks, Navy Department, Washington, D. C., or to the Commandant, Navy Yard, Mare Island, Calif., a check or postal money order for \$10, payable to the Chief of the Bureau of Yards and Docks, as security for the safe return of the drawings and specification, which will be forwarded as soon as available.

## BRIDGES

**STOCKTON, San Joaquin Co., Cal.**—Until Feb. 21, 11 a. m., bids will be rec. by Eugene D. Graham, county clerk, to const. reinf. conc. bridge just east of old bridge over Bear Creek on Jack Tone Rd., Rd. Dist. 3. Cert chk. 10% payable to chairman of bd. of sups. req. Deposit of \$10 req. for plans, obtainable from County Surveyor F. E. Quail.

**KERN COUNTY, Cal.**—As previously reported, bids will be rec. by State Highway Commission, Feb. 14, 2 p. m., to const. sidewalk on bridge over Kern River at Bakersfield, 952 feet long, composed of wooden walk and guard rail and structural steel and 1240 ft. guard rail and gravel approaches. Project involves 56,000 lbs. struct. steel; 23 M ft. bd. meas. Douglas fir timber, selected common structural; 5 cu. yds. class A Portland cement concrete; 600 cu. yds. sidewalk embankment without classification; 85 cu. yds. gravel surfacing (sidewalk); 2190 lin. ft. guard rail. NOTE: No progress payments in excess of \$7500 will be made for the work herein contemplated prior to June 1, 1927.

**SAN FRANCISCO**—Six members of special bridge committee of the Board of Supervisors favor a transbay bridge to connect Rincon Hill with Oakland in area bounded by 7th and Bay, Eighth and Pine Sts. The bridge is to be built by private capital, with provisions that it revert to the city either by purchase or free at the end of the franchise period. The structure shall be for vehicular and light suburban traffic only. Transcontinental railroad trains are not desirable, because of the heavy construction and added cost necessary.

**SANTA ANA, Cal.**—Until 11 A. M. Feb. 8, bids will be rec. by county to const. two reinf. conc. bridges, one girder type consisting of five 54-ft. spans and one reinf. conc. pile trestle type consisting of six 33-ft. and 4-in. spans, both bridges to be constructed over San Juan Crk. on the Coast Rte. of the state highway, in the fifth rd. dist. Plans obtainable from County Supt. of Highways, upon deposit of \$10, Cert. chk. or bond, 5%. Nat. H. Neff, county rd. commr. J. M. Backs, clerk.

**CALIFORNIA**—See "Sewers and Streets," this issue. Bids to be asked by State Highway Commission.

## DREDGING, HARBOR WORKS AND EXCAVATIONS

**NEWPORT BEACH, Cal.**—City sets Feb. 14 as date for special election to vote on \$500,000 harbor bond issue.

**SAN FRANCISCO**—Improvements costing \$1,850,000 will be started at once on proposed Islals Creek Reclamation project sponsored by private owners. Creek will be dredged to depth of 40 ft. for distance of ½ mile. A large turning basin will be provided; surrounding the basin will be land reclaimed by silt pumped from the basin itself and from adjacent tidelands. The principal owners of this land, upon which the assessment will be levied to pay for the improvement, are the Southern Pacific Company, the Western Pacific Company, San Francisco and Fresno Land Company, Sharon Estate, S. H. Lachman Estate Company, Hind Company, Hind-Rolph Investment Co., Boyd Investment Co., Henry Falge,

Henry Windt, E. W. Newell, C. L. Tilden, Kreig Tanning Company and Winchester Company. The officers of the assessment district empowered by the legislature to proceed with the development of the plan are City Engineer M. M. O'Shaughnessy, Colbert Coldwell and Stuart F. Smith. L. T. Letchfield is secretary of the board and Allen G. Wright is attorney.

**SAN FRANCISCO**—San Francisco Bridge Co., Nevada Bank Bldg., at \$11-343 awarded cont. by U. S. Engineer Office, for dredging in Suisun Channel, project involves 39,800 cu. yds. at 28.5c cu. yd. American Dredging Co., 255 California St., San Francisco, only other bidder at 28.2c cu. yd.

**SAN DIEGO, Cal.**—Chas. and F. W. Steffgen, Spreckels Bldg., sub. low bid to city Jan. 24 at \$166,832 to const. northern section of Mission Beach Seawall. Storm & Butts were second at \$169,695.

Storm & Butts, 521 A St., were low on southern section, at \$45,156. R. A. Jackson was next low bidder at \$53,400. Bids referred to City Mgr. F. A. Rhodes until Jan. 31.

**SAN FRANCISCO**—Until Feb. 3, 12 noon, bids will be received by E. P. Lamb, secty., Park Commission, Park Lodge, Golden Gate Park, to extend Exposition Yacht Harbor in the Marina at the foot of Scott and Divisadero Sts. Work to start 5 days after award of contract and completed within 120 days. Cert. check 10% payable to Bd. Pk. Comm. req. with bid. Plans obtainable from above office.

## IRRIGATION PROJECTS

**SACRAMENTO, Cal.**—Application has been filed with State Department of Public Works, Division of Water Rights, by San Joaquin River Water Storage District, with offices at Los Banos, Merced County, seeking to appropriate 1000 sec. ft. of water from the San Joaquin river now being stored in reservoirs of the Southern California Edison Company and the San Joaquin Light & Power Corp. Dist. proposes to purchase, among other things, the water rights and certain properties now controlled by Miller & Lux interests. The proposed project would involve an expenditure of \$30,000,000 and takes in 552,000 acres of land mostly under development at the present time.

**YREKA, Siskiyou Co., Cal.**—County supervisors petitioned to call election seeking formation of proposed Brooks Springs Irrigation District.

**PLACERVILLE, El Dorado Co., Cal.**—Election will be called at once in El Dorado Irrigation District to vote bonds of \$1,300,000 to finance construction of irrigation works.

Carried in Stock  
in San Francisco  
All Galvanized

## Profitable for the Contractor

**COASTEEL** Standard Buildings are as useful and profitable for the contractor as shovels, trucks and powder on big jobs—they pay for themselves by giving better service.

COASTEEL Buildings are good for years, because they are all galvanized. They can be used on one job as long as needed and then moved onto the next. No material is lost when the buildings are thus moved, as they have 100% salvage.

In the same way, COASTEEL Buildings can be added to or extended without loss of material. They also give the fire-resisting advantage of having no combustible material in their makeup. Nothing but galvanized steel is used, and the galvanizing is specially heavy hot dip.

## SAN FRANCISCO BUILDING TOTALS FOR JANUARY

Building permits issued during the month of January represent an expenditure of \$3,403,955, according to figures compiled by the Bureau of Building Inspection of the Department of Public Works. During the month 691 permits were issued.

The January total shows a loss in both number of permits and valuation when compared with those for the month of December, 1926, which closed in San Francisco's greatest building year, with a total of 756 permits, the estimated valuation being \$5,066,659.

During the month of January, 1926, records of the city building bureau registered 786 permits with a valuation of \$5,153,504, the biggest portion of the operations during this month covering the erection of three class "A" buildings costing \$1,565,000 and 331 frame buildings costing \$1,924,015.

No large projects are included in the January, 1926, activities. Home building construction, as heretofore, holds first place in highest number as regards frame building construction. One project for the State Board of Harbor Commissioners costing \$198,200, is included in the activities of the past month.

The following is a segregated report of the January, 1927, activities as classified by the City Building Bureau:

	No. Permits	Est. Cost
"....."	2	\$ 250,000
"....."	2	235,000
"....."	16	628,950
Frames.....	284	1,843,045
Iterations.....	386	248,760
Harbor Bldgs. ....	1	198,200
Total 691		\$3,403,955

A conference of federal reclamation officials to discuss reclamation problems growing out of recently enacted legislation will be held at Denver, Colo., March 16-18.

## CONTRACTING BUSINESS FOR 1926 REVIEWED

Engineering News-Record, New York, in "Review and Prospect" covers the Contracting Business as follows:

As a business, contracting has experienced a favorable year—construction has been active and prices have been fair, there has been generally good service by railways, materials producers and equipment manufacturers. In the latter weeks of the season continued rain hit road construction a hard blow and turned many a paying operation into a losing one; this indeed has been the dark business cloud of the year. There have existed of course the usual isolated difficulties with labor, irresponsible competition and underbidding, but these are the hazards of the game. Through its organization activities contracting has strengthened its position in the practices of quantity surveying and safety engineering. It has pressed the movement for bonding reform a little further along. Its great advance has been in getting hopeful consideration of a bill holding down day labor construction in federal public works and the adoption of a uniform federal works contract, although only as an active helper is it to be credited with the latter labor. In curtailing day labor undertakings and more particularly in putting the spirit of caution into the undertakings of day labor construction there has been notable progress. The advance in bonding reform has been less pronounced. Yet there have been hopeful conversions among bonding corporations and officials and the pure persistence of the contractors' attack is developing the pressure of growing attention and inquiry by the business public. In its business procedures contracting shows improvement in financing, general accounting and cost keeping and in husbanding its working plant. Its estimating as indicated by bidding prices continues inexplicably erratic. Its great weakness, however, is its selling practices: price controls and price cutting is prevalent, quality of product plays little part in the public's buying of contractors' services. Its organization work is generally better directed and more widespread. Last year the national organization of Associated General Contractors had over ninety chapters actively promoting its national movements besides handling their local problems. Gradually contractors are coming to see the power of such organizations as it broadens in membership and learns how to work effectively.

## UNIVERSITY STUDENTS WILL GO TO G. E. PLANT

Four students of the Stanford University have been selected by the General Electric Company to join the group of 500 American college students, selected annually to take a two-year course in practical training in the plants of that firm at Schenectady, N. Y., or Lynn, Mass. The students selected by M. M. Boring, company representative, are John D. Van Armige, Foster B. Dietrick, Gerard Wilson and Robert D. Boynton. All will be graduated from the engineering school at Palo Alto this summer and will assume their appointments with the General Electric Company next October. Roy E. Waterman, senior student in the college of engineering at the Santa Clara University, has also been selected for the G. E. training course.

## LIME PRODUCTION IN 1926 IS 4,580,000 SHORT TONS

The lime sold by producers in the United States in 1926 amounted to 4,580,000 short tons, valued at \$40,800,000, according to estimates furnished by lime manufacturers to the Bureau of Mines, Department of Commerce. This is approximately the same quantity, but a decrease of 4 per cent in value as compared with sales in 1924. The sales of hydrated lime, which are included in these figures, amounted to 1,570,000 tons, valued at \$14,576,000, a small increase in quantity and a decrease of 5 per cent in value. The average unit value of all lime showed a decrease from \$9.30 a ton in 1925 to \$8.91 in 1926, and that of hydrated lime a decrease from \$9.79 a ton in 1925 to \$9.28 in 1926.

Ohio, the leading State, showed a decrease of 2 per cent in total sales and 5 per cent in sales of hydrated lime. Pennsylvania, which ranked second, showed an increase of 4 per cent in total sales. Of the 22 States in which more than 25,000 tons were sold, 12 showed increased sales, but in no State was the increase or decrease large.

Sales of lime for construction, and for chemical uses in 1926 were both about the same or possibly slightly less than in 1925 and are estimated at 2,372,000 tons for building lime and 1,893,000 tons for chemical lime. The demand for lime for use in agriculture appeared somewhat better in 1926 than in 1925, despite weather conditions—especially in the Central States—which are reported to have restricted sales. The estimated sales for this use are 315,000 tons, an increase of 5 per cent.

## SAN MATEO BUILDING ACTIVE

The city of San Mateo led all cities in San Mateo county in building permits for the year 1926. Although second to Burlingame in 1925, San Mateo led the list for 1926, the totals being: San Mateo, \$2,034,269; Burlingame, \$1,912,217 and Redwood City, \$1,050,867. This was made despite an unusually small showing for the closing month of the year in San Mateo, which served to reduce the city's annual total. December figures follow: San Mateo, \$24,850; Burlingame, \$250,600 and Redwood City, \$72,280.

## TO PROBE TIMBER CONTRACTS

According to word from Washington, the public lands committee, which unearthed the California and Teapot Dome naval oil lease scandals, has recommended to the Senate that it be directed to investigate the contract awarded by the forest service to Fred Herrick, of Idaho, involving \$90,000,000 feet of timber in the federal forest reserve in Grant County, Oregon. The Senate sent the resolution to its committee on expenditures for approval of the \$3000 proposal for expenses and is expected to approve the inquiry shortly.

## Bill To License Contractors Submitted To State Legislature

Widespread interest has been aroused in the construction industry by the proposed bill for licensing contractors prepared by the Builders' Exchange of Alameda County at Oakland which has been introduced in the California legislature by Assemblyman H. C. Kelsey of Alameda County and is known as Assembly Bill 1050. Following is a synopsis of the measure as drafted:

Its title is "State Building Department Act," and it provides that "it shall be unlawful for any person, department, partnership, association or corporation to engage in business or act in capacity of a building contractor within the state without first having obtained a license therefor."

"The term building contractor," as defined by the bill, "shall mean and include all persons, copartnerships, associations or corporations engaging directly or indirectly and as a primary or secondary object, business or pursuit or in any way connected with the erecting, constructing, repairing, painting or alteration of any building or structure for compensation other than a daily wage."

For the administration of the proposed law a state building department is created, the chief officer of which is to be known as the building commissioner. He is to be appointed by and hold office at the pleasure of the governor, receive a salary of \$5000 a year and give bond of \$10,000 executed by a surety company. He will have full power to regulate and control the issuance and revocation, both temporary and permanent of licenses and must publish on or about March 1 and August 1 of each year a directory or list of licensed building contractors and mail one copy of same to each licensed building contractor without charge. The commissioner is empowered to appoint such deputies and assistants as may be necessary to discharge the duties imposed on him by law and to fix their compensation.

The building commissioner shall have his principal office at Sacramento and may establish branches in San Francisco and Los Angeles.

All fees are to be paid into the state treasury, credited to the "building commissioners fund," from which all expenses of the department are to be paid.

The commissioner is to adopt a seal which shall be used to authenticate the proceedings of his office.

State attorney general is to interpret the Act on request of the commissioner and to serve as the latter's attorney in all proceedings.

Following is the text of the section regulating applications for licenses:

"Application for license as building contractor shall be made in writing to the building commissioner, which application shall be accompanied by the recommendation of two real property owners of the county in which such applicant resides or has his place of business, certifying that the applicant is honest, truthful and of good reputation, and recommending that a license be granted the applicant. If

the applicant shall have resided, or shall have engaged in business for less than one year in the county from which the application is made, the same shall also be accompanied by the recommendation of two real property owners of each of the counties where he has formerly resided or engaged in business during said period of one year prior to the filing of said application, certifying that the applicant is honest, truthful and of good reputation and recommending that a license be granted the applicant. Where the applicant for a building contractor license maintains more than one place of business within the state he shall be required to apply for and procure a duplicate license for each branch office so maintained by him. Such duplicate license shall be issued without additional charge. Every such application shall state the name of the person, copartnership or corporation, and the location of the place or places of business for which such license is desired. The building commissioner may require such other proof as he may deem advisable of the honesty, truthfulness and good reputation of any applicant for license, or of the officers of any corporation, or of the members of any copartnership making such application before authorizing the issuance of a license. In addition to proof of honesty, truthfulness and good reputation of any applicant for building contractor's license, the building commissioner may also require proof that the applicant has a fair knowledge of the English language, including reading, writing, spelling, elementary arithmetic, a fair understanding of the rudiments of building contracts, the reading of blue prints, the erecting, alteration, painting and repair of buildings or other structures, and a fair understanding of the obligations between principal and agent, as well as the provisions of the California building act."

In addition to recommendations applicants must file bond for not less than \$5000 executed by a sufficient surety or sureties "for the faithful performance by such building contractor of any undertaking as a licensed building contractor under this act. Any person injured by failure of the building contractor to perform his duties, or to comply with the provisions of this act, shall have the right in his own name to commence an action against said building contractor and his sureties for the recovery of any damage sustained by the failure or omission of said building contractor to perform his duties or either of them, or to comply with the provisions of this act or any of them. It shall be the duty of the building commissioner to see that such bond remains and is kept good."

For a building contractor's license the fee is \$25 a year. If the licensee is a corporation each officer other than the president shall pay an additional \$2 a year; if a co-partnership each member of the firm other than one designated shall pay an additional \$2 a year. All applications for licenses

must be accompanied by the fee and all shall expire Dec. 31 each year.

The license shall be prominently displayed in the office of the contractor and shall not be operative except for the location stipulated therein. A new license will be issued without charge on notice of change of business location. A definite place of business must be maintained and change of location without notice to the building commissioner will automatically cancel license.

The commissioner shall upon complaint investigate and shall have power to suspend or revoke the license of any contractor found guilty of

"(1) Making a substantial misrepresentation, or

"(2) Making any false promise of character likely to influence, persuade or induce, or

"(3) A continued and flagrant course of misrepresentation or making of false promises through agents or employees, or

"(4) Any other conduct, whether of the same or a different character than herein specified, which constitutes dishonest dealing."

A full hearing must be accorded holder of any license before it is revoked and any decision of the commissioner is subject to review by the superior court under the provisions of Chapter I, Title 1, of Part 3, code of civil procedure. Appeal must be filed within 10 days after the commissioner makes his decision. Burden of proof is placed on appellant and court review is limited to "question whether there has been an abuse of discretion on the part of the commissioner in making such decision." Full power to summon witnesses and compel them to testify, enforceable by the superior court, is conferred on the commissioner.

District attorneys in the various counties are charged with the duty of prosecuting violations of the act by failure to take out licenses, the penalty being a fine of not more than \$500 or imprisonment in jail for not more than six months or both. A corporation is punishable by a fine not exceeding \$5000.

For violation of other provisions of the act the commissioner may suspend or revoke the license of the accused contractor.

### LUMBERMEN ELECT

R. F. Morse of Longview, Wash., has been elected president and A. C. Dixon, Eugene, Ore., and Frost Snyder, Tacoma, Wash., vice-presidents of the West Coast Lumbermen's Association at the closing session of the stockholders' annual meeting at Seattle Jan. 29. W. H. Peabody, of Everett, Wash., was elected treasurer and Robert A. Allen of Seattle, secretary-manager.

E. Court Eaton, irrigation engineer of the State Department of Public Works, has tendered his resignation effective March 1, to become chief engineer of the Los Angeles County Flood Control District.

# ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

## See Disorder If Building Evils Are Not Corrected

Predictions that the construction industry will be "in the throes of an extensive disorder" within five years unless existing conditions are corrected were made at Asheville, N. C., by leading contractors attending the national convention of the Associated General Contractors of America. More than five hundred members of the association attended the meet.

The industry is flooded with incapable and irresponsible bidders of the "fly-by-night" type, speakers declared.

"Unless definite steps soon are taken by all elements of the industry to prevent incompetent bidders from entering upon construction operations in increasing numbers, a disordered condition that will prove costly to the building public is the only prospect," declared Gen. R. C. Marshall, Jr., general manager of the association.

A committee report submitted to the meeting declared promiscuous issuance of surety bonds and misuse of lien law provisions to be mainly responsible for the cited conditions.

"Without the assistance of underwriters, who make it possible for the incompetent and the plain crook to qualify for contracts which they cannot possibly perform, those irresponsibles who constantly bring discredit upon contracting would disappear from public construction," the report stated.

"It is common experience that irresponsible material dealers deliver building materials to these incapable bidders, without making a semblance of a credit investigation, knowing that the average home owner is not familiar with lien law provisions and cannot protect himself against dual payment if the intervening purchaser fails to pay," the report continued.

## SAN MATEO COUNTY PAINTERS ISSUE WAGE NOTICE

The following "notice of change of scale" published in San Mateo county newspapers, is self-explanatory:

Owing to the fact, that the Imperial Wage Board has raised the wages of the Non-Union Painters, throughout our community, one dollar a day, the Members of L. U. No. 1146 believe they are entitled to the same raise.

Therefore, beginning Feb. 1, 1927, the wage scale of L. U. No. 1146 will be nine dollars and thirty-five cents (\$9.35) per day.

All work contracted for, and listed with L. U. No. 1146 by Feb. 1, 1927, and signed by the Building Contractor, or Owner, will be concession work, and finished at the old scale; otherwise the new scale of \$9.35 will prevail.

The new wage scale of \$9.35 per day, has been indorsed by District Council of Painters No. 8, and San Mateo Building Trades Council.

L. U. No. 913, San Mateo; L. U. No. 88, Palo Alto, and L. U. No. 507, San Jose, are also adopting this wage scale of \$9.35 on Feb. 1, 1927.

L. U. No. 1146  
J. P. TOWNSEND,  
Rec. Secretary.

## Goose Stew Is Feature Of Sacramento Sheet Metal Banquet

The annual banquet and goose stew of the Sheet Metal Contractors' Association of Sacramento was held last Thursday evening at the Saddle Rock restaurant, Sacramento.

William H. Gibson of the Gibson Sheet Metal Works and president of the association, opened the banquet with a brief address, telling of the organization's aims and accomplishments during the past year and what the association hoped to accomplish during the current year.

J. R. Wilson of the Latourrette-Fical company, toastmaster for the evening, introduced Jens C. Petersen, architect, and vice-president of the Architects' and Engineers' Club of Sacramento, who spoke on sheet metal work in all branches.

Arthur H. Memmler, Sacramento, architect, and president of the Architects' and Engineers' Club, spoke on detailing of sheet metal work from the architect's point of view. Having spent six years in the sheet metal business in Southern California, his talk brought out many interesting facts. Memmler also discussed the new building code, recently adopted by the city of Sacramento.

Other speakers included J. D. Hubbard, Sacramento branch manager for Holbrook, Merrill and Stetson; E. A. Kuhler, assistant sales manager of the Thompson-Diggs Company; J. Cahill of the firm of Miller and Cahill; B. Moore and R. A. Briggs, both of the same company, and Frank Z. Ahl of the Ahl Sheet Metal Works.

The Sacramento Sheet Metal Contractors' Association, President Wm. Gibson announced during the banquet, was 100 per cent organized, a record not usually recorded with trade organizations.

The following is a list of those who attended the banquet together with the name of the firm each guest represented:

A. W. Wagner, Wagner Sheet Metal Works; W. J. McLaughlin, McLaughlin Sheet Metal Works; R. Z. Gibson, W. H. Gibson Sheet Metal Works; H. H. Hooper, Hooper Sheet Metal Works; H. L. Erickson, Ahl Sheet Metal Wks.; R. F. Higgs, Thomson Diggs Co.; Arthur Crouch, Crouch Sheet Metal Wks.; T. M. Miller, Miller Sheet Metal Wks.; C. H. Larsen, Ahl Sheet Metal Works; A. Triplett, Secty. Sacramento Builders' Institute; J. E. Odgers, Daily Pacific Builder; F. L. Clark, Clark Sheet Metal Works; J. L. Ryan, Part Sheet Metal Works; Jos. L. Gray, Schaw-Batcher Co., responded for Schaw-Batcher Co.; John W. Ott, Holbrook Merrill & Stetson; Fred Munz and Fred Strader, Subway Sheet Metal Works; O. E. Anderson and J. R. Wilson, Latourrette-Fical Co.; J. E. Burgess, Burgess Sheet Metal Works; C. E. Nelson and L. Wright, Schaw-Batcher Co.; R. F. Gunn, Gunn Sheet Metal Works.

A. J. Boitano of the Sinclair & Bessey Sheet Metal Works, and J. R. Wilson served on the committee that procured the geese and ducks.

## RICHMOND BUILDERS BANQUET

Barbecued pig was a feature of the regular monthly dinner-meeting of the Builders' Exchange of Contra Costa County with headquarters at Richmond, held Friday evening, Jan. 28th. Another feature proved to be table decorations which consisted of miniature buildings, wheelbarrows and other products of the building trades.

A. J. Hurley, city building inspector of Richmond, was the principal speaker. Hurley discussed the proposed uniform building code.

Community singing and a special program of entertainment were enjoyed.

## STOCKTON BUILDERS URGE NEW BUILDING BUREAU

Urging the creation of a Department of Building Inspection, the Stockton Builders' Exchange, adopted the following resolution submitted by a committee composed of E. H. Grogan, C. D. Bass, Earl Lewis, L. S. Peletz and W. J. Scott:

"We, your committee, recommend that the city council create a department of building inspection to consist of building inspector, plumbing inspector and electrical inspector, with the necessary office help, all to be appointed by and be responsible to the city manager.

"We further recommend that no city maintenance be included in the department of building inspection."

Copies of the resolution will be forwarded to the city council, urging a separate department for building and not one connected with the city engineering department.

## HARDWARE MEET SCHEDULED FOR PORTLAND

The annual convention of the Oregon Association of Retail Hardware and Implement Dealers will be held in Portland, Ore., Feb. 8-9-10. About 300 delegates from all parts of Oregon are expected to attend, as well as members of the Washington, Idaho and National association. E. P. Lewis, of Marshfield, Ore., is president of the association.

## MASTER BUILDERS ELECT

Roy O. Powers was re-elected president of the Master Builders' Association of Portland, Ore., at the annual meeting of that body. Other officers re-elected were: Harry T. Campbell, vice-president and O. G. Hughson, secretary-treasurer.

# THE OBSERVER

## WHAT HE HEARS AND SEES ON HIS ROUNDS

Any proposal to construct a bridge across San Francisco bay which will bisect Oakland's western water front will be fought by city officials, the Port Commission, civic leaders and improvement organizations of Oakland. At a recent conference of the Oakland Port Commission, its members and Port Manager George B. Hegardt studied the probable locations of a bridge constructed upon San Francisco's latest bay bridge plan. This plan proposes the construction of a bridge from Rincon hill in San Francisco to a point between Sixth and Seventh streets in Oakland. City Commissioner Goodrich declared that such a bridge will bisect Oakland's western water front and will seriously handicap the city's plans for harbor development. This view was concurred in by Hegardt and by Dr. George C. Pardee of the Port Commission.

Lumber and shingles that would fill a string of cars 150 miles long were cut by Bellingham, Wash., mills in 1926. In lumber they produced 406,270,000 feet, or about 16,000 carloads. The shingle output was 332,412,000 pieces. In addition, 44,587,000 lath were manufactured. The Bloedel Donovan Lumber Mills had the greatest production year in its history, cutting 253,000,000 feet of lumber, 40,700,000 lath and 152,000,000 shingles. Production by other lumber concerns in Bellingham in 1926 follows: Puget Sound Sawmills & Shingle Company, 80,000,000 feet of lumber; Morrison Mill Company, 41,000,000 feet of lumber; Whatcom Falls Mill Company, 32,270,000 feet of lumber, 4,147,000 lath and 101,412,000 shingles; Siemons Lumber Company, 73,000,000 shingles; N. Jerns, 6,000,000 shingles.

After 13 months of difficult negotiations, Japanese lumber interests represented by the Rorio, Ringio, Juniay Corporation, has obtained from the Soviet government the largest concession yet granted to Japan, according to word from Moscow. The company, which is capitalized at \$150,000,000, has obtained the right to exploit for six years nearly 3,000,000 acres of rich timber lands bordering on the Tartar straits in the maritime provinces of the Far East. Pulp and paper plants will be built. The same company is seeking further concessions.

German imports of iron and steel in the first half of 1926 showed a marked decrease as compared with the same period of 1925, says an announcement issued January 13 by the iron and steel division of the Department of Commerce. The Saar Basin, according to these figures, is the only producing area to increase its shipment into Germany in the period under review.

Assemblyman F. B. Noyes has introduced a bill in the State Legislature seeking a \$250,000 appropriation to finance construction of a causeway over the by-pass south of O'Banion Corners in Sutter county.

Paul Shoup, vice president of the Southern Pacific Company, announces that 43,150 gross tons of steel rail had been ordered by the Southern Pacific and subsidiaries for 1927 delivery. The Pacific Electric Railway will use 3500 tons of the allotment. The orders were placed with the Tennessee Coal, Iron & Railroad Company, The Colorado Fuel & Iron Company, and the Bethlehem Steel Company.

California registered 1,600,475 automobiles and trucks last year while the total registrations reported by the State Division of Motor Vehicles for 1926, including motorcycles and trailers, reached the record figure of 1,641,551. Automobile registration totalled 1,384,152, trucks 216,323, trailers 30,781 and motorcycles 10,295. San Francisco's registration of cars and trucks totalled 126,699 and Alameda county's 117,486.

The doctrine that California has a vital interest in its water resources and cannot permit water users to disregard the public welfare by uneconomical uses of water will be written into the state constitution if an amendment proposed by Assemblyman Bradford Crittenden is approved by the Legislature and ratified by the people. Crittenden's amendment is an attempt to clarify the basic law of the state with respect to riparian rights and to write into the constitution certain water conservation policies.

A bill has been introduced at Washington by Representative H. L. Englebright of California, seeking the erection of new post office buildings at Redding, Nevada City, Yreka, Placerville, Alturas, Susanville and Sonora. A \$60,000 appropriation is sought for each city.

Palo Alto Carpenters' Union No. 668, has voted to increase the union scale from \$8 to \$9 a day, also to inaugurate the five-day week, instead of the present five and one-half day week. No date has been determined for making the decision effective but it is said the change probably will be in force in about three months. It is not anticipated, according to reports, that Palo Alto contractors will oppose either the wage demand or the five-day week.

The Redwood cut at 14 mills for the first week in January was 6,220,000 ft., while 6,022,000 ft. was shipped and 6,988,000 ft. was sold. Unfilled redwood orders totalled 45,362,000 ft. The white-wood cut was 1,082,000 ft., shipments footed up only 531,000 ft. and sales ran to 1,153,000 ft., while 5,587,000 ft. of orders were unshipped.

The sum of \$300,000 would be appropriated from the state treasury to be expended by the California Debris Commission for the purchase of dam sites and other necessary lands, to restrain tailings from hydraulic mining operations, under a bill introduced in the Legislature by Assemblyman Harold C. Cloudman of Berkeley.

Estimates of Italian iron and steel production during 1926 indicate that an output of 522,000 metric tons of pig iron and of 1,712,000 tons of raw steel is anticipated, according to cabled advices from Commercial Attache H. C. MacLean, Rome. Production during 1925 aggregated 482,000 tons of pig iron and 1,785,000 tons of steel.

The Ford Motor Company today is perpetually enjoined from using the paint spraying device it now employs in finishing motor cars, in a decision by Judge Kerrigan at San Francisco. Action against the company was started by Blake Hopkins, paint contractor and inventor of the machine which he claimed the Ford company was using without authority.

During the year 1926 the reporting West Coast mills cut 5,376,610,275 ft. of lumber, shipped 5,371,805,388 ft. and sold 5,348,172,127 ft. Jan. 1, 1927, they had 286,097,244 ft. of unfilled orders on their books. The Southern Pine cut for the year was 3,762,205,239 ft. while 3,789,989,801 ft. was shipped and 3,726,971,124 ft. sold. The first day of 1927 they carried 175,969,152 ft. of unfilled orders.

Warren Brothers Company of Boston, Mass., with branch offices in Oakland, Calif., have been awarded a contract by the Cuban Government for the construction of a paved highway from Guane, Pinar del Rio to Santiago de Cuba, a distance of 750 miles of the entire length of the island. The contract price is \$75,896,653. Pavement will be Warrenite-Bitulithic with some granite block paving. The award was made in competitive bidding.

The final drive toward salvaging approximately 15,000,000 feet of Weyerhaeuser timber in Klamath county Ore., damages in huge forest fire last Summer, will be started this week with the opening of two portable saw mills near Aspen Lake, twenty-five miles west of Klamath Falls. This is according to an announcement from Jack Kimball, head of the Klamath Forest Protective Association and representative for Weyerhaeuser interests.

Fred Beerman of the Atlas Rod Company and Thomas Janes of the Western States Gas & Electric Company were speakers at the last regular meeting of the Stockton Chapter American Association of Engineers. Beerman told of his experiences at the recent road show at Chicago and Janes gave an interesting talk on the advancement of electrical equipment.

"An act to prohibit the employment of aliens by contractors and sub-contractors on public work being done under the authority of the state, or any officer or department thereof, or under the authority of any county, city or town, or any officer or department thereof, except in case of extraordinary emergency," is the title of Senate bill No. 11, introduced in the California Legislature by Senator Thomas A. Maloney of San Francisco.

San Leandro building permits in January totaled 30 in all for improvements costing \$108,245 of which several permits covered alterations and repairs valued at \$3790 and 23 permits for new buildings aggregating an expenditure of \$104,455.

The Anchor Chain, Inc., "a co-operative financial institution, a merger of persons from all walks of life, all creeds and political affairs, subjects of all Nations; a merger of dollars for the common good of its stockholders," with headquarters at 11 Stuart street reports negotiations under way to erect a fifteen-story Class A office building on the property now occupied by the Alameda Cafe at 7-9-11 Market street.

As a result of more efficient utilization of fuels by public utility power plants in its generation, electricity is the one commodity in common use which is costing the consumer less than before the war. From 1919 to 1925, it is shown that an increase in efficiency in the average utilization of fuel amounted to 52 per cent as measured by the average number of kilowatt hours generated per ton of coal consumed. Fuel costs represent 80 per cent of the cost of operation, the Geological Survey shows.

Building permits issued in Richmond, Contra Costa County, during the month of January represent an expenditure of \$105,910, according to A. J. Hurley, city building inspector. Twenty-six residences were started during the month.

A total of 683,665,000 ft. of fir and 88,346,000 ft. of redwood was received at San Francisco during 1926, less fir and more redwood than 1925.

The American Federation of Labor is pledged to the advocacy of the five-day week and increasing wages in industry. Wm. Green, president of the Federation, declared, at the United Mine Workers' Convention recently closed in Indianapolis. "We have reached a point in industrial development where further reduction in working hours can take place without a slump in productivity," Green said.

Santa Barbara Builders' Exchange proposes to take action to keep at home all contracts for public works. Harry Fell, member of the directorate, announces the exchange proposes to look into the standing and financial rating of out-of-town concerns bidding on public projects and advise those letting the contracts of the results of the investigations. J. C. Huppert, manager of the Merchants Credit Association of Santa Barbara has agreed to co-operate with the exchange in the matter.

## TRADE NOTES

S. G. LaFrenay, H. J. Cowles, Herman Schutt and H. S. Herwig, all of Watsonville, have formed a partnership and will operate under the firm name of Watsonville Lumber Company.

Associated Gravel Company of San Francisco, capitalized for \$600,000 has filed articles of incorporation in Oakland. Directors are: R. Sweeney, A. Martini and G. Connors of San Francisco and M. E. Jones and Horace T. Overly of Oakland.

Judge J. A. Silva reports the purchase of a 5-acre site near Niles, Alameda County, on which it is proposed to erect a plant for the manufacture of gliding tile. A company is now being organized. The plant will be the fourth of its kind in the Niles field, according to Silva.

Constituting the largest foreign contract yet made by the Ward Heater Company, manufacturers and distributors of the Ward system of circulating warm air, announcement is made of a contract for the British Columbia sales rights to Ward furnaces with the firm of E. E. Crandall & Sons, Ltd., Vancouver, B. C. Under the terms of the contract the Canadian concern has agreed to dispose of a minimum of 15,000 Ward furnaces in five years, it was announced. Initial shipments are scheduled to start early this month. Simultaneously contracts were signed with the representatives of the Campbell Heating Company, Winnipeg, and the Nova Scotia Transway and Power Company, Halifax, Nova Scotia, by which the two concerns were granted exclusive sales rights for their respective territories for the Ward system of home heating, it was stated. It was reported that the latter contracts call for a disposal annually of another 4000 furnaces by the signatory companies for several years.

Construction of a new mill and other improvements at the magnesite mines west of Patterson, Stanislaus county, will be started as soon as weather permits, according to G. A. Scott, president of the Red Mountain Magnesite Company which has taken the property over for development. The company has purchased 2040 acres from the Magnesia Products Company. The plans of the new concern provide for placing the kiln at the base of the mountain and the construction of a narrow gauge railroad one and one-half miles long to the mine. C. T. Scott, son of the president of the company, will be chief engineer while Jack Frame will continue as general superintendent.

The General Fireproofing Building Products, Youngstown, Ohio, has issued a 48-page handbook containing architectural details of the company's "Self-Sentering" and "Trussit." The handbook gives valuable information as to the methods of handling and installing this material. The wide adaptability of "Self-Sentering" as a metal lath and concrete reinforcing is shown in a large number of illustrations where the product is used on roofs, partitions, floors and curtain walls. Its range of utility runs from small frame residences to the heavy baffle walls of a sewage disposal plant. The book also contains tables of weights and live loads for both products.

Earnings of the Pacific Portland Cement Co., Consolidated, during 1926, were very satisfactory, everything considered, according to the report of President Robert B. Henderson, read to stockholders at their annual meeting January 28. It was reported at the meeting that the company had doubled the capacity of its Redwood City plant and that construction work is progressing. No changes were made in the list of officers or directors.

Celite Products Co., of Los Angeles, announces the appointment of Dr. M. L. Hartman as technical director of the company with research laboratories located at Lompoc, Calif. Dr. Hartmann assumes his new position after resigning as director of research of the Carborundum Co., Niagara Falls, N. Y. He was formerly head of the department of chemistry, South Dakota State School of Mines, and has been with the Carborundum Co. for the past nine years.

Madera Sugar Pine Company has let a contract to the Englehart Paving & Construction Company of Eureka to construct a 12-mile logging railroad from Sugar Pine into the Signal Peak District. The cost is estimated at \$250,000. It will be narrow gauge and construction will involve 125,000 cubic yards of earthwork. The line will pierce what the company calls its Chowchilla unit, lying partly in Madera, and partly in Mariposa County.

With 110 men employed and 450 cubic feet of granite being taken from the quarries daily, the Raymond Granite Company, Inc., expects to complete its \$700,000 contract for delivery of granite for the Los Angeles city hall on July 1st, according to J. P. Graham, district manager for the company. Work on the contract started last October.

Gulf Red Cedar Company of Richmond, Va., said to be a \$15,000,000 concern, plans early construction of a branch plant at Stockton, Calif. The first unit of the plant will represent an expenditure of \$10,000, according to Clyde I. Richardson, who will act as plant manager. Richardson was formerly connected with the California Cedar Products Company of Stockton.

K. O. Kesler Company, capitalized for \$10,000, has been incorporated in Stockton and will engage in a general contracting business. Directors are: K. O. Kesler, C. A. Kesler and Harvey Humphrey, all of Fresno.

Furnace Dealers Association of Northern California has been incorporated in Oakland. Directors are: Walter Mork, S. W. Terry, John Royles, Frank S. Pollard and W. H. Spencer.

Frank R. Diddell will operate from 681 Market St., San Francisco, under the trade name of Jamestown Metal Furniture Company of California.

George F. Bacigalupi, secretary of the Cement Contractors' Association of Alameda County, has joined the forces of the Calaveras Cement Company and with L. B. Kirby will represent that firm in Alameda and Contra Costa Counties.

John C. Becker will operate from 1496 Turk Street, San Francisco, under the firm name of Becker Paint Company.

Sawmill of Pickering Lumber Company at Standard City has been temporarily closed down for overhauling. The company's box plant, however, will continue to run full shift.

Tilden Lumber Company has leased property from the Southern Pacific Railroad at Richmond just east of the railway and north of Macdonald Ave., for additional storage quarters.

Clart P. Setzer, formerly connected with the Sacramento Box & Lumber Co. of Sacramento, has let a contract for a new box plant to be erected at Third and Y streets, that city. The plant, exclusive of equipment to be installed, will cost \$10,000.

H. D. Mills has been named assistant highway engineer with the Nevada State Highway Commission, succeeding H. M. Loy who resigned to accept a position in Southern California. Mills has been office engineer for the department for the past five years.

## ALONG the LINE

Frank D. Talbot, formerly connected with the Sacramento city engineering department, and more recently with the Sacramento Municipal Utility District, has opened offices in the Forum Bldg., Sacramento, where he will engage in private practice. Mr. Talbot, a civil and hydraulic engineer, the past few months has been practicing with Joseph Boyd, Sacramento civil engineer. Following his graduation from Boston Tech in 1908, Talbot came to California. He was for nine years an engineer with the California Debris Commission. When Sacramento started planning its filtration plant, Talbot went to that city with Charles Gilman Hyde, the designer, and worked on the original plan.

Due to the fact that they have been operating under various subsidiary names during the past few years and to avoid confusion, all business formerly transacted under the name of Trehwhitt & Shields; Shields, Fisher & Lake; Fisher, Lake & Traver, or either one of the individuals whose name occurs in the aforesaid firms is being consolidated under the corporate name of "Trehwhitt-Shields Co., Manager of Construction, Architects and Engineers," with offices at 1501 Pacific Southwest Building, Fresno, and 801 Edwards & Wilsey Building, Los Angeles.

George C. Mason, Portland, Ore., announces that, following the closing of the Portland office of the Hurley-Mason Co. on Dec. 31, he has opened an office as consulting engineer in the Gasco Building in Portland, for practice in building construction, including design, construction and financing.

D. C. Warfel, for the past six years county engineer of Okanogan County, Washington, has resigned to go to California where he will locate either in Los Angeles or Oakland. In Washington, before his work in Okanogan County, he was county engineer of Perry County.

Thos. E. Stanton has been appointed by the Sacramento county supervisors to succeed the late Harlan D. Miller as a member of the Pioneer Memorial Bridge Commission of Sacramento County.

Mark T. Jorgensen, 742 Market St., San Francisco, has been granted a certificate by the California State Board of Architecture, Northern Division, to practice architecture in this state. A certificate has also been granted to Herman A. Schoening, 2108 Shattuck Ave., Berkeley.

Wm. A. Sherman, president of the California State Board of Harbor Commissioners, has tendered his resignation to Governor C. C. Young to be accepted at his pleasure. The position pays \$5000 a year.

Its organization completed with the election of Chas. D. Marx as chairman, the special engineering commission appointed by the Oakland city council to make a survey of sewer conditions in Oakland, has started work. Attention will first be directed to the Grand avenue district.

## Mineral Production In State During 1926 Totals \$456,408,000

The total value of the mineral production of California for 1926 is conservatively estimated by the statistical division of the state mining bureau under the direction of Lloyd L. Root, state mineralogist, to have been approximately \$456,408,000. This is, in part, detailed in the tabulation below; but, as there are more than 50 mineral substances on California's commercial list, it is impracticable at this early date to obtain definite figures on other than the more important items. The blank report forms mailed to the operators in all mineral lines, and the date of publication of the final detailed and complete report will depend upon the promptness of their replies.

The estimated total of \$456,408,000 is an increase of approximately \$24,000,000 over the 1925 production, which in turn surpassed the previous record value of the year 1924. This increase is due mainly to petroleum, and in part also to cement and other structural materials.

As building continued active throughout 1926, nearly all items of the structural group will show increased quantities and total values, especially cement, crushed rock, sand and gravel. Magnesite shipments decreased, due partly to maintenance of foreign importations and lower prices. There were no notable changes re-

ported on the general status of the miscellaneous "industrial" group nor among the salines.

The estimated quantities and values for 1926 are as follows:

Gold .....	\$ 11,700,000
Silver (1,920,000 fine oz.)..	1,195,000
Copper (31,600,000 lb.).....	4,400,000
Lead (7,750,000 lb.).....	643,000
Zinc (16,350,000 lb.).....	1,202,000
Quicksilver (6200 flasks)..	540,000
Platinum (230 fine oz.)....	25,000
Other metals, including antimony, iron manganese tungsten .....	360,000
Petroleum (224,355,000 bbls.) .....	355,000,000
Natural gas (190,000,000 M. cu. ft.).....	16,000,000
Cement (14,200,000 bbl.)...	27,000,000
Crushed rock, sand and gravel .....	17,500,000
Brick and hollow building tile .....	7,500,000
Magnesite (47,000 tons, crude) .....	543,000
Other structural materials, including granite, et al..	3,000,000
Miscellaneous "industrial" minerals .....	5,500,000
Salines, including borates, potash, salt, et al.....	4,300,000
Total value .....	\$456,408,000

## Seattle Municipal Power Plant Proves To Be Expensive

Seattle, Washington, one of the larger cities of the country to undertake to build and operate power plants, is facing many embarrassments because of faulty planning and bungling execution. News reports indicate that the people are becoming impatient and the mounting costs of the experiments and that before long a new deal will be demanded. The following editorial from the Seattle Times, present one phase of the situation:

### Intake and Dam Discarded

"Disclosure that the tunnel intake and the dam of Seattle's Skagit river hydroelectric power plant must be discarded as a total loss was made yesterday when it was learned that the city council is planning to build another dam and intake farther up the river, at an estimated minimum cost of \$2,000,000. This estimate may be increased even to \$4,000,000 before the work is completed, it was predicted by some engineers.

"This expenditure, precipitated by faulty planning of details of the municipal hydroelectric project, will be in addition to supplemental work now under way which will cost \$3,400,000. The original cost of the plan represented an investment of more than \$12,000,000 exclusive of interest on bonds.

"Members of the council said yesterday the new work is made necessary by a faulty position of the intake, due to which large quantities of gravel, tree trunks, roots and other debris, washed down by the river, get into the tunnel and the penstocks. Only good luck so far has kept this destructive debris from seriously damaging the wheels of the generator machinery. The Skagit plant was shut down over Christmas holidays because of this condition."

"Public Opinion," the journal of the National Electric Light Association, comments on another phase of Seattle's experiments in the operation of public utilities:

### Railway On Warrant Basis

"Once more the Seattle municipal street railway has been put on a warrant basis. As it must pay \$1,170,000 on February 1, and the needed money has not been set aside, the public ownership financiers have decided that all receipts of the road shall go into a special bond interest and redemption fund, and all warrants for salaries, wages and supplies shall be stamped "not paid for want of funds," and bear interest at 5 per cent until called and paid.

"That method puts the fate of the road in the hands of Seattle's banks which, fortunately, are still private institutions. They have saved the street car venture before by cashing similar warrants, and will do it again not because they believe the management of the road will improve, but because Seattle must have street transportation.

"Street car fares in Seattle are now 10 cents for single rides or 25 cents for three tokens. This rate has prevailed more than three years, yet Seattle must defer warrants in order to meet payments due on the \$15,000,000 promissory notes given to the private company from which it took over the road seven years ago.

"More taxes seem to be the only way out, so Seattle plans to ask the Washington legislature for a law permitting municipalities to make a tax levy of not more than 2 mills to pay principal and interest on street railway bonds."

## APARTMENTS

**Ready For Figures February 1st.**  
APARTMENTS Cost, \$140,000  
SAN FRANCISCO. S E Geary St. and  
Thirty-third Ave.

Six-story steel frame concrete Class C  
apartment house (2 4-room, 2 3-  
room and 2 2-room apts on each  
floor).

Owner—Withheld.  
Architect—A. H. Knoll, 222 Kearny St.,  
San Francisco.

Bids will be taken for a general  
contract.

**Plans Complete**  
APARTMENTS Cost, \$40,000  
OAKLAND, Alameda Co. W 38th Ave.,  
312 N E 14th St.

Three-story 48-room frame and stucco  
apartments.

Owner—W. E. Murlin, 2624 Havens-  
court Blvd., Oakland.

Architect—W. K. Owen, 3137 Pleitner  
Ave., Oakland.

**Ready For Figures in About 1 Month**  
APARTMENTS Cost, \$50,000  
OAKLAND, Cal. Lake District.

Three-story and basement frame and  
stucco apartment (24 two-room  
apts.) and reinforced concrete  
basement garage.

Owner—Withheld.  
Architect—E. Field, 607 American Bk.  
Bldg., Oakland.

**Ready For Figures in About 1 Month**  
APARTMENTS Cost, \$60,000  
OAKLAND, Alameda Co., Cal. Lake  
District.

Three-story and basement frame and  
stucco apt. bldg. with reinf. con-  
crete basement garage.

Owner—Withheld.  
Architect—E. Field, 607 American Bk.  
Bldg., Oakland.

**Job-Bids Being Taken.**  
APARTMENTS Cost, \$55,000  
SAN FRANCISCO. NW Beach and Cer-  
vantes Streets.

Three-story and basement frame  
apartments (33 apts.)

Owner—L. J. Neal, 180 Jessie St., San  
Francisco.

Architect—Clausen & Amandes, Hearst  
Bldg., San Francisco.

Contractor—J. Harold Johnson, Hearst  
Bldg., San Francisco.

Heating and plumbing bids in.

**Contractors Taking Segregated Bids**  
APARTMENTS Cost, \$300,000  
SAN FRANCISCO. Cal. N Turk 37-6  
E Leavenworth.

Seven-story class A apartments, 86  
apartments.

Owner—V. Fassio, 165 Julian St.  
Architect—Clausen & Amandes, Hearst  
Bldg., S. F.

Contractor—Mission Concrete Co., 125  
Kissling St., S. F.

**Plans Being Prepared**  
APT. BLDG. Cost, \$60,000  
SAN JOSE, The Alameda.

Three-story brick apartment building  
(20 2 and 3-room apts.)

Owner—Withheld.  
Architect—W. H. Weeks, 369 Pine St.,  
San Francisco.

**Plans Being Prepared**  
APARTMENTS Cost, \$200,000  
BERKELEY, Virginia Street.

Three-story frame and stucco apart-  
ment bldg. and reinforced concrete  
garage (40 two and three-room  
apartments).

Owner—Withheld.  
Architect—D. M. Crooks, Thayer Bldg.,  
Oakland.

Plans will be ready for bids in 10  
ys.

**Ready for Sub-Figures in Two Weeks**  
APARTMENT Cost, \$150,000

Owner—Alameda County.

Architect — Henry H. Meyers, Kohl Bldg., San Francisco.

Plans will be ready for figures after July 1st.

Sacramento, Cal., January 29, 1927.  
**FOUND**

On the second pier of the Sacramento Northern Railroad Company's bridge over the swift current of the American River at the 12th Street bridge, and near Sandy Pratt's sand and gravel pit No. 3, one little ice cream colored puppy was discovered clinging to a narrow beam on this bridge when the crew at Sandy's plant came to work this morning. They heard the pitiful cries of the little pup, and noticing that our own airedale "Sandy" (named after our literary boss) smiling around as usual with his good morning smile for each one, the boys began to look around, and sure enough, saw out where the passenger and freight trains run, this little pup crouched under the rails. Henry (that's our hoistman) went out and rescued the pup and the poor little fellow was almost frozen. He had probably been on the bridge the entire night before.

Harvey, who loads the sand cars, built a fire and Phillip and Frank made a bed for the pup. Then some of the boys got in Frank's Ford and drove up to the American River market and bought some hamburger and other things that puppies like, and gave the pup something to eat. At this time the pup is sleeping comfortably in a nice warm bed made by the boys. A good home has been promised the pup, and all the boys worked the entire day with an additional smile on their faces not forgetting to take an occasional glance toward the pump house, where little "Pierre" (name selected by the boys) was asleep in his warm bed. As soon as work is over this evening, Pierre will be taken home by one of the boys, where he will be well cared for.

MRS. H. E. K.—Cashier and Office Manager, Pratt Building Material Co., at Sacramento.

THE WORLD is full.

OF HUMAN kindness.

IF YOU but look.

FOR IT.

AND CLARENCE (Sandy) Pratt, President.

OF THE Pratt Building Material Co.

PRODUCER OF clean, sharp sand.

AND CLEAN, hard, crushed rock.

AND CLEAN, well-graded, washed gravel.

AND CLEAN concrete mix.

(SAND, ROCK and gravel mixed).

IS GLAD his co-workers.

WERE KIND.

TO THIS unfortunate pup.

AND SANDY is happy.

THAT THE boys.

CLOSED DOWN the sand plant.

THAT WASHES and screens sand.

NEAR THE 12th Street bridge.

AND ON the American River.

TO RESCUE "Pierre."

AND NO doubt these boys.

ENJOYED THEIR work more.

ALL THAT day.

BECAUSE THEY had performed.

A DEED OF kindness.

AND IF the puppy.

COULD TALK.

NO DOUBT he would say.

"I THANK you."

"Breakfast at Sandy Pratt's sand pit on the American River at Sacramento." (See above letter from Mrs. H. E. K. and Sandy's K.C.B.-like comment.) Sandy's concern, the Pratt Building Material Co., has sand, rock and gravel plants at Marysville, Prattrock (near Folsom), Sacramento, Prattoke (Monterey County), and Mayhew (Sacramento county), Central office, San Francisco.

 St., Oakland.

Building will be known as the  
 Fruitvale Medical Building and is de-  
 signed in the English Gothic style of  
 architecture. Steam or electrical heat  
 will be used, hot and cold water sys-  
 tem, 2 large elevators and many other  
 modern improvements are specified.

Building will be financed by first  
 mortgages. Architect will take seg-  
 regated bids in about two weeks.

**Plans Being Prepared**  
**ALTERATIONS** Cost, \$—  
**SAN FRANCISCO, Twentieth Ave. and**  
 Irving Street.  
 Alterations and additions to bank  
 building.  
 Owner—Mercantile Trust Co.  
 Designer—C. R. Collup, 464 California  
 St., San Francisco.

**PITTSBURG, Contra Costa Co., Cal.**—  
 Pittsburg Security Investment Co., re-  
 cently incorporated, is having plans  
 prepared for a one-story and base-  
 ment, 70 x 40 ft., frame and stucco  
 store building to be erected at the  
 N E corner of 7th and Cumberland  
 Sts.; will comprise three stores each  
 having a mezzanine floor. Directors of  
 the company are: Henry H. Summer  
 and J. A. Monteverde of Pittsburg and  
 E. M. Lewis, Otton Von Detten and F.  
 W. Wurster of Stockton.

**BAKERSFIELD, Kern Co., Cal.**—Arch-  
 itects Austin & Ashley, Chamber of  
 Commerce Bldg., L. A., have been se-  
 lected to design an eight-story and  
 basement class A office bldg. to be  
 erected at the corner of Chester and  
 18th Sts., Bakersfield, by the National  
 Holding Co. The ground floor will be  
 occupied by First National Bank and  
 upper floors will be divided into 119  
 offices; the site is 85x66 ft. The bldg.  
 will cost about \$500,000. It will be  
 operated as an "own-your-own-office  
 building."

**SAN BERNARDINO, Cal.**—Union  
 Iron Works, 5125 Santa Fe Ave., was  
 awarded a contract at about \$100,000  
 for furnishing and erecting struc-  
 steel for 3-sto. and basement class A  
 dept. store bldg. at 3rd and E Sts.,  
 San Bernardino, for Harris Co. The  
 bldg. will be 127x206 ft. Contract  
 will be let shortly for excavating and  
 constructing the conc. found. How-  
 ard E. Jones, Katz Bldg., San Ber-  
 nardino, is the archt.

**INGLEWOOD, Los Angeles Co., Cal.**  
 Archt. Wm. L. Campbell, 911 Title  
 Insurance Bldg., has prepared prelim-  
 inary plans for a class B bank and of-  
 fice bldg. to be erected at Inglewood  
 for the Bank of Inglewood, Sam Greene  
 pres. It will be 50x100 ft., 2-sto. and  
 basement, designed for 4-sto.; reinf.  
 conc. walls, steel beams and columns,  
 stucco and cast stone ext., plate  
 glass, hardwood and pine trim, mar-  
 ble and tile work, bank fixtures.

**LOS ANGELES, Cal.**—Archts. Walker  
 & Eisen, Western Pacific Bldg., have  
 been commissioned to prepare plans  
 for a 12-sto. and basement class A  
 bank and office bldg. addition on  
 Spring St. adjoining the Hellman Bank  
 Bldg. for the Merchants National Bank  
 & Trust Co. It will be 65x120 ft., steel  
 frame const., stone and terra cotta fac-  
 ing to harmonize with the present bldg.  
 The cost will be \$1,000,000.

**BAKERSFIELD, Kern Co., Cal.**—  
 Chas. Hashim, East Bakersfield, plans  
 the erection of a 2-sto. brick business  
 bldg. 90x65 ft., on Baker St. near East  
 9th St. to cost \$25,000.

**MERCED, Cal.**—Leons Bros. are  
 having plans prepared for a 3-sto.  
 brick store and hotel bldg., 50x150 ft.,  
 to be erected on Seventeenth St. for  
 themselves.

**SACRAMENTO, Cal.**—Capital Building and Loan Association, 1002 10th Street, Sacramento, has purchased site and will have plans prepared for a modern office structure in J St., bet. 8th and Ninth Sts. Est. cost \$50,000. Will be 20 x 80 ft.

**LAS VEGAS, Nev.**—Archit. A. C. Zimmerman, 824 H. W. Hellman Bldg., Los Angeles, is preparing plans for 2-sto. brick store bldg., at Las Vegas, Nev., for W. S. Parks; tile and comp. rfg., plate glass, cop. store fronts, cem. and wd. flrs.

**PASADENA, Cal.**—Archts. Bennett & Haskell, Security Bldg., Pasadena, are comp. preliminary plans for the class A bank and office bldg. to be erected at the corner of Colorado St. and Madison Ave., Pasadena, for First Trust & Savings Bank. The directors have decided to erect a 6-sto. bldg. over the entire property and three additional stories with a set-back over part of the area. The bldg. will cost about \$600,000.

**NAPA, Napa Co., Cal.**—Federal Government rejects proposals to house postoffice quarters and negotiations have been started with owners of property at Clay and Coombs Sts., on which a modern structure will be erected for lease to the government.

**SAN FRANCISCO**—The Anchor Chain, Inc., 11 Stuart St., a co-operative financial institution, contemplates the erection of a 15-story class A office building on the site now occupied by the Alameda Cafe at 7-9-11 Market St.

## THEATRES

**PORTLAND, Ore.**—Architects Sutton & Whitney, Lewis Bldg., and Lee Thomas, U. S. National Bank Bldg., Portland, associated, have been commissioned to prepare plans for office and theatre building for Geo. W. Weatherly at Grand Ave. and Morrison St.; est. cost \$50,000. Will be Class A construction, probably 12 stories in height.

**LOS ANGELES, Cal.**—Archts. Walker & Elsen, Western Pacific Bldg., have comp. plans for the 12-sto. and basement class A theatre and office bldg. to be erected on west side of Broadway betw. 9th and 10th Sts. for United Artists' Theatre Corp.; bids will be taken this week. All work will be included in the genl. contr. Baker Iron Wks. has the contract for furnishing and erecting the struc. steel. The site is 150 x 150 ft.; the theatre auditorium will seat 2500 people; the office section will be 150 x 150 ft. The cost will be \$1,000,000.

**ANAHEIM, Orange Co., Cal.**—Archit. M. Eugene Duerfer, 221 Conml. Exch. Bldg., has been commissioned to prepare plans for a Greek theatre to be const. in the municipal park at Anaheim. Work will include stage and dressing rooms, administration and assembly bldgs., pergolas, entrance, etc.; the theatre will have cement flr; other const. will be reinf. conc. and brick with stucco exte. and clay tile rfg.; the cost will be \$35,000.

**SAN BERNARDINO, Cal.**—Title Holding Co., Arthur E. Mortimer, pres. 818 Chapman Bldg., has the cont. for furnishing plans and financing the erection of a 2-sto. theatre, store and office bldg., at the n. w. cor. Base Line and E St., San Bernardino, for Dr. C. E. Moomau. The bldg. will be 185x130 ft., 12-sto., theatre auditorium to seat 1300 people, offices in 2nd story; reinf. conc. walls, Spanish style, stucco exte., cast stone trim, plate glass, marble and tile work, opera chairs, heating and ventilating, staff ornamentation. The bldg. will cost \$150,000. The project has been leased and financed. Plans are being prepared by Pennell & Young, archt. and engr., 818 Chapman Bldg., Los Angeles. Bids will be taken for the erection of the bldg. as soon as plans are completed.

**LOS ANGELES, Cal.**—Alexander Pan-tages has leased the El Capitan theatre on Hollywood Blvd. near Highland Ave. and announces that a pipe organ will be installed and other alterations made to convert it into a combined vaudeville and motion picture theatre.

## WHARVES & DOCKS

**SAN FRANCISCO, Cal.**, Piers Nos. 23 and 25.—The following bids were received January 27th, by the State Board of Harbor Commissioners for installing and furnishing seven steel rolling doors in bulkhead building now under construction. Frank White, Ferry Building, is the engineer. Proposition "A," Six Tenths of an oz. per square foot of galvanizing. Proposition "B," One and two tenths of an oz. per square foot of galvanizing.

J. G. Wilson Corp., 7, New Montgomery St., S. F., (1) \$4104; (2) \$4298.  
Price-Teltz Co., 523 Market St., San Francisco, (1) \$5895; (2) \$—.  
Gunn-Carle & Co., 444 Market St., San Francisco, (1) \$—; (2) \$6723.  
All bids taken under advisement for one week.

**SAN FRANCISCO**—Until Feb. 9, 11 A. M., under Specification No. 5315, bids will be received by District Public Works Office, Headquarters 12 Naval District, 100 Harrison St., (Rm. 517), to replace damaged piling and timbers and install new piling, sway bracing and miscellaneous timbering for wharf repairs at Yerba Buena Island, (San Francisco Bay). See call for bids under official proposal section in this issue.

**SAUSALITO, Marin Co., Cal.**—Until Feb. 14, 8 p. m., bids will be rec. by W. Z. Tiffany, town clerk, to const. retaining wall in Bulkley Ave. near Princess Ave. Plans on file in office of clerk.

**PEARL HARBOR, T. H.**—L. L. McCandless, Honolulu, T. H., at \$227,200 (items 2a and 3, also accepted), awarded contract by Bureau of Yards and Docks, Navy Department, Washington, D. C., under Specification No. 5210, to construct pier extension. Complete details of this project together with list of bids previously noted.

## MISCELLANEOUS BUILDING CONSTRUCTION

Contractor Taking Reinforcing Steel Bids.

**MAUSOLEUM** Cost, \$125,000  
**STOCKTON, San Joaquin Co., Cal.** San Joaquin Cemetery.  
Reinforced concrete mausoleum with marble and bronze interior.  
Owner—San Joaquin Cemetery Assn. (St. Mary's Catholic Church).  
Architect—H. A. Minton, 525 Market St., San Francisco.  
Contractor—Lewis & Green, Commercial & Savings Bank Bldg., Stockton.

Contracts Awarded

**BUILDING** Cost, \$53,000  
**OAKLAND, Alameda Co., Cal.** N. E. Piedmont Ave. and Westal St.  
Three-story and basement brick mortuary building.  
Owner—E. M. and C. R. Welch, Hotel Oakland, Oakland, and 623 Wasco St., Portland.  
Architect—Chas. W. McCall, 1404 Franklin St., Oakland.  
**Structural Steel**—Moore Drydock Co., Balfour Bldg., S. F.  
**Reinforcing Steel**—Edward L. Soule, Balfour Bldg., S. F.  
**Lumber and Mill Work**—Sunset Lumber Co., 1st and Water St., Oakland.  
**Electrical Work**—H. R. Fritz, 343 9th St., Oakland.  
**Heating**—W. H. Picard, 5656 College Ave., Oakland.  
**Brick**—W. J. Baccus, City Hall, Oakland.

Plans Being Figured

**ADDITION** Cost, \$2000  
**BERKELEY, Bancroft Way below Telegraph Ave.**  
Truck sheds and addition to present machine shop.  
Owner—City of Berkeley.  
Architect—Jas. W. Plachek, Mercantile Bank Bldg., Berkeley.

Plans Being Prepared

**CONCESSIONS** Cost, \$—  
**SAN FRANCISCO, 45th and 46th Ave from Sloat Blvd to Wawona St.**  
Cafe, open-air dining gardens & concessions.  
Owner—Weisbein Bros. & Co.  
Architect—Albert H. Larsen, 447 Sutter St.  
Construction to start not later than March 1.

Plans Being Prepared

**CONCESSIONS** Cost, \$—  
**SAN FRANCISCO, 46th and 47th Ave from Sloat Blvd to Wawona St.**  
Numerous concessions.  
Owner—Ocean Palace Amusement Co.  
Architect—Albert H. Larsen, 447 Sutter St.  
Construction to be started not later than March 1.

**LONG BEACH, Cal.**—City council of Long Beach has authorized the calling of bids for a subway under the intersection of Ocean Blvd. and Pine Ave., Long Beach, the date for advertising and opening of bids to be set by city manager, plans by Harvey Lockridge, Markwell Bldg. Annex, Long Beach; estimated cost, \$80,000, to be borne equally by city of Long Beach and Jergins Tr. Co.; reinforced concrete construction.

**RICHMOND, Contra Costa Co., Cal.**—Until Jan. 31, 10 a. m., bids will be received by city manager for painting and refinishing at Municipal Natatorium. Plans for the work are obtainable from the city manager and on file in the office of the Builders' Exchange at Richmond.

**SAN RAFAEL, Marin Co., Cal.**—Until Feb. 8, 11 A. M., bids will be received by Rob. E. Graham, county clerk, to construct fence near Bivavie. Cert. check 10% payable to Chairman of Bd. of Suprs. req. Specifications obtainable from Rodney Messner, county surveyor.

**SAN RAFAEL, Marin Co., Cal.**—Until Feb. 7, 8 p. m., bids will be received by Eugene W. Smith, city clerk, to fur. and install complete salt water plunge heating system for San Rafael Municipal Baths, including high pressure fire box heating boiler complete with fittings and piping. Cert. check 10% payable to city req. Plans on file in office of clerk. See call for bids under official proposal section in this issue.

**CHICO, Butte Co., Cal.**—If the City of Chico will change present franchise of the Sacramento Northern R. R. whereby the company could run 10 cars through the business district, the R. R. will erect a new depot and laying out new switching yards at First and Main Sts. The matter will be taken up with the city shortly.

**OAKLAND, Cal.**—Engineer E. C. Prather, Realty Syndicate Bldg., Oakland, completing plans for concrete lined tunnel for Claremont Hotel running from basement of hotel to Claremont Key Route Terminal; will be 300 feet in length, 6 ft. wide, 7 ft. high; est. cost, \$15,000. Work will be done by day labor under supervision of engineer.

**ALAMEDA, Alameda Co., Cal.**—Until Feb. 15, 8 p. m., bids will be received by Wm. G. Paden, secty., Alameda High School Board, Room 9, City Hall, to remove trees between sidewalks and curb in west side of Versailles Ave. bet. Lincoln and Buena Vista Aves. and removal of cypress hedge from east side of school property. Further information obtainable from secty.

SACRAMENTO, Cal.—Bill has been introduced in State Legislature by Assemblyman Walter H. Duval of Santa Paula seeking \$125,000 appropriation to erect structure to house subtropical horticulture on campus at University of Southern California.

## BUSINESS OPPORTUNITIES

SAN FRANCISCO—Further information regarding these opportunities may be obtained from the office of Larsen Advance Construction Reports, 818 Mission St., San Francisco, either by phone, letter or personal call. Requests for additional information should be made to the Business Opportunities Department. Such requests must be accompanied by the Index Number of each opportunity.

11233—San Francisco, Cal. The San Francisco branch of a Tokyo trading company desires to get in touch with San Francisco suppliers of scrap iron, rail scrap, etc., for shipment to the Orient.

11238—San Salvador, Central America. Import house seeks a direct contact with houses exporting gasoline, gas, lubricating oils, etc., who would be interested in establishing connections in Central America.

D-2330—New York, N. Y. Manufacturers of the "Conner Purger," a device to remove all of the air and non-condensable gases in ice-making or refrigerating systems, desire to appoint a representative to handle the sale of their product in this district.

D-2331—Haydenville, Mass. Manufacturers of sanitary drinking fountains are interested in securing sales representation in San Francisco and surrounding territory.

Fresno Chapter, American Association of Engineers recently lined up with other chapters by adopting the vow of service which was subscribed to at the last annual convention of the association in Philadelphia, according to President J. M. Buswell, who has received a printed copy which will be framed and preserved.

The vow consecrates those who take it to the promotion of human welfare, safety and progress. It was composed by Dr. D. B. Steinman, nationally known bridge designer and authority on engineering subjects. Dr. Steinman used for a foundation the hippocratic oath, which is taken by medical students following their graduation.

The vow is an enunciation or declaration of professional engagement to add to the prestige of the profession by applying education, training and skill to the progress of civilization and to assist the younger engineers who are to follow.

## Automobile Sales Records Increase Need Of More Roads

The prosperity note sounded by the record automobile sales for 1926, which passed all previous marks, carries a companion cry for more good roads, according to the California State Automobile Association.

While he who runs may read the signs of prosperity in this sales record, an association statement pointed out yesterday, the far-sighted motorist sees also the signs of more congestion unless highway construction keeps pace with this growing popularity of the motor car.

"There is a vitally significant note in the sales reports of the various car manufacturers that should not be missed by the average motorist," declared D. H. Lafferty, member of the Highways Committee of the Automobile Association.

"That note is the ever-growing need for more and better highways. Of course, with the states spending nearly \$650,000,000 yearly for highways, it

na. strike the casual observer that there is not much room for extension. From an economic standpoint, this is not the case. Good highways are among the best of public investments. They have been a tremendous factor in America's march to the position of the richest nation in the world.

"The American Automobile Association with which the California Association is affiliated, ever since its inception has made good roads its primary objective. Good roads have made the motor car the marvelous adjunct that it is to our national life.

"Now, however, instead of the automobile following the good roads movement we have, in effect, the roads movement following the automobile. The situation is being given somewhat of a reverse twist. It is a subject upon which every motorist should do some thinking. All he needs to do is realize the need, then he will ally himself with the agencies that are backing more and better highways.

## Lowering Building Costs Without Lowering Quality

That tens of millions of dollars could be cut from the nation's annual building bill by a simple expedient which enough people have tried to prove it, is the tenor of a statement contained in a report just received from the National Committee on Wood Utilization of which Secretary of Commerce Hoover is chairman. It is made on the authority of a sub-committee on construction consisting of 29 members of which 14 are prominent architects and the balance are building engineers and authorized representatives of many great national associations of architects, builders and contractors.

The cost of construction today has become a matter of vital concern not only to the builder and contractor but to the consumer or ultimate home owner, as well. In the struggle to reduce these costs, it is often calmed that the quality of building construction has been materially lowered. According to this report, however, not less than 100 million dollars could be saved by better utilization of the present amount of timber cut each year; that is, by using that portion of the product which, while of equal quality, is now wasted.

This waste is short lumber which in close utilization would be 20 per cent or more of the total product. The report shows from a survey of building plans calling for nearly a million feet of lumber that the short cuttings required or permitted by the plans amount to 19.59 per cent in framing material; 26.13 per cent in the common boards, and 51.49 per cent in the finish and trim of dwellings. In each case the percentage is of the total lumber consumed for that use, and the short lumber is 1 to 7 feet in variations of 1 foot or less. As the lengths of lumber 8 feet and above varies by 2 feet, the wasted ends may be anything up to 2 feet, and the footage required in the short lumber is therefore not much greater than with long lumber. Con-

trary to common argument, the carpenter labor in trimming is not much greater, because most of the short lumber has at least one end trimmed on a swing cut-off saw table instead of at the sawmill green lumber trimmer, and probably true enough for use without retrimming by hand, in framing, sheathing and other unexposed joints.

The saving in cost per thousand feet should, however, far outweigh any small added cost of trim waste or labor, the report indicates. "Since it is the general practice of mills throughout the United States to quote short lengths 15 to 35 per cent below the prices asked for long lengths of equal grade."

Because the buyer for building uses has shown little or no interest in short lumber, his retail yard may not be carrying it; but any new volume of inquiry would soon bring the material within reach, for the retailer can readily secure it.

End-matched flooring is becoming widely popular and furnishes a very effective field for short lengths in the flooring softwoods; and end-matched ceiling, partition, drop siding and even sub-flooring and sheathing will probably follow and give a farther outlet for short material. Another sub-committee of the National Committee on Wood Utilization is preparing a supplementary report on such end-matched building patterns.

The tables of the report are extremely useful, as they show for each type of dwellings just what lengths can be used, and for what purposes, and the left half of the table shows what short lengths were specified on the original lumber bills that accompanied the plans. For framing this specified use averaged 1.58 per cent or about one-thirteenth (1/13) the possible or "permissible" use shown on the right-hand side of the tables.

H. M. Loy, assistant engineer of the Nevada State Highway Commission, has tendered his resignation to George W. Borden, state highway engineer.

## STATE OF CALIFORNIA CALIFORNIA HIGHWAY COMMISSION

### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of **The California Highway Commission, Strub Building, Sacramento, Cal.**, until 2 o'clock p. m. on February 28, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Sonoma County, a bridge across Sonoma Creek, about 1 mile west of Schellville (IV-Son-8-A and B) consisting of a 100-foot steel truss span and two 25-foot concrete approach spans.

Merced County, between Athlone and the southerly boundary (VI-Mer-4-A) about four and five-tenths (4.5) miles in length, to be widened with Portland cement concrete and surfaced with asphalt concrete.

San Diego County, between La Mesa and El Cajon (VII-SD-12-A-B) about three and seven-tenths (3.7) miles in length, to be graded and paved with Portland cement concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
J. P. BAUMGARTNER,  
California Highway  
Commission  
IL M. MORTON,  
State Highway Engineer.  
W. F. MIXON, Secretary.

Date: January 31, 1927.

### NOTICE TO BIDDERS

(Shrub Planting—Palo Alto)

The Board of Education of the Palo Alto City School Dist. invites and will receive bids up to 7:30 p. m. Feb. 10, 1927, at 549 Channing Ave., Palo Alto, Calif., for furnishing and planting shrubs at the South Palo Alto and Sherman Schools, in accordance with the conditions, plans and specifications which may be had upon application. The Board reserves the right to reject any or all bids.

Board of Education,  
549 Channing Ave.,  
Palo Alto, California.

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

### NOTICE TO CONTRACTORS

Furnace and Oil Burners—Fort Mason

OFFICE CONSTRUCTING QUARTERMASTER, Fort Mason, Calif. Sealed proposals will be received here until 11 A. M., Feb. 16, 1927, for remodelling furnaces and replacing oil burners in power house at Letterman General Hospital, Calif. Information upon application.

### NOTICE TO CONTRACTORS

(Gymnasium and Swimming Pool—San Mateo Union High School District)

Notice is hereby given that the undersigned trustees of the San Mateo Union High School, District, San Mateo County, Calif., will receive sealed bids up to the hour of seven-thirty (7:30) o'clock P. M., on Thursday, the 17th day of February, 1927, at the office of the San Mateo Union High School, San Mateo, at which said time and place said bids will be publicly opened for the following:

1. Gymnasium Building, two-story brick and concrete and concrete Swimming Pool, located on "D" street near Poplar avenue, San Mateo, and other equipment.

2. Plumbing for the above Pools, separate contract.

All bids will be addressed to the Clerk of the said Board of Trustees and must be accompanied by a certified check made payable to the order of aforesaid clerk in amount equal to at least ten (10%) per cent of the largest bid so submitted, and no proposal will be considered by said Board unless accompanied by such check.

The said check to be forfeited to said School District, as ascertained and liquidated damages in case the successful bidder fails or refuses to enter into a contract to perform the

work, and give satisfactory bonds required, within ten days after the date of the award.

The plans and specifications for said work may be examined at the office of E. L. and J. E. Norberg, architects, 407 Occidental Avenue, Burlingame, and a limited number will be loaned to responsible contractors if a deposit of \$15.00 is made.

The said Board of Trustees expressly reserves the right to reject any and all bids.

Done by the order of the Board of trustees of the San Mateo Union High School District, San Mateo County, California.

N. D. MORRISON,  
President.  
J. R. MURPHY,  
Clerk.

All bids must be addressed to D. C. Williams, city clerk, and must be accompanied by a certified check of 10% of amount of bid.

All bids must be on file by 8:00 o'clock P. M. of February 14th, 1927, at which time said bids will be publicly opened.

The Board reserves the right to reject any and all bids submitted.

Dated at Hanford, California, January 26th, 1927.

(SEAL) D. C. WILLIAMS,  
City Clerk of said City of Hanford.

#### NOTICE TO BIDDERS

**Chatom Spillway Association, Turlock, California**

NOTICE is hereby given that sealed proposals will be received at Room Four of the Turlock Irrigation District Building, Turlock, California, until

**Thursday, February 10th, 1927, at 1:30 o'clock P. M.** for the construction of two sections of concrete lining together with their appurtenant works. Full plans and specifications therefor can be seen at Room Four, Turlock Irrigation District Building.

Said Chatom Spillway Association will meet at Room Four of the Turlock Irrigation District Building, at 1:30 o'clock P. M. on the said 10th day of February, 1927, and open all proposals received in response to this notice.

The contract will be let to the lowest responsible bidder, but the Chatom Spillway Association reserves the right to reject any and all bids.

The proposal forms must be properly filled out by the bidder and submitted in a sealed envelope addressed to the Chatom Spillway Association, Turlock, California, and marked to indicate that each is a proposal for the construction of two sections of concrete lining together with their appurtenant works.

Done in pursuance of an order of the Chatom Spillway Association, this 31st day of January, 1927.

O. G. OLSON,  
Secretary, Chatom Spillway Association.

#### NOTICE TO CONTRACTORS

Pursuant to an order of the Board of Supervisors of the County of Santa Barbara, State of California, made on the 31st day of January, 1927, notice is hereby given that sealed bids will be received until **10 o'clock P. M. on the 21st day of February, 1927**, by the Board of Supervisors of the County of Santa Barbara, State of California, at their rooms in the County Court House, in the City of Santa Barbara, County of Santa Barbara, State of California, said bids then and there will be publicly opened and read for furnishing all plant, material and labor and doing the work required for the construction and erection of the Court House, Hall of Records and Jail Building on the Court House Site in the City of Santa Barbara, County of Santa Barbara, State of California, and all in accordance with the plans and specifications therefor, made by William Mooser Company, Architects, Nevada Bank Building, San Francisco, California.

Such bids will be received for the work as follows, separately:

- 1 BID—Items listed under Carpenter Work.
- 2 BID—Items listed under Ornamental Iron Work.
- 3 BID—Items listed under Electrical Work.
- 4 BID—Items listed under Stone Work.
- 5 BID—Items listed under Cast Stone Work.

Each proposal must be submitted on forms similar to the one here attached as prepared by the Architects, William Mooser Company, Nevada Bank Building, San Francisco, California.

Cash, a Bidder's Bond, or a Certified Check in the sum of at least Ten per centum (10 per cent) of the amount of the bid must accompany each bid, and be payable to the Chairman of the Board of Supervisors of the County of Santa Barbara, as a guarantee that the Bidder whose proposal is accepted will enter into a contract with the

County of Santa Barbara, for the work bid upon, otherwise said Cash or Bidder's Bond, or Certified Check will be forfeited to the County of Santa Barbara.

Plans and specifications for above work may be seen at the office of the Architects, Court House Site, Santa Barbara.

Sets of plans and specifications will be loaned out to bidders upon deposit of Fifty (\$50.00) Dollars, Cash or Certified Check; said deposit to be refunded to bidder when the set of plans and specifications are returned in good condition accompanied by bid; such deposit to be forfeited to the Architects, provided the set of plans and specifications are not returned in good condition within five (5) days from the time same is taken out, unless a bid is to be submitted on or before date set for receiving bids.

Application for plans and specifications must be made to the Architects, William Mooser Company, Nevada Bank Building, San Francisco, California.

#### Rights Reserved

The County of Santa Barbara reserves the following rights:

(a) To reject any or all proposals; (b) to waive any information in any proposal; (c) to award this contract to some other than the lowest bidder, as this clause expressly puts the bidder on notice that his financial and business standing and ability properly and expeditiously to carry out work hereunder, and the consideration of desired alternatives, makes his proposal more advantageous to the County of Santa Barbara; (d) to accept any alternate or separate parts of the work, under this provision; (e) to deduct any separate item mentioned in any proposal at the price therein stated therefor; (f) to make any additions, to omissions from, changes in, or substitution for the work or materials or articles called for by the contract, subject to the requirements of the paragraph thereof headed under that particular item and without notice to the sureties on this bond, if any, guaranteeing the performance of the contract.

All bids must be addressed to the County Clerk of Santa Barbara, in the City of Santa Barbara, State of California, and have endorsed thereon.

Proposals for Court House, Hall of Records and Jail Building for the County of Santa Barbara, California, and the particular part of the work bid upon.

C. L. PREISKER,

Chairman of the Board of Supervisors of the County of Santa Barbara.

D. F. HUNT,

County Clerk and Clerk of the Board of Supervisors of the County of Santa Barbara.

#### NOTICE TO CONTRACTORS

**Steam Turbine Generator**

OFFICE CONSTRUCTING QUARTERMASTER, Fort Mason, Cal. Sealed proposals will be received here until 11 a. m., February 28, 1927, for installing steam turbine generator and generator panel in power house at Letterman General Hospital, Calif. Information upon application.

#### NOTICE TO BIDDERS

**(Transformers—City of Modesto)**

Notice is hereby given that sealed bids or proposals will be received by the City Council of the City of Modesto, at the office of the City Clerk at 717 Tenth Street, not later than **seven-thirty (7:30) o'clock P. M. on Wednesday, the 9th day of February, 1927**, for:

Item 1: Three (3) G. E. 20 K. W., 6.6 amperes, 2300 volt, 60 cycle, automatic station type L. F. series constant current transformer, catalogue No. 295221.

Item 2: Three (3) G. E. 3 K. W., 6.6 amperes, 2300 volt, 60 cycle, substation type S. L. series constant current transformer, catalogue No. 245953.

All proposals or bids shall be accompanied by a certified check or bidding bond, payable to the Mayor of said City, which check or bidding bond shall be an amount not less than

ten (10) per cent of the total bid. The amounts bid shall be F. O. B. Modesto.

Bidders must state time of delivery of said transformers.

The City Council reserves the right to reject any or all proposals or bids.

By order of the City Council of the City of Modesto, County of Stanislaus, State of California.

H. E. GRAGG,  
City Clerk.

#### NOTICE TO SCHOOL FURNITURE COMPANIES

**(Opera Chairs—Fresno Board of Education)**

Pursuant to an order of the Board of Education of the Fresno City High School District of the City of Fresno, duly made and entered in its minutes this 27th day of January, 1927, public notice is hereby given that said board will receive up to **5 P. M. on the 24th day of February, 1927**, at the office of said board, in the Hawthorne School Building, 2425 Fresno Street, Fresno, California, sealed proposals for the furnishing of 1000 more or less opera chairs for the Edison Technical School, said bids to be opened at 8:15 P. M. on the 24th day of February, 1927, in the Board of Education room in the Hawthorne School Building, 2425 Fresno Street, Fresno, California.

Further specifications and bid forms for bidding on the above opera chairs may be obtained from the undersigned secretary of said Board of Education at the office of said board above designated.

A bidder's surety bond or certified check equal to at least ten per cent of the amount of the bid submitted must accompany all proposals.

The Board of Education of said school district reserves the right to reject any and all bids.

By order Board of Education Fresno City High School District.

L. L. SMITH, Secretary.

Donovan, 1916 Broadway, Oakland, California. A deposit of \$25 will be required as a guarantee of the return of plans and specifications taken from either office, said deposit to be refunded when plans and specifications are returned in good condition.

The board reserves the right to reject any and all bids.

Proposals shall be delivered in accordance with instructions given in the specifications.

SALINAS CITY BOARD OF EDUCATION.

By ARTHUR WALTER, Secretary.

### NOTICE TO CONTRACTORS

(San Mateo School District)

Notice is hereby given by the San Mateo School District of San Mateo County, State of California, for sealed proposals to be delivered to J. J. Casey, Clerk of the Board of Trustees for said School District at the Central School House, City of San Mateo, County of San Mateo, State of California, until the 11th day of February, 1927, at 10 o'clock A. M., of the said day, for certain alterations and additions to the Peninsula Avenue School Building, situated at Peninsular Ave., Prospect Row and El Camino Real, City of San Mateo, Calif., also the erection, construction and completion of a School Auditorium and Lunch Room in connection with present building according to plans and specifications therefor on file with the Clerk or President of said Board of School Trustees, and at the office of Thomas M. Edwards and H. A. Schary, architects, 525 Market Street, San Francisco, Calif., to which reference is hereby made.

On a deposit of Twenty (\$20) Dollars complete sets of said plans and speci-

fications may be had by any prospective bidder, and shall be returned on or before the 11th day of February, 1927.

If not returned by said time, or if mutilated, the said deposit may be retained by the said School District, as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Architects or from the Clerk or President of said School Board, and be signed by the bidder, accompanied by a certified check for at least ten (10%) per cent of the amount of the bid or proposal, certified to by some responsible bank or banker, and made payable to J. J. Casey, Clerk of said Board of Trustees, to be retained by the said School District as agreed and liquidated damages should the party, or parties, to whom the contract shall be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law or this Board. Bids will be opened by the Board of Trustees for said School District on Friday, Feb. 11, 1927, at the hour of 10 A. M., in the Central School House, City of San Mateo, San Mateo County, State of California.

The Board reserves the right to reject any or all bids.

J. J. CASEY, Clerk.

### STATE OF CALIFORNIA

### CALIFORNIA HIGHWAY COMMISSION

#### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock P. M. on February 14, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made of portions of State Highway as follows:

Kern County, a sidewalk on the bridge across Kern River at Bakersfield (VI-Ker-4-D), 952 feet long composed of wooden walk and guard rail and structural steel and 1240 lineal feet of guard rail and gravel approaches.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
LOUIS EVERDING,  
J. P. BUMGARTNER,

California Highway Commission.

R. M. MORTON,  
State Highway Engineer.

W. F. MIXON, Secretary.

Dated January 17, 1927.

## APPELLATE COURT REVERSES CLEVELAND DECISION

The court of appeals recently reversed a decision of the court of common pleas in Cleveland ordering the building mechanics to return to work at the Ohio Bell Telephone Company building in that city, being erected by the Indoff-Bicknell Company. Following employment of four non-union strikers on the telephone company job last summer, the entire force of 600 mechanics quit work. The court of common pleas after hearing the evidence, ordered the men back to work. They refused to return and the case was carried up to the court of appeals. The main points in the decision of the appellate court are, 1. No strike was called in accordance with the constitution and by-laws but the men did quit by concerted action, without the sympathy of leaders. 2. The union men did violate their contracts by quitting without an attempt toward arbitration, but there was no unlawful conspiracy. 3. If an individual employee quits work in violation of his contract, a court of equity will not, indirectly or negatively, by means of an injunction restraining a violation of contract, compel the employee to perform his contract by performing the personal service he agreed to perform. 4. The mere violation of a contract not to strike does not render a strike illegal.

V. F. Milson has resigned as secretary of the California State Highway Commission to accept a position as secretary of the Yolo County Board of Trade.

## U. S. Charges Trade Law Violation To Hardware Men

The California Retail Hardware and Implement Association, comprising hardware dealers throughout the state, is charged with conspiracy to restrain interstate commerce, in a suit filed in the San Francisco Federal District Court.

The action was brought by United States Attorney George J. Hatfield, on instructions from Attorney-General John G. Sargent.

The complaint alleges that "members of the defendant association conspired and agreed among themselves to coerce and require manufacturers, jobbers and wholesalers" of hardware commodities to deal only with retailers recognized by the association, and to refuse to sell directly to consumers.

The rules of the association prohibit any approved manufacturer, jobber or wholesale dealer from selling directly or indirectly any hardware commodities to retail stores within the state operated or controlled, directly or indirectly, by any manufacturer, jobber or wholesaler, the government charged.

The association accomplished its purpose, according to the complaint, "by refusing to trade or to deal with said manufacturers, jobbers and wholesale dealers, or any of them, who should sell said commodities directly to consumers or to retailers not recognized by the association as being legitimate or exclusive retail hardware dealers."

The complaint charged that the association has an "indorsed list" of manufacturers and wholesalers who have complied with the rules of the organization, and that the list in cir-

ulation now was published at the last annual convention of the association held March 16, 1926.

The government further charged that information as to the manufacturers who violate the rules of the association "has been and now is being imparted to the members by omitting from the indorsed list all names of such manufacturers, jobbers and wholesale dealers."

The principal commodities referred to in the complaint are agricultural implements and tools, garden implements, blacksmiths' supplies, iron and steel goods, firearms and miscellaneous hardware.

Those named as officers of the association are August D. Ketterlin, Santa Rosa, president; Frank Smith, Fresno, first vice-president; Walter A. Mariani, San Francisco, second vice-president; M. M. Brown, San Francisco, treasurer; and Le Roy Smith, San Francisco, secretary.

Members of the executive committee as named in the complaint, are: W. B. Allen, Palo Alto; Fred T. Duhring, Sonoma; John P. Maxwell, Oakland; I. Cushman Walker, San Francisco; Berry M. Adams, Eureka; Frank P. Barcroft, Merced; Frank Bremer, Yuba City; O. T. Clow, Hanford; Harry Crowe, Tulare; W. D. Eldred, Bishop; E. R. Gifford, Taft; Wilber W. Green, Watsonville; E. Hobbie, Petaluma; Robert J. Johnson, San Rafael; Chas. Melander, Salinas; George L. Messick, Colusa; Harry Nichols, Chico; J. W. Pearson, Oakland; John D. Turner, Modesto; Albert Thompson, Red Bluff; Robert J. Wisnom, San Mateo.

## Sacramento Architects And Engineers Hold Annual Banquet

The annual banquet of the Architects' and Engineers' Club of Sacramento was held Feb. 3 at Hotel Sacramento, more than 120 professional men of Sacramento and vicinity being in attendance.

Albert J. Evers of San Francisco, secretary-treasurer of the San Francisco Chapter, American Institute of Architects, and secretary of the State Board of Architecture, was the principal speaker of the evening.

"We must stop to think of the ethical standards of these organizations—this organization combines two professions, both of which are active in city development. It is such organizations as this one which make better business conditions. They further honesty, good will and stand for co-operation," he declared.

"You men work together for the promotion of the building industry—

working with the right spirit, you are valuable to the community as builders," Mr. Evers said in closing.

H. C. Bottorff, city manager of Sacramento, addressed the gathering on the subject, "Our City of Sacramento." In his talk, Bottorff outlined the work which has been done within the past few years, and told of the hopes held for the future.

Arthur S. Dudley, secretary-manager of the Chamber of Commerce, declared in his talk that "Sacramento is the only city in the United States which has doubled its population within the last ten years. We have a wonderful city here. An unusual city—and beautiful."

Other talks were given by W. D. Hudson, representing Harland-Bartholomew; C. H. Kromer, construction engineer of the department of public works.

## Southern Exchanges Name Committee To Harmonize Proposed Licensing Laws

Licensing of contractors as proposed in two bills introduced in the California Legislature at the preliminary session was the sole topic of discussion at a meeting of representatives of the Builders' Exchanges of Southern California held at Ventura Jan. 28. Attorney C. C. Carleton, legislative representative of the Construction Industries Joint Committee of California, was present at the meeting and reviewed the provisions of both measures, emphasizing the importance of unity in whatever action the construction industry might see fit to take concerning them or the licensing question.

It was voted to appoint a committee to study the two bills and confer with representatives of Northern California exchanges with a view to reaching an agreement, if possible, on the basic features and important details of a licensing measure. This committee consists of E. H. Munson of Pasadena, chairman; J. W. Morin, Pasadena; George Israel, Ventura; J. H. Penfold, San Diego, and C. O. Maul of Santa Monica. A report will be made at a meeting of representatives of the exchanges to be held at San Diego Feb. 25.

The two bills pending in the legislature are Assembly Bill 1050 by H. C. Kelsey of Alameda County and Senate Bill 758 by F. Weller of Los Angeles County. The Kelsey bill is sponsored by the Builders' Exchange of Alameda County, a synopsis of its provisions being recently published in these columns. The Weller Bill is endorsed by the Builders' Exchange of Pasadena and was drafted by Attorney J. W. Morin of Pasadena.

In explaining the provisions and objects of the proposed license law introduced by Senator Weller at the preliminary session of the legislature, Attorney Morin declared it was not designed to promote the interest of any one class, but to operate to the best interests of the public and for the protection of owners and persons furnishing materials and labor for buildings. "It is not contended," he said, "that the bill in its present form and wording is perfect," adding that he was certain suggestions for its improvement would be welcomed by those who have the measure in hand.

Morin pointed out that the bill as drafted contains two general divisions: First, the definition of a contractor and a provision for licensing depending upon a \$5000 bond; second, conditions under which an owner may build on his own account and safeguards for those involved in building projects with such owners. "Without the second division," Morin points out, "the first division providing for the licensing of contractors could be evaded by unscrupulous persons purporting to act as owners rather than as contractors." Continuing, he said:

"The measure of the value of the contract is, after all, the financial ability of the parties to the contract to perform the provisions thereof; in building contracts particularly. It would seem to require no argument to establish the proposition that a person who undertakes to erect a building at a fixed price, or a person who undertakes to build even on a percentage plan and is in a position to subject the property to mechanics' liens,

assumes a measure of responsibility which can be measured precisely in accordance with his financial standing. At the present time in the doing of private contracting work in California it is not legally necessary for a contractor to be worth anything at all; nor is it necessary that he should be experienced or any wise competent.

"It is true that an owner may avail himself of the rather complicated provisions of the chapter on mechanics' liens and by filing contract, plans, specifications and the 50% statutory bond find his way successfully through a building project, but common experience and observation shows the great majority of building projects in actual number and volume are not carried on in accordance with this law. I am told that not over 25% of the building enterprises in number or volume are carried on under the protection of licensed architects, and but a small fraction are actually carried on in accordance with the recording and bonding provisions of the mechanics' lien law.

"The object of the proposed statute is particularly to cover the smaller jobs running up to eight or ten thousand dollars which are built for owners who are not advised of the ramifications and technicalities of the law and go in confidence to a contractor who has been recommended to them by some mutual friend. If after sixty years of legal history the majority of the people are not conducting themselves in response to certain legal technical opportunities for protection it seems reasonable that any simplification of the law which will carry a protection in favor of the owner, even without his demanding this specific protection, should become a part of the law. Laws are constantly being strengthened in accordance with the known dispositions of people to act with reference to certain situations. There are complicated laws on insurance and banking which are not inherently necessary if all who had occasion to enter into contracts of insurance or to deposit money in banks were in a position to afford themselves full information and protection.

"It may be objected to by some that we already have too many laws. It has been said that 60,000 new laws have been passed in the United States in the last five years and that there have been 65,000 decisions by courts of last resort in the same period. Even though it were possible to enjoin and terminate the activities of all legislative bodies for five years it is not conceivable that we could stop the process of judicial decision and thus law making actually proceeds regardless of legislative activity. It makes little difference whether the law is in a statute or is found in some obscure decision by a court of last resort. In either case the law is complicated and complications are being added to complication and it cannot be logically maintained that we simplify life by leaving it to the courts to adjudicate controversies and to lawyers to construe the cases rather than to express in plain English the rules which should regulate the rights of the parties to the controversies before the controversies arise.

"Inasmuch as the majority of the people of California after sixty years

have either not been educated up to or cannot follow the complications of the mechanics' lien law, the protection of the law should be brought to them without their conscious seeking after the same by the employment of lawyers and architects in every small building enterprise in which they are inclined to embark. In other words, if the people continue to build their houses without licensed architects and without the filing of plans, specifications and statutory bond, it does not necessarily follow that the legislature should leave these people to their own disasters.

Brokers are required by law to give a bond, and yet a broker does not ordinarily find himself in position of appropriating to himself the money of another without criminal liability, whereas the contractor, even though not building large houses, in the course of a year will handle funds running into very large figures for owners under circumstances which make the funds the property of the contractor, and therefore in case even of a fraudulent misuse of the fund, a criminal prosecution cannot be successfully maintained. The process of borrowing from one job to pay on another is the common experience repeated over and over again and results in a process of civil liability against the contractor and in very rare instances does a recovery ensue.

"The proposed law provides that any person who shall be injured must establish their claims by a final judgment and then that judgment shall be a claim upon the bond. There is nothing indefinite about that provision, but the contractor must pay the judgment or his capacity is suspended until the judgment is paid; in other words, the bond must be kept good.

"Section 6 of the proposed act, if it becomes the law, may avoid a large class of losses, which while not as frequent in number as the losses caused by delinquent contractors are productive of more complicated and unsatisfactory litigation. Materialmen are constantly confronted with the necessity of litigation over building projects which are improperly planned and insufficiently financed and destined to certain failure from the beginning, only the destiny is not manifest by any information available to the materialman until after the materialman has furnished his material. In typical cases it develops that the owner did not own the property, that perhaps he had only a lease or contract of purchase or perhaps even an option; that the property was encumbered by first, second and third mortgages, and that the encumbrances were of a general and very indefinite nature; that his wife had something against it, that their money on the first mortgage had been partly advanced, that the deed of trust money had been promised when somebody would buy it; that in each case the facts were difficult of ascertainment and that therefore the rights of the various parties, owners, encumbrancers and lien claimants was in a state of uncertainty and confusion to be resolved only through litigation or the taking over of the building by a group of unwilling materialmen. I cannot be said that every materialman should order a guarantee of title before delivering material; business

not done that way, but there is no legitimate reason why an owner or a person who is purporting to be an owner should not reveal himself, the nature of his title or interest in the property and a layout of the financial plan under which he proposed to consummate the building project. In practice this provision of the act may work out more helpfully than any other provision, and the elimination of Sec. 6 would leave the act in such a condition that it could be readily evaded and be far from satisfactory in its operation." —(Southwest Builder and Contractor, Los Angeles).

### BRICK INDUSTRY LOOKS FOR ACTIVE YEAR

The monthly digest of the Common Brick Manufacturers' Association of America, just issued, says:

The experience of the first month of the New Year in the common brick business seems to sustain the prediction that 1926 volume in sales is going to carry through at least the early months of 1927. A larger number of plants than usual have operated through January, and the stock of burned brick on hand is slightly larger than a month ago. The movement of brick from the yards has been somewhat reduced by weather conditions which are slowing up construction work.

One of the most encouraging features of the report is a marked increase in the orders for brick on the books. One hundred and fifty-nine companies reporting show orders for approximately 312,000,000 as against orders for 275,000,000 a month ago, and 253,000,000 a year ago this date.

Two or three carefully prepared surveys of the building program for the coming year have been released recently. One of the most dependable of these was prepared by C. Stanley Taylor for the Architectural Forum, New York.

While construction of all kinds in 1926 involved the expenditure of probably seven billion dollars, it is Mr. Taylor's prediction that there will be a slight falling off from that figure, with a probable total of six billion in 1927. The anticipated reductions vary from ten to twenty per cent in different parts of the country, with a few sections indicating volume fully equal to last year and possibly a little in excess. Among the sections where the building volume promises to be in excess of 1926 are Greater Chicago and the Pacific Northwest.

According to Mr. Taylor's survey, the classes of construction which will show a decline during the present year are in the order of their importance are: hotels, dwellings above fifty thousand dollars, industrial buildings and small residences.

A survey of a large number of representative architectural offices, in all parts of the country shows that there will be an increased volume in apartments, apartment hotels, churches, public buildings, theatres, and automotive construction. Actual jobs now being planned by architects represent expenditures of nearly five billion dollars, and with operations which will be started later in the year and alterations, it seems a safe prediction that the building volume of 1927 will reach and exceed six billion dollars.

Grigolair Corp., a subsidiary of the General Motors Co., has opened a branch office at Stockton with E. A. Wilkinson as manager.

## State Hardware Interests To Convene At Sacramento

The annual meeting of the California Retail Hardware and Implement Association will be held at the Hotel Senator, Sacramento, February 16, 17 and 18. The convention will attract 300 delegates.

Details of the meeting are being cared for by Mrs. Ruth A. Keane, manager of the Sacramento chamber of commerce convention bureau, and Frank C. Russell, assistant secretary of the chamber.

The meeting will be called to order at 10 o'clock on the morning of Wednesday, February 16, after allowing the delegates an hour in which to register. President A. D. Ketterlin will have charge.

The delegates will be welcomed to Sacramento by Mayor A. E. Goddard, after which will follow the president's address, the reports of the secretary and the treasurer and the appointment of committees.

The afternoon session will be devoted to discussions of subjects of trade interest and the first social affair of the meeting will be a theatre party at the Senator Theatre at which the convention delegates will be the guests of the Sacramento Valley Retail Hardware Dealers.

On the morning of the second day there will be a question box discussion and in the afternoon there will be a series of addresses pertaining to the trade. At 7 o'clock in the evening there will be a dinner dance at the Hotel Senator for hardware and implement men and their ladies and friends.

Friday's sessions will be devoted to addresses by hardware men from all parts of the state and the meeting will conclude with the reports of committees and the election of officers scheduled to take place at 3 o'clock in the afternoon.

## Lumber Ranks Fourth High In Products Standardization

The January Technical News Bulletin of the United States Bureau of Standards rates the lumber industry fourth among building industries in which simplified standards have been evolved, in observance of these standards. Eighty per cent of all softwood yard lumber, according to the Bureau of Standards, is made in accordance with uniform size and grade requirements developed by the industry in co-operation with the Departments of Commerce and Agriculture. Metal lath, steel reinforcing bars, and hollow building tile lead the list with 99 per cent, 85 per cent and 84 per cent respectively, of their products made according to standards published by the Federal Government. Seventy-four

per cent of face brick, paving brick and asphalt conform to standards; 62 per cent of sand lime brick and only 53 per cent of sheet steel is supplied in accordance with the Simplified Practice Recommendations. The degree of support afforded Simplified Practice Standards of the type determined under Department of Commerce supervision is cited as demonstrating that the firms co-operating in such simplification have found that it pays.

The lumber industry, it is remarked in comment on the foregoing, also is taking up rapidly the practice of grade marking and trade marking its products in order that builders may have additional guarantee of the quality and source of lumber products.

## Public Opinion Against Increases

As we stand at the threshold of a new year and attempt to look into the future of the construction industry for the next twelve months there are two questions which are uppermost in the minds of contractors. Will the trades generally throughout the country demand wage increases? Will a concerted effort be made to put the five-day week into operation? Both of these questions were asked at the Pittsburgh conference of the National Association of Building Trades Employers and answered negatively as far as those attending that meeting were concerned. Unfortunately the contractors are not the final arbiters in questions of this character. Behind them is that nebulous influence known as public opinion.

In the last analysis it is always public opinion that passes judgment on any issue. If the general public says there shall be no wage increases in 1927 and no shortening of the working week there can be no appeal from that decision. Consequently it is the responsibility of every contractor and every contractors' association to see to it that the public is fully informed at all times with regard to the issues

confronting the building industry this year.

If we read the signs of the times correctly we are of the opinion that the long suffering public which has heretofore regarded mounting labor costs with a feeling akin to indifference will assume an entirely different attitude in 1927. We believe the public is thoroughly convinced that building costs are already too high and there will be no justification for increasing wage rates this year. If our views in this matter are correct it follows therefore that this is the year for contractors to definitely and decisively say no to any demands for wage increases and the five-day week which is, as has been pointed out, but a subterfuge to gain higher wages.

Any organization in the light of the knowledge that it has the necessary support this year to wage a successful battle against the things which will ultimately stifle the building business, which does not decide now that it will oppose wage increases in whatever form they may be presented, will be derelict in its responsibility to the industry in which its members make their livelihood. (Bulletin—Nat'l. Assn. Bldg. Trades Employers).

# THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Listing his liabilities as a stockholder in the Golden West Lumber Company, Vallejo, at \$699,856, R. A. Hiscox has filed a petition in bankruptcy in Federal District Court at San Francisco. He gave his assets as \$16,360. Among the secured claims was one for \$10,000 due T. P. H. Whitelaw, 100 Folsom St., in the form of a promissory note made by the Hart Wood Lumber Company of this city, and indorsed by Hiscox. Another promissory note to Whitelaw for \$5000, made by the Western States Lumber Company and indorsed by Hiscox, was listed. One hundred shares of stock of the Hart Wood Lumber Company were pledged as security. Approximately \$680,000 of the liabilities consisted of unsecured claims. Government income taxes for 1923, 1924 and 1925, amounting to \$5266, were listed as due.

Probably the most conservative estimate of what 1927 will be as a building business year is to call it a plateau, writes Allen E. Beals in a recent Dow Service Daily Building Reports. This conclusion is reached after having given due consideration to the statement of executives of a number of large building material appliance and equipment manufacturing firms made to their stockholders at the close of the year, in which they express their sales expectancies during the year 1927. It is rare that allowances are made for possible sales record slumps this year as compared with last.

California is the Northwest's best lumber customer. According to figures compiled by the Marine Department of the San Francisco Chamber of Commerce, approximately one-half of the lumber shipped from Washington and Oregon by water route was destined to either San Francisco or Los Angeles. Gray's Harbor shipped 1,416,249,493 feet aboard 879 ships of which 511 were routed to California in 1926. Japan ranked second as a receiver of lumber. Preliminary announcements for 1927 indicate San Francisco will receive a liberal increase in the building staple.

Carpenter contractors in Lake County, Indiana, which has within its borders the important cities Hammond, Gary, Indiana Harbor, East Chicago and Whiting, recently negotiated an agreement with the carpenters for renewal of last year's wage scale which was \$1.50 per hour and which carries with it the five and one-half day week. The carpenters had demanded the five-day week and an increase in wages which would compensate them for the shorter week.

Western Irrigation Equipment Association with headquarters in Los Angeles has voted to hold its next annual session in San Francisco. The convention will be held in conjunction with the California Associated Concrete Pipe Manufacturers, who will be in convention in San Francisco, July 15 and 16,

Applications for permits to appropriate water filed with the State Department of Public Works, Division of Water Rights, during the month of January, amounted to \$74,311,900. The largest single application was made by the Yuba River Power Company of San Francisco which calls for an estimated expenditure of \$44,000,000. Permits issued by the division during January amounted to \$53,430.

A bill has been introduced in the Nevada State Legislature which provides that unskilled labor employed upon public works receive not less than five dollars a day. At present the law provides they shall receive not less than three dollars a day.

British Columbia Building Trades Council, according to word from Vancouver, has announced its intention to demand a five-day week this spring.

City of Oakland, county of Alameda and Southern Pacific Railroad have formally approved plans for the proposed viaduct to cross the Southern Pacific tracks at Seventh street, Oakland. The city and county will pay one-half the total cost and the railroad the remaining half. The cost is estimated at \$280,000.

Melville Dozler Jr., manager of the Southern California Chapter, Associated General Contractors of America, at the last meeting of that body reported the organization of a chapter at Sacramento and the prospects of organizing a unit at Fresno.

Denial that the Reno, Nevada, Carpenters' Union has taken any action whatsoever looking toward an advance of wages from \$6.80 to \$10 a day is made by C. W. Farrington, president of the local.

Threats of a dead-lock over electrical work in San Mateo, Burlingame and other cities within the district of the San Mateo electrical workers' union, are seen in a demand presented to electrical contractors for a daily wage of \$10 and a five-day working week. A hearing on the proposal will be called at once by the Peninsula Electrical Contractors' & Dealers' Association.

Effective January 1, 1927, the following trades in Chicago were given increases from \$1.50 per hour to \$1.56 1/4: electricians, steam fitters and sprinkler fitters.

Willis Clark, formerly with the Seattle office of Gladding, McBean & Company, has been transferred to the San Francisco offices of that concern to be added to the brick and roofing tile sales force. Clark was formerly Seattle sales manager for the Washington Brick, Lime & Sewer Pipe Company of Spokane. J. B. DeGolyer, Jr., formerly operating in California for Gladding, McBean & Co., will succeed Clark at Seattle.

## TRADE NOTES

To avoid the long freight haul and to save the contractors along the Pacific Coast the high cost of transportation that all freight originating east of the Mississippi has to bear, arrangements have been completed by the Roos-Meyer Hecht Co., Cincinnati, Ohio, originators, patentees and manufacturers of Atlas adjustable shores, with the W. R. Ames Co., 450 Irwin St., San Francisco, to permit the latter company to manufacture and distribute the Atlas adjustable shore in the Pacific Coast territory.

J. F. Makowski, president and general manager of the Perfection Plaster Board Co., Inc., announces that operations will be started shortly in a new plant at 762 Pear St., West Oakland. The plant, according to Makowski, will have a daily capacity of 50,000 square feet of wall board. B. Somers is vice-president of the company and E. K. Rooker, secretary-treasurer.

Worthington Pump & Machinery Corp., has purchased the Harris Air Pump Company of Indianapolis, manufacturers of air-lift systems and air-lift pumps. The purchase was outright and includes patents, drawings, patterns and good-will. This new acquisition allows Worthington to offer complete well equipment, including compressors, produced in its own plants.

Cutter Mill & Lumber Company has acquired property at the northeast corner of Twelfth and B Sts., Sacramento, and will establish offices and yards, according to Curtis Cutter, president of the company. The site is 135 by 400 feet. Main offices of the company are maintained at 1749 Stockton Blvd., Sacramento.

Industrial Ornamental Iron Works of San Francisco, capitalized for \$20,000, has been incorporated. Directors are: A. B. Campbell, J. E. Campbell and E. C. Easton.

Geo. A. Fisher, superintendent of the Yosemite Portland Cement plant at Merced announces the plant will be in operation the latter part of April, starting with 160 men. This force will be increased to 185 within ten days after the first production. The plant will have a capacity of 2500 barrels a day.

Columbia Marble Company, operating at Columbia, Tuolumne county reports the installation of additional equipment for polishing. The company has on hand approximately \$15,000 worth of marble to undergo the polishing process.

Anso Fire Brick Company has purchased a 6 1/2-acre tract in Manchester, Los Angeles, and contemplates the erection of a modern plant. E. M. Smith, director of the Pacific National Bank of Los Angeles, is president of the company.

Jefferson E. Peyser will operate from 623 Mills Bldg., San Francisco, under the trade name of Contractors' Service Bureau.

Construction has been started at Coyote, Santa Clara County, on a \$100,000 rock crushing plant for the Niles Sand, Gravel & Rock Company of San Francisco.

L. H. Clark succeeds W. L. Gerow as branch manager for the Granite Construction Company at Salinas.

Nevada Lime & Rock Co., 846 Commercial St., Los Angeles, lime manufacturers, has joined the San Francisco Builders' Exchange.

Frank J. Kimball Co., pump dealers, have opened office quarters at 1837 Merced street, Fresno, with H. H. Price as district manager. Warehouse quarters, as heretofore, will be maintained at 1119 Blackstone Ave., Fresno.

ALONG the LINE

The Yuba River Water & Power Company with offices in the Standard Oil Bldg., San Francisco, has filed application with the State Department of Public Works, Division of Water Rights, for a permit to appropriate 160,000 second feet and 40,000 acre feet of water per annum from Middle Fork of the Yuba River tributary to the Feather River for power purposes. It is proposed to develop 46,104 T. H. P. Estimated cost, \$44,000,000.

The appointment of Edward Hyatt, Jr., Chief of the State Division of Water Rights, as deputy state engineer, to serve temporarily while the division of public works is busy preparing its legislative reports on the water resources of California, was announced recently by Paul Bailey, director of the department. Hyatt will continue to serve as chief of the Division of Water Rights.

Architects John Galen Howard and John Bakewell, Jr., of San Francisco, and Arthur L. Loveless of Seattle comprise the jury of awards appointed by Southern California Chapter, American Institute of Architects, to determine what buildings completed during the past year are entitled to honor awards for exceptional architectural merit. It is expected the report of the jury will be made at the next regular meeting of the Chapter.

Robert Lotz, former assistant city engineer of San Jose, has been named assistant city building inspector in that city. The appointment is announced by Clarence Goodwin, city manager. Mr. Lotz is a University of Santa Clara and San Jose High School graduate.

Emil Brown will be the official representative of Los Angeles Builders' Exchange at the meeting of the National Association of Builders' Exchanges at Washington, D. C., Feb. 22 to 24, inclusive. Brown is a member of the national board of directors.

Merritt & Farlier Plumbing Co., for five years located at 57 South Market St., San Jose, has moved to new quarters at 584 South First St., that city. Increased business and the addition of more extensive lines in plumbing equipment prompted the move.

J. W. Meredith, city engineer of Roseville, has tendered his resignation to the city trustees.

Edwards, Widley & Dixon of Los Angeles, bidding \$896,742, have been awarded a contract by the city of San Diego to construct the Sutherland dam on Santa Ysabel Creek. The dam will be of the multiple arch type. The accepted bid comprises the dam proper at \$784,047, the outlet works at \$13,657.75, sluicing works at \$3624, spillway at \$21,789.40 and roadway at \$60,354.40.

Harland Bartholomew, consultant of the National Park and Planning Commission, Washington, D. C., will be the principal speaker at the joint meeting of the Oakland Forum and the Oakland Chamber of Commerce Feb. 28. His topic will be "Planning the Modern City."

RESERVATIONS BEING MADE FOR DINNER-DANSANT

Table reservations for the San Francisco Builders' Exchange Dinner-Dansant are being rapidly signed up, according to San Cohn, chairman of the Exchange Entertainment Committee which is in charge of the event.

Those who have not made reservations and propose to attend the affair are requested to arrange for accommodations at once. Reservations may be made with R. J. H. Forbes, secretary of the exchange.

The affair will be staged at the St. Francis Hotel, Saturday evening, February 12, Lincoln's Birthday.

PERSONAL SUPERVISION NEED FOR GREATER PRODUCTION

Many contractors are of the opinion that one of the chief reasons why production in the industry has fallen off is due largely to the fact that the average employer does not give his operations the close personal supervision he once did. This thought was expressed by a number of contractors at the recent Pittsburgh conference. The theory was advanced that possibly the five-day week movement was started by the trades because many employers had themselves adopted the policy of taking a two-day week end vacation.

Closely related to the above question is one having to do with the necessity for employers to enjoy the confidence of the men in their employ. It is well known that the average law-abiding, home-owning building mechanic does not countenance many of the actions of the local labor organization to which he belongs. Every contractor has in his employ a number of men who fall into the above classification and who could, if brought to a proper understanding with their employer of their mutual interests, largely offset the spirit of unrest and agitation which too often is allowed to creep into a labor organization.

Consequently, we believe it is the duty of every employer to not only give his operations more of his personal supervision but also to endeavor to know his men better and impress upon them the fact that their interests are mutual.—(Bulletin, National Association of Building Trades Employers.)

FIRE RETARDANT SHINGLE PAINT PASSES TEST

Successful test of a fire retardant for shingled roofs, recently perfected by a Seattle manufacturer, is announced by F. C. Kispert, chief of the Oakland Fire Prevention Bureau.

In a test conducted at the fire station at Fifty-first street and Telegraph Ave., Oakland, shingles treated with the substance withstood a fanned flame for 12 minutes, Kispert said. The standard time for the test is seven minutes.

W. E. Culver, chief of the Piedmont fire department and J. E. McFeely, superintendent of engines, Oakland, supervised the test.

A certificate indorsing the product, which is known as "Black Bear coating," will be issued to the Washington Lubricating Company, manufacturers, according to Kispert.

There is an ordinance in Oakland, Kispert pointed out, which requests that shingled roofs be treated with some approved fire retardant.

# ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

## SACRAMENTO BUILDERS' INSTITUTE ELECTS OFFICERS

Howard K. Johnson was re-elected president of the Builders' Institute of Sacramento, at the annual meeting of that body. Carl F. Vining was elected vice-president; Harry B. Arnold Jr., treasurer and A. L. Triplett, re-elected secretary.

Directors elected, representing the general contractors, were: W. W. Campbell, L. F. Gould, W. E. Truesdale. Representing the sub-contractors, T. P. Scollan, C. Vining and F. L. Dixon. Representing the material dealers, H. B. Arnold, C. H. Stephens, H. C. Ferguson. Representing the Financial body, H. K. Johnson, L. C. Hunter, F. P. Williams.

Following the election of directors Harry McManus of the Alameda County Builders' Exchange addressed the membership on the new state building department act with regard to the licensing of contractors. Brief talks were also made by W. W. Campbell, C. H. Cutter, C. Mack, W. F. Peterson, Harold Dixon and F. J. Welch.

Following a banquet gate prizes were awarded, the prize awards being donated by Sacramento material houses.

## SAN JOSE BUILDERS' EXCHANGE ELECTS OFFICERS

Guy M. Latta has been elected president of the Builders' Exchange of Santa Clara County. Other officers elected are: Wm. Loos, vice-president; Roy M. Butcher, secretary; J. A. Wagner, treasurer and L. D. Canfield, sergeant-at-arms.

The following committees have been appointed by the exchange:

Executive committee—William F. Serpa, Roy M. Butcher, L. D. Canfield, J. Provenzano, R. O. Summers, Marshall Elliott, George Furham, Thomas H. Price, F. T. Edmans, William Loos, George Heath, Kenneth Morrison, E. H. Galpin, Paul Fraser, J. A. Wagner.

Publicity—Thomas H. Price, E. H. Galpin, F. S. Schlegner.

Finance—F. Johnson, chairman; L. D. Canfield, Paul Fraser.

House—J. Provenzano, chairman; Charles E. Baker, R. Bowers.

Membership—Roy M. Butcher, chairman; William F. Serpa, E. W. Heple.

Arbitration and Grievance—F. T. Adams, chairman; Kenneth Morrison, R. O. Summers.

Social—James Lemieux, chairman; W. F. Parr, N. J. Neilson.

## FIVE-DAY WEEK IS ASSAILED AT NEW YORK CONGRESS

In a scathing denunciation of the five-day week movement, O. W. Rosenthal of Chicago, Vice-president of the National Association of Building Trades Employers, addressed over 600 members of the New York Building Congress at the Hotel Commodore on January 13. Replying to William Green, President of the American Federation of Labor, who at the last monthly meeting of the congress defended the five-day week. Mr. Rosenthal said the three outstanding policies of organized labor were higher wages, fewer working hours and collective

bargaining. The plea of organized labor ever since the inception of the movement in this country has been for more leisure. There are 8760 hours in every year and it has been estimated that the average building mechanic works approximately 1600 hours per year of 18 3/10 per cent of the total number of hours in each year. In spite of the fact that labor works less than 20% of the total number of hours in a year the leaders of the movement insist that the mechanics in the industry must have more leisure. "In my opinion," said Mr. Rosenthal, "there can be but one purpose in the five-day week demand, and that is to create a labor shortage, thereby creating a greater demand, and consequently causing an increase in wages."

## BUILDING INDUSTRY WAGES ARE HIGHEST IN HISTORY

Wage scales of union construction workers in 1926 reached the highest point in history, along with the record of new building activity. The level of union scales per hour, taking all trades into consideration, now is 148 per cent above the 1913 level, the United States Department of Labor announced the following a nation-wide study of scales. A year ago the wage level showed an increase of 133 per cent in comparison with the pre-war year. The current wage level, therefore, shows an increase of 15 points in comparison with last year, or of slightly more than 6 per cent. Building wages advanced moderately from 1913 to 1916, when the level was 6 per cent above 1913. In 1921, a year when unemployment was widespread in all trades, building wages stood at a point double the 1913 standard. In the following year, however, there was a decline which was speedily recovered in 1923. From 1923 to the present the advance has been steady.

## SANTA BARBARA BUILDERS' EXCHANGE ELECTS

Walter S. Fultz has been elected president of the Santa Barbara Builders' Exchange. Other officers elected were: J. A. Clarey, vice-president; Arthur McAdams, secretary and A. R. Drexel, treasurer.

## WAGE SCALES SHOW SLIGHT IN- CREASE ON JAN. 1

Ten out of the sixty cities regularly reporting wage fluctuations in the building trades to the American Contractor, report higher wages in one or more trades in effect January 1st of this year, the city having the highest number of increases being San Francisco. Among the cities in which increases were granted and which are not elsewhere reported in this issue, are the following: Indianapolis, bricklayers' tenders raised from 82½¢ to 87½¢; hoisting engineers from \$1.25 to \$1.30; plasterers' tenders from 87½¢ to 92½¢; slate and tile roofers from \$1.07½ to \$1.15; sheet metal workers from \$1.10 to \$1.15 and stone masons from \$1.50 to \$1.62½; Oklahoma City,

plasterers from \$1.50 to \$1.62½; plumbers from \$1.00 to \$1.25; Pittsburgh, lathers from \$1.60 to \$1.66½; plasterers' tenders from \$1.09½ to \$1.12½; composition roofers from \$1.25 to \$1.30; Reading, plumbers and steam fitters from \$1.12½ to \$1.25; Salt Lake City, bricklayers and plasterers from \$1.50 to \$1.62½; Dayton, carpenters from \$1.15 to \$1.20; hoisting engineers from \$1.20 to \$1.25; iron workers from \$1.25 to \$1.30; marble setters from \$1.25 to \$1.50; plumbers \$1.31½ to \$1.37½; tile setters from \$1.43½ to \$1.50; Seattle, plumbers from \$1.25 to \$1.37½.

## MATERIAL DEALERS IN SOUTH ELECT OFFICERS

J. G. V. Clarke, president of Harris & Hull, Inc., is the new president of the Building Material Dealers' Association of Southern California; J. S. Pierce of Santa Monica Builders' Supply Co., Santa Monica, is vice-president, and John Hasemeiere of the Harbor Materials Co. is treasurer. Joseph Thompson, president of the Los Angeles Lime Company, was head of the association during 1926. P. Greene Whitman is the newly appointed secretary-manager.

This association is affiliated with the National Association of Building Material Dealers and is co-operating with the associations at San Diego and at San Francisco. Membership includes dealers in Los Angeles and nearby cities and also in Orange county. Practically all dealers in the southern territory are now enrolled in the association which has for its object the betterment of the building material industry as a whole.

## REFRIGERATOR FIELD ENTERED BY G. E. COMPANY

The recently organized Electric Refrigeration Department of the General Electric Company has established general headquarters in Cleveland, Ohio, where it is announced that a million dollars would be expended this year in advertising the new product throughout the United States.

A complete line of electric refrigerators for household use is now in production at the company's Schenectady and Fort Wayne plants. They will be distributed through selected dealers and electric light and power companies and territorial assignments are being arranged.

Embodying entirely new principles of construction, the new refrigerating units is the result of fifteen years research by General Electric engineers and the experience gained in the manufacture of large units for other than household use.

The Electric Refrigeration Department has been placed in charge of K. Quinn, manager, and P. B. Zimmerman, sales manager.

A. B. McKinley, general contractor of Reno, Nevada, shot and killed himself, in that city Feb. 2. He is said to have been temporarily deranged, the police report.

## HALLS AND SOCIETY BUILDINGS

ORANGE, Cal.—The American Legion post of Orange has decided to purchase a site for the erection of a new building.

Plans To Be Prepared

CLUB BLDG. Cost, \$—  
OAKLAND. Broadway and Clifton Sts. New club building.

Owner—Claremont Country Club. Architect—George W. Kelham, Sharon Bldg., S. F.

Type or height of structure has not been decided upon.

STOCKTON, San Joaquin Co., Cal.—Stockton Lodge, Benevolent and Protective Order of Elks, contemplates the sale of the present lodge quarters and the purchase of a new site and erection of a modern structure. The present structure and site, according to estimates, could be sold for \$350,000. Frank Chisholm is secretary of the organization.

MARTINEZ, Contra Costa Co., Cal.—Los Amegos Country Club, composed of Oakland people, has filed articles of incorporation with the county clerk. Club proposes to erect a modern clubhouse in Contra Costa county.

SAN BERNARDINO, Cal.—San Bernardino Athletic Club Association is being organized for the purpose of erecting a \$60,000 athletic club building on Third St. near K St. The association is to be incorporated with a capital stock of \$140,000 of which more than \$30,000 has already been subscribed. John R. Doran and Ben McFarland are at the head of the project.

FRESNO, Fresno Co., Cal.—Fresno Chapter, Volga Relief Society, meeting in the Y. W. C. A. Hospitality Center, votes to form organization which proposes to erect modern hospital in West Fresno for the Volga German Colony. Tentative plans propose for a membership campaign where members will pay a set fee each month, the fees to finance construction of the new structure. There are 12,000 people in the colony at present.

Hemet, Riverside Co., Cal.—Hemet Odd Fellows Lodge is planning the erection of a new lodge building on Fourth Harvard St. The site was purchased several years ago.

VENTURA, Cal.—Architect Alfred F. Priest, 719 Fay Bldg., Los Angeles, has completed plans and is taking bids for erecting a four-story Masonic Temple building at Ventura for Ventura Masonic Building Association. Bids are being taken separately on the general contract, heating and ventilating, and painting and decorating. The plumbing and electric wiring will be included in the general contract. The building will have stores in the first story and lodge rooms and club quarters in the upper stories; dimensions, 65x136 ft., structural steel frame and brick construction, stucco exterior, cast stone trim, tile and composition roofing, hardwood and pine trim and flrs. The cost will be \$150,000.

SAN JACINTO, Riverside Co., Cal.—Hemet Woman's Club has had plans prepared and will erect a new clubhouse on Central Ave. The building will be Spanish style, frame and stucco construction, with an auditorium; 60x80 ft.

OWENSMOUTH, Los Angeles Co., Cal.—Owensmouth Woman's Club voted to purchase three lots at Jordan Ave. and Valerio St. as a site for a new clubhouse.

### THE "TAIL" OF A DOG

Up in the land of the midnight sun, in the city of Nome, Alaska, a little ice cream colored puppy was born one day, and being of good Siberian-Terrier stock his education was begun as soon as he opened his bright little eyes. His teachers were Alaskan prospectors, known as "Sourdoughs," and he was taught to roll over, sit up, smoke a pipe, say prayers and wear dark glasses when traveling over the ice and snow of the Northland.

When his master brought him out to the mainland, he traveled in a suit case especially for him. So far he has been in sixteen states in the Union and never got into trouble until his master and mistress moved to North Sacramento.

From North Sacramento, last Friday, his mistress boarded a Sacramento Northern train going to Sacramento, and "Pierre" decided to do a little "mushing" of his own accord. He followed the train and that is how he got on the pier under the rails of the Sacramento Northern Railroad bridge. Meeting a train on the bridge he had to go somewhere, so it was either to stay there or fall off in the water. He showed good judgment in picking a bridge near Sandy Pratt's sand and gravel plant No. 3, from where he was rescued last Saturday by Henry of the Pratt Company who took him home and gave him a bath. When he was all fluffy and dry he began to show his appreciation by unpacking his bag of tricks much to the enjoyment of Henry's children. Well, it was just too good to last. Sunday, a neighbor came in to see "Pierre," and exclaimed, "Why a fellow down at the garage lost a little dog like that one." So "Pierre" was taken down and sure enough it was his master, so we begin to think that when a man teaches his dog to say prayers' someone's prayers are answered, so we will close by saying that we hope "Pierre" will always be lucky when he takes a notion to mush on.

MRS. H. E. K.—Office Manager and Cashier of Pratt Building Material Company at Sacramento.

IF YOU read last week.

IN THESE columns.

SANDY'S STORY about the dog.

FOUND ON the bridge.

AT THE American River.

THEN YOU will appreciate.

THE ABOVE story.

FROM MRS. H. E. K.

OF SANDY'S Sacramento office.

ANYWAY, "PIERRE," the dog.

RESCUED FROM a watery grave.

BY THE employees.

OF THE Pratt Building Material Co.

AT THE American River plant.

IS NOW at home.

IN SACRAMENTO.

WITH "PIERRE'S" master.

AND CLARENCE (Sandy) Pratt, producer.

OF CLEAN, sharp sand.

AND CLEAN, hard rock.

AND CLEAN, washed gravel.

IS HAPPY.

THAT "PIERRE" is home.

SAFE AND sound.

AND THAT Sandy's co-workers.

HELPED "PIERRE."

OVER THE "ROCKY" road.

TO "PIERRE'S" home.

IN NORTH Sacramento.

"I THANK you."

This sign again on the 12th Street road near the American River bridge at Sacramento marks the spot near where "Pierre" (see above K.C.B.-like story) was rescued from a watery grave. This sign also marks the entrance to Sandy Pratt's sand and gravel producing plant. Sandy and his company has other sand, rock and gravel plants at Marysville, Prattrock (near Folsom), Mayhew (Sacramento County) and Prattco (Monterey County).

It will be two stories, 75 x123 feet, steel frame construction, metal lath and stucco exterior, composition roofing, Celotex and plaster interior, opera chairs, heating and ventilating; \$45,000.

## WHARVES & DOCKS

**MANHATTAN, Cal.**—L. C. Lull, city eng. instructed by city trustees to report on cost of water-proofing the pier through its entire length.

## MISCELLANEOUS BUILDING CONSTRUCTION

**Contract Awarded** Cost, \$35,000  
**RAILWAY DEPOT**

MERCED, Merced Co., Calif.  
Frame and stucco and pressed brick veneer freight and passenger depot.

Owner—Southern Pacific Railroad Co., 65 Market St., San Francisco.

Architect—Engineer Dept. of Owners.  
Contractor—Neil Werner & Co., Turlock, Calif.

Construction in connection with this project will cost \$150,000 and will include installation of electroliners, additional track laying, water system, etc. Will have multi-colored asbestos shingle roof.

**Sub-Figures Being Taken**  
**CRUSHING PLANT** Cost, \$100,000  
**COYOTE, Santa Clara Co.**  
 Stone Crushing Plant.  
 Owner—Niles Sand, Gravel & Rock Co.  
 704 Market St., S. F.  
 Engineer—J. C. Buckbee, Chicago.  
 Contractor—Lindgren & Swinerton,  
 Inc., 225 Bush St., S. F.  
 Bids are being taken for lumber,  
 iron, reinforcing steel, machinery, etc.

**BAKERSFIELD, Kern Co., Cal.**—  
 Currie & Dulgar, Bakersfield, at \$24,-  
 970 awarded contract by county super-  
 visors to erect exposition building at  
 county fair grounds; steel frame con-  
 struction; 80 by 300 ft. Chas. H. Big-  
 gar, Bk. of Italy Bldg., Bakersfield,  
 architect. Other bids:  
 Payne & Son, \$31,975; Henry Fissler,  
 \$36,500; Apperson & Karpe, \$36,575;  
 Henderson & Smith, \$37,485; Peterson  
 & Eissler, \$39,600; O. Zimmerman, \$43,-  
 365; Steed Bros., \$44,000.

 The following bids were received Feb.  
 7 by State Department of Public Wks.,  
 Division of Architecture, Forum Bldg.,  
 Sacramento, to erect bleachers and  
 dressing rooms for new Athletic Field  
 at 7th and Humboldt Sts., for San  
 Jose Teachers' College:  
 Carl N. Swenson, 400 Burrell Ave.,  
 San Jose, \$7390.  
 R. O. Summers, 17 N. First St., San  
 Jose, \$7589, 43 days.  
 Magner-Newell, \$7956, 35 days.  
 C. B. Davidson, San Jose, \$8130, 40  
 days.  
 Koepke Bros., Oakland, \$8315, 45  
 days.  
 Morrison Bros., Santa Clara, \$8963,  
 85 days.  
 G. M. Latta, San Jose, \$9033, 60 days.  
 Nommensen Bros., San Jose, \$9580,  
 60 days.  
 E. T. Leiter & Son, Oakland, \$9737,  
 45 days.  
 C. B. Brown, \$9980, 90 days.

**TURLOCK, Stanislaus Co., Cal.**—  
 Henry Cowell Lime and Cement Co.,  
 2 Market St., San Francisco, at \$2.89  
 per bbl. (f. o. b. Hickman), submitted  
 low bid to Turlock Irrigation District  
 to fur. 3000 bbls. cem. for Don Pedro  
 Power House addition. Other bids, all  
 f. o. b. Hickman, were: Calaveras Ce-  
 ment Co., Santa Cruz Port. Cem. Co.  
 and Pacific Portland Cement Co., each  
 bidding, \$2.90 bbl.; Old Mission Port.  
 Cem. Co., \$3.00 bbl. Taken under ad-  
 visement until Feb. 8.

**SACRAMENTO, Cal.**—G. M. McDon-  
 ald, 2521 Y Street, Sacramento, was  
 awarded contract at \$624.00, by H. G.  
 Denton, city clerk, to construct side-  
 walks at Coleman Memorial Fountain  
 in City Plaza.

**OAKLAND, Cal.**—The following bids  
 were received by R. W. Robertson,  
 secretary of the Park Commission, to  
 erect comfort station and field house  
 in Lincoln Square:

Ed. McDonald, \$1400; Emil Person,  
 829 San Luis St., Oakland, \$1440;  
 Koepke Bros., Federal Bldg., Oakland,  
 \$1919. All bids taken under advise-  
 ment. Previous bids rejected.

**OAKLAND, Cal.**—City council peti-  
 tioned to const. subways, one under  
 Foothill Blvd. opposite Frick School  
 and another in East 14th St. at Lock-  
 wood School for use of children.

**SACRAMENTO, Cal.**—Until Feb. 21,  
 5 p. m., bids will be received by Chas.  
 C. Hughes, secy., Board of Education,  
 to fur. and install over a period of  
 five years, 126 or more traffic "School,  
 Slow Down" signs. Further informa-  
 tion obtainable from Business Man-  
 ager, Bd. of Education, 21st and L Sts.

**WATSONVILLE, Santa Cruz Co., Cal.**—  
 Valley Church and three structures  
 used for school purposes by the Sale-  
 sian Fathers east of Watsonville, were  
 destroyed by fire Feb. 6; loss is esti-  
 mated at \$50,000.

**MADERA, Madera Co., Cal.**—South-  
 ern Pacific Co., 65 Market St., San  
 Francisco, granted building permit by  
 city to erect new depot on site north  
 of present depot between Yosemite  
 Ave. and Fifth St.; frame and brick  
 veneer construction; est. cost \$20,000.  
 H. C. Austin is agent at Madera.

**LOS ANGELES, Cal.**—Until 3 P. M.,  
 Feb. 11, bids will be received by water  
 and power commission, 207 S. Broad-  
 way, for reinforcing steel bars; P. A.  
 Adv. No. P-757. Jas. P. Vroman, sec-  
 retary.

**BERKELEY, Alameda Co., Cal.**—Un-  
 til Feb. 21, 8 p. m., bids will be re-  
 ceived by Clara F. Andrews, secy.,  
 Board of Education, to fur. and install  
 chlorinator and testing outfit in Berke-  
 ley High School Swimming Pool in  
 Milvia St. bet. Bancroft and Channing  
 Ways. Cert. check 10% payable to  
 Berkeley High School District req. See  
 call for bids under official proposal  
 section in this issue.

**TURLOCK, Stanislaus Co., Cal.**—Tur-  
 lock Irrigation District rejects bids to  
 fur. and del. 3000 bbls. Portland ce-  
 ment to be used in connection with  
 addition to Don Pedro Power Plant.  
 The purchase will probably be made  
 in the open market.

**Sub-Contracts Awarded**  
**POST OFFICE** Cost, \$16,000  
**HAYWARDS, Alameda Co., Calif.**  
 One-story brick post office.

Owner—Dr. Herman and Henry Eg-  
 gert.

Architect—Mr. George O'Brien, Bacon  
 Bldg., Oakland.

**Brick Work**—Stevens and McPherson,  
 Berkeley, Calif.

**Iron**—Jansen Iron Works, 351 12th St.,  
 Oakland, Calif.

**Plumbing**—Awarded to Hayward Con-  
 tractor.

**Lumber and Mill Work**—Tilden Lum-  
 ber Co., A and 1st Sts., Hayward,  
 Calif.

**Concrete**—Rufus GoGnzoles, Hayward,  
 Calif.

**Electric**—Hugo Frank, Melvin Ct. and  
 Smalley, Hayward, Calif.

**TURLOCK, Stanislaus Co., Cal.**—Di-  
 rectors of Turlock and Modesto Irri-  
 gation Districts authorize the prepara-  
 tion of plans for section of observa-  
 tory and rest room at Don Pedro Dam.

## BUSINESS OPPORTUNITIES

**SAN FRANCISCO**—Further informa-  
 tion regarding these opportunities  
 may be obtained from the office of  
 Larsen Advance Construction Reports,  
 818 Mission St., San Francisco, either  
 by phone, letter or personal call. Re-  
 quests for additional information  
 should be made to the Business Op-  
 portunities Department. Such requests  
 must be accompanied by the Index  
 Number of each opportunity.

11242—Wichita, Kan. Manufacturers  
 of small radio receiving sets (long dis-  
 tance crystal radios) are interested in  
 the foreign distribution of their prod-  
 uct. They wish to get in touch with  
 San Francisco exporters familiar with  
 foreign trade requirements who could  
 get actively behind their line.

11245—Bad Liebenstein, Germany.  
 Manufacturers of padlocks, cycle-  
 locks and accessories wish to get in  
 touch with San Francisco hardware  
 importers with a view to wholesaling  
 their products in this territory.

11246—Hamburg, Germany. Export-  
 ers of machinery, motors, pumps, and  
 similar lines wish to establish connec-  
 tions with San Francisco Importers.

11247—Hamburg, Germany. Export-  
 ers of German manufactures of all  
 kinds, particularly machinery, etc.,  
 wish to act as buying agents for Am-  
 erican firms on a 5 per cent commis-  
 sion basis. They are also in a posi-  
 tion to make shipments of small hand-  
 stitching machines for shoemakers,  
 which machines are now finding a  
 ready sale in Canada.

11250—Charleroi, Belgium. Firm spe-  
 cializing in metals and building mate-  
 rials wishes to represent large Amer-  
 ican firms as buying agent on a com-  
 mission basis, in Belgium, France and  
 Germany.

11251—Brussels, Belgium. Manufac-  
 turers of asbestos shingles and asbes-  
 tos cement importers and buyers  
 throughout the United States.

11252—Gand, Belgium. A Belgian  
 general agency seeks connections, es-  
 pecially in the building materials  
 trade or as buying agent for all kinds  
 of goods.

11253—Cerfontaine, Belgium. Marble  
 quarry owners desire to get in touch

with a San Francisco firm with a view  
 to appointing them as agents for their  
 products in this section of the United  
 States.

11255—Brussels, Belgium. Firm ex-  
 ploiting a patent for a new rope-  
 tightening and whipping device seeks  
 business relations with American im-  
 porters of tools and hardware.

11259—New York, N. Y. Party estab-  
 lishing an American manufacturers'  
 agency in Paris, France, where he has  
 a wide acquaintance with the French  
 markets, desires to represent American  
 concerns wishing to sell their products  
 in France.

11262—Florence, Italy. Firm of com-  
 mission agents offers its services to  
 American firms for the purchase of  
 Italian goods, such as bronze artistic  
 goods, wrought iron works, marble  
 statues, etc.

11264—San Francisco. Local busi-  
 ness man going abroad desires perma-  
 nent representation of local manufac-  
 turers and exporters, preferably of  
 mechanical goods; also other lines. He  
 will cover Switzerland and surround-  
 ing countries.

11269—New Zealand. Firm now  
 handling the distribution in New Zea-  
 land of road-making machinery, motor  
 accessories, is open for additional  
 agency propositions and solicits in-  
 quires from manufacturers wishing to  
 establish a market for their products  
 in New Zealand. If the lines are not  
 suitable for their own firm to handle  
 they are in a position to establish  
 proper contacts with other sales or-  
 ganizations.

11270—Mexico City, Mexico. Party  
 having a deposit of gypsum, available  
 for shipment from the port of Acapul-  
 co, desires to get in touch with inter-  
 ested San Francisco dealers in con-  
 struction materials. He will send  
 samples of the gypsum to all interest-  
 ed parties.

D-2334—Carmel, Cal. Gentleman de-  
 sires to establish connections with San  
 Francisco wholesalers of wrought iron  
 specialties. He states that an exten-  
 sive field exists in that territory for  
 wrought iron merchandise of all de-  
 scriptions.

D-2335—Mariposa, Cal. Party about  
 to equip a new restaurant is interest-  
 ed in securing catalogs from San Fran-  
 cisco hotel and restaurant supply and  
 equipment houses.

D-2340—Astoria, N. Y. Manufactur-  
 ers of an oil burner for residence heat-  
 ing are open to several propositions,  
 such as financing, manufacturing, dis-  
 tribution and sales, or selling outright.

# Teamwork Between Contractor And Sub-Contractor Is Discussed

(Address of Linwood Chase Before the National Association of Ornamental Iron and Bronze Manufacturers)

We are all familiar with the out-of-date and impossible manner of having subcontract work done. Many general contractors and subcontractors are still following this custom, but their ranks are rapidly growing smaller, as they should.

## Shopping Bids

The custom is not so old that each and every one of you is not familiar with the general contractor who asks for bids and then after the bids are all in, calls the subs in, one at a time and trades them down to the point where they later wake up to find that in their anxiety to close a contract they have taken a losing job. Many of you are still letting that sort of a general contractor work injury to you, to himself and to the industry at large, by doing that very thing. The cure lies in your own hands. When you have the moral courage to put in your price, at a figure such that you can do work that you will not feel ashamed of and stick by that figure to the last dollar, you will have done yourselves and the industry as a whole a real and great service.

## Cooperation

Why, you may well ask, cannot the general contractor bring about this cure? My answer is this. The general contractor who is making any real strides toward success is doing this very thing and he is also finding that the sub-contractor who realizes this is cooperating by submitting his real bid the first time, rather than putting in a shopping figure which means nothing, with the expectation of cutting it later. The change cannot be brought about at once, but is surely being brought about gradually by the cooperation of sub-contractors and general contractors who have the vision to look beyond the one job under immediate consideration.

## One of the Problems

A good friend of mine, who is a sub-contractor, recently discussing his with me, said: "What is your idea of the course of action I should pursue when asked to put in a bid to a contractor whom I know never lets me contract to the low bidder without having first shopped?" He described a case in which he had submitted to this contractor a fair figure and was later asked to meet a figure which was about one thousand dollars lower. The job ran into the neighborhood of \$50,000, and he claimed that he could still see a profit if he reduced his figure as asked. He needed the work to keep his force employed. He said that he had put in a figure in the first place that he thought low enough to get the contract, but that the job was still attractive to him at the reduced figure.

This is a problem that we all face many times. Far too often, in fact. My answer to him was that my concern had been in the same position on several occasions and that while it took a lot of courage to stand pat the first time, I was convinced that this action had saved us a great deal of time and money, and had gained for us the whole-hearted respect of our competitors and still more important had led for us, on several occasions, to a contract at our own figure rather than at the figure of the lowest of our competitors.

As you well know, the lowest bidder does not necessarily always the success-

ful bidder. May I add here, however, that out of a list of invited bidders it is the invariable practice of our office to award the contract to the low bidder. We often receive bids, however, from concerns not on our invited list which are not given serious consideration even though they are low, and we do not ask any bidders to meet these figures. No general contractor who has a right to expect to stay in the game, wants a sub to take a contract at such a price that he cannot do the work required at a fair profit, because he realizes that, in the long run a person gets just what he pays for. And he should demand that and nothing more. It is a short-sighted policy on the part of the general contractor to attempt to take advantage of a price which is too low for the work involved because the slight saving involved may be offset many times by the losses he is forced to take, through delays and dissatisfied owners and architects, and we all recognize the new business asset of satisfied clients.

## Importance of Team Work

This leads to the point which I wish to emphasize above all others and I only wish that I possessed the eloquence to make everyone here believe as firmly as I do that the day is rapidly approaching when general contractors and sub-contractors will realize more than they do generally today that the only way to secure the results satisfactorily to all concerned—namely, the owner, the architect, the sub-contractor and the general contractor—will be through the medium of team work between the sub-contractor and the general contractor. Teamwork and a mutual understanding. When we have achieved those two things, the Q. E. D. to our other problems will be simple.

To achieve this teamwork and mutual understanding is not so difficult a matter as it may seem when we stop to analyze the matter. Are our interests not exactly parallel? Are we not dependent, one upon the other, in reaching the goal which in our case is a job well and quickly done? Why, then, may I ask, do the general contractor and the sub-contractor not sit down together at the start of a job and plan their campaign of action in such a manner that they can work shoulder to shoulder like the partners or teammates that they really are in putting through the job at hand?

There are no grounds for the feeling which some of our predecessors had that the general contractor is boss and the sub-contractor, employee. We are simply experts in our own lines joining forces. It is true that the general contractor selects his own associates to help him carry out the job as a whole. This fact makes it all the easier for us to work together. The sub looks to the general contractor for a square deal when it comes to making progress payments and in giving him reasonable opportunity to do his work in an economical way. But the general contractor is no less dependent upon the sub to do his work at the proper time and in the proper manner.

## Question of Time

I think that the question of time is well worth mention here. Many of our larger operations must be completed within a certain specified time, for various reasons. The general contractor must prepare with great care a

proposed progress chart. He should then give the sub-contractor his best estimate of the time when the work of the sub should be ready for installation and should keep him posted from time to time of any changes. And the sub should realize fully his responsibility and how disastrous it may be to the whole operation, should he fail to do his part at the proper time. Can you imagine in a football game a half-back failing to respond when the quarter-back calls upon him and later offering the excuse that he did not expect the quarter-back would call upon him as soon as he had said he would. Would you permit such a half-back to play on your team again even if he did promise to be good in the future? Yet that is just what often happens in this game of building. How would you feel if after exerting every possible effort to bring a project to a certain point you called upon the other fellow to do his part, he smiled and said, "I did not think you would be ready when you said you would. I cannot start for a couple of weeks yet"? You do not need to tell me, I know. And I am afraid your language would not be fit to print.

## The Remedy

Most of you men are older in years and experience than I am, but the next opportunity you have I would recommend that you put your lowest bid in first and then stick to it. After a few times you will not be asked to meet someone else's figures. And when you get a contract, go to the general contractor and if he has a big undertaking and your work is an important factor show him that you want to work with him and want to give him real assistance. If he did not need your assistance he would not have given you the contract. And if you do not find that he is ready to co-operate with you and make it easier for you to do your work, go ahead and get through with that job as best as you can and do not look for much more work from him. He is slipping and his place is about to be taken by someone who can see beyond one job.

Teamwork is the only way in which the best results can be obtained and is, I think, the only basis upon which the relations of general contractors and sub-contractors can be satisfactorily worked out.

## C. E. MUSTO DEAD

Clarence Enrico Musto, president of the Musto Sons-Keenan Company, died at his home 2700 Vallejo St., San Francisco, Feb. 9, following an illness of two years.

Mr. Musto was a member of the San Francisco lodge of Elks, Stanford Parlor of Native Sons of the Golden West and had been identified for years with important civic and social organizations of the city.

Besides his leadership of the Joseph Musto Sons-Keenan Company, he was a director in the Italian-American Bank of San Francisco. The Musto family is one of the pioneer families of San Francisco and founded the marble business here in 1866.

Mr. Musto is survived by his widow, Maria A. Musto, and five children. Kathleen, Yvonne, Joseph, Adam and Clarence E. Musto Jr., a brother, Guido J. Musto, secretary-treasurer of the marble company, and three sisters, Margaret and Laura Musto and Mrs. Joseph B. Keenan.

The funeral will be held today at 3 o'clock from the residence, thence to St. Vincent de Paul's Church, where a requiem mass will be offered, at 10 o'clock. Interment will be private at Holy Cross Cemetery.

# Official Proposals

## NOTICE TO CONTRACTORS

(General Work—Santa Barbara State Teachers' College)

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to 2 o'clock P. M., Monday, March 7th, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials, and labor required for the erection and completion of the **General Work**, Administration Building, Santa Barbara State Teachers' College, Santa Barbara, California, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

**General Work** includes all manner of work except Plumbing, Heating and Electrical Work.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five dollars (\$25.00) will be required on plans and specifications, the deposit to be returned immediately upon the return of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for General Work, Administration Building, Santa Barbara State Teachers' College."

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

GEO. B. McDOUGALL,  
State Architect.  
PAUL BAILEY,  
Director of Public Works.

## NOTICE TO CONTRACTORS

(School Painting—San Leandro School District)

NOTICE IS HEREBY GIVEN that the Board of Trustees of the San Leandro School District of Alameda County, California, hereby calls for sealed proposals to be delivered to Charles A. Jeffery, the Clerk of said Board, at his office in the Lincoln School Building, located on Hepburn Street, between Clark and Carpenter Streets, San Leandro, California until Thursday, the 24th day of February, 1927, at 2:30 o'clock, P. M., at which time said bids will be opened for the furnishing of all labor, materials and mechanical workmanship necessary for painting the Washington School and McKinley School (old buildings) of said school district, said Washington School is located at Dutton and Breed Avenues, and said McKinley School is located on East Fourteenth Street at Estabrook Street, both in the City of San Leandro, County of Alameda, State of California. These bids shall be presented in accordance with plans and specifications for said work on file with the Clerk of said Board of Trustees, at his office hereinabove mentioned, and with John J. Donovan, architect of said Board, at 1916 Broadway, Oakland, California. Bids

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

must be made on proposals obtained from the Clerk of said Board or said architect at the addresses above specified and must be signed by the bidder and accompanied by a certified check certified to by some responsible bank or banker and made payable to San Leandro School District of Alameda County to be retained by the said school district as agreed and liquidated damages, should the party or parties to whom the contract is awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract or any bond required by law. Only surety company bonds will be accepted. The amount of the certified check accompanying said bid shall be for at least ten per cent of the amount of the total bid. Bids will be opened by said Board of Trustees on Thursday, February 24th, 1927 at 2:30 p. m., in the office of the Clerk of said Board of Trustees, located as above described. The Board reserves the right to reject any and all bids or any or all items of such bids.

Adopted at a Board Meeting held this 2nd day of February, 1927.

CHARLES A. JEFFERY,  
Clerk of the Board of Trustees of San Leandro School District of Alameda County, State of California.

## NOTICE TO CONTRACTORS

(Hillsborough School District)

Sealed bids will be received at the office of Lewis P. Hobart, Crocker Building, San Francisco, on or before Friday, the 18th day of February, 1927, at 12 o'clock noon, for the erection of an addition to the Hillsborough District School, situate in the Town of Hillsborough, County of San Mateo, consisting of a building containing three class rooms, toilet facilities, etc., as per plans and specifications on file at said office. Bids are to be made separately FIRST, for the supply of all

labor and materials, except labor and materials covered by specifications for electric work and heating plant; and SECOND, for the supply of all labor and materials covered by specifications for electric work and heating plant including fixtures.

Sealed bids will be received at the office of Willis Polk & Co., 277 Pine Street, San Francisco, on or before Friday, the 18th day of February, 1927, at 12 o'clock noon, for the construction of an open air theatre on the school grounds of said Hillsborough District School, as per plans and specifications on file in said office.

A deposit of \$25 will be required on each set of plans and specifications taken out, which deposit will be refunded upon return of said plans and specifications. No bid will be accepted unless accompanied by a certified check or bond in favor of the undersigned in an amount equal to 10% of the bid, to secure execution of the contract by the successful bidder.

The right is reserved to reject any or all bids.

BOARD OF TRUSTEES OF HILLSBOROUGH SCHOOL DISTRICT.

## NOTICE TO BIDDERS

## (Chlorinator and Testing Outfit—Berkeley)

Sealed bids will be received by the Board of Education of the City of Berkeley and Berkeley High School District of Alameda County at its office located at 2133 Allston Way, Berkeley, California, until Monday, the 21st day of February, 1927, at the hour of eight o'clock P. M., at which time said bids will be opened for the furnishing and installation of a Chlorinator and Testing Outfit in the Berkeley High School Swimming Pool, located on the West side of Milvia Street between Bancroft Way and Channing Way in the City of Berkeley, County of Alameda, State of California.

All bids must be made on forms furnished on application to said Secretary at the address above given and must be accompanied by a certified check certified to by some responsible bank or banker and made payable to the Berkeley High School District of Alameda County, to be retained by said High School District as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract or any bond required by law. The amount of said certified check shall be for at least ten (10%) per cent of the total amount of the bid.

Bids will be opened by said Board on Monday, the 21st day of February, 1927, at the hour of 8 o'clock P. M., in the Board rooms, 2133 Allston Way, Berkeley, California.

The Board reserves the right to reject any and all bids or any or all items of such bids.

By order of the Board of Education, January 31st, 1927.

CLARA F. ANDREWS,  
Secretary of the Board of  
Education of the City of  
Berkeley and of Berke-  
ley High School District  
of Alameda County,  
State of California.

## NOTICE TO CONTRACTORS

OFFICE OF THE CLERK OF THE BOARD OF TRUSTEES OF THE JEFFERSON UNION GRAMMAR SCHOOL DISTRICT, COUNTY OF SANTA CLARA, CALIFORNIA.

Bids will be received by the Board of Trustees of the Jefferson Union Grammar School District, County of Santa Clara, State of California, in the Milliken School, on the east side of the Lawrence Road, about one-half mile south of the San Francisco Road, in said County of Santa Clara, until 8 o'clock P. M., February 16th, 1927, for all work, labor and materials required for furnishing and installing, complete, a pumping equipment at the site of the Jefferson Union Grammar School, situated on the east side of the Lawrence Road, at the end of Reed Lane, in the said County of Santa Clara, as per specifications prepared by the said Board of Trustees.

Specifications for this work are on file in the office of the Clerk of said Board of Trustees, at Box 132, Kifer Road, County of Santa Clara, State of California, where copies may be obtained.

No bid will be considered unless accompanied by a certified check payable to the order of the Clerk of the Board of Trustees certified to by some responsible bank for an amount not less than 10% of the aggregate amount of the bid or proposal which it accompanies. Said check to be forfeited to the Jefferson Union Grammar School District as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into a contract within ten days after the award, or fail to give the bond for the faithful performance of the contract.

Bidders in making their bids must conform to the requirements of the specifications. All bids must be enclosed in sealed envelopes addressed to the Board of Trustees of the Jefferson Union Grammar School District, and be endorsed on the envelope "Bid for Pumping Plants."

Bids will be opened and read by said Board at the said Milliken School on the 16th day of February, 1927, at the hour of 8 o'clock P. M. of said day.

The Board of Trustees of the Jefferson Union School District reserves the right to reject any or all bids and proposals or to waive any technicality in any bid should they deem it in the interest of the District to do so.

By order of the Board of Trustees of the Jefferson Union Grammar School District, in the County of Santa Clara, State of California.

Dated: February 1, 1927.

WALTER G. BROWN,  
Clerk of said Board of Trustees.

## NOTICE TO CONTRACTORS

## (Mechanical Work — Santa Barbara State Teachers' College)

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to 2 o'clock P. M., Monday, March 7th, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials and labor required for the Mechanical Work, Administration Building, Santa Barbara, State Teachers' College, Santa Barbara, California, in accordance with plans and specifications therefore, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

Mechanical Work includes Plumbing, Heating and Electrical Work, and separate bids will be received for each branch of the work. Combined bids will also be received covering two or all three branches of the work. Bids must be submitted on forms prepared and furnished by the Division of Architecture.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five dollars (\$25.00) will be required on plans and specifications, the deposit to be returned immediately on the return of plans and specifications to the said Division of Architecture, at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids, and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for (state which) Work, Administration Building, Santa Barbara State Teachers' College."

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

GEO. B. McDOUGALL,

## NOTICE TO SCHOOL FURNITURE COMPANIES

## (Opera Chairs—Fresno Board of Education)

Pursuant to an order of the Board of Education of the Fresno City High School District of the City of Fresno, duly made and entered in its minutes this 27th day of January, 1927, public notice is hereby given that said board will receive up to 5 P. M. on the 24th day of February, 1927, at the office of said board, in the Hawthorne School Building, 2425 Fresno Street, Fresno, California, sealed proposals for the furnishing of 1000 more or less opera chairs for the Edison Technical School, said bids to be opened at 8:15 P. M. on the 24th day of February, 1927, in the Board of Education room in the Hawthorne School Building, 2425 Fresno Street, Fresno, California.

Further specifications and bid

forms for bidding on the above opera chairs may be obtained from the undersigned secretary of said Board of Education at the office of said board above designated.

A bidder's surety bond or certified check equal to at least ten per cent of the amount of the bid submitted must accompany all proposals.

The Board of Education of said school district reserves the right to reject any and all bids.

By order Board of Education Fresno City High School District.

L. L. SMITH, Secretary.

## NOTICE TO BIDDERS

## (Postoffice and Courthouse—Globe, Arizona)

TREASURY DEPARTMENT, Office of the Supervising Architect, Washington, D. C., Feb. 4, 1927—SEALED BIDS in duplicate will be received until 3 P. M., March 11, 1927, and then publicly opened for furnishing all labor and materials and performing all work for the construction of the United States Post Office and Court House at Globe, Arizona. Drawings and specifications may be obtained from the Custodian of the site at Globe, Arizona, or at this office in the discretion of the Supervising Architect. Jas. A. Wetmore, Acting Supervising Architect.

## NOTICE TO CONTRACTORS

## (Gymnasium and Swimming Pool—San Mateo Union High School District)

Notice is hereby given that the undersigned trustees of the San Mateo Union High School, District, San Mateo County, Calif., will receive sealed bids up to the hour of seven-thirty (7:30) o'clock P. M., on Thursday, the 17th day of February, 1927, at the office of the San Mateo Union High School, San Mateo, at which said time and place said bids will be publicly opened for the following:

1. Gymnasium Building, two-story brick and concrete and concrete Swimming Pool, located on "D" street, near Poplar avenue, San Mateo, and other equipment.

2. Plumbing for the above Pools, separate contract.

All bids will be addressed to the Clerk of the said Board of Trustees and must be accompanied by a certified check made payable to the order of aforesaid clerk in amount equal to at least ten (10%) per cent of the largest bid so submitted, and no proposal will be considered by said Board unless accompanied by such check.

The said check to be forfeited to said School District, as ascertained and liquidated damages in case the successful bidder fails or refuses to enter into a contract to perform the work, and give satisfactory bonds required, within ten days after the date of the award.

The plans and specifications for said work may be examined at the office of E. L. and J. E. Norberg, architects, 407 Occidental Avenue, Burlingame, and a limited number will be loaned to responsible contractors if a deposit of \$15.00 is made.

The said Board of Trustees expressly reserves the right to reject any and all bids.

Done by the order of the Board of trustees of the San Mateo Union High School District, San Mateo County, California.

N. D. MORRISON,  
President.  
J. R. MURPHY,  
Clerk.

STATE OF CALIFORNIA  
CALIFORNIA HIGHWAY COMMISSION

## NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of The California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock p. m. on February 28, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which

special reference is made, of portions of State Highway as follows:

Sonoma County, a bridge across Sonoma Creek, about 1 mile west of Scheilville (IV-Son-8-A and B) consisting of a 100-foot steel truss span and two 25-foot concrete approach spans.

Merced County, between Athlone and the southerly boundary (VI-Mer-4-A) about four and five-tenths (4.5) miles in length, to be widened with Portland cement concrete and surfaced with asphalt concrete.

San Diego County, between La Mesa and El Cajon (VII-SD-12-A-B) about three and seven-tenths (3.7) miles in length, to be graded and paved with Portland cement concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
J. P. BAUMGARTNER,  
California Highway Commission.

R. M. MORTON,  
State Highway Engineer.  
W. F. MIXON, Secretary.

Date: January 31, 1927.

NOTICE TO CONTRACTORS

Pursuant to an order of the Board of Supervisors of the County of Santa Barbara, State of California, made on the 31st day of January, 1927, notice is hereby given that sealed bids will be received until 10 o'clock a. m. on the 21st day of February, 1927, by the Board of Supervisors of the County of Santa Barbara, State of California, at their rooms in the County Court House, in the City of Santa Barbara, County of Santa Barbara, State of California, said bids then and there will be publicly opened and read for furnishing all plant, material and labor and doing the work required for the construction and erection of the Court House, Hall of Records and Jail Building on the Court House Site in the City of Santa Barbara, County of Santa Barbara, State of California, and all in accordance with the plans and specifications therefor, made by William Mooser Company, Architects, Nevada Bank Building, San Francisco, California.

Such bids will be received for the work as follows, separately:

1 BID—Items listed under Carpenter Work.

2 BID—Items listed under Ornamental Iron Work.

3 BID—Items listed under Electrical Work.

4 BID—Items listed under Stone Work.

5 BID—Items listed under Cast-iron Work.

Each proposal must be submitted in forms similar to the one here attached as prepared by the Architects,

William Mooser Company, Nevada Bank Building, San Francisco, California.

Cash, a Bidder's Bond, or a Certified Check in the sum of at least Ten percentum (10 per cent) of the amount of the bid must accompany each bid, and be payable to the Chairman of the Board of Supervisors of the County of Santa Barbara, as a guarantee that the Bidder whose proposal is accepted will enter into a contract with the County of Santa Barbara, for the work bid upon, otherwise said Cash or Bidder's Bond, or Certified Check will be forfeited to the County of Santa Barbara.

Plans and specifications for above work may be seen at the office of the Architects, Court House Site, Santa Barbara.

Sets of plans and specifications will be loaned out to bidders upon deposit of Fifty (\$50.00) Dollars, Coin or Certified Check; said deposit to be refunded to bidder when the set of plans and specifications are returned in good condition accompanied by bid; such deposit to be forfeited to the Architects, provided the set of plans and specifications are not returned in good condition within five (5) days from the time same is taken out, unless a bid is to be submitted on or before date set for receiving bids.

Application for plans and specifications must be made to the Architects, William Mooser Company, Nevada Bank Building, San Francisco, California.

Rights Reserved

The County of Santa Barbara reserves the following rights:

(a) To reject any or all proposals;

(b) to waive any information in any proposal;

(c) to award this contract to some other than the lowest bidder, as this clause expressly puts the bidder on notice that his financial and business standing and ability properly and expeditiously to carry out work hereunder, and the consideration of desired alternatives, makes his proposal more advantageous to the County of Santa Barbara;

(d) to accept any alternate or separate parts of the work, under this provision;

(e) to deduct any separate item mentioned in any proposal at the price therein stated therefor;

(f) to make any additions to, omissions from, changes in, or substitution for the work or materials or articles called for by the contract, subject to the requirements of the paragraph thereof headed under that particular item and without notice to the sureties on this bond, if any, guaranteeing the performance of the contract.

All bids must be addressed to the County Clerk of Santa Barbara, in the City of Santa Barbara, State of California, and have endorsed thereon.

Proposals for Court House, Hall of Records and Jail Building for the

County of Santa Barbara, California, and the particular part of the work bid upon.

C. L. PREISKER,  
Chairman of the Board of Supervisors of the County of Santa Barbara.

D. F. HUNT,  
County Clerk and Clerk of the Board of Supervisors of the County of Santa Barbara.

NOTICE TO CONTRACTORS

(Gymnasium and Swimming Pool—San Mateo Union High School District)

Notice is hereby given that the undersigned trustees of the San Mateo Union High School District, San Mateo County, Calif., will receive sealed bids up to the hour of seven-thirty (7:30) o'clock P. M., on Thursday, the 17th day of February, 1927, at the office of the San Mateo Union High School, San Mateo, at which said time and place said bids will be publicly opened for the following:

1. Gymnasium Building, two-story concrete, and concrete swimming pool, located on the Burlingame High School grounds.

2. Plumbing and other equipment for the above pool and building, separate contract.

3. Electric wiring for the above, separate contract.

All bids will be addressed to the Clerk of the said Board of Trustees and must be accompanied by a certified check made payable to the order of aforesaid clerk in amount equal to at least ten (10%) per cent of the largest bid so submitted, and no proposal will be considered by said Board unless accompanied by such check.

The said check to be forfeited to said School District, as ascertained and liquidated damages in case the successful bidder fails or refuses to enter into a contract to perform the work, and give satisfactory bonds required, within ten days after the date of the award.

The plans and specifications for said work may be examined at the office of E. L. and J. E. Norberg, architects, 407 Occidental Avenue, Burlingame, and a limited number will be loaned to responsible contractors if a deposit of \$15.00 is made.

The said Board of Trustees expressly reserves the right to reject any and all bids.

Done by the order of the Board of Trustees of the San Mateo Union High School District, San Mateo County, California.

N. D. MORRISON,  
President.

J. R. MURPHY,  
Clerk.

## BRIDGES

**WEAVERVILLE**, Trinity Co., Cal.—Until March 8, 1 a. m., bids will be rec. by R. L. Carter, county clerk, to const. bridge over Swift Creek on Minersville-Trinity Center Rd. Separate bids are desired for (1) fur. materials and const. bridge complete; (2) furnish materials; (3) conc. bridge complete. Plans on file in office of clerk.

**UKIAH**, Mendocino Co., Cal.—Bids will be asked shortly by county supervisors to const. bridge over Noyo River south of Fort Bragg on road to Casper; will be approx. 700 ft. long, the span over river be approx. 75 ft. long. Sydney Smith, county engineer.

**LOS ANGELES**, Cal.—City Bridge Eng. Merrill Butler completing plans for new bridge across Los Angeles River at N. Spring St. to replace old steel bridge. Plans for Fourth St. viaduct will be ready soon but owing to necessary hearing before the railway commission, it is unlikely that work on this structure will be under way for many months. It is to be similar in type to the Ninth St. bridge and cost approximately \$500,000.

**OROVILLE**, Butte Co., Cal.—Clay K. Buchanan, Chico, at \$894 awarded cont. by county to const. bridge over South Pine Slough on Nord Cana Rd.

## DREDGING, HARBOR WORKS AND EXCAVATIONS

**RICHMOND**, Contra Costa Co., Cal.—Robert P. Easley, Antioch, at \$9643 awarded cont. by city to const. levee at Richmond Inner Harbor in connection with proposed Ford plant. Project involves 4670 lin. ft. wet levee, \$1.45 ft.; 4170 lin. ft. dry levee, \$.85 ft. Dutton Bridge Co. bid \$10,316; Wright Co., \$13,218.

## IRRIGATION PROJECTS

**TURLOCK**, Stanislaus Co., Cal.—Until Feb. 19, 8 p. m., bids will be rec. by D. B. Fowler, secy., Siem Ditch Assn., at A. P. Bettencourt's, 3 1/2 miles south and 1/2 mile west of Turlock, to const. 4000 lin. ft. concrete canal lining together with appurtenant works. Further information obtainable from secy.

**CALIFORNIA**—Following is a partial list of applications filed with the State Department of Public Works, Division of Water Rights, during the month of January for permits to appropriate water:

Application 5322 (Alameda County), Yosemite Laundry Company, 47th and Grove, Oakland, for 3.00 cu. ft. per sec. from Temescal Creek, for industrial purposes. Est. cost \$5150.

App. 5325 (Butte County), John C. Myers, care of Seth Millington, attorney-at-law, Gridley, for 4.00 cu. ft. per sec. from Drainage Ditch Rec. Dist. 833, for irrigation of rice; 160 acres. Est. cost \$1000.

App. 5328 (Inyo County), Corbett Bland & W. R. Wallace, Darwin, Cal., care of Jess Hession, district attorney, Independence, Cal., for 2.00 cu. ft. per sec. from Darwin, Wash., for mining and domestic purposes. Est. cost \$10,000.

App. 5329 (Inyo County), Corbett Bland and W. R. Wallace, Darwin, Cal., care of Jess Hession, district attorney, Independence, Cal., for 1.50 cu. ft. per sec. from Old Coso Springs, for mining and domestic purposes. Est. cost \$8000.

App. 5330 (Sierra and Nevada Counties), The Yuba River Power Company, 725 Standard Oil Bldg., San Francisco, for 160.00 cu. ft. per second and 40,000 ac. ft. per annum from Middle Fork Yuba River tributary to Feather River, for power purposes; 46,104 T. H. P. to be developed. Est. cost \$44,000,000.

App. 5332 (Merced County), Harry Barnes for S. J. River Water Storage District, Bank of Italy Bldg., Los Banos, for 1000.00 cu. ft. per sec. from Reservoirs of Southern California Edison Company and San Joaquin Light & Power Corporation, for irrigation purposes; 552,000 acres. Est. cost \$29,722,400.

App. 5333 (Trinity County), Winifred McClure, Grannell, Humboldt Co., for 1.00 cu. foot per sec. from East Fork Sharper Creek, for mining purposes. Est. cost \$1500.

App. 5334 (Napa County), State Bd. of Control, as agents for Napa State Hospital, Veterans' Home, Napa State Farm and Game Farm, for 20.00 cu. ft. per sec. and 2000 ac. ft. per annum from Rector Creek tributary to Corn Creek and Napa River, for irrigation and domestic purposes; 1712 acres. Est. cost \$555,500.

App. 5335 (Santa Barbara County), E. W. Alexander, County Bank, Santa Barbara, Cal., for 0.10 cu. ft. per sec. from Arroyo Burro Creek tributary to Santa Ynez River, for irrigation and domestic purposes; 30 acres. Est. cost \$2500.

App. 5336 (Inyo County), Herman W. Eichbaum, Darwin, Cal., for 0.001 cu. ft. per sec. from a seep, for irrigation and domestic purposes; 80 acres. Est. cost \$3000.

Following permits were granted by the division during the month of January:

Permit 2696 (Humboldt County), issued to Nanette M. Ostlund, Los Angeles, for 0.37 cu. ft. per sec. from Bear Trap Creek, for domestic and irrigation of 30 acres. Est. cost \$4000.

## PAINTERS TALK WAGES

A conference on wage scales for painters of San Mateo county and the Peninsula district was held last night in Palo Alto by the Peninsula Master Painters and Decorators Association. Painters, whether members of the association or not, were invited to attend the meeting. Delegations from San Jose were scheduled to be in attendance. It is proposed to secure a uniform wage scale for the San Mateo county district, conforming to the scale for San Francisco and San Jose, officials of the organization declare.

Two highway measures introduced in the Legislature by Senator A. H. Breed of Oakland, one proposing a 1-cent increase in the gasoline tax and the other classifying the highway system and allocating funds for new construction and maintenance, have been indorsed by the highway committee of the Sacramento Chamber of Commerce.

# Technical Authority Advises On Radio-Proof House Building

Reports from various sources indicate that the nature of dwelling construction has a great deal to do with radio receptivity. The extensive use of metals, it appears, has the effect of insulating an enclosure in greater or less degree. Inquiries in this direction have brought a letter from D. J. Pieri, manager of the Technical Department of the Brunswick-Balke-Collender Company, radio manufacturers, in which a dwelling room enclosed with metal building materials is represented as being similar to a laboratory built to exclude radio waves. Engineers say in comment that it may be wise in planning houses that use radio interfering material freely to exclude a "radio room" from the general type of wall construction. Mr. Pieri's statement follows:

Let us start first with an engineering laboratory engaged in scientific research along radio lines. When it is desired to conduct measurements on radio receiving devices it is very necessary that all extraneous and outside interferences which are not only caused by broadcasting stations but the electric motors and other devices which generate electro-magnetic and electro-static waves be eliminated. In order to accomplish this a device termed a "cage" is built which usually consists of a framework built up of two-by-fours over which is built a metal screening, which to be thoroughly efficient consists of a layer of copper screening and iron screening in order to afford protection against both electro-magnetic and electro-static waves. The most sensitive receiving device can then be placed in the in-

terior of this cage and the door closed and no reception or disturbance can be recorded from an outside source, although a broadcasting station may be located quite close by. In the case of our Chicago laboratory station KYW operates a five-kilowatt transmitter and is located a block away. In our "cage" we can take an eight-tube Super-Heterodyne, adjust it to full sensitivity and tune it to KYW and gradually close the door on the cage and the signal dies down and out to zero.

Now let us consider the use of metal lath in buildings which give a "cage" effect on a big scale. When a receiver of the loop type is placed within that building, very unsatisfactory operation is obtained and in the majority of cases the signals are very weak due to the shielding and absorption of the metal lath contained either in the walls or in the stucco work. The most ideal layout for a building in which the utmost of radio reception is desired consists of a minimum amount of metal and it is, therefore, natural to resort to the use of wood or lumber for its general construction. I can speak authoritatively on the subject that the outside test laboratories and proving rooms of most all of the big radio manufacturers are built in this manner.

The records of the Service Division of the Technical Department of this company disclose many disappointed customers who are unable to secure satisfactory results from their Super-Heterodyne radio machine due to shielding and absorption caused by metal lath and buildings containing an arrangement of steel or metal construction so as to shield or absorb the waves generated by broadcasting stations.

## Need Of Home Light Is Told At University Of California Meet

Poor eyes among school children often caused or aggravated by poor lighting in the home costs the people of the United States \$130,000,000 a school generation, in taxes, said J. P. Fairbank, specialist in agricultural extension at the University of California, in presenting the need of adequate lighting in American homes to attendants of the agricultural extension conference which recently closed on the Berkeley Campus of the University.

This figure, Fairbank explained, is based on estimates of the National Committee on Conservation of Eyesight that two million children in public schools are retarded at least one year as a result of poor eyesight. The cost of education according to the 1920 census in \$65 per pupil per year.

This one demonstrable loss is only one of the many that poor lighting causes, he added, and in practically every instance in which experiments have been carried out in factories or by the United States government, data show that good light more than pays for itself in increased work production.

"We hope to make clear," Fairbank said, "that there are four essentials of good home lighting: adequate light; absence of glare; proper distribution of units; and good appearance."

In checking the illumination in a large number of kitchens in California

it was found that there is rarely more light on sinks, tables, and stoves, than could be obtained from one candle held a foot away, or in other words scarcely more than one candle power; while many factory executives interested in profits have convinced themselves that five or six times that amount is not sufficient.

For general purposes, Fairbank states, there should be in rooms where utility is the chief need, anywhere from one-half to one and one-half watts per square foot of floor space. Square or nearly square rooms with comparatively high ceilings require less light than others.

To eliminate glare the least that can be done is to use frosted globes in place of clear ones. Also the lights should be raised away from the eyes and hidden behind some sort of shade or globe. Mounting lights high aids in an even distribution and elimination of shadows. Enclosing lights in white glass shades gives a better appearance even for kitchens than bare lights or metal shades. Fifty watt lights are a good type for general ceiling lights. These are some of the points Fairbank brought out as found best by years of experiment by illumination engineers. Such light leads not only to a saving in actual money but also to an increase in personal efficiency, comfort, and health.

## A. BUILDING IN JANUARY TOTALS \$8,129,749

Building operations in Los Angeles for 1927 have started off at a pace which indicates conservative but steady progress, says the Southwest Builder and Contractor. During the month of January the city building department issued 2844 permits with an estimated valuation of \$8,129,749. For the same month a year ago the number permits was 3236 with an estimated valuation of \$6,973,252, while for December, 1926, the number of permits was 2678 with an estimated valuation of \$10,089,871.

Classification of January building according to materials of construction shows an apportionment to the various uses approximating the general average. Six Class A buildings estimated cost \$1,147,000, one Class B structure estimated to cost \$50,000, 53 Class C buildings estimated to cost \$906,694, 1792 Class D all-frame buildings estimated to cost \$4,451,697, are included in the total.

Housing activities for January were slightly under the average, but in excess of that recorded in January, 1926. Permits were issued during the first month of 1927 for 832 dwellings and apartments estimated to cost \$4,392,000 or 28.9 per cent of the entire number of permits and 54 per cent of the value for the month. These dwellings provided accommodations for 37 families. During January, a year ago, permits were issued for 997 dwellings and apartment houses estimated to cost \$4,056,832 and providing accommodations for 1225 families.

## Los Angeles Plans To Spend \$16,800,000 For Storm Drains

A report recently filed with the city council of Los Angeles by L. W. Armstrong, city storm drain engineer, and E. A. Tuttle, engineer for the Metropolitan Storm Drain Division, covering a projected program of storm drain construction, shows that approximately \$16,800,000 will be expended for the work. Plans now in preparation in the city engineer's office include the following projects:

Section No. 4 Jefferson St. Storm Drain System. Estimated cost, \$700,000. This section comprises the Budlong Ave. lateral of the Jefferson St. System.

Section No. 5 Jefferson St. Storm Drain System. Estimated cost, \$600,000. This section comprises the laterals of the Jefferson St. Storm Drain System between Grand Ave. and Long Beach Ave.

Oakwood Ave. and Laurel Ave. Storm Drain System. Estimated cost, \$240,000. This project under the City Boundary Line Act, drains both city and county territory lying approximately between Fairfax Ave. and La Cienega Blvd. and between Santa Monica Blvd. and Beverly Blvd.

Wilcox Ave. Storm Drain System, Section No. 1. Estimated cost, \$500,000. This project drains territory approximately between Bronson Ave. and Seward Ave., and between Hollywood Hills and Melrose Ave.

Wilcox Ave. Storm Drain System, Section No. 2. Estimated cost, \$200,000. This project consists of that portion of the main line of the Wilcox Ave. System extending from Country Club Dr. to Pico St.

El Sereno Valley Storm Drain System. Estimated cost, \$250,000. This drainage system drains a territory southerly and easterly of Huntington Dr. between Bur St. and the El Sereno Country Club.

Arroyo de los Posos Storm Drain System. Estimated cost, \$300,000. This system drains an area south of Mission Road lying between the Los Angeles River and the East City Boundary.

Lenard St. Storm Drain System. Estimated cost, \$1,800,000. This system drains the business district south of Sixth St. between Figueroa St. and the Los Angeles River.

Slauson Ave. Storm Drain System. Estimated cost, \$3,300,000. This system includes the Main Line extending westerly from Angeles Mesa Drive to Ballona Creek together with all of the laterals exclusive of Section No. 2, which is now under construction. It drains the area between Exposition Blvd. and Manchester Ave. westerly of the Main St. Storm Drain District.

Sacatela Storm Drain Extension. Estimated cost, \$3,000,000. This project consists of the extension of the Main Line of the Sacatela Storm Drain from the present outlet at Vineyard Station to Ballona Creek and thence southerly to Higuera Road, including connections to the Jefferson St. Storm Drain System and La Cienega Storm Drain System.

Annandale and York Blvd. Storm Drain System. Estimated cost, \$400,000. This system, deferred one year by council instructions, drains the Annandale and York Blvd. District.

Eagle Rock Storm Drain System. Estimated cost, \$600,000. This system comprises the extension of the Verdugo Road and Glassell Ave. Storm Drain System north of Longdale Ave., draining the Eagle Rock District.

Dorchester Ave. Storm Drain System. Estimated cost, \$600,000. This system drains portions of South Pasadena, Alhambra and Los Angeles in the vicinity of Huntington Drive.

Echo Park Ave. Altivo Way to Sunset Blvd. Storm Drain. Estimated cost, \$160,000. This project drains the foot-

hill valleys concentrating at Sunset Blvd. and Echo Park Ave.

Glendale Blvd. Storm Drain System. Estimated cost, \$150,000. This system drains the foothill valleys concentrating at Sunset Blvd. and Glendale Blvd.

Parkdale Ave. Storm Drain System. Estimated cost, \$300,000. This system drains a portion of the city of Glendale and that portion of Los Angeles lying between Glendale and the Los Angeles River northerly from Glendale and Brand Blvd.

Wilmington District—Storm drains in connection with the improvement of Anaheim St. between East City Boundary and Railroad Ave. Estimated cost, \$65,000. Storm drains in connection with the Meyler St. and 21st St. Improvement District. Estimated cost, \$80,000. Storm drains in connection with the Sepulveda St. and Santa Cruz St. Improvement District. Estimated cost, \$65,000.

Venice District—Storm drains in connection with the filling of the Venice canals. Estimated cost, \$130,000.

Sawtelle District: Sawtelle Storm Drain System, to serve the whole of Sawtelle. Estimated cost, \$800,000.

Sawtelle and Westwood Storm Drain System. Section No. 1. To extend the Sawtelle System to Ballona Creek, conveying also storm water from Sepulveda, Dry, Stone and Brown Canyons. Estimated cost, \$1,300,000. Benedict Canyon Storm Drain System, Lower Section. To extend the existing drain terminating at Country Club Drive and Spaulding Drive, in the city of Beverly Hills, to Ballona Creek. Estimated cost (Lower Section), \$750,000.

San Fernando Valley District—May Canyon Storm Drain System. A portion is to be built with the improvement of Hubbard Ave. from Eldridge St. to 4th St. Estimated cost, \$55,000. Forman Ave. and Valley Spring Lane Storm Drain System. To serve area southerly from 3rd St. and easterly from Lankershim Blvd., Lankershim. Estimated cost, \$70,000. Storm drains in connection with improvement of Ventura Blvd. between Lankershim Blvd. and Saugus Ave. Estimated cost \$375,000.

## "WATERTIGHT CONCRETE" BOOK ISSUED BY LIME ASSN.

"Watertight Concrete," Bulletin 391, just issued by the National Lime Association, 927 15th St., N. W., Washington, D. C., is an attractively covered and well illustrated discussion of the value of hydrated lime in concrete. The next is based upon actual experience, supplemented by laboratory data. The experience of engineers, architects and contractors, from all sections of the country, is drawn upon and the illustrations show the character and type of construction where lime was used to make the concrete watertight. These range from structures such as the Wilson Dam at Muscle Shoals on through the whole list of concrete uses, office and public buildings, stadiums, reservoirs, tanks, basements, etc. Copies of the bulletin will be mailed free upon request to the National Lime Association.

## Text Of License Bill As Proposed By Pasadena Exchange

Herewith is printed the text of Senate Bill 758, by Mr. Weller of Los Angeles county, providing for the licensing of contractors, which is sponsored by the Builders' Exchange of Pasadena. A full synopsis of Assembly Bill 1050, by Mr. Kelsey of Alameda county, sponsored by the Builders' Exchange of Alameda county, was printed in the B and E News issue of February 5. It is drafted along the lines of the realtors license law. The Weller bill follows:

Section I: It shall be unlawful for any person, co-partnership or corporation to engage in the business or act in the capacity of a building contractor within this state without first obtaining a license therefor.

Sec. II: A contractor within the meaning of this act is a person, co-partnership or corporation, except the sole owner thereof, who for a compensation engages to furnish materials and labor, or materials or labor to be used or consumed in, or who engages to furnish appliances, teams and power contributing to the construction, alteration, addition to or repair, either in whole or in part, of any building, wharf, ditch, flume, fence, machinery, railroad, wagon road, or other structure in respect to which a lien upon the property upon which said labor or materials furnished shall exist under the provisions of this chapter, regardless of the manner or character of said compensation or the plan under which the same shall be paid, either by agreement or otherwise, or by implication of law, so long as said contractor shall have either the actual or ostensible authority to purchase materials, or to hire labor, or shall have the supervision of the purchase of materials, or the employment of labor, or any other authority whatsoever, except and apart from that of the owner, and otherwise than as the servant of the owner. Mechanics, laborers or artisans who are acting under the express or implied immediate direction and control of the owner or contractor who contracted with the owner and who have no authority to procure on their own account or on their own credit either labor or materials the furnishing of which shall entitle anyone to a lien under the provisions of this chapter, shall not be required while acting merely as such mechanics, laborers or artisans to procure a license or furnish the undertaking herein referred to. Persons who undertake to or furnish material to be used or which is used in the erection or construction of buildings or other improvements herein referred to, provided they do not undertake to install the same, shall not be deemed contractors nor be subject to the provisions of this act.

Sec. III: Application for a license to engage as a building contractor shall be made in writing to the secretary of state, in such form as may be provided by him and shall be verified, and said application shall be accompanied by the recommendation of two reputable citizens and owners of real estate, residents of the county wherein applicant resides, certifying that the applicant is in their opinion honest and truthful and of good reputation and possessed of reasonable experience in the class of work in which he proposes to engage as contractor. Said application shall be accompanied by a good and sufficient undertaking to the people of the state of California in the sum of \$5000 conditioned for the faithful performance by such contractor of any undertaking under this act, and said undertaking shall inure in favor of all persons who may either enter

upon engagements with said applicant in respect to any of the work referred to in Sec. II of this Act and also in favor of all persons, firms or corporations who may furnish labor or materials entering into the construction of said work or the performance of said contracts, and said undertaking shall also provide that the applicant shall pay for all labor and materials entering into the performance of any of his undertakings or contracts, expressed or implied, incurred in or about his business as a contractor. A certified copy of said undertaking shall be recorded in the office of the county recorder of the county in which the applicant resides and also in the office of the county recorder of every county wherein the applicant shall undertake the performance of any contract prior to the entry upon performance of any contract by him.

Sec. IV: In case any persons shall be injured or damaged by the breach of any contract of said contractor or in case any person shall be unpaid for any labor and materials or labor or materials furnished to said contractor and the same is due and unpaid, in either and all such cases said persons may bring an action against said contractor and his surety upon said undertaking and in case of a recovery of final judgment the same shall be paid and satisfied out of said undertaking on file to the extent that the same may be sufficient or in case there are other claims against said contractor pending at the time even though unliquidated the parties in interest in the undertaking may be interpleaded in accordance with the other provisions of law. In case, however, of a final judgment being recovered against the contractor, in case the amount shall be paid by the surety, the right of the contractor to engage in business shall be suspended until an additional undertaking shall have been filed in the proper office by him equal to the amount of the judgment, interest and costs to date.

Sec. V: Persons who are the owners of the property upon which buildings or improvements are erected by themselves shall not be required to procure the license hereinabove referred to so long as all the owners of said property join in said undertaking, nor shall trustees of an express trust or officers of a court be deemed to be contractors within the terms of this act so long as they are acting within the terms of their trust or office respectively, but where one owner of an interest in property contracts with an owner of another interest therein he shall be deemed a building contractor within the terms of this act.

Sec. VI: Prior to the beginning of any work or construction referred to in Sec. II of this Act and not more than ten days prior thereto there shall be filed in the office of the county recorder of the county wherein said real property is situated, a notice in writing duly verified upon the oath of the owner or some other person acting for and on behalf of the owner and with his authority, having knowledge of the facts, which notice shall be called a notice of intention to build; said notice shall be in writing, shall contain a legal description of the property upon which it is proposed to erect said improvement sufficient for the ready identification thereof, the name and address of the owner or owners thereof and the nature of the so-called owner's title, whether the same be in fee or held under contract or otherwise; also the names and addresses of all persons holding encumbrances against said property and the amount and nature thereof, and also a statement as to whether or not the amounts represented by the obligations referred to in said encumbrances

have been advanced or not, and if not, in general terms the conditions under which said advances are to be made. Any persons who shall enter upon the erection of a building or improvement or other structure under the terms of this act, either as owner or contractor without the declaration of intention to build having first been recorded shall be deemed guilty of a misdemeanor, and any persons who willfully makes a false statement in said declaration of intention or shall conspire to furnish a false statement in a declaration of intention to be recorded shall be guilty of a misdemeanor, and their right, title and interest, if any, in said property shall also be subordinated to any other claimant who may be injured thereby.

### INCOME TAX EXPERT ADVISES CONTRACTORS

John B. Horbach, income tax expert, addressed the Southern California Chapter, Associated General Contractors, at a recent meeting in Los Angeles, on income tax laws affecting contractors. He explained succinctly the general requirements of the laws as they are now in force. Contractors may elect one of three methods of making their returns, according to Horbach. There are: (1) percentage of completion basis; (2) final completion basis; (3) cash basis.

The percentage of completion basis, Horbach, says, is adapted to long term contracts requiring two or more years for execution of the work. Returns are made and tax is paid each year or the percentage of the work completed. It has this disadvantage, however, that the contractor may pay taxes on apparent profits in the early stages of progress whereas profits may disappear entirely on final completion. A very accurate system of accounting is necessary, also, if returns are made on the percentage of completion basis and periodical estimates of the amount of work done must be obtained from the architect or engineer.

The final completion basis is adapted especially to short term contracts. When this basis is adopted no return need be made until the work is completed and the contractor's profit or loss can be definitely determined. The disadvantage of this method is in the possible payment of surtax if large sums are involved in the contract.

Simplest of all methods is that of making returns on a cash basis as does not involve any elaborate accounting. However, it is least advantageous to the contractor, as it does not afford him an opportunity to take advantage of all possible reductions.

If a contractor elects to make returns on a certain basis he may change to another basis provided the government's interests in the returns on the completed contract are not jeopardized. Formal notice of such a change is not required by law, but it is advisable to inform the proper authority of the proposed change. A contractor's loss extending back not more than two years are a legitimate deduction.

In answer to questions, Horbach said that returns in the contracting business are more complicated than other lines because of inability to definitely anticipate the outcome of a construction project.

# ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

## ENINSULA PAINTERS TO AVOID WAGE SCALE FIGHT

Settlement of a wage question without a strike or lockout looms in the Peninsula district, following a conference held in Palo Alto last week by painters and employers, where the demands of union painters were considered.

Union painters are seeking a uniform wage scale of \$9.35 per day. Representatives from all over the Peninsula were present at the conference. Delegates came from as far north as San Francisco and as far south as San Jose.

Following considerable discussions the master painters offered to meet the increase in the wages, to take effect by 1.

Union representatives also offered proposition. It was that painters be paid a uniform wage scale from San Francisco to San Jose, and that this increase take effect in all sections precisely at the same time. It was not asked that no concession work be given.

The meeting adjourned with the understanding that the union, after conferring offers of settlement made by employers, would reach a final decision later.

## OF C. ANNOUNCES EXTENSION COURSES

The University of California Extension Division will offer, in San Francisco, classes in Railway Economics, Trustee P. Wadsworth, Tuesday, March 1, 7 P. M., 234 Pacific Building; Marine Insurance by James A. Quinby, Wednesday, March 16th, 6:30 P. M., 234 Pacific Building; Blueprint Reading by J. C. Polson, Thursday, March 3, 7 P. M., 263 Pacific Building; Advanced Blueprint Reading and Estimating by J. J. Huston, Wednesday, March 2, 7 P. M., 261 Pacific Building. Many other courses are contained in the schedule of classes now on distribution at the offices: 140 Kearny street and 264 Pacific Building, San Francisco.

## ENGINEERS ELECT

Harry W. Dennis, chief construction engineer of the Southern California Edison Company, Los Angeles, has been elected a director of the American Society of Civil Engineers, representative District No. 11. John F. Stevens, railroad engineer, and in 1905 chief engineer of the Panama canal and chairman of the Isthmian Canal Commission, is the new president of the Society.

## HARDWARE DEALERS ELECT

P. Lewis of Marshfield, Ore., was elected president of the Oregon Retail Hardware & Implement Dealers' Association, at the close of the 21st annual convention in Portland. C. J. Bracker of Pilot Rock was chosen vice-president and E. E. Lucas of Spokane was elected secretary-treasurer. New officers named were J. R. Wharton, Eugene; B. A. Kendall, Redmond; W. E. Brock, Pendleton; Ed. Simons, Salem; W. R. Evans, Portland.

## EXCHANGE DINNER-DANSANT A HUGE SUCCESS

The dinner-dansant of the San Francisco Builders' Exchange held on the evening of Lincoln's Birthday in the Colonial Ballroom of the St. Francis Hotel was a huge success, some three hundred persons attending the affair.

The address of welcome was delivered by William H. George, president of the exchange, who welcomed the lady guests with the distribution of boxes of candy, and cigars for the men folk.

Music was furnished under the direction of Albert A. Greenbaum.

The committee in charge of the event comprised Sam F. Cohn, Wm. J. Feary, A. H. Bergstrom and S. A. D. Schenck.

## STOCKTON BUILDERS' EXCHANGE ADOPTS WAGE SCALE

The Stockton Builders' Exchange announces the following wage scale effective May 1, 1927. The exchange announces that this scale is a revision of the scale adopted February 12, 1924, and that it does not indicate any controversy or differences with respect to the workers. The new scale is for a five-and-a-half-day week of eight hours per day:

Bricklayers .....	\$12.00
Brick Hodcarriers .....	7.00
Concrete and Cement Workers...	7.00
Cement Finishers .....	9.00
Electricians .....	9.00
Hardwood Floor Men.....	9.40
Plasterers .....	12.00
Plaster Hodcarriers .....	8.00
Plumbers .....	9.00
Painters .....	8.50
Roofers .....	8.00
Sheet Metal .....	9.00
Tile Setters .....	10.00
Common Labor .....	4.00

## MILLS

Bench Hands .....	8.00
Band Saw, Shaper and Turner Men	7.50
General Machine Men .....	7.50
Stickermen .....	7.50

## ENGINEERS OF SANTA CLARA COUNTY HOLD MEETING

The annual meeting of the Society of Civil Engineers and Surveyors of Santa Clara county was held in San Jose, Feb. 11.

The following officers were elected for the ensuing year: President, J. G. McMillan; vice-president, R. E. Hackley of Palo Alto; secretary-treasurer, Chanler H. Makley.

Retiring officers: Henry B. Fisher, past president; Frank Herrmann, secretary-treasurer.

The legislative committee, whose duties will be to look after legislation affecting the practice of surveying, includes J. G. McMillan, R. E. Hackley and Past President H. B. Fisher.

A meeting of the Ventura Chapter, Associated General Contractors of America, will be held March 3 to hear a report of the national convention of the organization. Godfrey Edwards, of Los Angeles, national director of the association, will be the principal speaker. Mr. Edwards represented Southern California at the national convention recently in Asheville, N. C.

## FRESNO BUILDERS' EXCHANGE GROWING STEADILY

With a substantial increase in membership since its reorganization last October, the Fresno Builders' Exchange has become the nucleus for much of the building activity in the Fresno district. Under the direction of H. L. Hardman, appointed secretary-manager last fall, the organization has opened up a wider field of service both to the building public and to all crafts connected with the building industry. T. M. Robinson is president.

New quarters, recently opened at 1837 Merced St., Fresno, provide an office for the secretary-manager, a meeting place for the directors, estimating rooms for figuring work, consultation rooms where members meet and exchange ideas relative to the industry, and a place where plans and specifications on all types of buildings may be secured. As the public becomes better acquainted with the purpose of the exchange, there is a growing number of calls for estimates on new homes, remodeling and repair work.

A feature of the exchange quarters is a roster board, 14 by 20 feet in size, which contains the names of the membership, classified according to trade.

## HAYWARD BUILDERS ELECT

Roscoe F. Byrnes has been elected president of the recently organized Builders' Exchange at Hayward, Calif. Jas. Willison is vice-president, E. P. Whitman, secretary and L. R. Rosenberg, treasurer. Directors are: Roscoe F. Byrnes, H. H. Fenneman, W. N. Hays, Joseph Huber, Earl Johnson, L. R. Rosenberg, Carl A. Sorensen, E. P. Whitman and James Willison.

## VALLEJO BUILDERS ELECT

Louis J. Claus is the new president of the Vallejo Builders' Exchange. He will be assisted by Chas. Miller, vice-president; L. K. Talley, secretary, and E. V. Pierce, treasurer.

The Builders' Exchange of Phoenix, Ariz., has been revived with Clinton Campbell, former head of the organization, as president. Victor Waslewski is acting secretary. A committee is working out the details of the reorganization.

An ordinance to regulate plastering, sponsored by the Compton Builders' Exchange, has been introduced in the Compton city council. The ordinance fixes minimum requirements and provides for inspection.

P. C. Lowry Company of Oakland has filed a petition in bankruptcy in the United States District Court, listing liabilities of \$20,604 and assets of \$4809. The concern conducted a plumbing supply business at 405 Tenth St., Oakland.

Norton Ware of Gridley, chief engineer for the Sutter Butte Canal Company, has been appointed to the Board of Examiners for the State Department of Public Works.

### NEW METHOD TO ANALYZE HYDRATED LIME DEVELOPED

A method for analyzing hydrated lime has been recently developed at the Bureau of Standards, Department of Commerce, by which more information is obtained than by the usual chemical analysis.

The method consists, briefly, in heating a sample of the material in question, which may be a hydrated lime, mortar or similar material, at succeeding temperatures for short periods of time, determining the loss in weight after each heating.

### LOS ANGELES FIRM LOW ON BULL RIVER DAM

Bent Bros., Inc., of Los Angeles, bidding \$1,410,375, submitted the lowest proposal to the city of Portland, Ore., to construct the Bull River Dam in Clackamas County. The dam and appurtenant reservoirs will cost approximately \$3,000,000 and will impound 11,000,000,000 gallons. Claude Fisher, also of Los Angeles, was the next lowest bidder at \$1,688,410. Allied Contractors, Inc., and C. R. Ross, another Los Angeles firm, submitted the third lowest bid at \$1,694,875.

### \$25,000,000 EXPENDITURE TO CUT STEEL COSTS

The Youngstown Sheet & Tube Company, third largest steel organization in the country, has just completed a two-year campaign to reduce the cost of production which has necessitated the expenditure of \$25,000,000, according to James A. Campbell, president.

### ENGINEERS WILL SELECT SITE FOR BAY BRIDGE SPAN

Employment of three disinterested engineers to pick the location and prepare preliminary plans for a transbay bridge has been voted by the San Francisco Board of Supervisors. Ten members supported the plan and six voted against it.

The Board of Public Works shall ask the presidents or acting presidents of the University of California, Stanford University, University of Santa Clara and St. Mary's College to submit the names of three engineers best qualified to act on the bridge matter.

When the Board of Public Works has submitted the names to the Board of Supervisors it will then be necessary, according to an opinion given by City Attorney O'Toole, to pass an ordinance to provide for the pay and expenses of the engineering commission.

From the data thus obtained a curve, temperature against loss in weight is plotted. In this curve sudden changes in direction appear, from which the loss in weight due to various compounds may be determined, and from which the percentages of these compounds themselves are readily calculated. By this means it is possible to determine the percentages of calcium hydroxide and magnesium hydroxide, and to a certain extent also calcium carbonate, in such a material.

Using this method a considerable number of commercial hydrated magnesium limes have been studied, and it has been found that the magnesia content is in general, hydrated to only a very small extent; in other words, very little magnesium hydroxide is present. The magnesia, however, does combine with water in time, indicating that improved methods of treatment may possibly give a material in which all the magnesia appears as hydroxide.

## Pacific Coast Building in January Totals \$33,354,046

A grand total of 11,004 building permits involving construction costs aggregating \$33,354,046, issued in 97 cities of the Pacific Coast area, is reported in the National Monthly Building Survey of S. W. Straus & Co. This figure emphasizes the tendency on the part of builders and those who finance building operations toward restriction in activity which has been evident for several months. This January total is 12% below the comparable figure for 1926 and is 19% below the total for December.

The greatest reductions occurred in Washington, where a January total 47% below that of last year is shown, in California where a 12% reduction is recorded, and in Idaho where the figures total 43% below the 1926 mark. Oregon, however, shows a 65% gain over last January's total; Utah gained 61% and the Vancouver area of British Columbia gained 17% over the comparable figures of last year. Of the 97 cities, 51 report reductions from last January's totals and 49 show reductions from the December figures.

San Francisco's January record, 692 permits for buildings to cost \$3,528,955, is 31% below that of last January and 30% below the December total. In the San Francisco Bay group of 13 municipalities, three report increases over the January, 1926, totals and five show gains over December's figures.

Los Angeles, issuing 2844 permits during January, for buildings to cost \$8,129,749, reports a 16% gain over the total for January of 1926, but a 19% reduction from the December total. Of the 15 municipalities comprising the Los Angeles metropolitan area, ten show increases over last January and seven show increases over the December figures.

Oakland, issuing 704 building permits during January, for construction to cost \$2,052,475, shows a 29% reduction from last January's figure, but an 11% increase over the December total. Of the other East Bay cities, Richmond reports a 30% increase over last January's total, Berkeley shows a 33% gain over December, and San Leandro gained 25% over December's total.

Portland gained 76% over last January and 123% over the December figure, with a January record of 690 permits issued for buildings to cost \$3,502,610.

Seattle, issuing 741 building permits during January, aggregating \$2,312,325 in construction costs, shows a 53% reduction from the record for January of last year, and a 43% reduction from the total for December.

San Jose's January record of 97 building permits for construction to cost \$301,290, shows a 23% reduction from last January's figure, but a 128% increase over December's total.

Sacramento, reporting 182 permits issued during January for \$546,958 in new construction, shows a 19% increase over last January's figures and a 61% gain over December.

Following are the official January, 1927, construction cost figures, reported by building department executives from 97 cities comprised in the Pacific Coast Section:

City	January, No.	1927 Cost	January, 1926	December, 1926
<b>CALIFORNIA</b>				
Alameda	50	\$ 59,468	\$ 103,824	\$ 503,324

## ALONG the LINE

MacDonald Engineering Co. of Chicago, Ill., has filed articles of incorporation in Oakland. Directors are: James MacDonald, W. Witherspoon and Randall W. Burns, all of Chicago.

Charles H. Spear, general manager of Los Angeles harbor since the reorganization under the new city charter, has tendered his resignation, and Frank B. Cole, engineer for the greater harbor committee, has been appointed his successor. Mr. Spear has been in ill health for many months. Mr. Cole was formerly engineer for the New York Central railroad.

Merrill Butler, chief bridge engineer for the city of Los Angeles, reports completion of plans for the main structure of the Glendale-Hyperion viaduct. The viaduct completed will cost \$1,300,000.

Russell Robb, engineer and senior vice-president, treasurer and director of Stone & Webster, Inc., died in Boston February 15. He was a director of many business bodies, ranging from the Cape Breton Electric Company, Ltd., to the El Paso Electric Company, and from the Puget Sound Power and Light Company to the Key West Electric Company.

Newport Beach, Cal., at a recent election voted bonds of \$500,000 to finance harbor improvements.

The personnel of the State Board of Health would be changed to consist of two physicians, two engineers and three business executives under an amendment to the political code proposed in a bill before the legislature by State Senator Harry A. Chamberlin of Los Angeles.

City of Burlingame contemplates a bond issue for \$225,000 to finance municipal water improvements. Of the total amount \$175,000 would provide renewals and additions to pipe lines, fire hydrants and underground equipment and \$50,000 for construction of a reservoir.

Chas. L. Tilden, Frank C. Sykes and Paul Scharrenberg have been named as members of the new California State Board of Harbor Commissioners, succeeding Wm. A. Sherman, as president whose place will be filled by Tilden; J. B. Sanford and J. Sherman McDowell, all of whom have resigned.

Carl Leonardt, 71, president of the Southwest Portland Cement Co., operating plants at Victorville, El Paso and Dayton, died at his home in Los Angeles, Feb. 14. Prior to entering the cement business, Mr. Leonardt was a general contractor and constructed several of the principal business blocks and public buildings in Los Angeles.

San Jose city council has started a war on structures classified as unsightly and unsanitary which constitute serious fire menaces. Fourteen structures are listed and proceedings will be started at once to condemn the buildings.

## \$30,000,000 Merger Announced By Pacific Portland Cement Co.

An agreement to merge the properties of the Pacific Portland Cement Company, Consolidated, and the Old Mission Portland Cement Company into a California corporation to be known as the Pacific Portland Cement Company, with a capital of \$30,000,000, is announced. Capital stock of the new corporation will be 300,000 shares. Stock at the present time will be held only to the two companies in exchange for their properties. These consist of three cement plants with a capacity of 15,000-barrels per day, two large plaster and gypsum plants and thousands of acres of mineral land. The following statement announcing the consolidation was issued by Robert B. Henderson, president of the Pacific Portland Cement Company and William F. Humphrey, president of the Old Mission Portland Cement Company:

The Pacific Portland Cement Company's plant was the first cement plant in Northern California and was built in 1901. The Old Mission Portland Cement Company's plant was the first

modern wet-process plant in this territory.

"There will be fifteen directors in the new company, among whom will be Robert B. Henderson, president of the Pacific Portland Cement Company; Wm. F. Humphrey, president of the Old Mission Portland Cement Company; J. A. McCarthy, vice-president and general manager of the Old Mission Portland Cement Company; John S. Drum, president of the Mercantile Trust Company; Herbert Fleishhacker, president of the Anglo & London Paris National Bank; Milton Esberg, vice-president of General Cigars Company; Alexander Hamilton, president of Baker, Hamilton and Pacific Company, and Ferdinand Reis, president of the Pacific States Loan Association. The business of the new company will be under the active management of Robert B. Henderson, William F. Humphrey and J. A. McCarthy.

"Meetings of the stockholders of the corporation will be held within the next ten days to ratify the actions of their respective officers, and then the details of the proposed consolidation will be given to the public."

# THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Real estate mortgage bond financing in January broke all previous records, according to statistics compiled by the Building Economic Research Bureau of the American Bond & Mortgage Company, which show that new issues, underwritten and offered by leading investment houses during the month aggregated \$96,163,500. This total is \$38,725,500 larger than the volume for December, 1926. "The huge increase in realty security offerings is largely due," it is stated, "to the fact that many of the larger houses closed loans in the later part of 1926, but withheld them from public offering until January. The former high record for this type of bonds was established in June, 1926, when new offerings and underwritings totalled \$86,244,000. The demand continues strong for new construction financing. Fewer applications, however, are being received from speculative builders, and there are good indications that the speculative tendency is on the decline. Builders now seeking to start new structures are first assuring themselves of the necessity of the proposed project and the prospects of its producing an adequate rental income."

State Senator Arthur H. Breed of Oakland has before the legislature a bill providing for amendment of the municipal utility district act to provide that bonds of municipal utility districts shall be legal investments for all trust funds and for funds of banks and insurance companies and for school funds, and shall also be legal for a deposit as security for loans by state, counties and municipalities.

Los Angeles building for the first eight days of February, show some slackening when compared with the corresponding period in the preceding month and in February a year ago. During the current month up to and including the 8th, the number of permits issued was 936 with an estimated valuation of \$2,304,273. For the corresponding period in January the number of permits was 850 and the estimated valuation was \$2,760,620, while for the first eight days of February, 1926, the number of permits was 992 and the estimated valuation \$2,955,687.

P. A. Belanger, Los Angeles contractor, who is building the Goleta school at Santa Barbara, was penalized \$100 by Charles Lowy, attorney for the State Labor Commissioner, for violating the State labor law by putting his employees on a nine-hour day for five days a week. Lowy will instruct the Santa Barbara county Auditor to deduct the \$100 from amounts due Belanger.

Washington State Society of Architects has adopted a resolution urging its members and the profession in general to use materials manufactured in the United States and particularly those manufactured in the Pacific Northwest.

A Hall of Fame for California's pioneer engineers, the outstanding figures in the history and development of water engineering, railroading, highway construction, electrical energy and land surveys, is to be created by the California Society of Engineers. Louis F. Leurey, San Francisco, is chairman of a committee named to conduct research work in connection with the plan. He will have associated with him in his work R. C. Briggs, of the United States Geological Survey; Hans Graff, engineer of the United States debris commission, and A. E. Zimmerman, San Francisco.

Adjournment of the hearing in the proceedings to oust the Long-Bell Lumber Company from doing business in the State of Missouri under its Missouri charter was announced at the end of a brief session at Kansas City, Feb. 14. The hearing will be resumed at Longview, Wash., May 19, it was agreed by attorneys in the case.

California State Highway Commission announces intention to expend approximately \$600,000 this year for realigning, regrading and repaving the Dublin Canyon road in Alameda County between Hayward and Livermore.

Nineteen-twenty-six was the most prosperous year in the history of the port of San Francisco. Collector of Customs William B. Hamilton announced when he completed some preliminary compilations of the year's foreign trade. Imports and exports were \$17,000,000 greater than in 1925 and \$75,000,000 above 1924. The foreign trade of San Francisco for the last three years was: 1924 imports, \$146,423,445; 1924 exports, \$173,433,235; total, \$319,856,680; 1925 imports, \$197,375,410; 1925 exports, \$183,013,778; total, \$380,389,188; 1926 imports, \$210,185,125; 1926 exports, \$187,165,113; total, \$397,350,238.

Advisability of changing Berkeley's housing ordinance to permit erection of buildings on more than 65 per cent of a site, is being considered. It is possible the ordinance will be amended when the revised building code, drawn up by the Pacific Coast Building Inspectors' Association, is presented to the city for adoption, according to John N. Edy, city manager.

Marcus B. Soria, former employee of the Henry Cowell Lime & Cement Company, was awarded \$11,500 by a jury in the Superior Court at Martinez for the loss of his left leg in an accident at the company's plant at Cowell, Contra Costa County, in 1925. Soria sued for \$65,000, seeking \$35,000 for the loss of his leg and \$30,000 for loss of his ability to follow gainful employment. Attorneys for the Cowell company presented a motion for a new trial which will be held shortly.

Unfilled orders of the United States Steel Corporation on January 31, totaled 3,800,177 tons, a decrease of 160,092 tons compared with the end of the preceding month.

## TRADE NOTES

All incumbent directors and officers of Baker, Hamilton & Pacific Company were re-elected at the annual meeting of stockholders. The officers are headed by Alexander Hamilton, president, and the board by W. T. Smith chairman. The company has outstanding 25,000 shares of 8 per cent preferred and 6000 shares of common.

The Liberty Ornamental Iron Works of Oakland has awarded contracts for a new plant to be erected at the south west corner of Twenty-first and Filbert Sts., Oakland. The contract has been awarded to the Art Builder of Oakland at a contract price, said to exceed \$13,000. It will be of brick construction.

Ferrocete Import Co., Inc., 250 West 57th Street, New York, N. Y., desire to establish agencies in the building material line for California firms in the Eastern section.

R. J. Gibson of Bakersfield has purchased the concrete pipe plant of D. Upton at Delano, Kern county.

Four lots in the block bounded by Q, R, 30th and 31st streets, Sacramento occupied by the Homestead Lumber Company with offices at 3000 Q Street, that city, have been purchased by the firm as permanent quarters. T. Morley is president of the company.

Pacific Tank & Pipe Co., 320 Market Street, San Francisco, has published Catalog No. 16 devoted to its water tanks for water, oil and other liquids. A variety of different style tanks are given and details of their construction illustrated and described.

A satisfactory year was reported stockholders of Western Pipe & Steel Company by President J. W. Mason at the annual meeting Feb. 14. The present officers and board of directors were re-elected. The company has outstanding \$139,800 in 7 per cent preferred and \$1,376,100 in common stock, and \$3,000,000 in first mortgage 6 per cent sinking fund gold bonds.

Oakland Planing Mill, 221 Washington, Oakland, suffers \$2000 fire loss, Feb. 12, when paints and varnishes stored at the plant were ignited by spontaneous combustion.

W. P. Fuller Co., 301 Mission Street, San Francisco, has issued Bulletin No. 5, devoted to reasons for and methods used in applying paint both on interior and exterior cement and plaster surfaces. Color charts are given of various types of paint available.

Four suits, seeking aggregate judgment of \$648.18 as the amount alleged due on open book accounts for merchandise sold the defendants, have been instituted in Justice H. P. Anderson court at Sacramento, by W. J. Fenn, trustee of the estate of the California Clay Company, a defunct co-partnership. The defendants and the amounts sought from each are: I. M. McKene, \$261.70; J. W. Hoops, \$175.47; W. A. Fennell, \$113.61, and J. E. Coyne, \$97.40.
